LEVEL UP TO THE NEXT JOURNEY

ANNUAL REPORT 2024

The year 2024 is a remarkable year for PT Bank Syariah Indonesia Tbk (BSI). BSI has set its course to "Level Up to the Next Journey" after successfully navigating its first three years with numerous achievements worth celebrating. This level-up initiative is being carried out across various aspects, including enhancing employee competencies and capabilities, as well as improving BSI's financial performance to strengthen its competitiveness in the global market. In 2024, BSI will continue to move forward and transform towards a new era that is more advanced, innovative and in line with the needs of the times. BSI strives to continue to develop, strengthen its position in the market, and become more relevant to technological developments, economic dynamics, and the public's desire for more modern and sustainable banking products.

BSI has carried out digital transformation and innovation in products and services. This bank is committed to providing services that are more efficient and more in line with technological developments. To be able to adapt to global trends and existing challenges, the bank is making innovations in sharia financial products, sustainability, as well as efforts to reach more new customers, especially through digital platforms. The various transformations that the bank has carried out in 2024 have achieved good performance in terms of asset growth, increased profits, as well as wider expansion throughout Indonesia and the global market. Going forward, the bank will be able to strengthen its competitiveness in both the domestic and international sharia banking markets. In this way, BSI is increasingly recognized as a superior sharia bank, which is able to compete with conventional banks and other financial institutions.

Expanding, Accelerating, Sustainable Growth

The year 2023 marks a significant milestone for Bank Syariah Indonesia (BSI). On August 17, 2023, the Bank upgraded its representative office in Dubai, United Arab Emirates, to a full branch office. This change in status will greatly help BSI expand and maximize its global market potential. This strategic policy is projected to help the Bank accomplish its goal of being a “Top 10 Global Islamic Bank”.

The Bank’s expansion extends beyond the improvement of its international operational network and finance disbursement. Acceleration activities continue to be carried out by developing digital services to give clients with the most comprehensive, secure, and convenient services while expanding market access. The Bank continues to ensure the security and confidentiality of data from digital access through the implementation of governance and risk management in information technology.

In order to support these expansion and acceleration operations, BSI created Business Continuity Management (BCM) procedures and reinforced its organizational management. BSI anticipates that the strategic policies and achievements in 2023 will contribute to higher growth in the Bank’s performance.

The many initiatives and innovations implemented have resulted in continuous, balanced, and long-term performance growth for BSI. This is also a positive step in boosting the national economy.

At the same time, as Indonesia’s largest Sharia bank, BSI continues to develop and help MSMEs in progressing to the next level. The Bank is also working to strengthen the “Islamic Ecosystem” in order to become more competitive on a global scale.

2023

2022

Collaboration to Accelerate Growth

The year 2022 marks the first full year of PT Bank Syariah Indonesia Tbk's ("BSI") operations to be conducted comprehensively and integratively, following the establishment of "Operational Day 1" on November 1, 2021. Throughout the year, BSI consistently built synergies between the strengths of three large Islamic banks into one, both in terms of capital, information technology, service infrastructure and a variety of products and services. BSI also moved quickly to collaborate with various elements in Indonesia's Islamic economic ecosystem. These synergy and collaboration steps have proven to be able to drive BSI's performance to a satisfactory level, as the spearhead of Islamic banking in the national banking landscape.

New Energy for Indonesia

PT Bank Syariah Indonesia Tbk (BSI) is just one year old, being formed by the merging of 3 (three) Islamic banks that are members of the Association of State-Owned Banks (Himbara). The establishment of this bank on February 1, 2021 was immediately inaugurated by President Ir. H. Joko Widodo at the State Palace.

BSI has accomplished incredible things at such a young age. The average financial performance increased. The integration of legacy banks' operating functions is also going well. BSI has also opened a representative office in Dubai, the world's financial capital.

All of this is due to the hard work, innovation, and dedication of all BSI employees, as well as the support of stakeholders, who enable the Bank to provide excellent services. On this foundation, we will all strengthen our commitment and renew our passion to make Bank Syariah Indonesia stronger so that it can become New Energy for Indonesia.

Our Best Contribution

First Sustainability Sukuk Issuance in Indonesia

BSI is highly committed to continuing to be involved in climate change mitigation actions and sustainable development through sustainable financing programs and financing. The bank is ready to encourage the transition to a green economy through the implementation of sharia financial instruments that focus on environment, social, governance (ESG). For this reason, BSI issued the first ESG sukuk instrument in Indonesia in the form of the BSI Sustainability Sukuk or Sustainability Sukuk Mudharabah. These sharia securities with assets (business activities) as the basis (underlying sukuk) support finance in the categories of Environmentally Aware Business Activities (KUBL) and Socially Aware Business Activities (KUBS). This instrument will provide different values for investors, providing great economic, social and environmental benefits.

BSI has obtained permission from OJK through OJK regulation No. 18 of 2023 to issue sukuk up to IDR 3 trillion. This Sustainability Sukuk in Rupiah currency is offered in a Sustainable Public Offering (PUB) and is expected to provide a yield range of 6.40% - 7.20% for a period of 1.2 and 3 years. The presence of Sustainability Sukuk is an innovation that can enrich sharia financial instruments in Indonesia. Moreover, this innovation is categorized as an instrument that prioritizes economic sustainability as well as BSI's contribution to mitigating climate change and realising green economic development, while always providing benefits to the people.

BSI saw that the global green bond market had developed rapidly in recent years and saw an opportunity to help develop this new instrument to finance sustainability projects through the issuance of Sustainability Sukuk. BSI will also regulate the management and use of funds, evaluation and selection of projects as well as management of results and reporting mechanisms. BSI as the largest sharia bank pioneered the issuance of sustainability sukuk in Indonesia. Sustainability Sukuk combines environmentally friendly and socially insightful business activities to support the achievement of sustainable development goals while also encouraging the achievement of sustainable financing contribution targets determined nationally.

BYOND by BSI

PT Bank Syariah Indonesia Tbk (BSI) officially launched BYOND by BSI as an answer to the public's need for increasingly complex banking and financial services in the digital era. BYOND by BSI is a SuperApp for comprehensive financial, social and spiritual services that are easier and more convenient to access, with maximum security. BYOND by BSI can fulfill expectations and provide comprehensive solutions to various community needs related to sharia banking services and the Islamic economic ecosystem. Then matters related to Umrah and Hajj services can also be synergized with BSI accessibility in the future.

BYOND by BSI is not just a SuperApp for banking services but also the result of BSI's ongoing transformation in responding to various challenges in the era of digitalization. BSI will always be agile in developing new products in line with digitalization. This transformation is also in line with the new government program that is to encourage digital infrastructure. BYOND by BSI continues to develop according to people's needs by providing convenience, speed, comfort but also focusing on transaction security. "In accordance with the tagline #SemuaJadiMudah, with BYOND by BSI everything is easy, for anyone, anytime and anywhere."

BYOND by BSI is supported by capable IT technology and infrastructure because it includes the development of new technology, improving cyber security and infrastructure. As a super application that goes beyond banking, BYOND comes with better technology. With a user interface (UI) and user experience (UE) that is more sophisticated and fresher, it can continue to meet the needs of more sophisticated customers, which are becoming more dynamic day by day in line with current and future developments.

BYOND is designed to provide a more intuitive and relevant banking experience for the younger generation, especially those who want fast and easy transaction processes. To create innovation, BSI also plays a big role in creating new ways of working by building a Digital Lab. Here, BSI applies agile concepts, allowing teams to work in short cycles to quickly test and refine BYOND features. One of the results, there are five solutions offered by BYOND by BSI, which are also different from BSI Mobile: updating technology, modernizing the appearance of the application (New UI/UX), re-branding, new work methods and ecosystem.

In addition, in designing BYOND, customer security is a top priority. BYOND is built with multiple layers of security to protect customers. First, to activate, customers must enter their PIN and debit card data. Second, BYOND implements a fraud detection system (FDS) which can recognize anomalous transaction patterns. Third, BYOND is equipped with a hardware security module (HSM). This is a high technology used to protect PIN and customer data in a very secure form. BYOND's security process is also very strict. Each feature goes through various tests—grey box, white box, and black box penetration tests—to ensure that there are no chances that can be used by irresponsible parties.

We express our utmost
gratitude to Allah SWT,
for by His grace and
blessings, in 2024 BSI was
able to achieve positive
performance for our
Shareholders and other
Stakeholders.

Hery Gunardi >>
President Director

As a financial institution committed to implementing Sharia principles in every operational activity, BSI continuously strives to contribute optimally to Indonesia's economy while maintaining the integrity and trust of our customers.

On this occasion, please allow us to present various pieces of information regarding the management and performance of the Bank during the 2024 fiscal year. This report covers the Bank's performance results, company prospect analysis, progress in the implementation of corporate governance, performance assessments of the Committees under the Board of Directors, and changes in the composition of the Board of Directors.

Analysis of The Bank's Performance

BSI is one of the largest sharia banks in Indonesia, focusing on providing banking services based on Islamic Sharia principles to meet the financial needs of the Indonesian community. BSI offered a wide range of products and services tailored to the needs and profiles of each customer. These products and services are divided into four categories: individual, corporate, digital banking, and card products. The details are as follows:

1. Individual Products and Services, including Business, Gold, Hajj and Umrah, Investment, Financing (including financing for Micro, Small, and Medium Enterprises), Priority, Savings, and Transaction Services.
2. Corporate Products and Services, including Cash Management, Treasury, Service, Financing, and Deposits.
3. Digital Banking Products and Services, including BSI Mobile, Online Account Opening, Gold Solutions, BSI QRIS, BSI Cardless Withdrawal, BSI Debit Card, BSI Debit OTP, BSI ATM CRM, BSI Aisyah, BSI Net, BSI Merchant Business, BSI API Platform, BSI Smart Agent, BSI Payment Point, Mobile Deposits, and Griya Hasanah Online Top-Up via BSI Mobile.
4. Card Products and Services, including Financing Cards and Debit Cards.

To optimize products and services for customers, the Bank established a business network and operational areas supported by Regional Offices up to Functional Operation Offices. As of December 31, 2024, the Bank had 10 (ten) Regional Offices spread throughout Indonesia. Regional Office 1 covered the Nanggroe Aceh Darussalam area; Regional Office 2 covers North Sumatra, the Riau Islands, and Riau; Regional Office 3 covers South Sumatra, Bengkulu, West Sumatra, Jambi, the Bangka

Belitung Islands, and Lampung; Regional Office 4 covers Banten, DKI Jakarta, Bekasi City, and Bekasi Regency; Regional Office 5 covers Central Jakarta, West Jakarta, South Jakarta, East Jakarta, Tangerang City, Tangerang Regency, South Tangerang City, Bogor City, Bogor Regency, Depok City, and Bekasi City; Regional Office 6 covers West Java; Regional Office 7 covers Central Java and the Special Region of Yogyakarta; Regional Office 8 covers East Java, Bali, West Nusa Tenggara, and East Nusa Tenggara; Regional Office 9 covers West Kalimantan, South Kalimantan, Central Kalimantan, East Kalimantan, and North Kalimantan; and Regional Office 10 covers Gorontalo, Maluku, North Maluku, Papua, Southwest Papua, West Sulawesi, South Sulawesi, Central Sulawesi, Southeast Sulawesi, and North Sulawesi.

The implementation of the Bank's management is reflected in its organizational structure, which is divided into eight Directorates under the President Director and Vice President Director, namely the Directorate of Information Technology, the Directorate of Treasury & International Banking, the Directorate of Wholesale Transaction Banking, the Directorate of Risk Management, the Directorate of Compliance & Human Capital, the Directorate of Finance & Strategy, the Directorate of Retail Banking, and the Directorate of Sales & Distribution. In addition, to support the Bank's operations and decision-making, the President Director is also assisted by several SEVPs, including SEVP Operation, SEVP Information Technology, SEVP Digital Banking, SEVP Wholesale Risk, SEVP Retail & Consumer Risk, SEVP Human Capital, SEVP Corporate Strategy, SEVP Consumer Product Solution, and SEVP Internal Audit, as well as by other management tiers.

In carrying out its operational activities, the Bank employed a total of 17,234 staff. As of December 31, 2024, there were 14 employees holding Doctorate degrees, 1,016 with Postgraduate degrees, 14,603 with Bachelor's degrees, 1,572 with Diploma qualifications, and 29 with a high school education. The Bank consistently provided competency development for its employees through an approach based on experience, engagement, and education. This development was tailored to both the current job levels and future projected positions. Employee competency development at BSI remained one of the main focuses in improving the quality of human resources and in supporting the achievement of the Bank's vision and mission. Such development encompassed not only technical skills but also the understanding and application of Sharia principles in all aspects of operations.

BSI regularly developed its information technology. Following its focus on strengthening and stabilizing information technology in 2023, in 2024 BSI made significant strides in enhancing its digital platforms. This included continuously increasing the number of mobile banking users, adding QRIS merchants and EDC machines, expanding and relocating ATMs and CRMs to strategic locations, improving cash management transaction capabilities through the launch of Bewize, and enhancing public accessibility through BSI Agents. The consistency in digital transformation continued with the launch of the SuperApp BYOND by BSI. BYOND by BSI emerged as a solution to meet all customer needs, carrying the tagline #SEMUA JADI MUDAH (Everything Becomes Easy). The presence of this SuperApp underscored the Bank's commitment to providing comprehensive and integrated financial, social, and spiritual services.

This peak of innovation marked a revolutionary step in expanding sharia banking inclusion in line with the Government's Asta Cita mission and served as a game changer for digital Islamic banking services in Indonesia. BYOND by BSI demonstrated the Bank's strong commitment to remaining adaptive, agile, innovative, and relevant to the times.

With the resources at its disposal, the Board of Directors effectively managed these assets, enabling the Bank to achieve solid performance in 2024. The Board consistently considered global, national, and banking industry economic conditions in developing its business strategies, allowing it to overcome challenges—particularly those related to the economic climate's impact on the Bank's business. Therefore, in presenting an analysis of the Bank's performance, we begin with an overview of the global, national, and banking industry economic conditions.

Macroeconomic Overview

The International Monetary Fund (IMF), in its World Economic Outlook (WEO) published in January 2025, projected global economic growth in 2024 at 3.2% year-on-year (yoy), a slight deceleration compared to the previous year's growth of 3.3% yoy. The slowdown in global economic growth was mainly attributed to the economic recovery in several countries—particularly in the Euro Area and Asia—which fell short of initial expectations.

The United States (US) economy grew solidly, mainly supported by strong domestic demand, in line with easing inflationary pressures. Meanwhile, economic growth in the Euro Area remained subdued despite a downward trend in inflation. Similarly, China's economic recovery was hampered by a prolonged property crisis, despite the implementation of several expansionary policies by the Chinese government. Additionally, Japan experienced a slowdown due to temporary supply disruptions.

Amid rising geopolitical tensions and global economic pressures, Indonesia's economy demonstrated resilience, growing steadily at 5.03% yoy in 2024. This growth was primarily driven by robust domestic demand, despite a contraction in net exports caused by declining commodity prices and a global economic slowdown. Although domestic economic growth was slightly restrained due to weaker external demand—reflected in the contraction of the Manufacturing Purchasing Managers' Index (PMI) from early Q3-2024 through November 2024—consumer confidence and retail sales growth remained strong, aligned with the continued resilience of domestic demand.

In the sharia banking sector, positive growth was observed throughout 2024. To enhance competitiveness and support the development of Islamic banking, the Financial Services Authority (OJK) established five main focus areas for the 2024–2025 period. These include the consolidation of Islamic banks, the formation of the Islamic Finance Development Committee (KPKS), the development of guidelines for product innovation, the strengthening of the role of Islamic banks within the Islamic economic ecosystem, and the enhancement of the contribution of sharia banks to MSME development. To support this strategy, OJK introduced three new product guidelines aimed at broadening and strengthening the Islamic banking product portfolio. These guidelines include: Mudarabah Financing Products, the Implementation of the Shariah Restricted Investment Account (SRIA) using the Mudharabah Muqayyadah contract, and the Implementation of the Cash Waqf Linked Deposit (CWLD). These three guidelines were expected to encourage innovation, enhance competitiveness, and strengthen the position of sharia banking in the national market.

Based on the analysis of the economy and industry, and in consideration of existing challenges, the Bank set a market target of IDR 272.99 trillion for financing and credit disbursement, and IDR 321.27 trillion for third-party funds. In line with these market targets, the Bank targeted fund management income as *Mudharib* of IDR 24.70 trillion in 2024.

To achieve these market targets, the Bank also established the percentage of rewards for fund collection and allocation for 2024 as follows:

Table of Percentage of BSI Fund Allocation per December 32, 2024

Strategy and Strategic Policies

2024 is still a challenging year due to global economic uncertainty and tight monetary policy. Globally, inflation is experiencing a downward trend. However, the inflation rate is falling at a slower pace compared to the target of the Central Banks of developed countries. Meanwhile, BI's benchmark interest rate is expected to be kept high to keep the outflow of fund flow from domestic financial market due to wait-and-see behavior from business players.

Amidst the challenging liquidity condition and as an effort to support business targets as well as the achievement of the medium and long term, BSI has prepared strategic strategies and policies that will be pursued as follows:

1. Sound and Sustainable Business Growth: BSI continues to implement strategies that have proven to add value to its performance, namely by managing financing growth in a healthy and sustainable manner.
2. Optimization of Third-Party Funds and Liquidity Management: BSI is expanding retail funding—particularly savings products—maintaining the concentration of core depositors, and exploring other funding opportunities such as issuing sukuk.
3. Ecosystem Penetration: BSI is accelerating business growth by focusing on penetrating six priority ecosystems, namely household, education, spiritual and charity, government spending, healthcare, and investment, by offering products and services tailored to customer needs.

4. Digital and Transaction Banking: BSI continues to enhance the Bank's digitalization by increasing the number of active mobile banking users, shifting transactions from branches to electronic and digital channels, and digitizing business processes to accelerate service level agreements (SLAs) and increase the Bank's fee-based income.
5. Efficiency and Productivity Improvement: BSI continues to streamline its branch network and enhance employee productivity through staff redeployment.

To support the implementation of the five (5) strategic focus areas mentioned above, BSI also strengthened its fundamental enablers, which included enhancing organizational management, stabilizing and upgrading the core banking system, improving IT cybersecurity, reinforcing network and information security, developing IT operations, establishing partnerships with third parties to meet data security and confidentiality standards, preparing a Business Continuity Management (BCM) framework, and implementing Environmental, Social, Governance, Risk & Compliance (ES-GRC) principles to support the Sustainable Development Goals (SDGs).

The Board of Directors directly led the formulation of the Bank's strategy through various meetings held between the Board and key management. The strategy was outlined in the Bank's Business Plan (RBB) for 2024–2026 and the Corporate Plan, both of which are regularly evaluated by the Board of Directors to ensure the effectiveness of strategy implementation through internal report reviews and coordination meetings with Group Heads.

Performance Target Achievement

Based on the strategies implemented, BSI recorded strong performance in 2024, achieving its targets as planned. A performance analysis is presented below.

Operational and Financial Performance

In 2024, BSI successfully maintained its momentum of positive and sustainable performance growth by recording a net profit of IDR 7.01 trillion, marking a double-digit increase of 22.83% yoy. Not only in terms of net profit, but BSI also recorded double-digit growth in all other financial indicators, including Third-Party Funds, financing, and total assets. A focus on quality financing, digital transformation, and innovation has been the key for BSI to sustain its impressive performance amidst economic challenges.

The year 2024 was a challenging period, with the global economy still overshadowed by uncertainty, tight liquidity, and intense market competition. Despite these conditions, BSI remained focused on being agile and innovative through digital transformation while maintaining quality financing growth. This strong performance was the result of the implementation of its 2024 strategy. First, BSI prioritized improving transaction banking infrastructure by launching BYOND by BSI and increasing the number of ATMs/CRMs, EDC machines, BSI

Agents, and QRIS merchants. Second, the Bank tapped into new business models such as gold-based business, Hajj savings, bancassurance, and treasury business. These strategic moves proved effective, allowing BSI to maintain a consistently strong performance exceeding the banking industry average, supported by solid fundamentals.

With a net profit growth of 22.83% yoy in 2024, BSI ranked among the Top 10 Banks with the highest performance growth. This outstanding profit achievement was driven by effective management of Third-Party Funds (TPF) and sustained, well-targeted financing disbursement.

Amidst intense liquidity competition in the banking sector, BSI recorded a TPF growth of 11.46% to IDR 327.45 trillion. This achievement was supported by low-cost funds (CASA), which accounted for 60.12% of total TPF. Throughout 2024, BSI's CASA reached IDR 197 trillion, an increase of 10.65% yoy. BSI's TPF from savings products amounted to IDR 140.53 trillion, followed by time deposits of IDR 130.58 trillion and current accounts of IDR 56.33 trillion. Effective TPF management contributed positively to the reduction in profit-sharing expenses. This was achieved by leveraging the Islamic ecosystem, a unique advantage held by Islamic banks, particularly through gold and Hajj-related businesses. Additionally, innovations and digital transformation facilitating digital transactions also had a positive impact on TPF mobilization.

BSI's financing disbursement also showed impressive performance, growing above the industry average. In 2024, BSI disbursed financing amounting to IDR 278.48 trillion, reflecting a 15.88% yoy increase. By segment, financing to the wholesale segment reached IDR 77.22 trillion (up 14.38% yoy), followed by retail segment at IDR 49.38 trillion (up 16.86% yoy), and consumer segment at IDR 151.88 trillion (up 16.34% yoy). BSI has a strong demand side and continuously enhances its supply side in terms of products and distribution channels, including not only branches but also electronic channels such as ATMs, mobile banking, and QRIS.

Effective financing management also contributed to improved financing quality. As of the end of 2024, BSI's gross Non-Performing Financing (NPF) ratio improved to 1.90%. The Bank's Cost of Credit (CoC) also improved to 0.83% in 2024. Additionally, the Bank recorded an attractive return ratio, with Return on Equity (ROE) at 17.77%. BSI closed the year with asset growth of 15.55%, reaching IDR 408.61 trillion. The Bank's Return on Assets (ROA) in 2024 stood at 2.49%.

The Bank's innovative initiatives to unlock broader business opportunities and its digital transformation had a significant impact on its ability to sustain performance growth. In 2024, BSI recorded commission-based income (Fee-Based Income/FBI) of IDR 5.51 trillion, a significant increase of 32.58% yoy. The Bank's Fee-Based Ratio (FBR) improved to 17.95% from the previous period.

In 2024, BSI also successfully navigated challenges by leveraging the Islamic ecosystem, which is exclusive to sharia banks. BSI tapped into gold and Hajj-related businesses—its unique products and golden opportunities. The Bank opened new growth avenues through gold-related businesses such as gold pawn and gold installment schemes, which positively contributed to its financing performance. As of December 2024, BSI's gold business reached IDR 12.82 trillion, growing 78.18% yoy. This was driven by the gold installment product, which surged 177.42% yoy to IDR 6.40 trillion, and gold pawning, which rose 31.33% yoy to IDR 6.42 trillion. The customer base in this segment also expanded, with gold pawning customers growing 11% yoy and gold installment customers rising 81% yoy.

BSI also continued to drive the growth of Hajj savings through its digital platform. In the Hajj business line, the Bank recorded an increase in the number of Hajj savings customers to 5.6 million by the end of 2024. In line with this growth, the balance of Hajj savings also increased to IDR 14.5 trillion by year-end.

These two business opportunities enabled BSI to balance growth in funding, financing, and e-channel transactions through its SuperApp, BYOND by BSI, which was officially launched in November 2024. The synergy between the Islamic ecosystem and digital transaction innovation positively impacted FBI growth. The launch of BYOND by BSI facilitated customer shifting and boosted digital transactions. In 2024, BSI recorded 851.5 million e-channel transactions, with approximately 98.03% of customer transactions conducted via e-channels. The number of BYOND by BSI users has reached 2 million, with a total of 16 million transactions.

Comparison Between Targets and Achieved Results

Overall, BSI has met the expectations of its stakeholders. The targets set for 2024 have been realized. BSI's net profit for 2024 amounted to IDR 7.00 trillion, surpassing the RKAP/RBB target with a realization rate of 115.23%. The achievement of net profit also drove the realization of the Bank's total assets target. As of year-end 2024, BSI's total assets reached IDR 408.61 trillion, exceeding the RKAP/RBB target with a realization rate of 107.99%. Total financing disbursed by BSI in 2024 reached IDR 278.49 trillion, surpassing the RKAP/RBB target with a realization rate of 102.01%. Third-Party Funds collected by BSI in 2024 amounted to IDR 327.45 trillion, achieving 101.92% of the RKAP/RBB target.

Obstacles Faced by Banks

The Bank faced various challenges during the reporting year. These challenges included suboptimal employee and outlet productivity. To address these issues, the Bank implemented a strategy to restructure its network, particularly by consolidating overlapping branch offices, ensuring more even location coverage, and evaluating underperforming branches. To enhance

employee productivity, BSI carried out staff redeployment from support/service/operation units to business units, along with upskilling and reskilling programs.

Another challenge was the low level of sharia financial literacy. To overcome this, the Bank actively participated in regulatory events held by Bank Indonesia (BI) and the Financial Services Authority (OJK) to introduce sharia financial services to the public. In addition, BSI held large-scale signature events such as the BSI International Expo, which supported the development of the Islamic Ecosystem. These events served as platforms for education and collaboration, offering workshops, Islamic financial product exhibitions, and talk shows with experts. To support MSME empowerment, BSI launched programs such as Talenta Wirausaha BSI and Aceh Muslim Preneur. Through these initiatives, BSI played an active role in building an inclusive sharia economic ecosystem while supporting the growth of MSMEs as a key pillar of Indonesia's economy.

Future Estimates and Business Prospects

The global economy is projected to continue improving with growth estimated at around 3.3% in 2025, although several risks remain to be closely monitored. These include the sluggish recovery of China's economy and the escalating geopolitical tensions amidst uncertainties surrounding the United States presidential transition, which could potentially dampen global economic growth.

In this context, Indonesia's economy in 2025 is expected to grow slightly higher than the previous year, ranging between 4.8% and 5.6%, driven by strong domestic demand. Moving forward, the country's economic growth is expected to remain solid, supported by both domestic consumption and improving external demand in line with the global economic recovery. Nevertheless, risks related to a slower global recovery and heightened geopolitical tensions may hinder the recovery of Indonesia's external sector performance.

From a banking perspective, anticipated interest rate cuts are expected to improve market liquidity, thereby supporting banking intermediation. The BI rate influences the adjustment of the Basic Lending Rate (SBDK), potentially driving credit growth to reach between 11% and 13% in 2025. Meanwhile, third-party funds (TPF) are projected to grow by approximately 10% in 2025, in line with the potential monetary easing by Bank Indonesia. However, a lower BI rate could lead to a shift in funds to other financial instruments, which may constrain TPF growth.

In 2025, Bank Indonesia will implement pro-growth policies to maintain national economic growth supported by consumption, investment, and exports.

Given the global and national economic conditions, as well as the development of the banking industry, particularly sharia banking, BSI is well-positioned to seize several opportunities, including:

1. A strong public preference for sharia banking has driven positive growth, especially within the halal industry sector. This considerable potential is supported by Indonesia's status as the country with the largest Muslim population in the world, along with synergy among various stakeholders in the sharia economy, which contributes to the development of the sharia ecosystem.
2. Indonesia holds strong potential to develop its halal industry in sectors such as food and beverages, fashion, pharmaceuticals, cosmetics, and tourism. In support of empowering the national halal industry, BSI will offer comprehensive product and service solutions, including financing, funding, and transactional banking products.
3. BSI is the largest sharia bank in terms of assets, third-party funds, and financing. This provides an opportunity for BSI to increase penetration of sharia banking products.
4. Government support for the sharia finance sector presents significant growth opportunities for BSI. The government is actively promoting the acceleration of halal industry development, sharia-based MSMEs, and improved sharia financial literacy.
5. BSI has the potential to increase the market share of sharia banking within the national banking industry by serving all segments of society and providing financial, social, and spiritual solutions.
6. BSI will continue to strengthen its synergy with the Parent Bank Business Group to further enhance the Bank's operational capabilities and expand its offering of sharia-based products and services to the public.

By taking advantage of these opportunities, the Bank is optimistic that it will have good prospects in the future.

Corporate Governance

As a sharia bank, BSI is obligated to implement Sharia Principles in conducting its business activities. The application of these principles is based on fatwas and/or statements of Sharia compliance issued by the National Sharia Council of the Indonesian Ulema Council (DSN-MUI). To ensure adherence to Sharia Principles, the Bank implemented Sharia Governance, which covers the duties and responsibilities of the Sharia Supervisory Board (SSB), the application of Sharia compliance functions, Sharia risk management functions, Sharia internal audit functions, and external reviews of Sharia governance.

To ensure the implementation of Sharia governance, BSI conducted a self-assessment of Good Corporate Governance (GCG) practices, referring to the OJK Circular Letter. The assessment covered three aspects of governance: governance structure, governance process, and governance outcome. These included, among others, the execution of duties and responsibilities by the sharia Supervisory

Board and the implementation of Sharia principles in fundraising, financing, and service activities.

The self-assessment was conducted regularly every semester, in June and December. The results of the June 2024 and December 2024 assessments were at level 2 (two), indicating that the Bank's Management had generally applied good governance practices. Based on the assessment results, the Bank undertook improvements by addressing several weaknesses recommended in the assessment findings.

To continuously improve governance implementation, the Bank consistently applied the GCG TARIF principles: Transparency, Accountability, Responsibility, Independence, and Fairness. In terms of transparency, BSI ensured that all Bank management processes were clearly accessible to stakeholders including customers, investors, regulators, and the general public. Transparency at BSI also aimed to build public trust and reinforce the Bank's integrity as a financial institution operating under sharia principles. BSI routinely prepared and published financial statements that were clear, accurate, and in accordance with applicable accounting standards. The Bank also published an Annual Report containing comprehensive information on financial performance, strategic achievements, and operational activities. This report also included information on risk management, social responsibility, and sharia compliance. In addition, BSI published a Sustainability Report that demonstrated its commitment to sustainable business practices, including initiatives supporting social and environmental aspects.

As a sharia financial institution, transparency of the products and services offered by BSI is crucial to ensure that customers can make informed decisions. Every product and service offered by BSI is explained in detail, covering terms and conditions, benefits, fees, risks, and usage procedures. This helps customers fully understand what they are receiving and how the product operates in accordance with sharia principles. BSI also conducted educational initiatives to enhance customer understanding of sharia products, enabling them to make wiser decisions regarding the use of banking services.

BSI provided broad and open access for stakeholders to obtain relevant information regarding the Bank's performance, policies, and activities. The Bank maintained an accessible website containing various information on products, services, policies, annual reports, sustainability reports, and other important announcements. In addition to the website, BSI also utilized various communication channels such as social media and email to disseminate information to customers and the public in an open and timely manner.

Regarding Accountability, all Bank organs carried out their duties and responsibilities effectively. In 2024, the Board of Directors performed various duties, including conducting the Annual General Meeting of Shareholders (AGMS), preparing the Bank's Long-Term Plan (RJPP), the Bank Business Plan (RBB), the Corporate Work Plan and Budget (RKAP), the Sustainable

Finance Action Plan (RAKB), and other work plans. The Board also prepared the Annual Report, Financial Statements, and the Sustainability Report, ensured the Bank's accounting system complied with financial accounting standards and internal control principles, held internal and inter-departmental meetings, ensured adequate systems and processes for identifying, assessing, and managing the Bank's risks, and established clear organizational structures, tasks, and responsibilities, including management appointments.

Throughout 2024, the Board of Commissioners also carried out its supervisory duties regarding the Bank's management policies and operations, in line with prevailing laws and regulations, the Bank's Articles of Association, and the Work Plan set at the beginning of the year. The Board's oversight included the Bank Business Plan (RBB), review of Financial Information, internal control at BSI, Bank Soundness Level, Risk Management Unit, compliance implementation, information technology, and human resource development. The Board of Commissioners also provided approvals for matters requiring their consent and conducted supervisory visit.

During 2024, the Sharia Supervisory Board (SSB) provided advice and recommendations through various channels to ensure the application of Sharia principles in capital market activities. Guidance was provided through regular meetings and discussions with the Bank's management or relevant institutions to address operational issues and ensure Sharia compliance. Additionally, the SSB issued written reports detailing the results of audits and supervision, including recommendations or corrective actions when necessary.

The accountability of corporate organs was reflected in various performance achievements, both operational and financial. From a sharia compliance perspective, the Bank ensured that all products and services complied with the fatwas issued by the National Sharia Council (DSN) and the opinions of the Sharia Supervisory Board (SSB).

In relation to Responsibility (Accountability), BSI has ensured compliance with prevailing laws and regulations and the principles of sharia in every operational activity, as well as implementing its corporate social responsibility. As a sharia bank, the fundamental basis for implementing sharia principles in all of BSI's activities is the Qur'an and Hadith. These sharia principles are implemented by BSI through good corporate governance, in accordance with and guided by various provisions and laws of the Republic of Indonesia governing BSI as a limited liability company, a bank, and/or a publicly listed company. Furthermore, the Bank adopts a range of best governance standards at both national and international levels and expands the scope of its GCG implementation, including the following:

1. The Corporate Governance principles developed by the Organization for Economic Cooperation and Development (OECD).

2. The ASEAN Corporate Governance (CG) Scorecard issued by the ASEAN Capital Market Forum (ACMF).
3. The General Guidelines for Indonesian Corporate Governance (PUGKI) developed by the National Committee on Governance Policy (KNKG).
4. The Principles for Enhancing Corporate Governance issued by the Basel Committee on Banking Supervision.

With regard to Independence, BSI maintains independence in decision-making, free from conflicts of interest and unlawful external influences, to ensure objectivity and integrity in the Bank's operations. BSI optimizes the complementary functions of each governance organ to create an effective control environment and support the integrity of information used for reporting and decision-making. This in turn strengthens the three lines of defense model, to achieve sound and sustainable growth and to accomplish BSI's objectives without neglecting stakeholders' interests.

With regard to Fairness (Equity/Equality), BSI treats all stakeholders fairly and equally, without discrimination, and respects their rights in accordance with applicable agreements and regulations. BSI ensures that all stakeholders, both internal and external, are treated fairly, transparently, and without discrimination through the following aspects:

1. Equality of Rights for Stakeholders
BSI ensures that the rights of all shareholders, customers, business partners, employees, and the public are respected in accordance with applicable regulations, and that each party receives clear and accurate information without preferential or discriminatory treatment.
2. Fairness in Decision-Making
All policies and decisions made by BSI are based on the principle of fairness and do not unduly favor any particular party. In resolving disputes or conflicts, BSI applies the principle of fairness by providing equal opportunities for all parties to express their views.
3. Equality in Employment Opportunities
BSI applies a transparent and fair system for recruitment, promotion, and career development, without discrimination based on ethnicity, religion, race, gender, or other backgrounds. All employees are given equal opportunities to develop their competencies and advance their careers based on performance and capabilities.
4. Transparency and Customer Protection
BSI provides clear information about its products and services, including risks, benefits, and applicable terms, to enable customers to make well-informed financial decisions. The Bank also guarantees the protection of customer data and rights in accordance with prevailing regulations.

By applying the principle of Fairness, BSI strives to create a fair and conducive environment for all stakeholders and to maintain public trust in the sharia banking system.

As part of evaluating the implementation of the TARIF principles, in 2024 the Bank also participated in the Corporate Governance Perception Index (CGPI) assessment held by The Indonesian Institute for Corporate Governance (IICG). The 2024 CGPI results awarded BSI a score of 91.80 with the predicate of "Highly Trusted," reflecting that BSI's corporate organs and all members of the Bank have demonstrated strong commitment and consistency in implementing the principles and systems of Good Corporate Governance (GCG).

Assessment of Committees Under The Board of Directors

In carrying out their respective duties and responsibilities, the Board of Directors is supported by seven (7) Committees under the Board of Directors, consisting of:

1. Risk Management Committee
2. IT Steering Committee
3. Policy & Procedure Committee
4. Business Committee
5. Human Capital Committee
6. Asset and Liability Committee
7. Crisis Management – Business Continuity Management Steering Committee

The performance evaluation of the Committees under the Board of Directors is conducted annually based on the execution of their duties and the meetings held by each committee throughout the financial year. Based on the assessment conducted by the Board of Directors, all Committees under the Board of Directors carried out their duties and responsibilities properly throughout 2024.

Changes in the Composition of The Board of Directors

During 2024, there were changes in the composition of the Board of Directors. Changes in the composition of the Board of Directors were made based on the Bank's needs. The changes in the composition of the Board of Directors are as follows:

President Commissioner
concurrently Independent
Commissioner

BSI recorded solid and sustainable growth, driven by continuous innovation in products and services that have expanded financial inclusion and generated a positive impact on Indonesia's economy. BSI has consistently upheld sharia principles, offering fair and transparent financial solutions with wide-reaching social benefits.

We hereby present the Board of Commissioners' supervisory report and advisory activities with respect to the management of the Bank for the 2024 fiscal year. This report includes our assessment of the Board of Directors' performance in 2024, our perspective on the business outlook as formulated by the Board of Directors, the implementation of good corporate governance, evaluation of committees under the Board of Commissioners, and changes in the composition of the Board of Commissioners.

Assessment of The Board of Directors' Performance

The Board of Commissioners has continuously performed its supervisory and advisory functions to the Board of Directors. The purpose of our advisory role is to ensure that the policies and decisions made by the Board of Directors align with the interests of the Bank. Advice from the Board of Commissioners is provided through Board of Commissioners and Directors Meetings, Joint Meetings between the Board of Commissioners, Board of Directors, and the Sharia Supervisory Board, as well as meetings with Bank management and relevant committees. Throughout 2024, the Board of Commissioners convened 12 Board of Commissioners and Directors Meetings and held 3 (three) Joint Meetings with the Board of Directors and the Sharia Supervisory Board.

In carrying out its oversight and advisory functions, the Board of Commissioners was actively involved in the formulation of the Bank's strategy and supervision of its implementation. Oversight of the Bank's strategy formulation was conducted by reviewing and providing direction on the preparation of the Bank's Business Plan (RBB) for 2024–2026 and the Corporate Plan. The Board of Commissioners also supervised and advised on the implementation of the Bank's strategy through Joint Meetings with the Board of Directors. The Board of Commissioners directed, monitored, and evaluated the execution of the Bank's strategic policies, including assessments of the RBB, Corporate Plan, and monthly financial performance in 2024. The Board of Commissioners supervised efforts to achieve the Bank's business targets, particularly in key areas such as financing distribution, asset quality improvement, third-party funds collection, productivity, and operational efficiency.

View on The Performance of The Board of Directors

In evaluating the performance of the Board of Directors, the Board of Commissioners considered several aspects as the basis of its assessment. These include macroeconomic conditions and performance achievements in terms of operational and financial performance, as well as the overall soundness of the Bank. The assessment of the Board of Directors' performance is presented below.

Global economic growth in 2024 was estimated at 3.2%, slightly lower than the previous year. Despite easing inflation, uncertainty remained high due to ongoing trade tensions and geopolitical factors. The escalation of the Israel–Palestine conflict into broader regional tensions in the Middle East further weighed on global economic growth. As an oil-producing region, the conflict led to volatility in commodity markets, particularly crude oil. In response, Brent crude prices surged in October 2024 due to geopolitical sentiment-driven shocks. Nevertheless, overall commodity prices declined throughout the year, supported by adequate supply amid relatively restrained demand. The easing of supply disruptions, especially due to the declining intensity of the Russia–Ukraine conflict, also contributed to commodity price stability.

Domestically, the Indonesian economy demonstrated resilience, maintaining stability and a positive growth trajectory. Indonesia's economy grew steadily at 5.03% yoy in 2024, mainly driven by strong domestic demand amidst declining net exports, following a drop in commodity prices and slowing global growth. Stable and controlled inflation throughout 2024 supported consumer purchasing power. The decline in inflation was largely attributed to the easing of El Niño impacts, which ensured adequate food supply. In addition, adjustments in fuel prices aligned with declining global oil prices, and policies to lower air and rail ticket prices, also contributed to disinflation. Meanwhile, rising global gold prices led to higher domestic prices for gold and jewelry, thereby increasing core inflation.

In the sharia banking industry, sharia banking recorded positive growth throughout 2024. Total sharia banking assets reached IDR 980.29 trillion, growing 9.89% yoy, with a market share of 7.72% as of December 2024. Sharia financing rose by 9.92% yoy to IDR 643.55 trillion, while third-party funds (TPF) increased by 10.09% yoy to IDR 753.6 trillion.

Liquidity in the sharia banking sector remained adequate, as reflected in the Liquid Assets/Non-Core Deposit (AL/NCD) ratio of 154.52% and the Liquid Assets/Third Party Funds (AL/DPK) ratio of 32.09%, both well above the regulatory minimum. The Capital Adequacy Ratio (CAR) stood at 25.4%. Profitability was maintained, with a Return on Assets (ROA) of 2.04%. Financing risk remained under control, with a gross Non-Performing Financing (NPF) ratio of 2.12% and a net NPF of 0.79%. The sector also continued to adapt through strategic policies aimed at strengthening the sharia financial ecosystem.

Amid these economic conditions, the Board of Commissioners views that the Board of Directors has demonstrated strong leadership in navigating both challenges and opportunities, resulting in solid performance in 2024. This is reflected in the Bank's operational and financial achievements. From an operational perspective, Commercial Banking financing reached IDR 18.50 trillion in 2024, a 42.63% increase from IDR 12.97 trillion in 2023. Commercial Banking funding also rose by 71.86% from IDR 6.99 trillion in 2023 to IDR 12.01 trillion in 2024. Institutional Banking funding reached IDR 89.46 trillion in 2024, up 12.14% from IDR 79.77 trillion in 2023. Retail segment financing stood at IDR 201.26 trillion, an increase of 16.47% compared to IDR 172.81 trillion in 2023. Likewise, Retail segment funding grew by 10.59% from IDR 185.57 trillion in 2023 to IDR 205.23 trillion in 2024. Funding in the Treasury Banking and Head Office segments reached IDR 26.60 trillion, up IDR 12.10 trillion from IDR 14.51 trillion in 2023.

In terms of financial performance, fund management income as *mudharib* amounted to IDR 25.30 trillion in 2024, up 13.69% from IDR 22.25 trillion in 2023. The Bank's share in profit from fund management increased by 7.08% from IDR 16.26 trillion in 2023 to IDR 17.41 trillion in 2024. Net profit in 2024 reached IDR 7.01 trillion, a 22.83% increase from IDR 5.70 trillion in 2023. Total assets amounted to IDR 408.61 trillion, up 15.55% from IDR 353.62 trillion in 2023. Equity rose by 16.27% from IDR 38.74 trillion in 2023 to IDR 45.04 trillion in 2024.

In addition to operational and financial performance, the Bank's soundness level also served as a key consideration in the Board of Commissioners' evaluation. Bank soundness was assessed based on OJK Regulation Number 08/POJK.03/2014 dated June 11, 2014 concerning the Rating of Soundness Level for Sharia Commercial Banks and Sharia Business Units, using a Risk-Based Bank Rating (RBRR) approach. Based on this approach, BSI was assigned Composite Rating 2 (PK-2), indicating that the Bank is generally in sound condition and deemed capable of withstanding significant negative effects from changes in business conditions and external factors.

View on Business Prospects Prepared by The Board of Directors

Despite several global challenges such as geopolitical tensions and climate change, global economic growth is projected to remain stable at around 3% to 3.5% in 2025. Risks such as the stalled economic recovery in China and escalating geopolitical tensions amid the uncertainty of the U.S. leadership transition must continue to be closely monitored as they could potentially hamper global economic growth.

Amid these global economic conditions, Indonesia's economy is projected to continue experiencing stable growth in 2025, with Gross Domestic Product (GDP) growth forecasted at approximately 5% to 5.5%. As commodity prices continue to normalize, inflation in general, including domestic inflation,

is on a downward trend. Looking ahead, inflation is expected to remain within the target range of 2.5±1% and maintain its declining trend. This low and controlled inflation also supports consumer purchasing power, thereby boosting economic growth. Nevertheless, several risks—especially those related to the impact of escalating geopolitical tensions such as rising commodity prices (including oil), climate-related risks, and imported inflation stemming from rising global commodity prices and potential Rupiah depreciation—must continue to be addressed and monitored.

In 2025, the sharia banking sector in Indonesia is expected to experience significant development. Several key factors influencing the economic conditions from the sharia banking perspective include market dynamics, government policies, and global trends supporting the growth of the sector. The expected decrease in interest rates may enhance market liquidity, which in turn will support banking intermediation. The BI rate (Bank Indonesia rate) affects the adjustment of banks' Base Lending Rate (SBDK), which could potentially drive credit growth to a range of 11%–13% in 2025. Meanwhile, third-party funds (TPF) are projected to grow at around 10% in 2025, in line with the potential monetary policy easing by Bank Indonesia during the year.

In 2025, Bank Indonesia will implement pro-growth policies focused on the development of the sharia economy and finance. The growth of the sharia economy is expected to continue its positive trend, with projected growth of around 4.8% to 5.6%.

After considering the economic conditions, the Board of Commissioners is of the view that the business prospects prepared by the Board of Directors are appropriate. The Board of Commissioners believes that BSI will be able to capitalize on existing opportunities, including the strong public and customer preference for sharia, BSI's strong positioning in the sharia banking industry, government support for sharia finance, the significant potential for increasing the sharia market share in the national banking industry, and synergies with the Parent Bank.

View on the Implementation of Bank Governance

The implementation of Good Corporate Governance (GCG) is one of the key factors in maintaining long-term sustainability and success of a company. Therefore, BSI is committed to applying GCG in its operations, as good governance not only supports the achievement of short-term goals, but also ensures the Bank operates with a high standard of transparency, accountability, and integrity. The Board of Commissioners consistently carries out its supervisory function to ensure that the management of the Bank by the Board of Directors complies with prevailing laws and regulations, and provides necessary advice or opinions regarding any strategic actions or activities aimed at achieving the Bank's objectives. The Board of Commissioners is of the view that the implementation of GCG within the Bank has

been carried out properly. This is evident through the following components.

Compliance with Sharia Principles

BSI remains committed to implementing Sharia Principles in conducting its business activities. To ensure compliance with Sharia Principles, the Bank has implemented Sharia Governance, which includes the execution of duties and responsibilities of the Sharia Supervisory Board (SSB), implementation of the sharia compliance function, sharia risk management function, sharia internal audit function, and external review of sharia governance. The Board of Commissioners continues to coordinate with the Board of Directors and the Sharia Supervisory Board to ensure that the Bank's business activities comply with sharia principles.

Risk Management

Alongside external dynamics and the continued development of BSI's products and services, the implementation of risk management becomes increasingly important. This not only reflects a commitment to regulatory compliance, but also management's prudence in operating the Bank. The goal is for BSI's performance to continue growing sustainably, supported by adequate risk management implementation. Through proper risk management, the Bank and its affiliated entities are expected to be protected from the impacts of changes in the business environment that may result in losses. In addition, risk management implementation is also expected to create added value for all of the Bank's stakeholders. In accordance with regulations, the Bank's risk management consists of a series of methodologies and procedures used to identify, measure, monitor, and control risks arising from all of the Bank's business activities. BSI routinely evaluates the effectiveness of its risk management framework and conducts internal dissemination to instill a strong risk culture across the organization.

Based on the results of reviews and discussions with Management, the Risk Oversight Committee, the Audit Committee, Internal Audit, External Auditor, and several related Units, the Board of Directors and the Board of Commissioners concluded that risk management was adequately implemented in 2024.

Internal Control System

The Internal Control System consists of eight interrelated components that are effectively implemented at all organizational levels within BSI to ensure the achievement of the Bank's objectives. This system is an expansion of the five core elements of the Internal Control System as regulated by the authorities through OJK Regulation No. 35/SEOJK.03/2017 concerning Guidelines for the Standard Internal Control System for Commercial Banks.

At BSI, the Internal Control System is established in the form of the Internal Control System Policy, which refers to the 2008 COSO Model developed by the Committee of Sponsoring

Organizations of the Treadway Commission (COSO). The COSO model includes the following components: Internal Environment, Objective Setting, Event Identification, Risk Assessment, Risk Response, Control Activities, Information & Communication, and Monitoring.

The Board of Directors is responsible for the implementation of a reliable and effective Internal Control System and is also obliged to strengthen an effective risk-awareness culture and ensure that it is embedded at every level of the organization. Internal Audit is responsible for evaluating and actively enhancing the effectiveness of the Internal Control System continuously in relation to the Bank's operational activities in achieving the company's targets. Internal Audit conducts periodic and incidental audits on all activities within work units. The evaluation results of the Internal Control System are submitted to the Board of Directors and the Board of Commissioners for further action and effective monitoring. Based on the 2024 evaluation of the Bank's Internal Control System, the Board of Directors and the Board of Commissioners declared that the system had been adequately implemented.

Whistleblowing System

The Whistleblowing System (WBS) is a reporting mechanism that enables all parties to participate in the prevention and early detection of irregularities within the Bank. BSI is fully committed to providing support and protection to every whistleblower, ensuring the confidentiality of their identity, as well as the investigation and disclosure of reported cases. Follow-up actions are carried out once the Bank verifies that the report is accurate and supported by sufficient evidence.

The unit or function responsible for managing the WBS reports directly to the President Director or a Director appointed by the President Director, and maintains direct communication and reporting lines to the Board of Commissioners. In implementing the Whistleblowing System (WBS), the Board of Commissioners plays a role in reviewing the results of special audit reports based on WBS submissions.

The Bank also conducts awareness campaigns regarding the whistleblowing reporting channels and Anti-Gratification policies for all employees through desktop notifications, the Bank's website, training activities, sharing sessions, weekly Taujih sessions, and through information provided to customers, partners, and the public. The Board of Commissioners believes that the management of the Whistleblowing System at the Bank has been running well, as evidenced by the handling and follow-up of the reports received. In 2024, the Bank received 60 whistleblowing reports. Of these, 20 have been followed up, 3 are in progress, 3 have not yet been followed up, and 34 were deemed unqualified for follow-up. Of the reports that were followed up, 19 were proven and have been sanctioned in accordance with the Bank's regulations.

Sustainability Governance

As a sharia bank, BSI also bears the responsibility of protecting the environment and providing social benefits for future generations. This is in line with the principles of Maqashid Sharia, which include Hifdz Ad-Din (protection of religion), Hifdz An-Nafs (protection of life), Hifdz Al-Aql (protection of intellect), Hifdz Al-Mal (protection of wealth), Hifdz An-Nasb (protection of progeny), and Hifdz Al-Bi'ah (protection of the environment).

As part of BSI's commitment to implementing sustainability practices aligned with Maqashid Sharia, the Bank has established a sustainability governance structure (ESG Governance Structure) outlined in the ESG Guiding Principle. The implementation of ESG is overseen by the Board of Commissioners, the Board of Directors, and the Sharia Supervisory Board, who actively monitor the implementation of sustainable finance. Their oversight includes the preparation of the Sustainable Finance Action Plan, the development of the Sustainability Report, and the determination of sustainability strategies.

BSI has strengthened its sustainability governance structure by forming an ESG Working Group under the supervision of the Vice President Director, as stipulated in the Board of Directors Decree No. 03/219-KEP/DIR dated June 6, 2024, regarding the Establishment of the ESG Group and the appointment of the Data Protection Officer (DPO) under the supervision of the Director of Compliance & Human Capital. Additionally, an ESG Sub-Committee has been established under the Risk Management Committee. Governance enhancement has also been supported by the development and issuance of Standard Operating Procedures (SOPs) for sustainable finance, as well as the publication of the ESG Guiding Principle. BSI has also developed a sustainable finance framework based on the Bank's sustainability vision: "The Best Global Islamic Bank Based on Implementation of Sustainable Finance." This framework is built upon three strategic pillars: Sustainable Banking, Sustainable Operations, and Sustainable beyond Banking.

Under the Sustainable Banking pillar, BSI is committed to becoming a leader in sustainable product innovation. For Sustainable Operations, the Bank is committed to achieving net-zero emissions in operations by 2033. Under the Sustainable Beyond Banking pillar, BSI aims to become a leader in the ZISWAF ecosystem to generate social impact and contribute to the achievement of the SDGs.

Performance Assessment of Committees Under The Board of Commissioners

The Board of Commissioners ensures that the Committees under its supervision—namely the Audit Committee, Risk Monitoring Committee, and Nomination and Remuneration Committee—have performed their duties and functions effectively and

in accordance with applicable regulations. The performance evaluation of the Committees under the Board of Commissioners is conducted annually by the Board of Commissioners.

The Audit Committee is tasked with assisting the Board of Commissioners in supervising the Bank, particularly in overseeing matters related to financial information, the Internal Control System, and the effectiveness of examinations carried out by internal and external auditors. Throughout 2024, the Audit Committee fulfilled its duties and responsibilities effectively.

The Nomination and Remuneration Committee is responsible for assisting the Board of Commissioners in matters related to the nomination and remuneration of members of the Board of Directors and the Board of Commissioners. Throughout 2024, the Nomination and Remuneration Committee fulfilled its duties and responsibilities effectively.

The Risk Monitoring Committee is responsible for overseeing and providing advice to the Board of Directors regarding the Bank's risk management. Throughout 2024, the Risk Monitoring Committee fulfilled its duties and responsibilities effectively.

Report of The Sharia Supervisory Board

*Assalamu'alaikum
warahmatullahi
wabarakatuh*

Dear Esteemed
Stakeholders and
Shareholders,

Alhamdulillah, all praise
and gratitude be to Allah
SWT for His blessings and
mercy upon us all.

Prof. Dr. KH. >>
Hasanudin, M.Ag
Chairman of the Sharia
Supervisory Board

The year 2024 was a period filled with both challenges and opportunities for BSI as it continues its journey as the largest Islamic bank in Indonesia. As a financial institution based on sharia principles, we remain committed to maintaining rigorous oversight of all products and services offered by the Bank to ensure continued compliance with applicable sharia regulations.

In accordance with prevailing regulations, the Sharia Supervisory Board (SSB) is responsible for ensuring that all products, services, and activities of BSI comply with Sharia principles, which prioritize justice, transparency, and the welfare of the ummah. In carrying out our duties and functions, the Sharia Supervisory Board consistently collaborates with the Board of Directors and Management to provide guidance and oversee the implementation of established Sharia policies.

Implementation of Sharia Supervisory Board Activities in 2024

In 2024, the Sharia Supervisory Board carried out the following activities:

1. Conduct of Meetings

The Sharia Supervisory Board is required to hold Sharia Supervisory Board Meetings at least once a month. Decisions of the Sharia Supervisory Board are made based on deliberation and consensus. All decisions and outcomes of the Sharia Supervisory Board meetings must be documented in meeting minutes, which represent the collective decisions of all The Sharia Supervisory Board members. The minutes of the Sharia Supervisory Board meetings must be properly documented by the Bank. Throughout 2024, the Sharia Supervisory Board has held a total of 27 (twenty-seven) meetings.

2. Frequency and Method of Providing Advice and Suggestions as well as Monitoring Sharia Compliance

The Sharia Supervisory Board provides advice and recommendations through various means or channels to ensure that BSI's internal regulations comply with Sharia principles. This advisory role is carried out through regular meetings and discussions with BSI management regarding business and operational activities. In addition to issuing Meeting Minutes or the Sharia Supervisory Board Opinions related to BSI's business and operations, the Sharia Supervisory Board also produces written reports detailing the results of Sharia audits and supervision, including any necessary recommendations or corrective actions. Throughout 2024, the Sharia Supervisory Board issued a total of 54 (fifty-four) Meeting Minutes or DPS Opinions.

3. Report on the Sharia Supervisory Board's Oversight Activities

During the 2024 period, the Sharia Supervisory Board submitted its Oversight Reports in a timely manner. These reports covered matters related to the policies and governance carried out by the Board of Directors in the implementation of Sharia principles, advice and opinions provided by the Sharia Supervisory Board to the Board of Directors, statements regarding Sharia compliance to the committees supporting the duties of the Board of Commissioners, as well as other the Sharia Supervisory Board programs.

Performance Assessment of Sharia Supervisory Board

The performance assessment of the Sharia Supervisory Board (SSB) is conducted through a self-assessment mechanism, carried out periodically every semester and submitted to the Financial Services Authority (OJK) for approval. The submission of the Sharia Supervisory Board's Supervisory Report is conducted on a semi-annual basis to the OJK's Sharia Banking Department and the National Sharia Council of the Indonesian Ulema Council (DSN-MUI). Throughout 2024, the Sharia Supervisory Board performed its duties and responsibilities properly.

Syariah Changes in the Composition of The Sharia Supervisory Board

In 2024, there were changes in the composition of the Sharia Supervisory Board members. These changes were made based on the Bank's needs. The changes are detailed as follows:

COMPOSITION OF THE SHARIA SUPERVISORY BOARD BEFORE THE 2024 ANNUAL GMS

The composition of the Sharia Supervisory Board prior to the Annual General Meeting of Shareholders on May 17, 2024 consisted of 4 (four) members: 1 (one) Chairman and 3 (three) members, as follows:

Prof. Dr. KH. Hasanudin, M.Ag	: Chairman of the Sharia Supervisory Board
DR. H. Mohamad Hidayat, MBA, M.H	: Member of the Sharia Supervisory Board
Dr. H. Oni Sahroni, MA	: Member of the Sharia Supervisory Board
Prof. Dr. K.H. Didin Hafidhuddin, M.Sc	: Member of the Sharia Supervisory Board

**COMPOSITION OF THE SHARIA SUPERVISORY BOARD
AFTER THE 2024 ANNUAL GMS**

On May 17, 2024, the Annual General Meeting of Shareholders resolved to:

1. Dismiss Hasanudin from his position as Chairman of the Sharia Supervisory Board; and dismiss Mohamad Hidayat, Oni Sahroni, and Didin Hafidhuddin from their positions as members of the Sharia Supervisory Board.
2. Reappoint Hasanudin as Chairman, and reappoint Mohamad Hidayat and Oni Sahroni as members of the Sharia Supervisory Board for a second term.
3. Appoint Jaih Mubarak and Abdul Ghofur Maimoen as new members of the Sharia Supervisory Board.

As a result, the composition of the Sharia Supervisory Board after the Annual General Meeting of Shareholders on May 17, 2024 consists of 5 (five) members: 1 (one) Chairman and 4 (four) members, as follows:

Prof. Dr. KH. Hasanudin, M.Ag	: Chairman of the Sharia Supervisory Board
DR. H. Mohamad Hidayat, MBA, M.H	: Member of the Sharia Supervisory Board
Dr. H. Oni Sahroni, MA	: Member of the Sharia Supervisory Board
Dr. KH. Abdul Ghofur Maimoen, M.A.	: Member of the Sharia Supervisory Board
Prof. Dr. Jaih Mubarak, SE, M.H, M.Ag	: Member of the Sharia Supervisory Board

Closing

We would like to extend our sincere gratitude to all stakeholders—shareholders, the Board of Directors, the Board of Commissioners, SEVPs, employees, and all customers—for their continued support of BSI in conducting its business and operations in accordance with Sharia principles.

The trust placed in BSI is a mandate that must be upheld with integrity and accountability. We hope that BSI will continue to grow into a Sharia bank that excels not only in performance but also in delivering a positive impact for the people of Indonesia through the application of just and inclusive Sharia principles (*rahmatan lil 'alamin*).

May Allah SWT continue to grant His guidance and blessings for BSI's success in fulfilling its vision and mission in the future.

Company Brand

The BSI logo, which consists of a wordmark (brand name) and an icon (five-pointed star), is designed to convey a clear brand message and build clear recognition. The BSI five-pointed star icon has three main meanings:

- Representing the "guiding light" which symbolizes our vision, which is to exist as a means to inspire goodness and positivity. This vision is guided by the verse of the Koran, Surah Ibrahim, verse 1: Alif Lam Ra.
- (This is) the Book that We have sent down to you (Muhammad) so that you can bring humanity out of darkness into bright light with God's permission, towards the path of God, the Almighty, the Most Praiseworthy.
- Representing the five pillars of Islam, which guide every Muslim to a wise and meaningful life.
- Represents the five principles of Pancasila, the philosophy that is the foundation of the Indonesian state to advance the nation and improve the welfare of all its people.

Brief Company History

“

PT Bank BRIsyariah Tbk (“the Bank”), headquartered in Jakarta, Indonesia, was initially established under the name PT Bank Jasa Arta (“BJA”) based on Deed of Establishment No. 4 dated April 3, 1969, drawn up before Liem Toeng Kie, S.H., a notary in Jakarta. BJA changed its name to PT Bank Syariah BRI (“BSBRI”) following a Shareholders’ Approval Statement, as stated in Deed No. 45 dated April 22, 2008, drawn up before Fathiah Helmi, S.H., a notary in Jakarta. It obtained approval to change its banking activities from a conventional bank to a commercial bank operating under Sharia principles, effective as of October 16, 2008, granted by Bank Indonesia.

”

In 2009, BSBRI changed its name to PT Bank BRIsyariah in accordance with the Shareholders’ Approval Deed No. 18 dated April 14, 2009, drawn up before Fathiah Helmi, S.H., a notary in Jakarta. PT Bank BRIsyariah later changed its name to PT Bank BRIsyariah Tbk following approval from the Minister of Law and Human Rights of the Republic of Indonesia No. AHU-0000386. AH.01.02 of 2018, dated January 10, 2018.

In January 2021, a merger took place between PT Bank BRIsyariah Tbk, PT Bank Syariah Mandiri, and PT Bank BNI Syariah. This merger was approved by the Financial Services Authority (OJK) Capital Market through Letter No. S-289/D.04/2020 dated December 11, 2020, and by the OJK Board of Commissioners through Decree No. 4/KDK.03/2021 dated January 27, 2021, regarding the Approval of the Merger of PT Bank Syariah Mandiri and PT Bank BNI Syariah into PT Bank BRIsyariah Tbk, along with the Approval for the Name Change to PT Bank Syariah Indonesia Tbk as the Surviving Bank. The merger of PT Bank BRIsyariah Tbk, PT Bank Syariah Mandiri, and PT Bank BNI Syariah into PT Bank Syariah Indonesia Tbk became effective on February 1, 2021.

In June 2022, a change in share classification was made to the Articles of Association, as stated in Deed of Shareholders’ Meeting Resolution on Amendments to the Articles of Association of PT Bank Syariah Indonesia Tbk No. 146 dated June 24, 2022, drawn up before Notary Jose Dima Satria, S.H., M.Kn., a notary in Jakarta, regarding:

- The implementation of share classification into Series A Dwiwarna shares, which hold special rights, and Series B common shares, which are ordinary registered shares.
- The reclassification of one (1) share owned by the Government of the Republic of Indonesia in the Bank into one (1) Series A Dwiwarna share, while all shares owned by other shareholders were classified as Series B common shares.

This amendment was received and recorded by the Minister of Law and Human Rights of the Republic of Indonesia under No. AHU-AH.01.03-0269107 dated July 22, 2022.

The latest amendment to the Bank's Articles of Association concerning additional paid-in capital was stipulated in the Deed of Shareholders' Meeting Resolution on Amendments to the Articles of Association of PT Bank Syariah Indonesia Tbk No. 191 dated December 29, 2022, drawn up before Muhammad Muazzir, S.H., M.Kn., acting as a Substitute Notary for Notary Jose Dima Satria, S.H., M.Kn., a notary in Jakarta. MANAGEMENT DISCUSSION AND ANALYSIS ON PERFORMANCE

04 »

“

Overall, BSI delivered outstanding performance in 2024, surpassing targets in nearly all key areas, including assets, financing, third-party funds, and net profit. This success reflects BSI's solid strategy in driving sustainable growth, maintaining asset quality, and enhancing operational efficiency. With these strong achievements, BSI remains optimistic about strengthening its position in the Islamic banking industry and navigating the challenges of 2025.

Economic Review

Global Economic Analysis

Presenting at World Economic Outlook (WEO) in January 2025, the International Monetary Fund (IMF) projected global economic growth in 2024 at 3.2% year-on-year (yoy), which slightly retarded than the previous year's growth of 3.3% yoy. The slowdown in global economic growth was particularly due to economic recovery in several countries, mainly in the Euro Area (EA) and Asia, which was against with initial forecasts.

Nonetheless, the United States (US) economy grew solidly, mainly supported by firm domestic demand that was in line with the relief of inflationary pressures. Meanwhile, economic growth in the EA seemed restrained, though inflation was on a downward trend. The restrained EA economic growth was mainly influenced by German's low-economic growth due to weakening manufacturing and export sectors, although consumption led to a recovery trajectory. In line with the EA, China's economic recovery was also hampered by the prolonged property crisis, though a number of expansionary policies had been implemented by the Chinese Government. The increase in China's net exports at the end of the year was unable to offset weak consumption and consumer confidence. India also grew lower than expected as its industrial activity declined. In addition, Japan also experienced a slowdown due to temporary supply disruptions.

In 2024, the Israeli-Palestinian geopolitical tension, escalating into a conflict between several countries in the Middle East, contributed in retaining global economic growth. The conflict among oil-producing regions triggered volatility in the commodity market, especially crude oil. In doing so, the price of Brent crude oil increased in October 2024 due to the shock of the sentiment of geopolitical tensions escalation. However, generally, commodity prices throughout 2024 continuously declined, which was in line with adequate supply amid relatively restrained demand. The relief of supply disruptions due to the decreasing intensity of the Russia-Ukraine conflict also supported the maintenance of commodity prices.

In accordance to these developments, global inflationary pressures started to decline. Inflation was on a gradual downward trend, including in developed countries, such as the US and the EA. However, the risk of inflation required to be alerted for, as it was indicated by the increase in inflation that re-occurred in Q4 of 2024. The downward trend in inflation had been responded by central banks in various countries by lowering their benchmark interest rates. The European Central Bank (ECB) lowered down its interest rates in June 2024, followed by the Fed, which lowered its benchmark interest rate in September 2024. The Fed fund rate (FFR) had fallen by 100 bps throughout 2024.

The interest rate cut initially encouraged capital inflows to Emerging Markets (EM). However, volatility and uncertainty in global financial markets increased again ahead of the US general election, in which Trump won the election. This condition prompted market concerns regarding protectionist policies in the US that could re-ignite the trade war and increase import tariffs, potentially increasing inflation rates again. This has an impact on expectations of a more gradual FFR cut, encouraging capital reversal, and again weakening the exchange rates of several countries.

On the other hand, the uncertainty caused by the escalation of geopolitical tensions and various other events increases the demand for safe haven assets, especially gold. This has an impact on the increase in gold prices quite significantly throughout 2024.

National Economic Analysis

Amidst the escalating pressure of global economic geopolitical tensions, the Indonesian economy showed resilience that grew steadily in 2024, by 5.03% yoy. This growth was mainly driven by domestic demand, which was robust during the contraction of net exports and in line with the decline in commodity prices and the global economic slowdown. Although domestic economic growth was also slightly restrained due to the decline in external demand, as reflected in the contraction of the manufacturing Purchasing Managers' Index (PMI) from the beginning of Q3-2024 to November 2024, consumer confidence and retail sales growth remained strong. Which was in accordance with the resilience of domestic demand.

Maintaining domestic demand was sustained by low and controlled inflation during 2024, so it supported people's purchasing power. The decline of the 2024 inflation was mainly driven by the relief of El Nino impact so that food supply was controlled. In addition, the adjustment of fuel prices (BBM) in line with the decline in world oil prices as well as the policy of reducing airplane and train ticket prices, also contributed to the decline in inflation. Moreover, the increase in global gold prices pushed up domestic gold and jewelry prices, so it drove core inflation.

Domestic investment also supported economic growth. Fiscal discipline that was maintained amid additional programs in the new government endorsed positive sentiment to attract investment. In addition, although external sector performance was relatively restrained, external resilience was maintained. It was seen from the trade balance, which recorded a surplus throughout the year and adequate foreign exchange reserves.

Low inflation accompanied by increasing uncertainty in the financial market had driven volatility in the Rupiah exchange rate. In this condition, domestic monetary policy maintained its focus on pro-stability. Bank Indonesia (BI) responded by raising the BI rate by 25 bps in April 2024 to 6.25%. As global pressures loosened and the Rupiah exchange rate strengthened, Bank Indonesia lowered the BI rate in September 2024 by 25 bps to 6.00%. However, the volatility of the Rupiah exchange rate had increased due to geopolitical and global economic uncertainty resulting from political developments in the US, so the focus of monetary policy directed at strengthening the stability of the Rupiah exchange rate. The BI rate is maintained at 6.00% until the end of the year. In addition, BI also continues to implement the triple intervention policy to maintain the stability of the Rupiah exchange rate, including through optimization of Bank Indonesia Rupiah Securities (SRBI), Bank Indonesia Foreign Currency Securities (SVBI), and Bank Indonesia Foreign Currency Sukuk (SUVBI) to attract inflow in the secondary market.

Contrastingly, nonresidents (foreign investors) recorded their inflows in the Government Securities (SBN) and stock markets. Outflows occurred in the SBN market in Q1-2024 and in the stock market in Q2-2024, while, in Q3-2024, both markets experienced consistent inflows. However, the outflow trend in both the stock and SBN markets re-occurred in Q4-2024, which was in accordance with increasing global uncertainty due to US' post-election political conditions.

National Banking Industry Analysis

The dynamics of monetary policy changes throughout 2024 also affected the growth of national banking. Amidst pro-stability monetary policy with a 25 bps increase in the BI Rate in April 2024, the performance of the national banking industry was resilient. This condition was supported by pro-growth macroprudential policies and maintained performance from business actors amid uncertainty

During 2024, the stability of the national banking sector was maintained amidst global and domestic economic dynamics. Banking intermediation performance continuously recorded positive growth with controlled risks. Banking Third Party Funds (DPK) were recorded growing by 4.49% yoy to IDR8,998 trillion, with demand deposits rising by 3.34% yoy, savings increasing by 6.76% yoy, and deposits expanding by 3.52% yoy. Banking liquidity remained adequate. It was reflected in the Liquid Assets/Non-Core Deposit (AL/NCD) ratio of 112.87% and Liquid Assets/Third Party Funds (AL/DPK) of 25.59%, beyond the set threshold. In addition, the Liquidity Coverage Ratio (LCR) was recorded at 213.23%, indicating good liquidity resilience. The availability of adequate liquidity supported the growth of bank credit/financing. A number of BI macroprudential policies, such

as the Macroprudential Liquidity Incentive Policy (KLM), was enhanced in 2024 to encourage loan/financing to priority sectors (including down-stream, housing, tourism, and the creative economy) and increase financial inclusion and the green financial economy.

As of December 2024, banking credit grew 10.30% yoy, reaching IDR7,995 trillion. Investment credit was the main driver with a growth of 13.56% yoy, consumer credit raised 10.56% yoy, and working capital credit developed 8.24% yoy. Credit quality remained under control, with a gross Non-Performing Loan (NPL) ratio of 2.26% and a net NPL of 0.74%. Loan at Risk (LaR) showed improvement with a decline to 9.28%, which was lower than before the pandemic (9.93% in December 2019). Banking profitability was also maintained, where Return on Assets (ROA) reached 2.67%. Meanwhile, banking capital remained firm with a Capital Adequacy Ratio (CAR) of 26.69%, providing a sufficient benchmark in dealing with global uncertainty.

Sharia Banking Industry Analysis

During 2024, sharia banking displayed positive growth. Total sharia banking assets reached IDR980.29 trillion, growing 9.88% yoy with a market share of 7.72% in December 2024. Sharia financing also increased 9.92% yoy to IDR643.55 trillion, while Third Party Funds (DPK) grew 10.09% yoy to IDR753.6 trillion.

Sharia banking liquidity was adequate, that was reflected in the Liquid Assets/Non-Core Deposit (AL/NCD) ratio of 154.52% and Liquid Assets/Third Party Funds (AL/DPK) of 32.09%, beyond the minimum limit. The Capital Adequacy Ratio (CAR) of sharia banking was recorded at 25.30%. Sharia banking profitability was maintained with a Return on Assets (ROA) of 2.04%. Financing risk remained under control, with a gross Non-Performing Financing (NPF) ratio of 2.12% and a net NPF of 0.79%. Sharia banking continuously adapted to affirm the sharia financial ecosystem through various strategic policies.

To strengthen the competitiveness and development of sharia banking, OJK had set five key focuses for the development of sharia banking for the 2024–2025 period. The focus included the consolidation of sharia banks, the establishment of the Sharia Financial Development Committee (KPKS), and the preparation of guidelines for product innovation, strengthening the role of sharia banks in the sharia economic ecosystem, and increasing the contribution of sharia banks in the development of MSMEs. To support this strategy, OJK launched three new product guidelines, which were designed to expand and strengthen the sharia banking product portfolio. The guidelines included Mudarabah Financing Products, Implementation of Sharia Restricted Investment Accounts (SRIA) with the Mudharabah Muqayyadah contract, and Implementation of Cash Waqf Linked Deposits (CWLD). These guidelines were expected to encourage innovation, increase competitiveness, and strengthen the position of sharia banking in the national market.

Chart of Banking Industry, Sharia Banking Industry, and BSI Performance Growth

(In %)

The performance of both Sharia Banking Industry and BSI showed positive growth based on the financial statements as of December 2024 than financial statements as of December 2023. This data covered five key indicators, such as assets, financing, and funding, with a focus on annual growth (yoy). The sharia banking industry experienced a significant increase, with asset growth of 9.88%, financing of 9.92%, and funding of 10.09%. This increase reflected the increasing role of sharia banking in the national economy. BSI recorded higher growth than the average sharia banking industry, mainly in assets of 15.55%, financing of 15.88%, and net profit, which soared at 22.83%. It indicated success in expanding business, increasing operational efficiency, and optimizing financial strategies. Overall, sharia banking continuously grew with a positive trend, and BSI had succeeded in strengthening its position as the market leader in the Indonesian sharia banking industry. The following is a further analysis based on the presented data.

1. Assets

The banking industry recorded an asset growth of 5.90% from IDR11,983.99 trillion in December 2023 to IDR12,690.66 trillion in December 2024. Then, the sharia banking industry experienced an increase of 9.88%, from IDR892.16 trillion to IDR980.30 trillion. This growth was higher than the conventional banking industry. BSI recorded an asset growth of 15.55%, which was higher than the average sharia banking industry. It indicated a more aggressive performance in business expansion.

2. Financing

The banking industry showed a financing growth of 10.30%, from IDR7,248,06 trillion in 2023 to IDR7,994,62 trillion in 2024. The sharia banking industry recorded an increase of 9.92%, from IDR585,46 trillion to IDR643,55 trillion, indicating an increase in fund distribution by sharia banks, although it was lower than conventional banks. BSI recorded the highest financing growth, at 15.88%, from IDR240,32 trillion to IDR278,48 trillion. It was more aggressive expansion than the sharia banking industry, in general.

3. Funding

The banking industry recorded a 4.49% growth in DPK, from IDR8,611.11 trillion to IDR8,997.54 trillion. Meanwhile, the sharia banking industry recorded an increase of 10.09%, from IDR684.52 trillion to IDR753.60 trillion, indicating a higher level of trust in sharia banks in raising funds. BSI documented an 11.46% increase in DPK, from IDR293.78 trillion to IDR327.45 trillion, representing strong liquidity growth.

Overall, the national banking industry experienced positive growth in 2024 with a soundness expansion rate. Sharia banking grew more rapidly in several aspects, especially in fundraising and financing. BSI, the largest Sharia Bank in Indonesia, showed a more aggressive performance with higher growth than the average sharia banking industry. The high increase in equity and net profit at BSI showed the success of the expansion strategy and increased profitability.

Operational Review

Bank Strategy

To encourage the development of business capabilities and achievements, the strategic focus implemented by BSI in 2024 was as follows:

1. Sustainable and Soundness Business Growth

BSI continuously implemented strategies that had provided added value to the bank's performance, such as managing financing growth in a sustainable and soundness manner, by targeting segments that had good quality with optimal returns, such as consumers, pawnshops, and gold installments. BSI also strengthened funding by increasing payroll acquisitions, Wadiah savings, business savings, and hajj savings as well as increasing fee-based income.

2. DPK Optimization and Liquidity Management

To maintain liquidity at an optimal level with maintained profitability, BSI implemented a retail fund expansion strategy, especially in savings products, maintaining the concentration of core depositors, and exploring other funding opportunities, such as Sukuk issuance.

3. Ecosystem Penetration

BSI accelerated business growth by focusing on penetration in 6 (six) leading ecosystems, including household, education, spiritual and charity, government spending, healthcare, and investment by offering products and services, which met customer needs.

4. Digital and Transaction Banking

BSI continuously improved digitalization in the banking business by increasing active mobile banking users, shifting transactions from branches to electronic and digital channels, and digitalizing business processes to accelerate customer service SLAs and increase the Bank's fee-based income. In addition, BSI strived to implement a customer-centric organization by understanding customer profiles better so that it can provide more comprehensive product and service solutions through strengthening data analytics, increasing digital adoption, and intensifying existing customers.

5. Efficiency and Productivity Enhancement

BSI continued network arrangement, especially arrangement of office networks that were overlapping, equal distribution of locations (coverage), and evaluation of low-performing offices. To increase employee productivity, BSI redeployed its employees from support/service/operation units to business units accompanied by upskilling and reskilling of employee capabilities.

To support the implementation of the 5 (five) strategic focuses, BSI strengthened fundamental enablers, such as strengthening organizational management, stabilization and upgrading Core Banking, improving IT cybersecurity, strengthening network and information security, developing and operating IT, collaborating with third parties to meet the criteria for ensuring data security and confidentiality, preparing Business Continuity Management (BCM) procedures, and implementing the principles of Environmental, Social, Governance, Risk and Compliance (ES-GRC) to support the Sustainable Development Goals (SDG).

In order to work on the potential of the global market, BSI established a Branch Office in Dubai. In addition, BSI planned to open a network of overseas offices in Saudi Arabia with the aim of optimizing the hajj and umrah business. As one of the strategies for optimizing long-term liquidity, BSI issued sustainable securities up to IDR10 trillion, which were issued periodically according to the Bank's needs. Moreover, BSI explored opportunities for inorganic growth, including through integration with sharia business units, collaboration with third parties, such as joint ventures, strategic partnerships, and equity participation.

Marketing Aspect

Marketing Strategy

Heading into its 4th (fourth) year of post-merger of the three largest sharia banks in Indonesia, such as Bank Syariah Mandiri, BSI Syariah, and Bank BRI Syariah, Bank Syariah Indonesia (BSI) sharpens its presence to be the main choice of sharia bank for Indonesian, having taking side by side with other commercial banks. BSI's presence, which is easy to find both offline and online as well as through promotional materials and advertisements, has made BSI increasingly well-known in the community.

Currently, BSI has launched a new superapp, such as Byond by BSI, which provides convenience for customers in making transactions and using banking services. In 2024, BSI targeted Brand Equity growth to 0.9 and Brand Awareness to 21%

The 2024 strategic focus continuously implemented as the realization of sustainability from the previous year's strategy:

1. Mapping Customer

Mapping Customer was divided into two, such as target business and target audience.

- a. Target business was a customer segment that was expected to generate a higher contribution margin such as State Civil Apparatus (ASN), SEO Employees, Retirees, Hospital Ecosystems, MSMEs and Professionals.
- b. Target audience was a group of people, who were the key targets of communication, including Gen Z, Millennials.

2. Mapping Product Champion

BSI conducted a marketing strategy by creating a house of strategy, such as brand strengthening and business growth through two pillars of strategy, such as product heroes and socialization. The following are product heroes that were the focus of the 2024 marketing strategy as follows:

- a. BSI Mobile
- b. BYOND by BSI
- c. Cicil Emas dan Gadai Emas
- d. BSI Griya
- e. BSI Mitraguna Berkah

3. Integrated Marketing Communication (IMC)

IMC was carried out based on customer mapping and product champion mapping strategies. The 'hero product' campaign activity was conducted according to the target audience and business target that has been set. The IMC approach was implemented through integrated promotional activities, such as the #LevelUpRamadanmu campaign and the BYOND by BSI campaign.

a. BSI Mobile #LevelUpRamadanmu

The #LevelUpRamadanmu campaign promoted BSI Mobile and BSI Card products with the target audience of Gen Z and Millennials. A series of promotional activities were carried out starting from Above The Line (ATL) through television media, newspapers/magazines, videotron/OOH on public transport and Eid homecoming routes, and radio in targeted cities. Then Below The Line (BTL) through offline events BSI Gema Ramadan (open booths at Mosques) and BSI Homecoming Service Posts (open booths at Eid homecoming rest areas), and supported by digital marketing activities through influencer marketing, such as using brand ambassadors comprising of Halilintar and Aurel Hermansyah and collaboration with KOLs, such as the owner of Bittersweet By Najla to create Ramadan hampers (brand ambassadors and KOLs), Over The Top (OTT), digital ads, publishers, and social media activation.

b. BSI Mitraguna Berkah

BSI Mitraguna Berkah products had a more specific business target, such as the Fixed Income Group (Golbertap), in this case especially the State Civil Apparatus (ASN), SEO Employees, and Private Employees. Promotional activities were more direct marketing and used targeted media. Below The Line (BTL) promotional activities included direct visits to customers or to work units (satker) of related agencies, implementation of mini expo events by taking themes that were beneficial to employees. Meanwhile, Above The Line (ATL) promotions were carried out through office lift branding and for digital promotions using influencer marketing that was in accordance with the niche audience (collaboration with KOLs) and digital ads with audience targeting.

c. BSI Griya dan BSI Oto

BSI Griya and BSI Oto products were financing products with a target audience that had an interest in property and automotive. Promotional activities were through Below The Line (BTL) include creating mini expos in malls and sponsorship programs, such as BSI Oto's participation in the 2024 Gaikindo Jakarta Auto Week event. Meanwhile, Above The Line (ATL) promotions were carried out through office lift branding and for digital promotions using influencer marketing such as Bapak2.id at the 2024 Gaikindo Jakarta Auto Week event and digital ads that target the interests of the target audience.

d. BSI Cicil Emas dan Gadai Emas

BSI Cicil Emas and Gadai Emas products had a target audience in the suburbs and rural areas. To reach the target audience, promotional activities were carried out through Above The Line (ATL), such as radio in cities that were the target of promotion and can reach rural areas.

e. BYOND by BSI

The latest SuperApp from BSI, BYOND by BSI, had a target audience of Gen Z and Millennials like BSI Mobile. To drive awareness of BYOND by BSI during the launching phase, promotional activities were carried out through Above The Line (ATL), Below The Line (BTL) and digital marketing. Above The Line (ATL) promotion was carried out through out of home media, such as branding public transport and LED roadside at strategic locations in the capital city, branding landmarks in big cities, branding BSI branch offices, branding cars and transportation buses, and videotrons/billboards

in strategic cities. In addition, ATL promotion was carried out through sponsorship of television programs, newspapers/magazines, and radio. SuperApp BYOND by BSI was closely related to digital media, so promotional activities through digital marketing were carried out through various social media ads platforms, digital ads, publishers, Over The Top (OTT), WhatsApp blast, and influencer marketing. Influencer marketing is carried out using the Collaboration of KOLs and brand ambassadors of BSI, including Atta Halilintar - Aurel Hermansyah, Ragnar Oratmangoen, and Titi Kamal - Christian Sugiono. Promotion through Below The Line (BTL) was carried out with the BYOND by BSI and BYONDay launching events at the car free day event in Jakarta. In addition, mall activation was carried out at 6 (six) malls in Jakarta to ease the target audience to activate their BYOND by BSI accounts.

4. Event and Activation

As the largest sharia bank in Indonesia, BSI continuously committed to improve sharia financial literacy and inclusion by actively participating in regulatory events, such as events organized by Bank Indonesia (BI) and the Financial Services Authority (OJK), to introduce sharia financial services to the public. Additionally, BSI also held large-scale signature events, such as the BSI International Expo, which supported the strengthening of the Sharia Ecosystem. This event

was a forum for education and collaboration, presenting workshops, sharia financial product exhibitions, and talk shows with experts. To support MSMEs empowerment, BSI had launched programs, such as BSI Entrepreneurial Talent and Aceh Muslim Preneur. Both were designed to empower MSMEs through sharia business training, business mentoring, and access to Islamic financial products. Through this step, BSI played an active role in building an inclusive Islamic economic ecosystem, while supporting the growth of MSMEs as an important pillar of the Indonesian economy. These various initiatives were some examples of BSI's commitment to improve Sharia financial literacy and inclusion in Indonesia. Furthermore, BSI hoped that these major initiatives could grow BSI brand in the future.

5. Brand Ambassador

Brand ambassadors were used to increase brand awareness and product awareness of the audience towards BSI. Currently, BSI had content creators Atta Halilintar, Aurel Hermansyah and Football Athlete Ragnar Oratmangoen as brand ambassadors, who actively promoted BSI products. The use of brand ambassadors had succeeded in increasing impressions and audience engagement on digital media and enhancing business achievements, such as BSI Tabungan Haji and Kurban products, which increased after being promoted by Ragnar Oratmangoen.

Market Share

BSI, a sharia bank, specifically has competition with all sharia banks and generally deals competition with all banks in Indonesia in determining market dominance. The business competition can be seen based on assets, financing, funding.

Amidst the tight competition in the sharia banking industry, BSI also has competition with all national banks in Indonesia. In 2024, BSI showed solid performance with an increase in market share in three main indicators, such as assets, financing, and DPK.

- BSI's market share based on assets in the national banking industry reached 3.22% in December 2024, increasing than the same period in 2023. This increase reflected BSI's effective strategy in increasing capacity and competitiveness, though it was in the mid of tight competition with the national banking industry.

- BSI's financing market share in December 2024 reached 3.48%, increasing from the same period in 2023 of 3.32% and indicating growth from the previous year because BSI expanded its financing portfolio to strategic sectors that supported the growth of the sharia economy in Indonesia.
- BSI's DPK market share reached 3.64% in December 2024, improving from the same period in 2023 of 3.41%. This achievement illustrated BSI's success in maintaining the stability of fund collection through product innovation and increasing customer trust.

Operational Review Per Business Segment

The discussion of performance per segment in this annual report is prepared in accordance with the “segment information” notes presented in BSI’s Audited Financial Statements.

In 2022, the Bank implemented changes to the presentation of operating segments used in the internal management performance report. The Bank had identified and disclosed financial information based on the main business segments, which were divided into Corporate Banking, Commercial Banking, Institutional Relations, Retail, and Treasury Banking and Head Office groups.

Business Segment

Corporate Banking

The Corporate Banking segment served business entities, such as State-Owned Enterprises and their subsidiaries, state institutions, multinational companies, banks and non-bank financial institutions (including non-linkage venture capital), syndicated financing, public companies, and securities companies.

An explanation of each Corporate Banking product has been presented in the Profile section of the Products and Services Sub-Chapter in this Annual Report.

CORPORATE BANKING COMPETITIVE ADVANTAGES AND INNOVATION

BSI Corporate Banking continues to develop products, solutions, and services to meet customer needs, creating mutually beneficial

synergy between customers and BSI. This strengthens BSI's competitive advantage in the Corporate Banking segment, positioning itself as a strategic partner for its target market, which includes State-Owned Enterprises (BUMN) and leading conglomerate companies in Indonesia. This advantage stems from our commitment to providing innovative and flexible Sharia-based banking solutions, tailored to each customer's needs.

CORPORATE BANKING STRATEGY IN 2024

To address challenges while maximizing opportunities, Corporate Banking has implemented the following strategies:

1. Focus on growth in State-Owned Enterprise (BUMN) customers and sustainable conglomerate companies while maintaining prudent banking principles and distributing financing in accordance with best practices in the banking industry.
2. Develop the customer ecosystem comprehensively by leveraging strong relationships with customers so that the Retail segment can penetrate the business market and utilize the potential within Corporate segment customers.
3. Develop the organizational structure and enhance the competence of human resources in the Corporate Banking segment to align with the industry and capture existing business opportunities.

CORPORATE BANKING PRODUCTIVITY, REVENUE, AND PROFITABILITY

Information on the productivity, revenue, and profitability of Corporate Banking over the past two years is presented as follows.

In accordance with DSN-MUI Fatwa No. 123/DSN-MUI/XI/2018, the Charity Fund comes from Funds that May Not Be Recognized as Income (TBDSP Funds), including the following:

1. Transactions that are not in accordance with sharia principles that cannot be avoided including interest income (riba).
2. Sharia transactions that do not meet the provisions and limitations (pillars and/or conditions).
3. Sanction funds (fines) for not fulfilling obligations according to the agreement.
4. Funds whose owner is unknown, whose owner is known but not found or whose owner is known but the cost of returning it is greater than the amount of the funds.

qardhul hasan funds consist of social funds originating from fines/penalties, transactions that are not in accordance with sharia principles, and infaq and shadaqah originating from E-Channel. Infaq and shadaqah are assets that are voluntarily given by their owners, whether the allocation is limited (determined) or not. Others consist of accounts for holding financing installments, obligations to third parties, administration accounts, clearing intermediaries and others.

Source of Qardhul Hasan Funds

The total source of qardhul hasan in 2024 was IDR111.99 billion, an increase of 33.98% compared to 2023 which was IDR83.60

billion. The increase was mainly due to an increase in infaq and shadaqah in 2024 of IDR20.74 billion.

Use of Qardhul Hasan Funds

The use of qardhul hasan in 2024 amounted to IDR117.03 billion, an increase of 44.95% compared to 2023 which amounted to IDR80.74 billion. This was due to an increase in donations in 2024.

Profit Sharing Distribution Report

Throughout 2023-2024, the distribution of profit sharing for fund collection and distribution activities is presented in the table below.

Fund Collection

The total average balance of fund collection in 2024 amounted to IDR231.61 trillion, with total revenue allocated for profit sharing reaching IDR1.74 trillion. Meanwhile, the total average balance of fund collection in 2023 was IDR208.43 trillion, with total revenue allocated for profit sharing amounting to IDR1.57 trillion.

Debt Payment Ability and Receivables Collectibility

Debt Payment Ability

Creditor Rights Protection

BSI has policies regarding the fulfillment of creditors' rights, one of which is through the rights of mudharabah sukuk holders. The rights of mudharabah sukuk holders are paripassu (equal), without preferential rights, with other BSI creditors' rights, both existing and future, except for BSI creditors' rights that are specifically secured by BSI's assets, whether existing or future.

Creditor protection includes BSI's obligation to pay the entire amount due to mudharabah sukuk holders, consisting of mudharabah sukuk funds, profit-sharing income, and late payment penalties (if any). These payments must be made on the scheduled repayment date of the mudharabah sukuk funds and the profit-sharing income payment date, in accordance with the provisions of the mudharabah sukuk trustee agreement (whichever is applicable).

Short-Term Debt Payment Ability (Liquidity)

A bank's liquidity is influenced by financing structure, asset liquidity, third-party liabilities, and financing commitments to debtors. BSI's liquidity adequacy is measured using the Financing to Deposit Ratio (FDR). The calculation of the FDR (Financing to Deposit Ratio) refers to the Financial Services Authority Circular Letter (SEOJK) Number 10/SEOJK.03/2020 concerning the Transparency and Publication of Reports for Sharia Banks and Sharia Business Units.

Tabel of Short-Term Debt Payment Ability

(In %)

Description	2024	2023	Increase/Decrease
(1)	(2)	(3)	(4) = (2)-(3)
Financing to Deposit Ratio (FDR)	84.97%	81.73%	3.24%

The FDR (Financing to Deposit Ratio) in 2024 was 84.97%, an increase from 81.73% in 2023. This indicates that the distribution of funds (financing) in 2024 was more optimal compared to 2023, leading to a higher financing growth of IDR38.15 trillion or 15.89%, compared to the increase in third-party funds (DPK), which amounted to IDR33.68 trillion or 11.46% year-on-year.

Long-Term Debt Payment Ability (Solvency)

The bank measures solvency through the Capital Adequacy Ratio (CAR). It ensures sufficient capital to cover credit risk, market risk, and operational risk. The calculation of the CAR refers to Financial Services Authority Regulation (POJK) Number 21/POJK.03/2014 concerning the Minimum Capital Requirement for Sharia Commercial Banks.

Table of Long-Term Debt Payment Ability

(In %)

Description	2024	2023	Increase/Decrease
(1)	(2)	(3)	(4) = (2)-(3)
Capital Adequacy Ratio (CAR)	21.40%	21.04%	0.36%

The CAR in 2024 stood at 21.40%, an increase from 21.04% in 2023. The rise in net profit in 2024 was a key factor contributing to the increase in capital. This ratio also reflects the bank's strong solvency, as it exceeds the minimum CAR requirement set by the regulator, ensuring the bank's ability to anticipate various risks, including credit risk, market risk, and operational risk.

Debt Payment Ability From Issued Securities

The ability to repay debt can also be reflected through the rating of securities issued by BSI, namely sukuk. The securities issued are regularly assessed by rating agencies to support their creditworthiness. The quality of the securities is highly determined by the issuing company's ability to repay them upon maturity and its capacity to pay interest or coupons throughout the issuance period.

Table of Debt Payment Ability from Issued Securities

Description	Rating	
	2024	2023
Subordinated Medium-Term Sukuk Mudharabah of PT Bank Syariah Indonesia, Tbk 2023	^{id} AA (sy) oleh (Pefindo)	^{id} AA (sy) oleh (Pefindo)
Sustainable Sukuk Mudharabah I Bank BSI Phase I 2024	^{id} AAA oleh (Pefindo)	-

Table of Rating Meaning

Rating Agency	Rating	Meaning
Pefindo	^{id} AAA	The highest rating, indicating that the issuer has an extremely high ability to meet its financial obligations.
	^{id} AA	A high rating, showing that the issuer has an excellent ability to pay debts, but slightly lower than AAA

Receivables Collectibility

The calculation of the Bank's non-performing financing (NPF) ratio for 2024 and 2023 refers to the Financial Services Authority Circular No. 10/SEOJK.03/2020 dated July 1, 2020, concerning Transparency and Publication of Reports for Islamic Commercial Banks and Islamic Business Units.

Table of Bank's Non-Performing Financing Ratio

(In %)

Description	2024	2023	Increase/Decrease
(1)	(2)	(3)	(4) = (2)-(3)
Non Performing Financing (NPF) Gross	1.90%	2.08%	(0.18%)
Non Performing Financing (NPF) Nett	0.50%	0.55%	(0.05%)

The NPF Gross (before deducting allowance for impairment losses) in 2024 stood at 1.90%, improving by 0.18% compared to 2.08% in 2023. Meanwhile, NPF Net decreased by 0.05%, from 0.55% in 2023 to 0.50% in 2024. Maintained financing quality and selective financing distribution in 2024 led to a decrease or improvement in the NPF ratio.

Productive Asset Quality Analysis

In 2024, the total productive assets of both related and unrelated parties at BSI amounted to IDR346.58 trillion, an increase of 9.35% compared to 2023, which stood at IDR316.95 trillion. The increase in productive assets was primarily driven by financing growth of IDR38.17 trillion

The composition of productive assets in 2024 includes IDR336.33 trillion categorized as current, IDR4.97 trillion under special mention, IDR1.32 trillion as substandard, IDR684.44 billion as doubtful, and IDR3.27 trillion as non-performing.

Management Policy on Capital Structure and Basis for Selecting Capital Structure Management Policy

The Capital Plan prepared by BSI is based on the latest study of economic developments and the results of an analysis of mandatory capital requirements. The Board of Directors formulates this Capital Plan as part of BSI's Business Plan, which is then approved by the Board of Commissioners. BSI regularly plans and reviews capital needs together, supported by relevant data and analysis. In this planning, BSI consistently aligns financial goals and capital adequacy with existing risks, ensuring that BSI's business remains in line with the capital and liquidity requirements set forth.

BSI's capital management aims to safeguard the Bank's ability to sustain its business continuity. This ensures that the Bank can continue to provide favorable returns to shareholders, deliver benefits to other stakeholders, and maintain an optimal capital

structure to minimize the cost of capital. In assessing capital adequacy, Bank Syariah Indonesia refers to the provisions outlined in Financial Services Authority Regulation No. 21/POJK.03/2014 concerning the Minimum Capital Requirement for Sharia Commercial Banks.

In 2024, the capital adequacy ratio, taking into account credit, operational, and market risks, reached 21.40%, an increase from 21.04% in 2023. This ratio remains well above the minimum capital adequacy requirement, which, in relation to the Bank's risk profile, stands at 9.99%.

Risk Exposure and Capital Information

This section explains risk management exposure. For explanations related to types of risks, please refer to the Risk Profile and Management section in the Corporate Governance part of this Annual Report.

Credit Risk

Credit risk is arising from a customer's or other party's failure to fulfill their obligations to the Bank as agreed in the contract. This includes credit risk due to debtor failure, credit concentration risk (counterparty credit risk), credit risk arising from settlement failure (settlement risk), and credit risk associated with country risk.

The following is disclosure information for credit risk exposure.

Description

1) For BUS with subsidiaries that have exposure to the mentioned risks

Liquidity Risk

Liquidity risk is the risk arising from the Bank's inability to meet its maturing obligations through cash flow funding sources and/or high-quality liquid assets that can be pledged, without disrupting the Bank's operations and financial condition. As the Bank's business continues to grow, liquidity risk remains one of its primary concerns. This risk may arise when the Bank's financing growth exceeds the growth of third-party funds. A mismatch between the availability of funding sources and the maturity of receivables and financing may lead to difficulties in fulfilling the Bank's obligations to customers and other parties.

The following is disclosure information for liquidity risk exposure.

Business Prospects and Future Strategy for 2025

Business Prospects

The global economy is projected to be on an improving trend, with growth expected to be around 3.3% in 2025. However, several risks must continue to be monitored. Risks such as the delayed economic recovery in China and the escalation of geopolitical tensions, coupled with uncertainties surrounding the change in leadership in the United States, require close attention as they could potentially slow down global economic growth.

Amid these conditions, Indonesia's economy in 2025 is projected to grow slightly higher than the previous year, within the range of 4.8% to 5.6%, driven by domestic demand. Moving forward, Indonesia's economic growth is expected to remain solid and on an upward trend. This steady economic growth is primarily supported by domestic demand, accompanied by improving external demand in line with the global economic recovery. However, several risks, including a slower global economic recovery and the impact of escalating geopolitical tensions, need to be continuously monitored as they could potentially hinder the recovery of Indonesia's external sector performance.

Amid ongoing geopolitical tensions, commodity prices continue to normalize, leading to a general downward trend in inflation, including domestic inflation. Going forward, inflation is projected to remain within the target range of $2.5\% \pm 1\%$ and continue its declining trend. This low and controlled inflation supports consumer purchasing power, thereby driving economic growth. However, several risks must still be closely monitored, particularly the potential impact of escalating geopolitical tensions, such as

rising commodity prices (including oil), climate-related risks, and imported inflation risks stemming from increasing global commodity prices and potential depreciation of the Rupiah.

The expected decline in interest rates in the future is anticipated to improve market liquidity, thereby supporting banking intermediation. The Bank Indonesia (BI) rate affects the adjustment of banks' Prime Lending Rate (SBDK), which could potentially drive credit growth within the range of 11%-13% in 2025. Meanwhile, Third-Party Funds (DPK). In 2025, Bank Indonesia will implement a pro-growth policy with a focus on the development of the sharia economy and finance. The growth of the sharia economy is expected to continue its positive trend, with a projected growth rate ranging from 4,8% to 5,6%.

Moving forward, BSI is committed to continuously providing modern, comprehensive, and universal Sharia financial solutions to its customers. The bank aims to position itself as a financial, social, and spiritual partner for its customers and the wider community.

SWOT Analysis

Considering the aforementioned factors, BSI conducts a competitive analysis through the Strengths, Weaknesses, Opportunities, and Threats (SWOT) framework. Internal factors are reflected in the strengths and weaknesses of BSI, while external factors are analyzed through opportunities and threats within the current banking industry.

Table of SWOT Analysis

Strengths	Weaknesses
<ul style="list-style-type: none">- A Sharia bank in Indonesia ranked among the Top 10 Global Islamic Banks.- The largest Sharia bank in Indonesia in terms of assets.- Extensive office network with over 1,000 branches across Indonesia and an international presence in Dubai.- Large customer base- A wide range of Sharia-based financial products and services.- High-quality financing.	<ul style="list-style-type: none">- Employee and outlet productivity is not yet optimal.- Low financial literacy regarding Sharia banking
Opportunities	Threats
<ul style="list-style-type: none">- High Sharia banking preference among customers.- Growth of the global and national Islamic economy.- Strong positioning of BSI in the Sharia banking industry.- Government support for Islamic finance.- Expanding market share in the national banking industry.- Synergy with Parent banks.	<ul style="list-style-type: none">- Competition with conventional banks and fintech.- Geopolitical and global economic conditions.- Advancements in information technology and cybersecurity risks.

Based on the analysis above, BSI is optimistic about having strong prospects and opportunities in the future. To seize these prospects and opportunities, BSI has formulated strategies to optimize the bank's performance in 2025.

Future Growth Strategy 2025

In 2025, to achieve its vision and mission, BSI will focus on its strategy as the Best Islamic Financial Platform Provider, emphasizing Financial, Social, and Spiritual Solutions while developing the Islamic Ecosystem in line with its targeted segments:

1. Wholesale

BSI will tap into wholesale business potential from corporations and corporate groups by expanding its customer base and deepening relationships with clients through transactional banking capabilities and an extended value chain. The bank also strengthens wholesale-retail collaboration as an entry point to leverage business opportunities from corporate or institutional wholesale clients, including payroll business, employee financing, pawning services, and fundraising products.

2. Institutional Sector

BSI will also tap into business opportunities within institutions by targeting government institutions, state agencies, state-owned enterprises (SOE), regional-owned enterprises (ROE), ministries and their subordinate work units, public educational institutions, hospitals, and their associated entities. BSI aims to offer financial products and solutions tailored to the needs of these institutions, their partner vendors, and employees. To increase low-cost funding, the bank will focus on positioning itself as a transactional bank, particularly for institutions, by developing products and services that align with customer needs, such as enhanced cash management solutions with more comprehensive features.

3. SMEs and MSMEs

BSI will also strengthen its business in the Small and Medium Enterprises (SME) and Micro, Small, and Medium Enterprises (MSME) segments by targeting key SME ecosystems, such as palm oil plasma core ecosystems, cooperative businesses (kopkar), business linkages, education services, healthcare services, Sovereign Sharia Securities (SBSN) and the National Budget (APBN), Hajj and Umrah travel agencies, as well as both state-owned and private enterprises. Additionally, BSI will focus on productive micro-businesses operating within the halal

ecosystem, value chain-based businesses, and existing customers with a solid financial track record. This segment will be the focus of SME and MSME strategy in managing institutional transaction accounts, optimizing SME financing penetration from the targeted ecosystem, and ensuring healthy and prudent microfinance penetration with a focus on KUR financing. Additionally, there will be a selection of high-yielding BSI product growth for micro-enterprises in the market ecosystem, wholesale suppliers, retail markets, healthcare sector, and education sector, as well as increased penetration through BSI Agents.

4. Consumer Segment

BSI will continue implementing strategies that have proven to add value to its performance, particularly by managing sustainable and healthy financing growth in the consumer segment. This will be achieved through programs and products tailored to customer needs, such as SuperApps BYOND by BSI, Hajj Savings, investment products like retail sukuk and bancassurance, Zakat, Infaq, Sadaqah, and Wakaf (ZISWAF) transactions, and competitive consumer financing products, including BSI Griya, BSI Oto, Mitraguna Berkah, Pensiun Berkah, Pra Pensiun Berkah, Gadai Emas, dan Cicil Emas.

To support this strategy, BSI will strengthen its business penetration platforms, which are categorized into three main areas, including physical platforms such as branches and BSI Agents, e-channel such as BYOND by BSI, BEWIZE, ATM, EDC, QRIS, and inorganic platform subsidiaries.

To ensure the successful execution of its strategic focus on the target segments mentioned above, BSI will also enhance fundamental enablers in several key areas including Human Capital, by improving employee productivity and competency while strengthening organizational management. In the area of Information Technology and Operational Excellence, BSI will focus on stabilizing and upgrading core banking systems, reinforcing the three-pillar IT structure, enhancing IT security, and achieving operational excellence. In the Environmental, Social, Risk, Governance, and Compliance (ES-GRC) domain, BSI will implement an Enterprise Risk Management System, a Resolution Plan, and Anti-Fraud measures while strengthening ESG governance through various ESG programs to support the Sustainable Development Goals (SDGs). In line with these efforts, BSI will also strengthen its data analytics capabilities by building a robust big data infrastructure with enhanced quality and improving decision-making processes through artificial intelligence.

Comparison of Financial Targets and Realization for 2024

The comparison of financial targets and actual realization is presented as follows.

Table of Financial Target and Realization Comparison

(in IDR millions)

Description	2024 Budget Plan	2024 Realization	Achievement
(1)	(2)	(3)	(4) = (3)/(2)
FINANCIAL POSITION			
Total Assets	378,370,355	408,613,432	107.99%
Financing facilities	272,987,063	278,481,243	102.01%
Third-Party Funds	321,273,357	327,454,166	101.92%
INCOME STATEMENT			
Revenue from Fund Management as Mudharib	24,704,000	25,298,203	102.41%
Income From Operation	6,079,690	7,005,888	115.23%
FINANCIAL RATIOS (%)			
Gross NPF	2.00%	1.90%	105.26%
Net NPF	0.55%	0.50%	110.00%

In 2024, BSI's total assets were recorded at IDR408.61 trillion, surpassing the RKAP/RBB target by 107.99%. This achievement was driven by the sustained growth of Third-Party Funds (DPK) and the bancassurance collaborations that helped increase the inflow of funds into the bank. With relatively stable market conditions, BSI was able to optimize its asset management, reflecting solid and sound growth.

BSI's total financing extended in 2024 reached IDR278.48 trillion, also exceeding the RKAP/RBB target by 102.01%. Financing across all segments wholesale, retail, and consumer continued to grow. BSI's main focus is to ensure the quality of its sustainable financing by maintaining a balance between financing expansion and prudent risk management.

BSI's DPK in 2024 was recorded at IDR327.45 trillion, achieving 101.92% of the RKAP/RBB target. This outcome was influenced by intense liquidity competition in the market. Nonetheless, BSI successfully achieved a more sustainable DPK target by continuously boosting the growth of its Current Account Saving Account (CASA), particularly in the savings segment. This indicates BSI's success in attracting customer funds, even amid heightened liquidity competition.

BSI's net profit in 2024 was recorded at IDR7.00 trillion, exceeding the RKAP/RBB target with an achievement of 115.23%. This excellent net profit performance was driven by an increase in margin income and profit-sharing, along with continuously growing fee-based income. Additionally, to further enhance profitability, BSI has persistently implemented effective cost efficiencies and maintained the quality of its sound assets. This reflects the bank's success in managing revenue sources and controlling costs efficiently.

Comparison of Targets and Realization of Human Resource Development 2024

The comparison between targets and realization of human resource development is presented as follows.

Table of Comparison of Targets and Realization of Human Resource Development

Description	Budget Plan 2024 (RKAP)	Realization in 2024	Achievement
(1)	(2)	(3)	(4) = (3)/(2)
HR Development Expenses (IDR)	147,623,000,000	141,590,926,496	95.91%

The realization of HR development expenses in 2024 was recorded at IDR141.59 billion, slightly below the RKAP 2024 target of 95.91% of the planned budget, which amounted to IDR147.62 billion.

BSI is committed to enhancing the quality and competence of its human resources as part of a long-term strategy to strengthen the bank's performance. A series of training sessions and

development programs have been provided to employees to prepare them for the increasingly complex and dynamic challenges of the banking industry.

Through more intensive training and structured development programs, BSI hopes to build a more skilled, productive workforce that is ready to face technological changes and continuously evolving market demands.

Dividend Policy Targets/Projections for 2025

The distribution of BSI dividends is determined based on the resolution of the General Meeting of Shareholders (GMS), and all shareholders have equal rights, including the right to receive dividends. Considering its financial capability and condition, BSI may review and revise its dividend policy from time to time, in compliance with applicable Indonesian laws and regulations. Under the above provisions and BSI's overall financial condition, the company has a policy to distribute dividends in cash to all shareholders after setting aside sufficient reserves, without limiting the GMS's authority to determine the dividend distribution to be decided in the meeting.

The determination, amount, and payment of future cash dividends will depend on various factors, including but not limited to retained earnings, operational performance, cash flow, business prospects, BSI's current and future financial condition, as well as other factors deemed relevant by BSI's shareholders, and applicable Indonesian regulations. BSI reserves the right to review and amend its dividend policy from time to time, under applicable Indonesian laws and regulations.

Dividend Policy, Announcement, and Payment

Bank Syariah Indonesia may announce dividends annually (in Rupiah) if it has a positive retained earnings balance. A portion of the bank's net profit, as determined by the Annual General Meeting of Shareholders (AGMS) and after deducting corporate

tax, must be allocated to the mandatory reserve fund until it reaches at least 20% of the bank's paid-up capital. However, there is no specific timeframe for achieving the required reserve fund level.

The remaining portion of the net profit (after mandatory reserve allocation) may be distributed to shareholders as a final dividend, unless otherwise decided by the AGMS. The bank may also distribute a special dividend on an ad-hoc basis with approval from the GMS. The allocation of net profit for the 2023 fiscal year was based on the AGMS held on May 17, 2024, while the allocation for the 2022 fiscal year was decided in the AGMS on May 22, 2023. The net profit allocation for BSI's 2024 fiscal year will be determined in the AGMS in 2025.

Material Transactions Involving Conflicts of Interest and/or Transactions With Affiliated Parties

Based on OJK Regulation No. 17/POJK.04/2020 on Material Transactions and Changes in Business Activities, a Material Transaction refers to any transaction conducted by a public company or its controlled entity that meets the transaction value threshold of 20% or more of the public company's equity.

Conflict of Interest Transactions

In accordance with on OJK Regulation No. 42/POJK.04/2020 on Affiliated Transactions and Conflict of Interest Transactions, a conflict of interest arises when there is a discrepancy between the economic interests of a public company and the personal economic interests of its Board of Directors, Board of Commissioners, Major Shareholders, or Controlling Shareholders, which could be detrimental to the public company.

In 2024, there were no transactions involving conflicts of interest.

Affiliated Transactions

Based on OJK Regulation No. 42/POJK.04/2020 on Affiliated Transactions and Conflict of Interest Transactions, an Affiliate is defined as:

- A family relationship by marriage or blood up to the second degree, both horizontally and vertically;
- A relationship between a party and its employees, directors, or commissioners;
- A relationship between two companies where one or more members of their Board of Directors or Board of Commissioners are the same;
- A relationship where a company and another party directly or indirectly control or are controlled by each other;
- A relationship between two companies controlled by the same party, either directly or indirectly; or
- A relationship between a company and its Major Shareholder.

Furthermore, an Affiliated Transaction refers to any activity and/or transaction conducted by a public company or its controlled entity with an Affiliate of the public company or an Affiliate of a Member of the Board of Directors, Board of Commissioners, Major Shareholders, or Controlling Shareholders. This also includes any activity and/or transaction carried out by the public company or its controlled entity for the benefit of an Affiliate of the public company or an Affiliate of a Member of the Board of Directors, Board of Commissioners, Major Shareholders, or Controlling Shareholders.

Affiliated Transactions as Business Activities Conducted to Generate Operating Revenue and Carried Out Routinely, Repeatedly, and/or Continuously

Based on Articles 8 and 9 of OJK Regulation 42/2020, some affiliated transactions are part of business activities that generate operating revenue. These transactions are conducted routinely, repeatedly, and continuously. They are reported in the related party transactions section. BSI has recorded the transactions, including the transaction value, the names of the parties conducting the transactions, the nature of the relationship and all of this information has been disclosed in Notes to Financial Statements 44.

Fairness of Transactions and Compliance With Applicable Regulations

The transactions conducted by BSI comply with OJK Regulation 42/2020 on Affiliated Transactions and Conflict of Interest Transactions. The transactions follow common business practices and adhere to the arm's length principle. All transactions are based on BSI's business needs and are free from conflicts of interest. In 2024, there were no affiliated or related party transactions that required shareholder approval (GMS).

Statement From the Board of Directors Regarding Affiliated Transactions

BSI has established procedures for transactions, especially those involving affiliated and related parties. These procedures follow regulatory requirements. The Board of Directors is involved in reviewing plans, execution, and evaluation of transactions. Based on this review, the Board believes all related party transactions follow proper procedures. They align with standard business practices and comply with applicable laws and regulations (arm's length principle).

Role of the Board of Commissioners and Audit Committee in Affiliated Transactions

One of the key responsibilities of the Audit Committee is to monitor the follow-up actions on audit findings to assess the adequacy of the internal control system, including the adequacy of the financial reporting process. In addition, the Audit Committee conducts a review of financial information that the Bank intends to release to the public or other stakeholders and examines compliance with applicable laws and regulations. Therefore, transactions with affiliated and/or related parties are included in the Audit Committee's review and monitoring. As a body under the Board of Commissioners, the Audit Committee submits its performance reports to the Board of Commissioners, which carries out the supervisory function over the Bank's business operations. Therefore, the role of the Audit Committee and the Board of Commissioners is crucial in ensuring that all transactions conducted by the Bank align with applicable regulations and adhere to standard business practices (arm's length principle).

Related Party Transactions

The Bank conducts transactions with related parties as defined in PSAK 224 on "Related Party Disclosures" and Regulation No. VIII.G.7 on "Presentation and Disclosure of Financial Statements of Issuers or Public Companies."

- (1) Directly or indirectly, through one or more intermediaries, a party that (i) Controls, is controlled by, or is under common control with the Bank; (ii) Has an interest in the Bank that provides significant influence over the Bank; or (iii) Has joint control over the Bank.
- (2) A party that is part of the same business group as the Bank;
- (3) A party that is a joint venture where the Bank is a venturer;

- (4) A party that is a member of the Bank's key management personnel;
- (5) A party that is a close family member of an individual described in item (1) or (4);
- (6) A party that is an entity controlled, jointly controlled, or significantly influenced by or for a party with significant voting rights in multiple entities, either directly or indirectly, as described in item (4) or (5); and
- (7) A party that is a post-employment benefit plan for employee benefits of the Bank or an entity related to the Bank.

Reference for Disclosure in the Financial Statements

The details of related party transaction values are presented in Note 44 of the Financial Statements, which is attached to this Annual Report. These related party transactions are business activities conducted to generate revenue and are carried out routinely, repeatedly, and/or continuously.

Fairness and Reason for Conducting Transactions

All transactions are conducted fairly in accordance with the arm's length principle and comply with normal commercial terms and applicable laws and regulations. These transactions are based on BSI's business needs and are free from conflicts of interest.

Compliance With Applicable Regulations

Throughout 2024 and 2023, there were no violations of laws and regulations related to transactions with related parties. Additionally, no transactions involving conflicts of interest were conducted. BSI carries out transactions with related parties as defined in PSAK 224 on Related Party Disclosures and Regulation No. VIII.G.7 on the Presentation and Disclosure of Financial Statements for Issuers or Public Companies. All related party transactions have been conducted in accordance with policies and terms agreed upon by both parties. In 2024, there were no related party transactions requiring shareholder approval (GMS).

Statement from the Board of Directors Regarding Related Party Transactions

BSI has established procedures for conducting transactions, especially those involving related parties, in accordance with regulatory requirements. Under these procedures, the Board of Directors plays an active role in reviewing, executing, and evaluating transactions. Based on these considerations, the

Board of Directors believes that all transactions with related parties have been conducted through adequate procedures, in alignment with common business practices, and in compliance with applicable laws and regulations (arm's length principle).

Role of the Board of Commissioners and Audit Committee in Related Party Transactions

One of the key responsibilities of the Audit Committee is to monitor the follow-up actions on audit findings to assess the adequacy of the internal control system, including the financial reporting process. Additionally, the Audit Committee reviews financial information that the Bank intends to release to the public or other stakeholders. It also evaluates compliance with laws and regulations. As a result, transactions involving related parties are included in the Audit Committee's review and monitoring. As a body under the Board of Commissioners, the Audit Committee submits its performance reports to the Board of Commissioners, which supervises the Bank's business activities. Therefore, the role of the Audit Committee and the Board of Commissioners is crucial in ensuring that all transactions conducted by the Bank comply with applicable regulations and follow standard business practices (arm's length principle).

Policy on Loan Provision for the Board of Commissioners/Directors

Related Parties, Unrelated Parties, State-Owned Enterprises, Regional-Owned Enterprises, Regional Governments, and the Foreign Currency Financing Policy are outlined in the 2024 Financing Policy of Bank Syariah Indonesia. The provision of financing to Members of the Board of Directors and Members of the Board of Commissioners follows the same principles as financing for prospective customers of BSI in general. Such financing is provided at market rates and on an arm's length basis while maintaining the principle of prudence.

Changes In Accounting Policies

Reason for Accounting Policy Changes

Changes in accounting policies are made to comply with applicable Financial Accounting Standards (PSAK) that are relevant to BSI's operations.

Information on Accounting Policy Changes

The following are new financial accounting standards, amendments, and interpretations that became effective as of January 1, 2024:

Table of Changes to Financial Accounting Standards

No	Changes to Financial Accounting Standards	Impact of Changes in Accounting Policies on Financial Standard
1.	Amendment to PSAK 116: "Leases" on lease liabilities in sale and leaseback transactions;	The standard implementation did not result in any substantial changes to the Bank's accounting policies and had no material impact on the Bank's financial statements during the year or previous year.
2.	Amendment to PSAK 201: "Presentation of Financial Statements" on the classification of current or non-current liabilities;	The standard implementation did not result in any substantial changes to the Bank's accounting policies and had no material impact on the Bank's financial statements during the year or previous year
3.	Amendment to PSAK 201: "Presentation of Financial Statements" on long-term liabilities with covenants.	The standard implementation did not result in any substantial changes to the Bank's accounting policies and had no material impact on the Bank's financial statements during the year or previous year
4.	Revision to PSAK 401: "Presentation of Sharia Financial Statements" on the removal of the presentation of managed asset changes as one of the financial statement components.	The standard implementation did not result in any substantial changes to the Bank's accounting policies and had no material impact on the Bank's financial statements during the year or previous year

Bank's Soundness Level

The Bank's Soundness Level is assessed based on OJK Regulation No. 08/POJK.03/2014, dated June 11, 2014, concerning the Assessment of the Soundness Level of Islamic Commercial Banks and Islamic Business Units using a Risk-Based Bank Rating (RBRR) approach. The Bank's Soundness Level assessment for Islamic Commercial Banks covers four factors, namely Risk Profile, Good Corporate Governance (GCG), Earnings (Profitability), and Capital.

Table of Bank's Soundness Level

Assessment Factor	Assessment Per December 31, 2024	Assessment Per December 31, 2024
	Rating	Rating
Risk Profile	2	2
Good Corporate Governance (GCG)	2	2
Profitability	1	1
Capital	1	1
Overall Risk-Based Bank Soundness Rating	2	2

BSI's soundness Level Rating using the risk-based assessment method (RBRR) was at Composite Rating 2 (CR 2) which reflects the Bank in General Sound condition so that it is considered capable of facing significant negative influence from changes in business condition and other external factors.

Business Continuity Information

Factors That May Significantly Impact Business Continuity

Based on an evaluation conducted by management regarding BSI's ability to maintain business continuity in the future, it was found that BSI does not face any significant factors that could materially impact its sustainability. This evaluation includes an in-depth analysis of various operational, financial, and market aspects, demonstrating that the bank has strong fundamentals and an adaptive strategy to navigate changes in economic and industry conditions.

Management Assessment of Factors That May Significantly Impact Business Continuity

Management routinely conducts evaluations and assessments regarding factors that significantly impact business continuity. This evaluation includes a SWOT analysis consisting of Strengths and Weaknesses, which assess internal factors, as well as Opportunities and Threats, which identify external factors as the foundation for the bank's business continuity assumptions. Additionally, BSI evaluates the bank's financial health using a risk-based approach to assess its ability to withstand significant negative impacts from changing business conditions.

Based on the results of the SWOT analysis and the Bank soundness level assessment, it can be concluded that BSI does not face any significant risks to its business continuity. With strong internal capabilities, open external opportunities, and the ability to manage threats and risks, BSI is expected to continue growing and effectively handling business challenges. BSI has demonstrated maturity in business management and is well-prepared to navigate dynamic economic conditions and evolving market trends.

Assumptions Used By Management in Conducting the Assessment

In assessing BSI's ability to maintain business continuity in the future, several assumptions and considerations are used. In addition to the assumptions in the SWOT analysis, the assumptions in BSI's Bank soundness level assessment also serve as a basis for evaluation. The Bank soundness level is assessed based on four key assumptions: risk profile, good corporate governance, profitability, and capitalization.

Disclosure of Governance, Management, and Control Framework for Tax Aspects

As a corporate taxpayer operating in the highly regulated banking industry, BSI is committed to managing and controlling tax aspects in compliance with applicable tax regulations to maintain stakeholder trust. Tax management and control at BSI include fulfilling corporate tax obligations as well as obligations related to withholding and collecting taxes. BSI's tax management is overseen by the Corporate Finance & Accounting Group under the authority of the Finance & Strategy Director.

To ensure the quality of tax management and control, BSI has an adequate governance framework, including tax policy guidelines and procedures covering the identification of taxable transactions, tax payment and reporting administration, and tax risk management. This governance framework follows a comprehensive and structured process, including:

1. Establishing Standard Operating Procedures for taxation, which are regularly reviewed to align with applicable tax regulations, serving as a guideline for all work units in fulfilling corporate tax obligations. Additionally, BSI conducts regular tax training and socialization for employees in other work units.
2. Centralizing the administration of tax payments and reporting for all BSI branches in Indonesia at the Head Office, in collaboration with an authorized tax application service provider recognized by the Tax Authority. This minimizes the risk of administrative penalties for late tax payments and/or reporting. BSI only operates in Indonesia, therefore tax reporting is only done for Indonesia.

Maximum Funding Limit (BMPD)

The provision of funds to related parties is regulated under OJK Regulation No. 26/POJK.03/2021 concerning the Maximum Funding Limit (BMPD) and Large-Scale Funding Provision Sharia Commercial Banks (BUS). According to this regulation, large-scale funding refers to the allocation of funds to individuals or groups that are not classified as related parties, where the amount reaches 10% or more of the bank's core capital. Overall, large-scale funding to related parties is capped at a maximum of 10% of the bank's core capital, while the funding provided to non-related parties is capped at a maximum of 25% of the bank's Tier 1 capital. The BMPD regulation for BUS has been in effect since January 1, 2022.

BSI has implemented the Financing Policy for Bank Syariah Indonesia for the year 2024, which governs various policies related to the provision of financing. This includes financing for related parties, non-related parties, State-Owned Enterprises (BUMN), Regional-Owned Enterprises (BUMD), Regional Governments, as well as policies on financing in foreign

currencies. In executing this policy, BSI consistently adheres to the applicable banking regulations, ensuring that each financing transaction is carried out in accordance with the standards set by the relevant authorities.

In providing financing, BSI follows procedures similar to standard financing practices by considering a fair return for the bank. To manage risk, funding provided to a single borrower or group of borrowers that reaches 10 percent or more of the bank's core capital must be handled with great care. Extra caution is needed to prevent excessive concentration of risk. This financing process is closely monitored by the Financing Committee, which is composed of competent members, including the President Director, who plays a key role in making decisions regarding large scale financing. In the event that the President Director is unavailable, the Vice President Director may substitute in the decision making process.

In 2024, there were no violations of the Maximum Funding Limit (BMPD) provisions, neither breaches of BMPD nor exceeding BMPD.

Human Capital Management Strategy

The Bank has established a “Human Capital Roadmap” to support BSI’s innovative and proactive organizational transformation and human resources (HR) in responding to challenges and changes in the future. The Bank laid the focus of its human capital strategy in 2024 on how to increase employee productivity, improve business processes, align performance with rewards, accelerate employee capability development, and strengthen the integration of the Company’s risk awareness culture. The overall objective was to strengthen fundamental human capital policies.

Several programs that have been implemented in 2024 to support the implementation of the Human Capital strategy focus include the implementation of the Staff Development Program (SDP), Officer Development Program (ODP), Talent on Assignment at institutions outside the bank, the Masters Scholarship Program for BSI talent employees in 2024 at the world’s top 50 ranking universities, and updating the Human Capital Information System (HCIS).

As an appreciation and commitment to employee welfare, management conducted an annual increment, continued to provide token bonuses in the middle of the year, provided umrah appreciation and launched a retention program for talented employees in the form of bank shares.

As an appreciation and commitment to employee welfare, management conducted an annual increment, continued to provide token bonuses in the middle of the year, provided umrah appreciation for the best employees, provided an ESOP program for talented employees, provided vehicle facility expansion for Bank representative officials for all units, and facilitated various well-being programs.

Organizational development in the HR sector is carried out in line with the “Corporate Plan PT Bank Syariah Indonesia Tbk 2022-2032” and BSI’s aspiration to become a “Top 10 Global Islamic Bank.” As it worked to meet this aspiration, BSI continuously reviewed the organization to support its key metrics, including increasing the customer base, profitability, and volume of the Bank’s assets in 2024 through adjusting the organizational structure with a laid focus on:

- Strengthening BSI with a lean organizational structure and effective business processes that allow for faster and more optimized delivery of the Bank’s services to customers.
- Strengthening IT functions to support the stabilization, reliability and security of Bank IT.
- Developing business, infrastructure and digital operations BSI.
- Strengthening BSI’s performance culture by increasing the Product Holding Ratio (PHR) with a customer-centric organization approach.
- Strengthening Good Corporate Governance by establishing a unit that manages ESG and Personal Data Protection functions.

Human Capital Management Policy and Implementation

Recruitment

Employee satisfaction according to the Bank's needs and strategies is essential in supporting the implementation of services, operations, and business of the Bank. Employees satisfaction according to manpower planning is by considering the Bank's strategy, budget, organization, employee sources, and employee fulfillment timing.

The Bank's employee needs were met from both internal and external sources through several stages, including identifying needs, determining qualifications, searching for candidates, conducting the selection process, and placement.

In fulfilling employee needs, priority was given to internal sources through rotation, mutation, and promotion schemes. Meanwhile, for fulfilling employee needs from external sources, the Bank used the following selection paths:

1. Regular

The employee fulfillment path intended for candidates, who were fresh graduates to fill Staff level positions at the Head Office, Regional Office and Work Units under the coordination of the Regional Office.

2. Professional Hire

The employee fulfillment path aimed for candidates, who had sufficient experience in their field of work in accordance with the qualifications that had been set to occupy positions at the Officer, Manager, Middle Manager, Senior Manager level

3. Officer Development Program (ODP)

This recruitment path was intended for top fresh graduate talents to be placed in Officer-level positions and developed into future leaders of the Bank.

In 2024, the ODP selection was conducted through a new program called BSI ROCK (BSI Recruitment on Campus for Knowledge), a one-stop recruitment program aimed at building employer branding, sharing knowledge, and connecting business. One of the activities held as part of the BSI ROCK program was a knowledge-sharing session covering the BSI profile, sharia banking literacy, career opportunities at BSI, essential industry skills, and other insights, featuring speakers from the BSI Board of Directors.

In 2024, BSI conducted external recruitment as follows:

Program	Jalur Rekrutmen	Jumlah Pegawai

	Professional Hire (Pro Hire)	
Development Program	Officer Development Program (ODP) General, Wholesale, IT, Digital	315

Competency Development

Based on the Human Capital Standard Operating Procedure (SOP) Chapter V Training and Development, the method of developing employee competencies and learning refers to the experience, engagement, and education approaches. The composition of the development is adjusted to the level and needs of the current position (current) and the projected position (future).

a. Experience

Employee competency development and learning is carried out through real work experience or other assignments which can take the form of, among others: placement and assignment (rotation/mutation), temporary assignment (detasering), assignment to the Bank's strategic projects, attachment (internship) to the parent company or other companies within the group, on the job training, and role play.

b. Engagement

Employee competency development and learning is carried out through individual interaction between employees and other parties appointed by the Bank, which can take the form of but is not limited to coaching, counseling or mentoring.

c. Education

A systematic employee competency development and learning program that can be carried out independently or in class according to the types of learning services.

The Bank provided opportunities for all employees to participate in competency development programs organized by the Bank, in accordance with the needs of their respective positions. The implementation of competency development in 2024 is as follows:

Competence Development Costs

Until the end of the 2023 financial year, BSI had spent IDR90.6 billion on employee competency development. For the upcoming year 2024, the Bank has allocated an estimated budget of IDR135 billion.

Carrer Development

One form of employee career development is through promotion. The Bank classifies the promotion process as follows:

1. Job promotion
Job promotion is the process by which an employee is promoted from a lower to a higher position group. Career path advancement begins when employees meet job qualifications in accordance with the requirements of the position in the intended position group.
2. Grade Promotion
Grade promotion is the process by which a grade is adjusted to a higher grade. The Bank may consider giving grade promotions to employees who meet the established parameters according to the Bank's capabilities.

Performance Assessment

BSI implements a transparent employee performance appraisal system, with the following objectives:

1. Support the achievement of organizational goals through employee performance achievements.
2. Develop a positive and productivity-oriented corporate culture.
3. Increase employee engagement.

The performance management process is run continuously by ensuring harmony, which is how to translate corporate goals into targets and goals for work units and individuals. This should maintain a strategic alignment of corporate with individual, and there is a link between individual performance and Bank performance.

The annual performance management cycle is divided into 3 (three) stages.

1. Performance planning to establish individual employee KPIs (key performance indicators).
2. Performance Monitoring to review performance goals and targets and determine steps that can be taken to ensure those goals and targets are achieved.
3. Performance Evaluation, which is the evaluation of established goals and performance targets to generate employee performance scores at the end of the period.

In the process of managing employee performance, the Bank places priority on the creation of 2 (two) way employee-manager communication to create a harmonious relationship where managers can give suggestions/feedback (development dialogue) for improvements to improve employee performance. The entire performance management process is run virtually through the Employee Information System (SIP), which employees can easily access and facilitate the storage of all information about employee performance. Feedback on the year-end performance assessment will be used as an employee development plan for the following year.

Remuneration

Bank Syariah Indonesia complies with applicable government regulations regarding employee remuneration. The amount of remuneration provided has been adjusted to applicable regulations, including the Minimum Wage standard applicable in the area where the company operates. Management of the remuneration system (reward) is one of the Bank's strategies in providing remuneration to employees which can be competitive financial or non-financial. Bank Syariah Indonesia's reward system policy in 2024 has been aligned with BSI's employee remuneration position against the market to ensure BSI remains competitive.

Rewards are given by the Bank by prioritizing the principles of competitiveness and fairness based on performance and risk by considering the implementation of best practices in the banking industry. In order to maintain market competitiveness, the Bank regularly participates in the Annual Salary Survey in the banking industry in Indonesia which is carried out by a competent independent survey institution.

Giving rewards has the particular purpose of maintaining a competitive position in the market, retaining and motivating employees, especially the Bank's talents, while attracting the best talent in the industry that the Bank is in need of in order to achieve business goals and maintain business sustainability.

The bank provides financial and non-financial rewards. Financial rewards were given in the form of assistance during joyful and sorrowful occasions, as well as aid for employees affected by natural disasters. Meanwhile, non-financial rewards included Umrah appreciation for 26 top-performing employees in the third quarter (Q3) of 2024. The provision of this Umrah appreciation serves as BSI's Unique Value Proposition (UVP) in the market as one of the largest sharia banks in Indonesia, by fostering Islamic spiritual values among the recipients. Other non-financial appreciation was also given in the form of recognition to work units and individuals based on the best innovations or other special achievements that had a significant impact on BSI's performance and reputation. This appreciation was presented at the "BSI Excellence Award" as the Bank's highest form of recognition.

Retirement Program

The Bank has developed a policy for training or provision programs for employees who are approaching retirement age, so trainings can be held in a structured manner with clear and more planned criteria for participants and time. The spouses of retiring employees are welcome to join.

Internalization of Culture

Instilling Moral Values: Driving Innovation and Collaboration for Sustainable Growth in 2024

2024 is a strategic momentum for BSI to integrate the core values of AKHLAK (Trusted, Competent, Harmonious, Loyal, Adaptive, Collaborative) into every aspect of operations and work culture. Management is consistently involved in BSI One Culture internalization activities such as Nobar (watch together) Video AKHLAK, Taujih Pekan Ber-AKHLAK, CEO Greeting, BYOND by BSI Activation program, and other cultural internalization activities. By prioritizing innovation as a catalyst for change and collaboration as a driver of harmony, BSI has launched a number of programs aimed at creating sustainable impacts for the internal organization and all stakeholders.

In line with the spirit of Competent and Adaptive, BSI strengthens the culture of innovation through the Innovation Culture Journey 2024. This program aims to encourage the creativity of BSI people while creating an ecosystem that supports new ideas to become real solutions. The main initiatives in this program include:

1. Innovation Challenge: This innovation competition consists of three main categories, namely:
 - Best Idea - Breakthrough, for innovative ideas with the potential for major changes.
 - One Unit One Implementation Innovation, challenges each work unit to implement at least one innovation in the work unit.
 - Best Implementation - Breakthrough, an award for innovations that have been successfully implemented and have a significant impact.

2. Innovation Series Webinar and Innovation Clinic: Held in a hybrid manner (online and offline), this activity is a forum for sharing knowledge and practical assistance to accelerate the adoption of innovation across all lines of the organization.
3. Standardization of Innovation Process: As a strategic step, BSI is committed to making the innovation process part of the company's policies and regulations, ensuring the sustainability and alignment of innovation within a structured framework.

In the spirit of Harmony and Collaboration, BSI launched the Collaboration Survey as a concrete step to measure and strengthen synergy between work units. This survey allows each work unit to provide assessments, feedback, or appreciation for other work units that have collaborated. This program not only encourages transparency and continuous improvement, but also creates a work culture that supports and appreciates each other.

With the foundation of AKHLAK values, BSI is committed to continue to drive innovation and strengthen collaboration in the years to come. A work culture that is Trustworthy, Competent, and Adaptive, as well as Harmonious and Loyal collaboration, the organization will continue to grow into a relevant, competitive entity that brings broad benefits to society. BSI One Culture in driving performance makes BSI people have high performance high engagement.

Disclosure of Information to Employees

The Secretary of the Policy & Procedure Committee (Policy & Procedure Work Unit) conducts socialization of Bank regulations together with the Owner Work Unit, there are several socialization media used, namely:

1. Preparation of socialization of provisions through Infographics and Executive Summary.

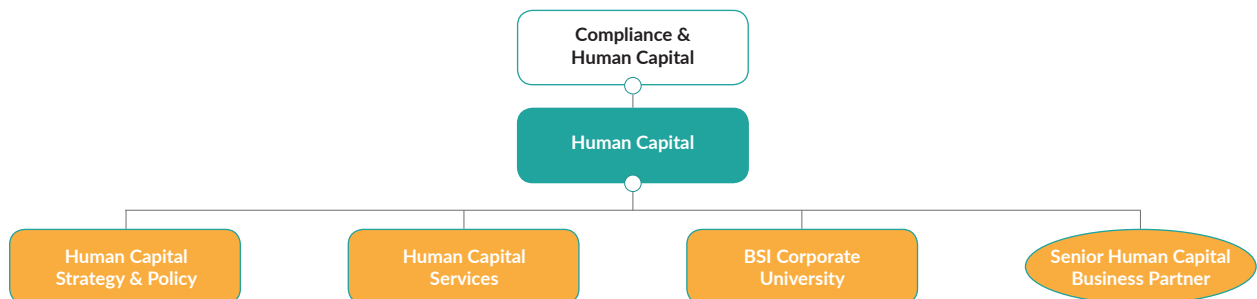

2. Sharing Knowledge
Secretary of the Policy & Procedure Committee ((Policy & Procedure Work Unit) together with the Work Unit Owner as resource persons in Sharing provisions to all BSI employees in coordination with BSU.
3. Refreshment and Quiz
Employees access reading materials through the New Policy System and work on Refreshment using the Learning Management System (SMILE). Refreshment and Quiz are carried out at least 2 times a year in collaboration with BSU.

4. Update NPS (New Policy System)
NPS is a web-based application that contains all the internal provisions of Bank Syariah Indonesia, making it easier for Users to access the provisions and also provide Users with an understanding of the implementation of Bank provisions.

Master Plan and Information Technology Strategy

In order to achieve the vision of becoming a "Top 10 Global Islamic Bank in 2025" and "Top 5 Global Islamic Bank in 2030" and the mission to increase the number of customers, assets, and Return on Equity (ROE), BSI has prepared an Information Technology (IT) strategy for 2024 - 2026. This strategy focuses on being the best provider of Islamic financial platforms for financial, social and spiritual solutions. As a reference in determining and executing the strategy, BSI has prepared an IT House of Strategy with 3 (three) main pillars, namely People, Process & Technology. The Bank has carried out several initiatives in the following 3 (three) aspects:

- a. People: Increasing the capacity and capability of human resources by recruiting employees and training & development.

- b. Process: Continuous improvement of IT processes by improving management governance in the project phase (SDLC) to operations.
- c. Technology: Implementation of IT strategic initiatives in 4 (four) IT architecture domains (Applications, Infrastructure, Security, and Data)

In line with the focus of the 2024 - 2026 strategy, BSI has prepared the following IT strategy for 2024:

- a. Digital Solution for Retail and Wholesale
- b. Business & Operation Transformation
- c. IT RASS (Reliability, Availability, Serviceability, Security)

Information and Technology Innovation

PT Bank Syariah Indonesia Tbk continues to plan and develop IT in terms of technology and infrastructure to support the BSI 2024 strategy, including core banking, as well as strengthening business and digital banking. The following are some innovations in information technology development in 2024:

1. Launch of the BYOND by BSI superapps application, development of BYOND by BSI as a one-stop digital platform financial superapp to become a spiritual, social, and financial friend.
2. Bewize application with one of the main features of the Cash Management System, as a banking service for corporate or institutional customers for integrated customer financial management.
3. Addition and replacement of ATMs and CRM, to meet customer needs in making transactions at Strategic, Visible & Secure locations.
4. Further development focused on Government & Regulatory projects, in supporting government and regulator projects, such as the development of BI Fast and QRIS.
5. Further development related to strengthening the system security perimeter.
6. Data Center development carried out to increase service availability and system resilience.
7. Advanced development of Big Data & Analytics, development and expansion of Big Data & Data Analytics technology capabilities by utilizing data for analytics & decision making as master data, as well as supporting services according to customer needs and conducting data-based business development

Information and Technology

Infrastructure

Bank Syariah Indonesia (BSI) continues to improve its information technology infrastructure to accommodate business growth, number of customers, and transactions. BSI is developing infrastructure in the form of implementing a Data Center to fulfill high availability with the Intercity Data Center, increasing server infrastructure capacity, storage, and updating technology platforms, as well as implementing Cloud to support application operations such as BYOND by BSI superapps. In addition, BSI is strengthening technology security and resilience to cyber threats by implementing Extended Security Intelligence & Automation Management (XSIAM) and Multifactor Authentication (MFA).

Information and Technology

Governance

The IT development process uses agile and/or waterfall methods regulated in the Software Development Life Cycle (SDLC). In its implementation, there is a division of phases whose development starts from Planning, Design, Development, Testing, Release and Deployment to the production environment, to the Post Implementation Review (PIR).

- Implementation of ISO 27001:2022 certification.
- Optimization of proactive activities such as threat hunting (darkweb) and takedown services against fake accounts or websites that use the name of BSI.
- Implementation of Phishing simulations for internal employees to increase cybersecurity awareness.

2024 Cybersecurity Capability Improvement Strategy

BSI's cybersecurity capability improvement strategy and steps cover 3 (three) aspects, namely "People, Process & Technology".

PEOPLE

As a step to improve human resource capabilities, several actions have been taken, including:

- Providing training and certification for 33 CSO employees.
- Fulfilling the positions of "vacant" employees at levels N2, N3 and N4 with a total of 12 employees.
- Fulfilling IT Security Awareness activities for internal and external.

PROCESS

The process aspect is also a concern that is improved in terms of cybersecurity capabilities by carrying out actions including:

TECHNOLOGY

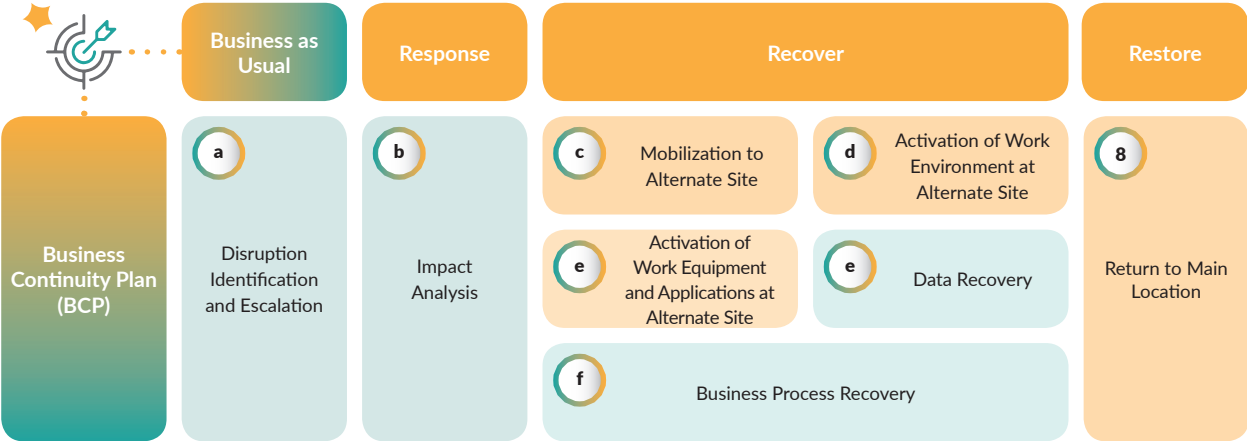

Bank BSI has succeeded in increasing its cyber security capabilities in the technology aspect as proven by BSI proven in the period from January to December 2024 BSI Scorecard Rating is stable at the predicate "A", there were no major security incidents and there was an increase in the cyber security maturity score (OJK parameter) for the data period as of the end of December 2024.

Capabilities improvement and ongoing improvements will continue to be carried out to support BSI's 2030 vision, namely to make BSI the best in cyber security in the global Islamic banking industry. People, Process, Technology aspects to achieve Strong Rating (Public & Internal), increasing the growing security maturity level, and a Lean and proactive organization in managing cyber security risks.

The Board of Commissioners and Directors always ensure that information technology risks such as IT disruption, cyber security, and disaster recovery are managed properly.

Mechanism of Disruption Identification

The mechanism of disruption identification at Bank Syariah Indonesia (BSI) has been regulated in general provisions related to Business Continuity Management (BCM) and specifically in the Operational Technical Guidelines (PTO) of the Business Continuity Plan (BCP). In the event of an IT disruption, the Bank handles it based on the stages of disaster event identification so that follow-up can be carried out according to the identification results and the authority of the Crisis Management Team (CMT) organizational structure.

Cyber Security Strategy

BSI implements all IT policies and standard procedures in the Bank and ensures that any information owned by IT user work units is well protected against any disruptions that could result in losses due to the leakage of critical data or information. The Bank ensures adequate security oversight in any IT system development or modification and ensures the Bank's cyber resilience and security independently of the IT operational management function. The application of the basic principles of cybersecurity at BSI, among others:

1. Information is an asset
2. Risk compatibility
3. Compliance with regulations
4. Granting of approval
5. Adaptable and measurable
6. System safe by design
7. Layered defense
8. Segregation of duties and access restrictions
9. Accountability
10. Audit
11. Continuous improvement

Criteria in the Cyber security controls used:

1. Confidentiality
2. Integrity
3. Availability

Furthermore, BSI has established a Chief Security Officer Office Group (CSO) work unit that manages cybersecurity and includes the following capabilities:

1. Security Project & QA
2. Application Identity Management

3. Network Access & Data Protection
4. IT Security Services
5. IT Security Operations
6. Security Operation Center

To supporting the digitalization of BSI banking services, a cybersecurity strategy was designed in line to secure BSI from cyber threats to digital platforms, both threats coming from outside and from within BSI. BSI also implements the NIST cybersecurity framework and other cybersecurity management frameworks used as global security practices in the financial industry.

In the period from January to December 2024, BSI's security posture consistently showed the Best Rating Performance (Strong Rating A) and was above the average Rating in the global Financial Industry (Rating B). This Security Posture was assessed independently by Security ScoreCard, an agency engaged in the global security rating industry based in the United States.

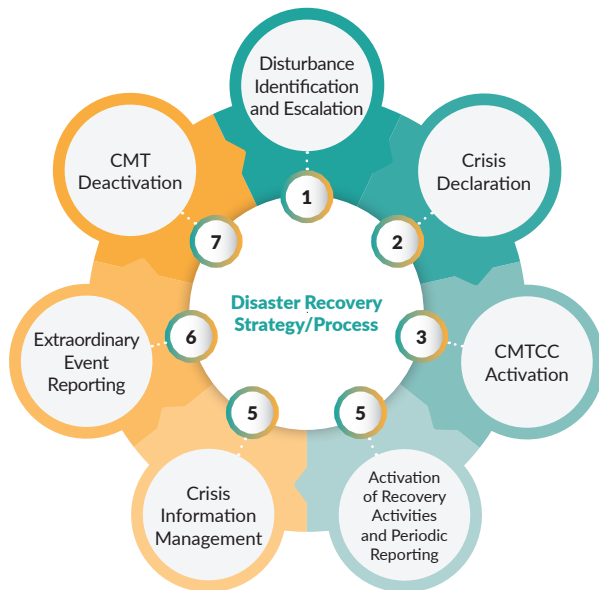

In terms of industry practice, BSI has also been certified by ISO 27001:2022 since February 2024 (certified by the British Standard Institute/BSI), which is also an international standard cybersecurity qualification standard. BSI also received a Cybersecurity Maturity assessment result with a status of "High (Level 2)" according to the assessment by Ernst & Young (EY) with Cybersecurity measurements as regulated in OJK Circular Letter No.29 of 2022.

BSI will continue to develop and improve cybersecurity strategies and implementations continuously to ensure that customers always get safe and reliable services from BSI as a financial, social and spiritual friend.

Disaster Recovery Strategy/Process

In principle, the Bank's need during a crisis condition is to create a business back to normal conditions. The disaster recovery process is an integration between Emergency Response (ER), Business Continuity (BC), and Data Recovery (DR).

The Bank has a crisis management procedure, which includes identification of disruptions, crisis declaration process, and activation of recovery activities. The Crisis Management Plan procedure flow is as follows:

A detailed explanation of the crisis handling procedure is as follows:

1. Disturbance Identification and Escalation

- The affected Party employees detect any Extraordinary Event disturbances and make corrective efforts.
- The affected Employees/Parties then make a report and escalate it to the relevant Team Coordinator.
- The Crisis Management (CM), Emergency Response (ER), Business Continuity (BC), Disaster Recovery (DR) Team Coordinator evaluates and analyzes the Extraordinary Event report. In evaluating and analyzing, the relevant Team Coordinator may consult with the BCM Command Center.
- If it has the potential to become a crisis, then the relevant Team Coordinator escalates to the Crisis Management Team (CMT) Chairperson.

2. Crisis Declaration

- The CMT Chairperson receives a report analyzing the disruption of an Extraordinary Event that has the potential to become a crisis.
- The report of disturbance that has the potential to become a crisis is then verified. In conducting verification, the local CMT Chairperson can consult with the CMT/CMT Chairperson at the upper level.
- If the disturbance cannot be handled and has the potential to become a crisis, the CMT Chairperson will conduct a "Crisis Declaration" if action is needed.

3. Activation of Crisis Management Team Crisis Center (CMTCC)

- CM Service as the organizer, activates the Virtual or Physical CMTCC after receiving instructions from the CMT Chairperson.
- The CMT can coordinate at the Virtual CMTCC or if a meeting is required, it is conducted at the Physical CMTCC.
- If the Main Physical CMTCC can be used, the CMT will gather in the CMTCC room. However, if the Main Physical CMTCC cannot be used, the Alternate Physical CMTCC needs to be activated.

4. Activation of Recovery Activities and Periodic Reporting

- The CMT Chairperson leads, coordinates, and instructs the Recovery Activities.
- The Internal & External Communication Team Coordinator, CM, ER, BC, DR Team Coordinators execute the communication, recovery plan and report progress to the CM/ ER/BC/DR Services, CMT Vice Chairperson, and CMT Chairperson.
- The CM/ER/BC/DR Services is in charge of guiding and advising on recovery activities to the Communication Team Coordinator, CM Team Coordinator, ER Team coordinator, BC Team Coordinator, and DR Team Coordinator.
- After receiving progress reports, the CMT participates in providing advice on recovery activities.

5. Mechanism of Crisis Information Management

- Related parties convey the existence of negative articles in the media that risk the Bank's reputation and have a large impact.
- The work unit related to the substance or matter in the negative article compiles a chronology.
- If necessary, the reviewer unit can provide a review of the substance of the negative article and the chronology.
- The negative article, chronology, and review are then reviewed and analyzed by the Coordinator of the Internal and/or External Communication Team.
- The Coordinator of the Internal and/or External Communication Team then issues a proposal for Information Management Strategies and Tactics and requests approval from the CMT Chairperson.
- Upon approval, the CMT Chairperson ensures the implementation of the Strategy and Tactics. Then the Coordinator of Internal and/or External Communication Team together with the Relevant Parties carry out the execution.
- The Coordinator of Internal and/or External Communication Team carries out the execution and continues to monitor and report.

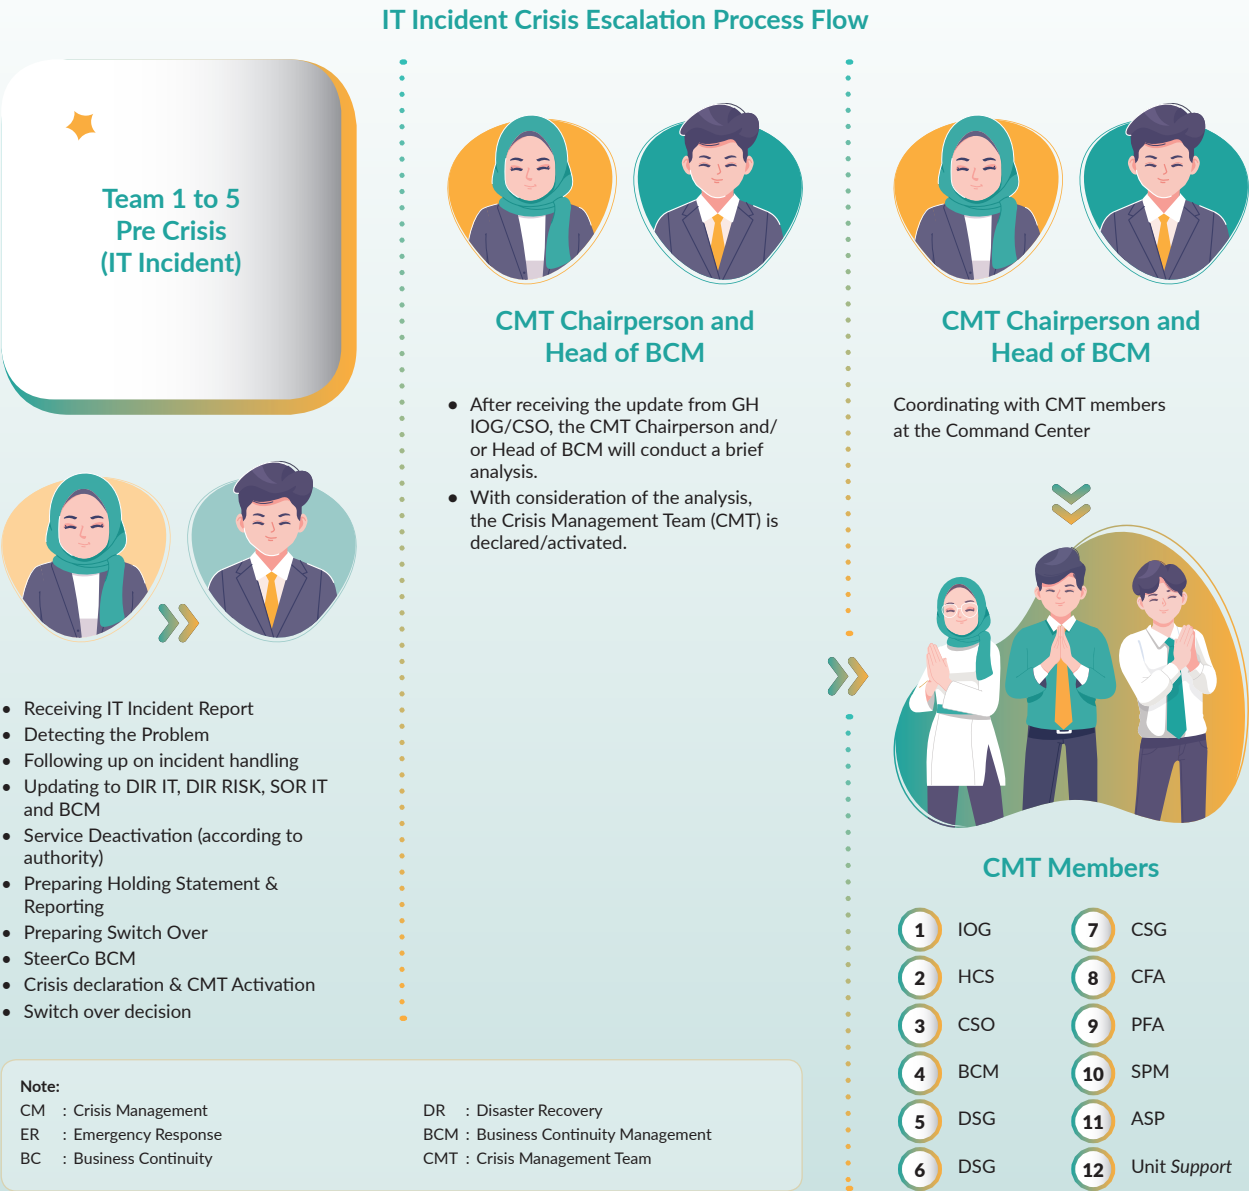

6. Extraordinary Event Reporting/Crisis Communication

- The CMT chairperson of the Head Office discusses and orders the creation of the Extraordinary Event Reporting.

- b. The Coordinator of External Communication Team of the Head Office then collects information related to the needs of external communication from the Related Parties.
 - c. After obtaining the required data, the External Communication Team of the Head Office prepares a Press Release Draft and then requests approval from the CMT Chairperson of the Head Office.
 - d. After the Press Release Draft is approved, the Coordinator of External Communication Team of the Head Office will consider organizing a Press Conference or conducting a Press Release.
 - e. If conducting a Press Conference, the appointed Bank Spokesperson is responsible for delivering and responding to messages from external parties.
7. Deactivation of Crisis Management Team (CMT)
- a. The External Communication Team, CM Team Coordinator, ER Team Coordinator, BC Team Coordinator, DR Team Coordinator completed communication and recovery activities at the affected locations.
 - b. The CMT Chairperson evaluates the post-crisis and continues to communicate with the CMT.
 - c. Once the crisis is considered over, then at the Region/Area/Branch/KLN level, the local CMT Chairperson declares the end of the crisis and operations return as usual.
 - d. At the Head Office level, the CMT Chairperson of the Head Office declares the end of the crisis and then continues the handover of business-as-usual supervision to the Head of BCM.

Commitment to Governance Implementation

Implementing Best Governance Practices that are an Integral Part of Business Strategy is Key to BSI's Long-Term Success

BSI always strives to improve the best practices of Good Corporate Governance (GCG) implementation according to national and international standards in the applicable industry. This is important for BSI to deal with the risks and challenges, both from internal and external sources that are increasingly numerous and complex. Along with the development of laws and regulations, BSI always tries to update the provisions related to GCG that will be used as a guideline. BSI believes that the implementation of GCG according to the latest standards will increase the added value for all Bank stakeholders, namely

creating harmony between the Bank's objectives and the objectives of stakeholders so that they are well established.

The impact of GCG implementation on the Bank's financial performance can be reflected in sustainable growth. By implementing environmental and social responsibility practices, it is expected that the Bank can build a strong reputation in meeting increasingly challenging market demands. Therefore, BSI strives to continue implementing GCG practices that are an integral part of the business strategy as the key to BSI's long-term success.

Achievement of Governance Implementation

As the largest sharia bank in Indonesia and promoting the Vision of becoming the Top 10 (ten) Sharia Banks globally, BSI always moves forward to become a role model for other sharia banks in Indonesia. BSI's commitment and consistency in maintaining and improving good governance practices can be interpreted as a manifestation of performing a great mandate, a milestone for the sharia banking economy in Indonesia.

In 2024, as BSI had entered its third year after the merger, BSI achieved various achievements. In the governance aspect, it was proven by the Bank's position in the Corporate Governance Perception Index (CGPI) by achieving the title of "Most Trusted" category. BSI was assessed by external parties to maintain superior, transparent, and sustainable Corporate Governance and operate a business in accordance with sharia principles. BSI's achievements, up to now, could not be separated from the

commitment of the Board of Directors, Board of Commissioners, and the role of the Sharia Supervisory Board and BSI personnel, who performed business practices in accordance with business ethics and the Company's behavioral standards (Code of Conduct) in every task and daily service as well as in conducting business relationships with customers, partners, and colleagues.

Awarding CGPI 2024

CGPI Award Charter 2024

For BSI, conducting business did not only use banking standards, but also established sharia values (maqashid syariah) as the main pillar. Sharia principles were an inseparable part and identity of BSI in regulating BSI behaviors as a Bank and Public Company as well as principles that had to be maintained and implemented by BSI Personnel in achieving the Bank's goals in accordance with BSI's Vision and Mission.

In term of GCG implementation, BSI obtained ISO 37301:2021 Compliance Management System Certificate, ISO 3701:2016 Anti-Bribery Management System Certificate, ISO 9001:2015 Quality Management System Certificate, ISO 22301:2019 Business Continuity System Certificate, and ISO 2701:2022 Information Security Management System Certificate.

Roadmap Corporate Governance

2021	<p>Awareness of GCG (Good Corporate Governance) implementation began at the time of the merger into BSI. BSI adopted best practices from each legacy bank, which were then refined and implemented within BSI. BSI has also enhanced its GCG implementation by taking the following steps:</p> <ul style="list-style-type: none"> • Establishment of committees under the coordination of the Board of Commissioners, namely: <ul style="list-style-type: none"> - Audit Committee - Risk Monitoring Committee - Remuneration and Nomination Committee • Establishment of a Corporate Secretary. • Holding General Meetings of Shareholders (GMS) in accordance with the prevailing laws and regulations applicable to public companies. • Timely disclosure of information, including publication of financial reports, information, and material events or facts. • Preparation of an Annual Report that is timely, adequate, clear, and accurate, with consideration for the interests of minority shareholders. <p>In addition, BSI is also committed to anti-gratification, as evidenced by the signing of an Integrity Pact by all BSI employees. BSI has also obtained ISO 37301:2016 for the Anti-Bribery Management System.</p> <p>As part of its efforts to assess the quality of governance implementation, BSI participated in governance research and ranking programs, namely the Corporate Governance Perception Index (CGPI), organized by an independent party. In the 2020 CGPI program held in 2021 with the theme: "Building Company Resilience within the Framework of Good Corporate Governance", BSI earned the "Highly Trusted" predicate with a score of 88.89.</p>
2022	<ul style="list-style-type: none"> • Conducted a Rights Issue to strengthen BSI's capital structure. • Became the first Sharia Bank to obtain ISO 37001:2021 certification for the Compliance Management System. • As part of the ongoing improvement of Governance practices and as a form of commitment and consistency in its implementation, BSI aligned its Governance practices by adopting the principles developed by the Organization for Economic Cooperation and Development (OECD) and endorsed by the ASEAN Capital Market Forum (ACMF), known as the ASEAN Corporate Governance (CG) Scorecard. • BSI has once again earned the "Very Trusted" predicate with a score of 90.00 in the Corporate Governance Perception Index (CGPI) assessment.
2023	<ul style="list-style-type: none"> • Maintained ISO 37301:2021 Certification for the Compliance Management System and ISO 37001:2016 Certification for the Anti-Bribery Management System. • BSI once again achieved the "Highly Trusted" predicate with a score of 91.50 in the Corporate Governance Perception Index (CGPI) assessment. • Conducted four (4) dissemination sessions on strengthening gratification control in collaboration with the Corruption Eradication Commission (KPK).
2024	<ul style="list-style-type: none"> • BSI once again successfully maintained the ISO 37301:2021 Certification for the Compliance Management System. • BSI successfully renewed the certification and expanded the scope of ISO 37001:2016 for the Anti-Bribery Management System. • As a manifestation of BSI's commitment to implementing Good Corporate Governance and as a public company that practices information transparency, BSI discloses its best practices adopting the ACGS principles on the Company's website. • For the first time, BSI conducted a compliance maturity assessment, reflecting the level of BSI's compliance with internal and external regulations as well as prevailing laws. • BSI has once again earned the "Very Trusted" predicate with a score of 91.80 in the Corporate Governance Perception Index (CGPI) assessment.

Basis and Guidelines for Implementing GCG

As an Islamic bank, the primary foundation for implementing Sharia principles in all activities of BSI is the Quran and Hadith. 4. Principles for Enhancing Corporate Governance issued by the Basel Committee on Banking Supervision.

Corporate Governance Structure and Mechanism

Corporate Organ Structure

BSI optimizes all complementary organ functions in creating an effective control environment and supporting the integrity of information used for reporting and decision-making, so it encourages the strengthening of the three-line model to realize soundness and sustainable growth and achieve BSI's goals without ignoring the interests of stakeholders.

The BSI GCG structure is broadly divided into main and supporting bodies, each of which is supported by policies and procedures. More specifically, the Bank's governance organizational structure includes:

1. General Meeting of Shareholders (GMS);
2. Board of Commissioners;
3. Sharia Supervisory Board;
4. Board of Directors;
5. Committees under the Board of Commissioners;
6. Sharia Committee
7. Committees under the Board of Directors.

Governance Structure

To improve the quality and scope of sustainable governance, BSI has formulated and implemented a governance structure to regulate the relationship between organs in BSI so that the duties, responsibilities, and authorities of each organ are clear in accordance with applicable regulations, GCG principles, soundness business ethics, or best practices. The existence of a governance structure is a form of internalization of GCG in the Bank's business processes that enhances the GCG infrastructure.

BSI Governance Structure is used as a framework and governance in the preparation of policies and implementation of Bank activities, including:

1. The Bank's Articles of Association, which have been amended several times, most recently amended based on the Deed of the General Meeting of Shareholders (GMS) Decision No. 37 dated May 17, 2024, drawn up by Ashoya Ratam, S.H., M.Kn., Notary in South Jakarta, and approved by the Ministry of Law and Human Rights of the Republic of Indonesia, No. AHU-0035266.AH.01.02.Year 2024.

Competency Training and/or Improvement of Member of The Board Of Directors

The policy related to improving the competence of the Board of Directors is regulated in the Human Capital Standard Operating Procedure which aims to ensure that each member of the Board of Directors has adequate knowledge and skills in carrying out their duties and responsibilities. The competence development program includes training, workshops, and other activities designed to improve competence in accordance with the latest developments in the Bank's industry and business. Each member of the Board of Directors is required to participate in the competence development program periodically to ensure that they continue to have relevant understanding and can make the right decisions. The Board of Directors' participation in improving competence during 2024 is as follows

Implementation of The Board of Directors' Duties

During 2024, the Board of Directors has carried out duties and responsibilities, including:

1. Implementing a GMS consisting of 1 (one) Annual GMS.
2. Preparing the Company's Long-Term Plan (RJPP), Bank Business Plan (RBB), Company Work and Budget Plan (RKAP), Sustainable Financial Action Plan (RAKB) and other work plans.
3. Preparing the Annual Report, Financial Report and Sustainability Report.
4. Ensuring that the Bank's accounting system is in accordance with financial accounting standards and internal control principles, especially in terms of management, recording, deviations and financial supervision.
5. Implementing internal meetings of the Board of Directors and with related groups.
6. Ensuring the adequacy of processes and systems to identify, assess and control risks faced by the Bank.
7. Creating a clear organizational structure, tasks and determining responsibilities including the appointment of management.

Performance Assessment of Committees Under the Board of Directors and the Basis for Assessment

In carrying out the scope of their respective duties and responsibilities, the Board of Directors is assisted by 7 (seven) Committees under the Board of Directors, consisting of:

1. Risk Management Committee
2. IT Steering Committee
3. Policy & Procedure Committee
4. Business Committee
5. Human Resources Committee
6. Asset and Liability Committee
7. Steering Committee Crisis Management – Business Continuity Management

The performance assessment of the Committees under the Board of Directors is carried out annually based on the implementation of tasks and meetings that have been carried out by each committee during the financial year. Based on the assessment carried out by the Board of Directors, during 2024 all Committees under the Board of Directors have carried out their duties and responsibilities.

Resignation and Dismissal Mechanism for Directors

The term of office of a member of the Board of Directors ends if:

1. His/her term of office ends in accordance with the provisions of the Bank's Articles of Association.
2. His/her resignation has been effective in accordance with the provisions of the applicable Articles of Association.
3. No longer meets the requirements as a member of the Board of Directors based on the provisions.
4. The Articles of Association and laws and regulations.
5. Deceases.
6. Dismissed based on GMS resolutions.
7. Declared bankrupt by a Commercial Court that has legal standing or seized under guardianship based on a court decision.

A member of the Board of Directors has the right to resign from his/her position before the end of his/her term of office by notifying the Company in writing of his/her intention no later than 90 (ninety) days. The Company is required to hold a GMS to decide on the resignation request of the relevant member of the Board of Directors within a period of no later than 90 (ninety) calendar days after receipt of the letter of resignation.

The Company must provide information disclosure to the public and submit it to the OJK no later than 2 (two) working days after receiving the resignation request of the Board of Directors resulting from the holding of the GMS. Before the resignation becomes effective, the relevant member of the Board of Directors must complete his/her duties and responsibilities in accordance with these Articles of Association and applicable laws and regulations.

Members of the Board of Directors who resign as mentioned above can be requested for accountability as members of the Board of Directors from the time of their appointment until the date of approval of their resignation in the GMS. Release of responsibility of members of the Board of Directors who resign is granted after the Annual GMS releases them.

Board of Commissioner

The Board of Commissioners is a corporate body tasked collectively with supervision and providing advice to the Board of Directors, including ensuring that Bank Syariah Indonesia implements Corporate Governance (CG) at all levels and tiers of the organization.

The BSI Board of Commissioners consists of Commissioners and Independent Commissioners. The proportion of Commissioners to Independent Commissioners on the Board of Commissioners is determined in accordance with applicable laws and regulations.

The Board of Commissioners is appointed and accountable to the General Meeting of Shareholders (GMS). This accountability is a manifestation of oversight accountability for company management in the implementation of CG principles.

Duties and Responsibilities of The Board of Commissioners

Pursuant to the Articles of Association, the Board of Commissioners Charter, and all applicable regulatory provisions, the Board of Commissioners has the following duties:

1. The Board of Commissioners has a duty to:
 - a. Supervising the implementation of duties and responsibilities of the Board of Directors and providing advice to the Board of Directors, including on work plans, bank development, implementation of the Articles of Association, resolutions of the General Meeting of Shareholders (GMS) and/or Extraordinary GMS, and applicable laws and regulations;
 - b. Carrying out duties, authorities, and responsibilities effectively and efficiently in accordance with the provisions of the Articles of Association and GMS and/or Extraordinary GMS resolutions, while ensuring effective communication between the Board of Commissioners, the Board of Directors, External Auditors, and the Banking Supervisory Authority;
 - c. Safeguarding the Bank's interests by considering the interests of shareholders and being accountable to the GMS;
 - d. Reviewing and assessing the annual report prepared by the Board of Directors and signing the report;
 - e. Providing opinions and recommendations on the Work Plan and Annual Budget proposed by the Board of Directors and approving them in accordance with applicable regulations;
 - f. Monitoring the Bank's business activities and progress;
 - g. Giving opinions and recommendations to shareholders regarding issues deemed significant for the Bank's management;
 - h. Promptly reporting to the GMS if indications of declining Bank performance arise, accompanied by recommendations on necessary corrective measures.
 - i. Notifying Bank Indonesia within a maximum of seven (7) working days upon discovering (a) violations of financial and banking regulations, and (b) situations or forecasts of conditions that may threaten the Bank's business continuity.
 - j. Proposing the appointment of a Public Accountant to the GMS to audit the Bank's financial records.
2. To ensure the effective implementation of the supervisory and advisory functions as outlined in point 1(a), the Board of Commissioners is also responsible for:
 - a. Giving opinions and advices to management regarding determining the Bank's vision, mission, culture and values;
 - b. Conducting review and giving opinions on the business strategies executed by the Bank;
 - c. Making assessments, providing opinions and advice on human resource management systems. In discharging this task the Board of Commissioners is assisted by the Nomination and Remuneration Committee;

- d. Making assessments, giving opinions and advice on the risk control system. In carrying out this task the Board of Commissioners is assisted by the Risk Monitoring Committee and Audit Committee.
- e. Making assessments, giving opinions and advice on the Draft Business Plan and its translation into the Bank's Annual Work Plan and Budget;
- f. Giving approval for draft strategic business decisions or policies that comply with legislation, the Articles of Association and GMS decisions and prudential banking practices, including a commitment to avoid all forms of conflict of interest;
- g. Making assessment of internal and external auditor reports and giving advices to management on matters that need to be followed up. In carrying out its duties, the Board of Commissioners is assisted by the Audit Committee and Risk Monitoring Committee;
- h. Conducting periodic oversight and giving advices to management on the implementation of good corporate governance. In carrying out this task the Board of Commissioners is assisted by the Risk Monitoring Committee;
- i. Conducting periodic oversight over the implementation of the RKAP and provide opinion/approval on changes to the RKAP in accordance with applicable regulations;
- j. Submitting monitoring reports to authorities and Shareholders;
- k. Overseeing the quality of bank services to customers and giving necessary advices to management;
- l. Making assessments, giving opinions and advices on the implementation of risk management including matters related to fraud control;

- m. Developing work programs for the Board of Commissioners which includes programs for the Board of Commissioners supporting committees.
3. Each Commissioner must adhere to their duties, responsibilities, and limitations, including but not limited to the following:
 - a. Law No. 40 of 2007 on Limited Liability Companies, Article 108, Paragraph 4, which states that the Board of Commissioners consisting of more than one (1) member functions as a collegial body, and each member cannot act individually but must act based on the decisions of the Board of Commissioners.
 - b. Law No. 21 of 2008, dated July 16, 2008, on Sharia Banking.

Duties and Responsibilities of The President Commissioner

To fulfill the role of the President Commissioner, the President Commissioner has the following duties and responsibilities:

1. Convening Board of Commissioners' meetings in writing, notifying all members of the Board of Commissioners, including the agenda, date, time, and location of the meeting;
2. Acting as the Chairperson in Board of Commissioners' meetings;
3. Ensuring the execution of Board of Commissioners' meetings and Committee meetings under the Board of Commissioners, including maintaining the orderliness of meeting minutes;
4. Receiving reports from the Committees under the Board of Commissioners;
5. Coordinating all duties of the Board of Commissioners, ensuring they are distributed as evenly as possible.

Rights and Authorities of The Board of Commissioners

- The Board of Commissioners has the authority to grant written approval for decisions made by the Board of Directors regarding the following actions:
 - Purchasing, selling, leasing, or otherwise acquiring or relinquishing rights over immovable assets, including buildings, land rights, and companies, exceeding a certain threshold as determined by the Board of Commissioners;
 - Borrowing or lending money on behalf of the Company beyond the monetary limits set periodically by the Board of Commissioners, provided that withdrawing funds from existing loan accounts or debts shall not be considered borrowing for the purpose of this provision;
 - Pledging, guaranteeing, or otherwise encumbering the Company's assets beyond the monetary limits set periodically by the Board of Commissioners;
 - Binding the Company as a guarantor (borg or avalist) beyond the monetary limits set periodically by the Board of Commissioner;
 - Listing the Company's shares on the Capital Market;
 - Waiving, transferring, or relinquishing collection rights for written-off non-performing principal receivables, provided that the General Meeting of Shareholders (GMS) determines the amount of write-offs permitted, whether for non-performing principal receivables already written off or the difference between the principal amount and the recovery value of such receivables.
- The Board of Commissioners has the right to enter the Bank's premises, buildings, and other locations used or controlled by the Bank during office hours at any time and to examine all books, documents, and other evidence, verify and reconcile cash balances, and be informed of all actions taken by the Board of Directors.
- Any actions taken under paragraph (2) must be carried out in the capacity of the Board of Commissioners and reported in a Board of Commissioners meeting.
- If deemed necessary, the Board of Commissioners has the right to seek expert assistance to perform its duties for a limited period at the Bank's expense.
- Each Commissioner has the right to request explanations on any matter from the Board of Directors or any subordinate levels, and the Board of Directors must provide the requested explanation.

- Each Commissioner has the right to attend meetings held by the Board of Directors or its subordinate units without participating in decision-making.
- The Board of Commissioners, by majority vote, has the right to temporarily dismiss one or more members of the Board of Directors if they are found to act against the Articles of Association, neglect their obligations, or if there are urgent reasons concerning the Bank.
- Such temporary dismissal must be communicated in writing to the concerned individual, along with the reasons for the action.
- Within 30 (thirty) days of the temporary dismissal, the Board of Commissioners must convene a GMS to decide whether the concerned member of the Board of Directors will be permanently dismissed or reinstated, allowing the individual to be present and defend themselves.

Term of Office of The Board of Commissioners

- Independent and non-Independent members of the Board of Commissioners are appointed by the GMS for a period starting from the closing of the GMS that appointed them or as determined otherwise by the GMS and ending at the close of the 3rd (three) Annual GMS after their appointment. However, this does not reduce the GMS's right to dismiss members of the Board of Commissioners before their term of office ends by stating the reasons. The termination takes effect from the closing of the GMS, unless otherwise determined by the GMS.
- The term of office of Independent and Non Independent Commissioners is 2 (two) consecutive terms, or a maximum of 6 (six) years.

Criteria for Members of The Board of Commissioners

Parties eligible as members of the Board of Commissioners are individuals who meet the following criteria at the time of appointment and while in office:

- Shall have good morals, intentions and integrity
- Shall be able to take legal actions
- Within 5 (five) years prior to appointment and during office:

- d. Has never been a member of the Board of Directors and/or member of the Board of Commissioners who while in office:
 - Failed to hold an annual GMS
 - His accountability as a member of the Board of Directors and/or member of the Board of Commissioners was once not accepted by the GMS or has never provided his accountability as a member of the Board of Directors and/or member of the Board of Commissioners to the GMS.
 - Has once caused a company that obtained a permit, approval or registration from the OJK to fail to meet its obligation to submit an annual report and/or financial report to the OJK.
- 4. Shall have a commitment to comply with regulatory provisions.
- 5. Shall have knowledge and/or expertise in the field required by the Company
- 6. Shall not be anyone who works or has the authority and responsibility to plan, lead, control or supervise the activities of the Issuer or Public Company within the last 6 (six) months, except for reappointment as an Independent Commissioner of the Issuer or Public Company in the next period
- 7. Shall meet other criteria in accordance with applicable regulatory provisions.

Board Charter of The Board of Commissioners

In carrying out its authority and responsibilities, the Board of Commissioners refers to the Guidelines and Rules of Procedure of the Board of Commissioners. These guidelines and rules bind every member of the Board of Commissioners, enabling them to carry out their oversight function efficiently, effectively, transparently, independently, and professionally. The Board of Commissioners has established guidelines and rules of procedure in accordance with the provisions of Bank Indonesia/Financial Services Authority. These guidelines are periodically updated, as stipulated in the Decision of the Board of Commissioners of PT Bank Syariah Indonesia Tbk. Number: DEC.COM/001/2021. With these guidelines in place, it is expected that the performance of the Board of Commissioners' tasks will be more focused and effective, and it can be used as one of the tools for assessing the performance of the Board of Commissioners. The guidelines cover various aspects of the Board of Commissioners, as follows:

1. General Provisions
2. Structure of the Board of Commissioners
3. Duties of the Board of Commissioners
4. Obligations of the Board of Commissioners
5. Rights and Authorities of the Board of Commissioners
6. Bank Confidentiality and Conflict of Interest
7. Committees and Other Supporting Bodies

8. Types and Quorum of Meetings
9. Participants in Board of Commissioners Meetings
10. Meeting Chairperson
11. Meeting Materials
12. Meeting Decisions
13. Meeting Minutes
14. Meeting Organization
15. Secretary of the Board of Commissioners
16. Division of Routine Tasks
17. Commissioners' Working Hours
18. Document Signing
19. Business Trips
20. Continuing Education Management Report
21. Evaluation of the Board of Commissioners' Performance

Policy on Multiple Board Positions of The Board of Commissioners

Members of the Board of Commissioners are prohibited from holding concurrent positions:

1. As a member of the board of directors, member of the board of commissioners, member of the sharia supervisory board, or executive officer at a financial institution or financial company, whether a bank or non-bank;
2. As a member of the board of directors, member of the board of commissioners, member of the sharia supervisory board, or executive officer at more than 1 (one) non-financial institution or company, whether domiciled in or outside the country;
3. In the field of functional duties at a bank financial institution and/or non-bank financial institution domiciled in or outside the country;
4. In other positions that may give rise to a conflict of interest in carrying out duties as a member of the Board of Commissioners; and/or
5. In other positions in accordance with the provisions of laws and regulations.

None of member of the Board of Commissioners has violated the provisions on concurrent positions. Concurrent positions by members of the Board of Commissioners are currently still permitted under the provisions on concurrent positions.

Management of Conflicts of Interest

Each member of the Board of Commissioners is prohibited from gaining personal benefits, either directly or indirectly, from the Company's activities beyond legitimate earnings. Any member of the Board of Commissioners who has a personal interest, in any manner, whether directly or indirectly, in a transaction, contract, or proposed contract in which the Company is a party, must declare the nature of their interest in a Board of Commissioners meeting and shall not have the right to participate in voting on matters related to such transactions or contracts.

Independent Commissioner

An Independent Commissioner is a member of the Board of Commissioners who does not have any financial, managerial, shareholding, and/or family relationships with members of the Board of Directors, other Commissioners, and/or controlling shareholders. Additionally, they do not have any relationships with the Bank that could influence their ability to act independently.

Board of Commissioners Meeting

Meeting Policy

1. The Board of Commissioners' meeting may be held at any time as deemed necessary by one or more members of the Board of Commissioners or upon a written request from the Board of Directors specifying the matters to be discussed.
2. The Board of Commissioners must hold meetings at least once (1) a month, where the Board of Commissioners may invite the Board of Directors.
3. A Board of Commissioners' meeting is valid and authorized to make binding decisions if attended or represented by more than half ($\frac{1}{2}$) of the total members of the Board of Commissioners.
4. The Board of Commissioners must hold joint meetings with the Board of Directors at least once (1) every three (3) months.
5. The attendance of Board of Commissioners' members in meetings must be disclosed in the annual report.
6. The Board of Commissioners must schedule meetings for the following year before the end of the fiscal year.
7. For scheduled meetings, meeting materials must be provided to participants no later than five (5) days before the meeting.
8. For unscheduled meetings, meeting materials must be provided to participants no later than before the meeting is held.
9. The President Commissioner shall call Board of Commissioners' meetings. If the President Commissioner is unable to do so for any reason, which does not need to be proven to third parties, one (1) member of the Board of Commissioners appointed by the President Commissioner shall have the right and authority to call the meeting.
10. The meeting notice must be sent in written form through any available means to all members of the Board of Commissioners at least five (5) calendar days before the meeting, excluding the date of the notice and the meeting date. In urgent situations, as determined by the President Commissioner, the notice may be sent at least one (1) calendar day before the meeting. If all members of the Board of Commissioners attend the meeting, prior notice is not required.
11. The meeting notice must include the agenda, date, time, and venue of the meeting.
12. Board of Commissioners' meetings shall be held at the Company's headquarters, business locations, or at the Stock Exchange where the Company's shares are listed, or any other location within the Republic of Indonesia.
13. The Board of Commissioners' meeting shall be chaired by the President Commissioner. If the President Commissioner is absent or unable to attend, which does not need to be proven to third parties, the meeting shall be chaired by another Board of Commissioners member chosen from among those present.
14. A member of the Board of Commissioners may only be represented in a meeting by another Board of Commissioners member through a power of attorney.
15. Each member of the Board of Commissioners is entitled to one (1) vote and an additional one (1) vote for every other Board of Commissioners member they represent.
16. Any member of the Board of Commissioners with a personal interest, directly or indirectly, in a transaction, contract, or proposed contract in which the Company is a party, must declare the nature of their interest in a Board of Commissioners meeting and shall not have the right to vote on matters related to such transactions or contracts, unless otherwise determined by the meeting.
17. Voting on personal matters shall be conducted by a closed ballot without a signature, while voting on other matters shall be conducted verbally unless otherwise determined by the meeting chairperson, without objection from attendees.
18. Decisions of the Board of Commissioners' meetings must be made based on deliberation for consensus.
19. If consensus cannot be reached, decisions shall be made by majority vote, with approval from more than half ($\frac{1}{2}$) of the attending or represented Board of Commissioners member.
20. The meeting results must be recorded in the minutes of the meeting, signed by all attending Board of Commissioners members, and distributed to all members of the Board of Commissioners.
21. The meeting results must also be recorded in the minutes of the meeting, signed by attending members of both the Board of Commissioners and Board of Directors, and distributed to all members of both Boards.
22. If any member of the Board of Directors and/or Board of Commissioners does not sign the minutes of the meeting, they must provide written reasons in a separate letter attached to the meeting minutes.
23. The minutes of the meeting must be documented by the Company.
24. The minutes of the meeting serve as valid evidence of decisions made during the Board of Commissioners' meetings, for both the Board members and third parties.
25. Abstention votes shall be considered as approval of the proposed resolution. Invalid votes shall be considered non-existent and shall not be counted in determining the total votes cast.

26. The Board of Commissioners may also make valid and binding decisions without holding a physical meeting, provided that all members have been notified in writing of the proposed resolutions and all members give their written consent and sign the agreement. Such decisions shall have the same legal force as those made in a formal Board of Commissioners' meeting.
27. If a Board of Commissioners' member cannot attend the meeting in person, they may participate via teleconference, video conference, or other electronic media as permitted by applicable regulations.

28. Any member of the Board of Commissioners who has a personal interest, directly or indirectly, in a transaction, contract, or proposed contract in which the Company is a party must declare their interest in a Board of Commissioners' meeting and shall not have the right to vote on matters related to such transactions or contracts.

Training and/or Competency Development for Members of The Board of Commissioners

The policy related to improving the competence of the Board of Commissioners is regulated in the Human Capital Standard Operating Procedure which aims to ensure that each member of the Board of Commissioners has adequate knowledge and skills in carrying out their duties and responsibilities. The competence development program includes training, workshops, and other activities designed to improve competence in accordance with the latest developments in the Bank's industry and business. Each member of the Board of Commissioners is required to participate in a competency development program periodically to ensure that they continue to have relevant understanding and can make the right decisions. The Board of Commissioners' participation in improving competence during 2024 is as follows.

The realization of capability enhancement programs attended by the Board of Commissioners throughout 2024 is detailed in the following table:

Orientation Program for New Commissioners

Given the diverse backgrounds of the Board of Commissioners members, BSI consistently organizes an introduction program for new members. Through this program, the Board of Commissioners can get to know each other and build teamwork that is solid, comprehensive, and effective while also gaining a general understanding of the condition of Bank Syariah Indonesia.

In line with the Board Manual (Guidelines for the Board of Commissioners and Board of Directors), the orientation program for the Board of Commissioners includes:

1. Corporate introduction covering Corporate Strategy, Vision, and Mission
2. Islamic Banking Training
3. Risk Management Training
4. Training on Good Corporate Governance (GCG) for Public Companies

In 2024, three (3) new members joined the Board of Commissioners: Fauzi, Nazaruddin, and Felicitas Tallulembang. All new Commissioners have participated in the orientation program, with the schedule and topics as follows.

Recommendations and Implementation of The Board of Commissioners' Duties

In accordance with BSI's Articles of Association, the Board of Commissioners is responsible for supervising management policies, overseeing the overall management of the Company and its business carried out by the Board of Directors, and providing advice to the Board of Directors. This includes supervising the implementation of the Company's long-term plans, corporate work plans, the provisions of the Articles of Association, resolutions of the GMS, as well as applicable laws and regulations, while ensuring alignment with the Company's objectives.

In general, the Board of Commissioners expects management to maintain sustainable performance in the future. Specifically, the Board of Commissioners' responses, advice, and recommendations on BSI's performance as of December 31, 2024, are as follows:

No.	Topic	Directions/Advice/Recommendations from the Board of Commissioners
1.	Performance	<p>The Board of Commissioners appreciates the management's performance as of December 31, 2024, which has demonstrated healthy, efficient, and resilient growth, as reflected in:</p> <ol style="list-style-type: none"> 1. Total assets reaching IDR408.6 trillion, growing 15.6% YoY (108% of the target); 2. Net profit of IDR7.0 trillion, growing 22.8% YoY (115.2% of the target); 3. Cost to Income Ratio at 50.89%, better than the target of 51.49%; 4. Maintained financing quality, with NPF Gross at 1.90%, better than the target of 2.00%; and 5. The successful implementation of strategic initiatives such as the launch of BYOND, Project Bosphorus, New CMS, and others
2.	Third-Party Funds	<ol style="list-style-type: none"> 1. CASA as of December 31, 2024, reached IDR197 trillion, growing 10.65% from December 2023 but achieving only 97.78% of the target (IDR201 trillion), mainly due to the unmet Giro target. A strategy should be developed to sustain transactional Giro growth, including optimizing the Islamic Ecosystem (ISE) and the New CMS application. 2. Savings grew IDR15.8 trillion YoY (from IDR124.7 trillion in December 2023 to IDR140.5 trillion in December 2024, a 12.67% increase). Efforts should be made to prevent a significant decline in January 2025. 3. To further increase Savings growth, the Restricted Investment product could be considered a game changer due to its significant nominal value and growth throughout 2024. 4. The Top 50 depositor concentration in December 2024 was IDR77.9 trillion, an increase of IDR6.8 trillion from December 2023 (IDR71.1 trillion), with a growth of 9.6%. Although its concentration decreased from 24.19% (December 2023) to 23.79% (December 2024) and remains below the appetite limit (30%), early management of Cost of Funds (CoF) is necessary given the likelihood of high fund pricing in the market.
3.	Financing	<ol style="list-style-type: none"> 1. Consumer financing realization in December 2024 reached IDR138.2 trillion, achieving 97.22% of the target. Given its high yield and good quality, an upfront loading strategy should be prepared. 2. The significant improvement in SME Segment Collectibility 2, which improved by 95 bps YoY, should continue to be monitored to ensure sustainability. 3. For new disbursements of Auto Financing Products, which now use a Captive Customer-based business model, quality control must be maintained in 2025, as NPF and Collectibility 2 stood at 2.62% and 3.14%, respectively, with a write-off of IDR117 billion in December 2024.
4.	Profit & Loss	<ol style="list-style-type: none"> 1. Overhead costs exceeded the budget in December 2024, particularly in BUA expenses (IDR5,572 billion vs. budget of IDR5,285 billion) and promotion costs (IDR944 billion vs. budget of IDR847 billion). This should be addressed and evaluated, especially when preparing future budgets and controlling overhead costs more strictly, particularly non-business-related expenses. 2. The Bank should expedite licensing for independent Hasanah Card management from Financial Services Authority (OJK) to boost revenue from both financing and Fee-Based Income in 2025.
5.	Others	<ol style="list-style-type: none"> 1. The Bank should anticipate and mitigate global economic risks, such as the U.S. presidential election in 2025, trade war escalations, geopolitical tensions in the Middle East, and declining preference for green economy trends, as well as domestic risks such as potential fiscal deficits, inflation, and exchange rate fluctuations that may impact the Bank's business and performance. 2. User registration (UREG) for BYOND reached 1.98 million customers by December 31, 2024, with 1.31 million activated users (66.3%). Meanwhile, UREG for BSI Mobile reached 7.39 million customers, with 3.52 million active users (47.6%). While BYOND's activation rate is higher, only 26.79% of BSI Mobile customers have migrated to BYOND. The migration process must be reviewed and accelerated for optimal implementation. 3. The Bank should intensify the activation program for EDC (Electronic Data Capture) machines. 4. The Bank should expedite the Bullion Bank licensing process with OJK to optimize the growing gold business potential in Indonesia

Throughout 2024, the Board of Commissioners has fulfilled its supervisory duties and responsibilities regarding the Bank's management policies and operations, in accordance with applicable laws and regulations, the Company's Articles of Association, and the Work Plan established at the beginning of the year. The key supervisory activities carried out include:

1. Supervising the Implementation of the Bank Business Plan (RBB):
 - a. Directing, monitoring, and evaluating the implementation of the Bank's strategic policies for 2024-2026, including assessments of the Corporate Plan, RBB, and financial performance on a monthly basis.
 - b. Overseeing the achievement of the RBB, particularly key business plan objectives such as credit distribution, asset quality improvement, third-party fund collection, productivity, and efficiency.
 - c. Reviewing the Revised RBB for 2024-2026.
 - d. Evaluating the realization of the RBB as reported to the Financial Services Authority (OJK) on a semi-annual basis and submitting the RBB supervision report to OJK.
 - e. Reviewing and approving the Bank Business Plan (RBB) for 2025-2027.
2. Reviewing Financial Information: Analyzing financial reports to be issued by the Company, as prepared by Public Accounting Firms (KAP) or other external parties.
3. Supervising Internal Control at BSI:
 - a. Ensuring that BSI's internal control system is operating effectively.
 - b. Ensuring that the Board of Directors monitors the effectiveness of the Internal Audit Business Unit (SKAI).
 - c. Overseeing the implementation of the Internal Audit Business Unit's (SKAI) duties.
4. Supervising the Bank's Soundness Level: Conducting supervision, monitoring, and evaluation of the Bank's financial soundness on a semi-annual basis and supporting the Board of Directors in taking necessary actions to maintain and/or improve the Bank's soundness level.
5. Supervising the Risk Management Unit: Monitoring risk management strategies to ensure the Bank operates within acceptable risk tolerance levels
6. Supervising Compliance Implementation at BSI:
 - a. Evaluating BSI's compliance function, ensuring it is effectively implemented, and providing recommendations to the Board of Directors to enhance compliance quality.
 - b. Reviewing compliance function reports and updates on the duties of the Compliance Director, as periodically submitted by the Board of Directors.
- c. Monitoring the implementation of the Anti-Fraud Strategy, Anti-Money Laundering and Counter-Terrorism Financing (AML-CFT) Program, and Customer Due Diligence Principles.
- d. Ensuring the adoption of Good Corporate Governance (GCG) principles and practices at all levels, including overseeing GCG implementation, reviewing GCG reports submitted by the Board of Directors, and monitoring the results of the GCG self-assessment.
7. Evaluation and Supervision of Information Technology: Evaluating, directing, and monitoring the Bank's IT strategic plans and IT-related policies at BSI.
8. Monitoring Human Resource (HR) Development: Overseeing and evaluating the management and development of human resources (HR), particularly in relation to strategic HR functions that support the Bank's performance objectives.
9. Approving Matters Requiring Board of Commissioners' Approval: Granting approval for matters that require Board of Commissioners' consent, as stipulated by applicable regulations and the Company's Articles of Association.
10. Conducting Supervisory Visits. In 2024, the Board of Commissioners conducted supervisory visits to six (6) Regional Offices, including Regional and/or Branch Offices located in Region I (Aceh), Region II (Medan), Region VII (Semarang), Region VIII (Surabaya), Region IX (Kalimantan), and Region X (Makassar) to ensure effective implementation of policies, regulatory compliance, and operational efficiency across the Bank's branches.

Board of Commissioners Performance Assessment

Board of Commissioners Performance Assessment Implementation Procedure

The Board of Commissioners' performance assessment, conducted through the GMS, follows these steps:

1. The Board of Commissioners submits a performance report for evaluation by shareholders at the GMS.
2. Performance is evaluated based on predefined indicators aligned with the Board's duties and responsibilities.
3. The self-assessment results of each Commissioner serve as a reference for shareholders when deciding on reappointments or dismissals. The results also serve as a benchmark for improving the effectiveness of the Board of Commissioners.

Performance Assessment of the Board of Directors

Procedure for Implementing the Board of Directors' Performance Assessment

The performance evaluation of the Board of Directors is conducted by the Board of Commissioners with the assistance of the Nomination and Remuneration Committee. The results of the review are used as a basis for determining the number of bonuses (tantiem) for the Board of Directors and the Board of Commissioners. The results of the performance review of the Board of Directors are then submitted to the General Meeting of Shareholders (GMS).

Criteria for The Board Of Directors' Performance Assessment

The performance assessment of the Board of Directors is based on the achievement of Key Performance Indicators (KPI). The KPIs for 2024 include:

1. Financial Perspective
2. Internal Process Perspective
3. People Development Perspective

Party Responsible for The Assessment

The performance assessment of the Board of Directors is carried out by the Board of Commissioners with the assistance of the Nomination and Remuneration Committee and then submitted to the GMS.

Mechanism for Termination and Resignation of The Board of Commissioners

The term of office of a Board of Commissioners member ends under the following circumstances:

1. Their resignation becomes effective.
2. They pass away.
3. Their term of office expires.
4. They are dismissed based on a resolution of the General Meeting of Shareholders (GMS).
5. They are declared bankrupt by the Commercial Court with a final and binding decision or placed under guardianship by a court ruling.
6. They no longer meet the requirements to serve as a Commissioner, as stipulated in the Articles of Association and applicable regulations.

As stated in the Articles of Association of Bank Syariah Indonesia, a Board of Commissioners member has the right to resign under the following conditions:

1. A member of the Board of Commissioners may resign before their term expires by submitting a written notice to the Company at least ninety (90) days in advance.
2. The Company is required to convene a GMS within ninety (90) calendar days of receiving the resignation letter to decide on the resignation request.
3. The Company must disclose the resignation to the public and notify the Financial Services Authority (OJK) within two (2) working days after receiving the resignation request and after the GMS decision.
4. Before the resignation becomes effective, the resigning Commissioner remains obligated to fulfill their duties and responsibilities in accordance with the Articles of Association and applicable regulations.
5. A resigning Commissioner remains accountable for their actions as a member of the Board of Commissioners from their appointment until the date their resignation is approved by the GMS.
6. A Commissioner's release from responsibility is granted only after approval in the Annual GMS.

Sharia Supervisory Board

The Sharia Supervisory Board (DPS) is the Bank's organizational body tasked with giving advice and suggestions to the Board of Directors and overseeing the Bank's activities to ensure adherence to sharia principles. The functions should keep the Bank's products, services, and operations in line with sharia principles. DPS also ensures the National Sharia Council's fatwa is applied at the Bank.

In discharging its duties, DPS works with the Compliance Unit (SKKP) and Internal Audit Unit (SKAI) to ensure the Bank's adherence to sharia principles. The DPS is appointed and ratified through the GMS in accordance with recommendations from the National Sharia Council of the Indonesian Ulema Council (DSN MUI).

Profile of The Shariah Supervisory Board

The profile of the Sharia Supervisory Board is detailed in the Company Profile section under the Sharia Supervisory Board Profile in this Annual Report.

Duties and Responsibilities of The Shariah Supervisory Board

The Sharia Supervisory Board has key duties, responsibilities, and functions, including:

1. Acting as a representative of the National Sharia Board (DSN) within the Company.
2. Supervising the Bank's Sharia activities to ensure compliance with applicable Sharia principles.
3. Advising and providing recommendations to the Board of Directors on matters related to Sharia principles.
4. Serving as a mediator between the Company and the National Sharia Board (DSN) in communicating proposals and recommendations for the development of new products and services that require DSN review and fatwas.
5. Assessing and ensuring compliance with Sharia principles in the Bank's operational guidelines and products.
6. Supervising the development process of new products issued by the Bank.
7. Requesting fatwas from the National Sharia Board (DSN) for new products that do not yet have existing fatwas.
8. Conducting periodic reviews to ensure Sharia compliance in the Bank's fundraising, financing, and service mechanisms.
9. Requesting data and information related to Sharia aspects from relevant business units within the Company to support its supervisory duties.

10. Implementing Good Corporate Governance (GCG) principles in carrying out its duties and responsibilities in accordance with applicable laws and regulations.
11. In carrying out its functions, the Sharia Supervisory Board is required to:
 - a. Follow the fatwas of the National Sharia Board (DSN).
 - b. Report the Bank's Sharia business activities to OJK or its successor institution in accordance with regulatory requirements.

Term of Office of The Sharia Supervisory Board

The appointment of Sharia Supervisory Board members is effective from the closing of the GMS that appoints them or another date specified by the GMS and ends at the close of the third (3rd) Annual GMS after their appointment. This is subject to compliance with Capital Market regulations. However, the GMS has the authority to dismiss a Sharia Supervisory Board member at any time before their term expires, in accordance with applicable Capital Market and Sharia Banking regulations.

Requirements of Sharia Supervisory Board

The requirements for members of the Sharia Supervisory Board are regulated and determined by the National Sharia Council. Members of the Sharia Supervisory Board who have received recommendations from the Indonesian Ulema Council and meet the requirements are appointed and dismissed by the GMS. The appointment of members of the Sharia Supervisory Board becomes effective after receiving approval from the competent authority (OJK). The requirements for members of the Sharia Supervisory Board follow the provisions:

- a. Sharia Banking Law.
- b. Bank Indonesia Regulation.
- c. OJK Regulation.
- d. Decision of the National Sharia Council of the Indonesian Ulema Council.
- e. Other applicable laws and regulations.

Guidelines and Regulations of the Sharia Supervisory Board

In carrying out its duties, the Sharia Supervisory Board refers to the Articles of Association which regulate the Requirements of the Sharia Supervisory Board, Duties, Responsibilities and Main Functions, DPS Prohibitions, Term of Office, Dismissal, Meeting Policies.

Frequency and Methods of Giving Advice and Suggestions and Supervision of Sharia Principles Fulfillment

The Sharia Supervisory Board provides advice and suggestions through various means that ensure the implementation of sharia principles in capital market activities. Advice is provided through regular meetings and discussions with the management of the Bank or the institutions involved, to discuss operational issues and ensure compliance with sharia. In addition, the DPS can also issue written reports detailing the results of their audits and supervision, including recommendations or improvements needed.

The implementation of the duties and responsibilities of the Sharia Supervisory Board is carried out in the following ways:

- Conduct supervision of the Bank's new product development process in the form of:
 - Requesting an explanation from authorized Bank officials regarding the objectives, characteristics and contracts used in new products to be issued;
 - Checking whether there is a fatwa from the National Sharia Council-Indonesian Ulama Council regarding the agreement used in the new product.
 - Reviewing the systems and procedures of new products to be issued in relation to the fulfillment of Sharia Principles; and
 - Providing sharia opinions on new products that will be released.
 - Reviewing the systems and procedures of new products to be issued in relation to the fulfillment of Sharia Principles; and
 - Providing sharia opinions on new products that will be released.
- Supervise Bank activities.
 - Analyzing reports submitted by and/or requested from the Board of Directors, internal audit function implementers and/or compliance functions to determine the quality of implementation of Sharia Principles for fund raising and fund distribution activities and Bank service;
 - Determining the number of random tests (samples) of transactions to be examined by taking into account the quality of implementation of Sharia Principles fulfillment of each activity;
 - Checking transaction documents that are tested by random sampling to determine compliance with Sharia Principles as required in the SOP, including:
 - whether or not there is proof of purchase of goods, for a murabahah contract as proof of fulfillment of the conditions of a murabahah sale and purchase;
 - whether or not there is a customer business report, for mudharabah/musarakah contracts, as a basis for calculating profit sharing distribution;
 - Conducting inspections, observations, requests for information and/or confirmation to Bank employees and/or customers to strengthen the results of document examinations as referred to in letter c., if necessary.
 - Reviewing the SOP related to sharia aspects if there are indications of non-compliance with the implementation of Sharia Principles for the activities in question;
 - Providing sharia opinions on fund raising and fund distribution activities as well as Bank service provision; and
 - Reporting the results of the Sharia Supervisory Board's supervision to the Board of Directors and Board of Commissioners.

Performance Assessment of The Shariah Supervisory Board and The Basis for Its Assessment

Procedure for Assessing The Sharia Supervisory Board (DPS) Performance

The DPS performance assessment implementation procedure is carried out through a self-assessment which is carried out periodically every semester based on OJK regulation No. 17 of 2023 on Implementation of Governance for Commercial Banks.

The Party Conducting The Assessment

The DPS performance assessment is carried out through the GCG Self Assessment carried out by the Bank and submitted 2 (two) times in 1 (one) year to the Financial Services Authority based on OJK regulation No. 17 of 2023 on Implementation of Governance for Commercial Banks.

Assessment Criteria of DPS Performance

The assessment criteria of DPS performance are seen based on the implementation of DPS duties and responsibilities as indicated by the achievement of DPS meeting implementation, issuance of DPS opinions, and implementation of DPS sharia supervision (sampling test).

Mechanism for Resignation and Dismissal of The Sharia Supervisory Board

A member of the Sharia Supervisory Board may resign from his/her position before the end of his/her term of office by submitting a written resignation application regarding his/her intention to the Company no later than 90 (ninety) calendar days before the effective date of his/her desired resignation. The dismissal and/or resignation of a member of the Sharia Supervisory Board shall be effective as of the closing date of the GMS unless there is another dismissal date determined by the GMS and/or unless otherwise determined in the applicable regulations.

The term of office of a member of the Sharia Supervisory Board will end automatically if the member of the Sharia Supervisory Board:

1. Loses the Indonesian Citizenship;
2. Resigns and the resignation has become effective;
3. Is declared bankrupt or placed under guardianship based on a court decision;
4. No longer meets the requirements under applicable laws and regulations;

5. Holds concurrent positions in positions that are prohibited for members of the Sharia Supervisory Board due to provisions of the National Sharia Council and/or applicable laws and regulations;
6. Dies;
7. Is dismissed by the GMS;
8. Is included in the list of bad credit/financing.

Nomination and Remuneration of The Board of Directors and Board of Commissioners

Board of Directors and Board of Commissioners Nomination Procedure

The appointment of the Board of Commissioners of Bank Syariah Indonesia must meet the criteria established at the time of appointment under applicable regulations. The Board of Commissioners is nominated and elected through shareholder proposals to the GMS, with the Board of Commissioners and the Nomination and Remuneration Committee's recommendations taken into account. Before discussing the appointment and dismissal of the Board of Commissioners and Board of Directors at the GMS, information about the new Board of Commissioners and Board of Directors candidates' profiles should be provided.

Procedures and Implementation of Remuneration of The Board of Commissioners and Board of Directors

The Remuneration Governance Policy for the Board of Commissioners refers to and is guided by Financial Services Authority Regulation No. 59/POJK.03/2017 dated December 18, 2017 concerning the Implementation of Governance in Providing Remuneration for Sharia Commercial Banks and Sharia Business Units.

Board of Directors and Board of Commissioners Diversity Policy

The diversity policy for the Board of Directors, Board of Commissioners, and Sharia Supervisory Board of the Bank is regulated in the Bank's Articles of Association, where the requirements for the appointment of members of the Board of Directors, Board of Commissioners, and Sharia Supervisory Board include having knowledge and/or expertise in areas required by the Bank and must comply with applicable regulations in the fields of Islamic banking, capital markets, and state-owned enterprise subsidiaries.

The policy is implemented by the Bank with reference to:

1. OJK Regulation No. 33/POJK.04/2014 regarding the Board of Directors and Board of Commissioners of Issuers or Public Companies;
2. SEOJK No. 32/SEOJK.04/2015 regarding the Guidelines for Good Corporate Governance of Public Companies, along with its Attachments.
3. OJK Regulation No. 17 of 2023 regarding the Implementation of Governance for Commercial Banks;
4. SEOJK No. 13/SEOJK.03/2017 regarding the Implementation of Governance for Commercial Banks;
5. OJK Regulation No. 2 of 2024 regarding the Implementation of Sharia Governance for Sharia Commercial Banks and Sharia Business Units;
6. SEOJK No. 15/SEOJK.03/2024 regarding the Implementation of Sharia Governance for Sharia Commercial Banks and Sharia Business Units;
7. Regulation of the Minister of State-Owned Enterprises of the Republic of Indonesia Number PER-04/MBU/06/2020 regarding Amendments to the Regulation of the Minister of State-Owned Enterprises Number Per-03/Mbu/2012 regarding the Guidelines for the Appointment of Board of Directors and Board of Commissioners Members of State-Owned Enterprise Subsidiaries;
8. Regulation of the Minister of State-Owned Enterprises of the Republic of Indonesia Number PER-3/MBU/03/2023 regarding the Organization and Human Resources of State-Owned Enterprises; and
9. Mandiri Subsidiaries Management Principles Guideline (MSMPG) of 2024.

The organization of the Board of Directors, Board of Commissioners, and Sharia Supervisory Board of the Bank is a combination of individual characteristics that are determined according to the Bank's needs, while still adhering to applicable regulations.

These characteristic diversities are reflected in the determination of expertise, knowledge, experience, age, gender, educational background, professional experience, integrity, dedication, and understanding of Islamic banking, which are required for the management and oversight tasks of the Bank.

In the nomination process for members of the Board of Directors, Board of Commissioners, and Sharia Supervisory Board of the Bank, in providing recommendations to the Board of Commissioners, the Remuneration and Nomination Committee of the Bank must identify and consider the diversity of characteristics required by the Bank. The proposals and/or recommendations are then submitted to the Shareholders and the General Meeting of Shareholders (GMS). Specifically, for candidates for members of the Sharia Supervisory Board of the Bank, in addition to receiving recommendations from the Remuneration and Nomination Committee, they must also first obtain recommendations from the National Sharia Council of the Indonesian Ulema Council.

As stipulated in the 2024 MSMPG, the proposal for the appointment of candidates for the Board of Directors, Board of Commissioners, and Sharia Supervisory Board to the GMS is submitted based on an agreement among Shareholders while still adhering to applicable regulations, including those binding the Bank as a State-Owned Enterprise subsidiary (SOE).

The current composition of the Board of Directors, Board of Commissioners, and Sharia Supervisory Board of the Bank has met the aforementioned criteria, which includes diversity in terms of age, gender representation for the Board of Commissioners and Board of Directors, educational qualifications, and relevant experience in accordance with the needs of the Bank.

The diversity of the composition of the Board of Directors based on age, gender, education, work experience, and expertise is as follows.

Organs and Committees under the Board of Directors

Corporate Secretary

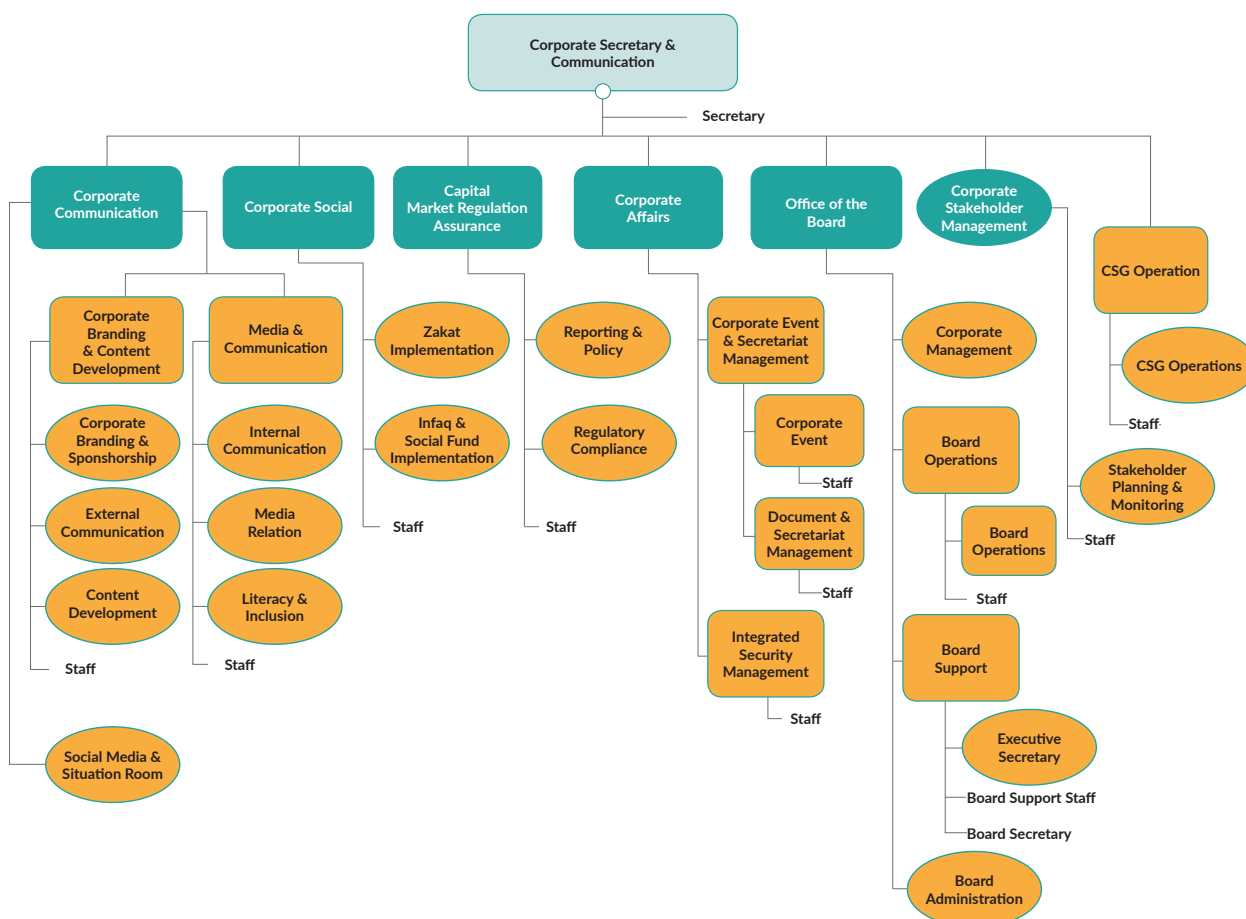

The Corporate Secretary plays an important role in representing the company's interests to shareholders, regulators, and other stakeholders. This role's primary goal is to foster effective communication while also maintaining BSI's image. Therefore, the Bank has appointed a Corporate Secretary, as mandated by Financial Services Authority (OJK) Regulation No. 35/POJK.04/2014 on Corporate Secretaries of Issuers or Public Companies. According to these regulations, its primary functions include advising the Board of Directors and Board of Commissioners on how to comply with capital market laws and regulations, as well as acting as a liaison between the Bank and its stakeholders.

Corporate Secretary Structure

The Corporate Secretary responsible directly to the Director of Compliance & Human Capital. In carrying out its functions and duties, the Corporate Secretary organization is divided into 6 (six) areas of activity, namely:

1. The Bank's activities as a public company, including implementing corporate governance, especially those related to capital market regulations.
2. Corporate Communication Activities.
3. Secretarial Activities.
4. Stakeholder Management Activities.
5. Corporate Social Responsibility Activities.
6. Bank Management Activities.

In order to carry out these activities, the Corporate Secretary has several departments under it. The Corporate Secretary continues to coordinate and supervise the implementation of the functions and duties of each department directly.

Functions, Duties and Responsibilities of The Corporate Secretary

Implementation of Governance in Providing Remuneration for Sharia Commercial Banks

Remuneration and Nomination Committee

The description regarding the Nomination and Remuneration Committee is presented in the subsection “Nomination and Remuneration Committee” in the Corporate Governance chapter of this Annual Report.

Remuneration Policy Preparation Process

In the process of providing remuneration for management and all employees, the Bank consistently applies the principles of good corporate governance (GCG) applicable to the Bank as an Islamic bank and a public company. It prioritizes the implementation of prudence and compliance with Sharia principles, while also considering fairness in value within the industry, in providing balanced and measurable compensation in accordance with the performance of each individual at the Bank.

This is carried out to encourage the implementation of prudent risk taking and employee productivity in order to achieve the Bank's optimal, sustainable, and ongoing business targets as part of realizing the Bank's vision and mission.

Remuneration Policy for the Board of Directors, Board of Commissioners, and Sharia Supervisory Board

In the process of providing remuneration for management, namely the Board of Directors, Board of Commissioners, and the Sharia Supervisory Board, the Remuneration and Nomination Committee plays an important role in recommending the structure, policy, and amount of remuneration to be received by each member of the Board of Directors, Board of Commissioners, and Sharia Supervisory Board of the Bank. This is done while prioritizing compliance with prevailing regulations before being approved and determined by the GMS. This has been previously outlined under the duties, responsibilities, and authorities of the Remuneration and Nomination Committee in the Corporate Governance Chapter of this Annual Report.

The remuneration policy for the Board of Directors, Board of Commissioners, and the Sharia Supervisory Board of the Bank is implemented based on the applicable regulations, namely:

- a. Financial Services Authority Regulation (POJK) Number 59/POJK.03/2017 concerning Implementation of Governance in Remuneration for Sharia Commercial Banks and Sharia Business Units and its annexes;
- b. Regulation of the Minister of State-Owned Enterprises of the Republic of Indonesia Number PER-04/MBU/06/2020 concerning Amendments to the Regulation of the Minister of State-Owned Enterprises Number PER-03/MBU/2012 concerning Guidelines for the Appointment of Members of the Board of Directors and Board of Commissioners of Subsidiaries of State-Owned Enterprises;
- c. Regulation of the Minister of State-Owned Enterprises of the Republic of Indonesia Number PER-3/MBU/03/2023 concerning Organs and Human Resources of State-Owned Enterprises;
- d. Mandiri Subsidiaries Management Principles Guideline (MSMPG) of 2024; and
- e. The Bank's Articles of Association.

The formulation of the remuneration policy is carried out by taking into consideration:

- a. The establishment of effective risk management;
- b. The financial stability of the bank;
- c. The adequacy and strengthening of the Bank's capital;
- d. The short-term and long-term liquidity needs;
- e. The Bank's potential future income; and
- f. Compliance with sharia principles.

The said remuneration policy includes:

1. The remuneration structure which covers the remuneration scale based on level and position, as well as the remuneration components consisting of:
 - a. Salary;
 - b. Honorarium;
 - c. Incentives; and/or
 - d. Fixed and/or variable allowances.
2. The methods and mechanisms for determining remuneration. In accordance with the Bank's Articles of Association, the determination of the amount of remuneration for the Board of Commissioners, Board of Directors, and the Sharia Supervisory Board is decided by the General Meeting of Shareholders (GMS) by taking into account the recommendations of the Bank's Remuneration and Nomination Committee.

In proposing the structure and amount of remuneration for the Board of Directors, Board of Commissioners, and Sharia Supervisory Board to the Board of Commissioners, the Remuneration and Nomination Committee takes into consideration several important factors, namely:

- a. The prevailing remuneration within the banking industry and the Bank's scale in a peer-to-peer comparison in the national banking industry in general, and within the sharia banking industry in particular;
- b. The duties, responsibilities, and authorities of each member of the Board of Directors, Board of Commissioners, and Sharia Supervisory Board in relation to the achievement of objectives and performance of the Issuer or Public Company;
- c. The achievement of the Bank's performance targets on a bank-wide scale;
- d. The performance achievement or Key Performance Indicator (KPI) of each member of the Board of Directors, Board of Commissioners, and Sharia Supervisory Board;
- e. The risk and complexity of the duties of the Sharia Supervisory Board in accordance with the duties and responsibilities of its members;
- f. The proportionality of remuneration for the Board of Commissioners by considering the comparison of risk and complexity of duties between the Sharia Supervisory Board and the Board of Commissioners; and
- g. The balance between fixed and variable allowances.

The structure, policy, and amount of remuneration as referred to shall only apply for 1 financial year period in accordance with the GMS resolution. The Remuneration and Nomination Committee must evaluate the remuneration policy at least once a year and re-propose the structure and amount of remuneration for the Board of Directors, Board of Commissioners, and Sharia Supervisory Board to the GMS in each Annual GMS of the Bank.

Employee Remuneration Policy

These governance principles are also applied in the provision of remuneration for all employees of the Bank as outlined in the Standard Operating Procedure for Human Capital PT Bank Syariah Indonesia Year 2022 (SPO HC).

Unlike the remuneration policy for management, which requires a decision from the General Meeting of Shareholders (RUPS), the employee remuneration policy is determined by the Board of Directors with oversight from the Board of Commissioners and the Sharia Supervisory Board.

In accordance with SPO HC, the Remuneration and Nomination Committee also plays a role in providing remuneration policy recommendations for all employees to be submitted to the Board of Commissioners, considering:

- a. Financial performance;
- b. Fulfillment of provisions for Asset Write-Off Allowance;
- c. Fairness compared to the peer Unit of Work at the Head Office; and
- d. Consideration of the Bank's long-term goals and strategy.

Information regarding employee remuneration has been presented in the Remuneration subsection of the Human Capital chapter in this Annual Report.

Scope of Remuneration Policy Based on Specific Criteria

To create alignment and encourage increased employee motivation based on differences in work areas, risk levels, and job capacity, the Bank measures and sets remuneration policies by prioritizing the principle of prudence through benchmarking against peers.

Variable income is a component of earnings received by employees in varying amounts based on specific criteria.

Variable Income consists of:

- a. Non-Recurring Allowances are provided in cash to certain employees based on their position, nature of the job, or work location. These allowances may change (increase/decrease) or be discontinued if the employee no longer holds the position or is in the previous work location. These allowances include:
 - 1) Position Allowance. This allowance is given for positions that have specific responsibilities, expertise, or business risks not accounted for in job grading and the annual guaranteed cash market position.
 - 2) Communication Allowance. This allowance is given as a subsidy for employees whose jobs require intensive communication with external parties using personal communication tools.
 - 3) Location Allowance. This allowance is given based on geographical differences in the cost of living.

b. Bonus

The bonus is an appreciation from the Bank for certain performance or conditions. The Performance Bonus is a reward from the Bank for the employee's achievement during a specific period. The bonus is determined based on individual performance, the performance of the work unit, and the overall performance of the Bank, considering the business strategy and the Bank's capabilities.

c. Incentive

Incentives are rewards from the Bank for achieving sales/operational income based on certain thresholds and/or criteria. Incentives consist of:

1) Regular Incentive

A regular incentive given in cash based on sales achievements per unit/product or the results of collections, according to the specific incentive scheme.

2) Long-Term Incentive

An incentive given over a certain period (more than one year) if the employee can enhance the company's value over that period. Examples include stock ownership options, among others.

Remuneration Linked to Risk

In prioritizing the principle of prudence, the Bank determines the performance measurement methods and types of risks in determining the provision of variable remuneration based on the scale and complexity of the Bank's business.

The provision of variable remuneration for the Board of Directors and the Board of Commissioners considers: Performance, which includes the performance of management, employees, business units, and the overall performance of the Bank; and Risk, which refers to the risks faced by the Bank.

In determining the risks associated with variable remuneration, the Bank considers the risks that have the most significant impact on its business activities, considering the main risks as referenced in the regulations of the Financial Services Authority (OJK) related to the assessment of the soundness level of Islamic commercial banks and Islamic business units.

The Bank provides variable remuneration in the form of shares or share-based instruments issued by the Bank, amounting to a certain percentage of the variable remuneration. The percentage of remuneration provided in the form of shares or share-based instruments issued by the Bank may differ at each level of position, taking into consideration factors such as the role and responsibilities of the individual in the management of the Bank.

Monitoring the Implementation of Remuneration Policies

In the implementation of monitoring the remuneration policy, the Bank periodically conducts:

- Evaluating salary scales and bonuses periodically to ensure that the Bank's remuneration system is competitive with the market.
- Reviewing employee benefit facilities based on implementation data obtained from the Relevant Business Units and market data based on surveys issued by competent independent institutions appointed by the Bank based on benchmarks conducted directly with peers.
- Holding meetings with the Relevant Business Units to ensure that these units have a good understanding of employee benefit facilities so that the implementation of these facilities can be carried out in accordance with the applicable regulations.
- Monitoring organizational adjustments and job level rankings, employee development programs, workforce planning, and ensuring that their implementation complies with Human Capital regulations.

- Monitoring the entire employee fulfillment process from candidate sourcing, selection, confirmation, to placement, and ensuring that it complies with Human Capital regulations.
- Monitoring employee training and development;
- Monitoring the implementation of industrial relations in the Bank;
- Monitoring the Reward System; and
- Monitoring Talent and Succession.

Risk Management

Along with external dynamics and BSI's products and services continue to develop, the implementation of risk management becomes very important. Not only as a form of commitment to compliance with laws and regulations, but also a careful attitude of management in managing the Bank. Hopefully, BSI's performance will continue to grow sustainably with the support of adequate risk management implementation. Through the implementation of appropriate risk management, it is expected to protect the Bank individually and its affiliated entities from the impact of changes in the business environment that have the potential to cause losses. In addition, the implementation of risk management is also expected to create added value for all stakeholders of the Bank. In accordance with regulations, Bank risk management is a series of methodologies and procedures used to identify, measure, monitor, and control risks arising from all Bank business activities. BSI always periodically evaluates the effectiveness of the risk management framework and conducts socialization in the organizational environment in order to create a good risk culture in the Bank's environment.

Risk Management System

In implementing the risk management system, the Bank refers to 4 (four) pillars of risk management implementation, namely:

Active Supervision by The Board of Commissioners, Board of Directors and Sharia Supervisory Board

The Board of Commissioners, Board of Directors, and Sharia Supervisory Board have a joint responsibility in ensuring the effectiveness of risk management implementation at BSI. Supervision carried out by the Board of Commissioners takes place periodically through the working mechanisms of the Risk Monitoring Committee, the Integrated Governance Committee, and the Audit Committee. In addition, coordination between the Board of Commissioners and the Board of Directors and executive officers of the bank is also carried out through routine meetings, such as the Board of Commissioners and Board of Directors Meeting.

The Board of Directors carries out active supervision with high intensity through various existing committees, such as the Risk Management Committee, ALCO Committee, IT Steering Committee, Business Committee, Financing Committee, Policy and Procedure Committee, HR Committee, and BCM Steering Committee. Internal coordination at the Board of Directors level is also strengthened through regular meetings, including the Board of Directors Meeting and the Division Directors Meeting. The Sharia Supervisory Board conducts periodic supervision

through meetings with all executive ranks of the bank. They also continuously build constructive communication with the Board of Commissioners and Board of Directors to ensure alignment in the management of sharia principles and risk management.

Thus, these three parties work synergistic-ally in supervising and optimizing the implementation of risk management at Bank BSI.

Risk Management Policies and Procedures and Risk Limit Determination

The Bank creates and establishes risk management policies by taking into account the vision, mission and strategic plan and establish procedures and implementation provisions for transaction/activity limits, products and the Bank's portfolio.

RISK MANAGEMENT POLICY

Policies and procedures are prepared and implemented by taking into account the characteristics, size and complexity of the business, the level of risk taken, risk tolerance, risk profile, as well as provisions of laws and regulations, other applicable provisions, sharia principles, and/or soundness banking practices. The Bank establishes basic provisions in implementing risk management, including:

1. Determination of risks associated with business activities is based on the results of the Bank's analysis of the risks inherent in each business activity according to the characteristics, size and complexity of the business.
2. Determination of methods for identifying, measuring, monitoring and controlling risks as well as a risk management information system to accurately assess risk exposure in each business activity.
3. Determination of data to be reported, report formats and types of information to be included in the risk management report so as to reflect the risk exposure that is considered in making business decisions while still considering the principles of prudence and sharia principles.
4. Determination of authority and limit amounts in stages, including transaction limits that require the approval of the Board of Directors, as well as determination of risk tolerance which is the Limit of potential losses that can be absorbed by the Bank's capital and a means of monitoring the development of the Bank's risk exposure.
5. Determination of risk profile ratings as a basis for the Bank to determine corrective measures for certain business activities and to evaluate the results of implementing risk management policies and strategies.
6. Organizational structure that clearly defines the roles and responsibilities of the Board of Directors, Board of Commissioners, DPS, committees, Risk Management Work Unit, operational work units, SKAI and other supporting work units.
7. Determination of the internal control system in the implementation of risk management is carried out to ensure the Bank's compliance with the provisions of laws and regulations, other applicable provisions, sharia principles and internal provisions of the Bank, the effectiveness and efficiency of the Bank's operational activities, the effectiveness of risk culture at all levels of the Bank's organization, and the availability of complete, accurate, current, complete and timely risk management information.
8. Business continuity plan policy (business continuity plan or business continuity management) for the possibility of the worst external and internal conditions, so that the Bank's business continuity can be maintained including the disaster recovery plan and contingency plan.

PROCEDURES AND LIMIT DETERMINATION

ensuring risk exposure remains under control, Bank BSI provides adequate policies and procedures as a reference for all work units. This includes setting risk limits designed to minimize potential losses and maintain bank stability. This risk management is inherent in every BSI operational and business activity.

During controlling risks originating from internal and external factors, Bank BSI establishes a Risk Appetite Statement (RAS) and risk limits. RAS serves as a guide to accepting, monitoring, avoiding, or maximizing risks related to existing business opportunities. With RAS, bank BSI can run its business

dynamically and achieve its predetermined targets, while maintaining the risk level within manageable limits.

The Bank determines risk limits in accordance with the level of risk to be taken, risk tolerance, and the Bank's overall business strategy by taking into account the Bank's capital capacity to absorb risk exposure or losses that arise, past loss experience, HR capacity and compliance with statutory regulations, applicable provisions and sharia principles.

Procedures and risk limit determination include:

1. Clear accountability and delegation of authority.
2. Adequate documentation of procedures and limit determination to facilitate the implementation of reviews and audit trails.
3. Implementation of periodic reviews of procedures and limit determination at least 1 (one) time in 1 (one) year or at any time, in accordance with the type of risk, needs and development of the Bank.
4. Comprehensive determination of limits on all aspects related to risk, which includes overall risk limits, limits per type of risk, and limits per functional activity of the Bank that has risk exposure.

The amount of risk limit is proposed by the relevant operational work unit, which is then recommended to the SKMR to obtain approval from the Board of Directors through the Risk Management Committee.

Adequacy of Risk Management Process

Bank BSI implements a risk management process that includes the activities of identifying, measuring, monitoring and controlling risks as well as the availability of an adequate information system. The Bank manages all types of risks related to the Bank's business operations in accordance with regulatory provisions, namely credit risk, operational risk, liquidity risk, market risk, legal risk, compliance risk, reputation risk, strategic risk, yield risk and investment risk in a comprehensive and integrated manner.

1. Risk Identification
 - a. The Bank identifies the risk characteristics inherent in all Bank activities including emerging risks.
 - b. The Bank identifies the risks of the Bank's products and business activities.
 - c. The Bank identifies risks to all risks periodically including sharia risk.
 - d. The Bank identifies risks to all risks periodically including sharia risk.
 - e. Creates a method or system to carry out the risk identification process for all products and business activities.
 - f. The Bank identifies risks by ensuring that the risks of new products and business activities have gone through the implementation of proper risk management before the product or business activity is issued.

2. Risk Measurement

- a. The Bank evaluates the suitability of assumptions, data sources and procedures used to measure risk periodically. Evaluations are conducted at least quarterly or at any time adjusted to the development of the Bank's business and external conditions that directly affect the Bank's condition.
- b. The Bank conducts periodic risk measurements for products, portfolios and all of the Bank's business activities.
- c. The Bank adjusts the risk measurement system if there are changes in the Bank's business activities, products, transactions, risk factors, which are material and can affect the Bank's financial condition.
- d. The Bank conducts risk measurements both quantitatively and qualitatively, using models/methods determined by the regulator and/or developed by the Bank.
- e. The Bank applies risk measurement models/methods in accordance with the data reporting system required by Bank Indonesia and/or OJK.
- f. The Bank needs to conduct validation in order to overcome weaknesses that may arise from the use of risk measurement models/methods. The validation is carried out by the work unit that carries out the internal audit function and/or other work units that are independent of the work unit that applies the risk measurement model/method.
- g. The Bank evaluates the risk measurement system periodically or at any time if necessary to ensure the suitability of assumptions, accuracy, fairness and integrity of data, and procedures used to measure risk.
- h. The Bank conducts stress testing and reviews stress testing results periodically to take appropriate steps in the event of estimated conditions exceeding acceptable tolerance levels. The results of stress testing and reviews become input in determining or changing the Bank's risk policies and limits.

3. Risk Monitoring

- a. The Bank evaluates risk exposure through monitoring and reporting risks that are material or have an impact on the Bank's capital condition.
- b. The Bank adjusts the reporting process in the event of changes in business activities, products, transactions, risk factors, information technology, and the Bank's risk management information system that are material.
- c. The Bank creates a risk monitoring system and procedures that include monitoring the amount of risk exposure, risk tolerance, compliance with internal risk limits and stress testing results, and consistency of implementation with established policies and procedures.
- d. The Bank prepares an effective backup system and procedures to prevent disruptions in the risk monitoring process and periodically checks and re-evaluates the backup system.
- e. The Bank monitors the consistency of the implementation of risk management with established policies and procedures.

- f. Each work unit is responsible for monitoring risk exposure in its work unit.

4. Risk Control

- a. The Bank creates an adequate risk control system by referring to established policies and procedures.
- b. The Bank carries out a risk control process adjusted to the risk exposure or the level of risk to be taken and risk tolerance, as well as sharia principles.

5. Risk Management Information System

The bank develops a risk management information system that includes reports or information including:

- a. Risk exposure, both quantitative and qualitative exposure, overall (composite), per type of risk and per type of functional activity.
- b. Compliance with policies and procedures and limit setting.
- c. Realization of risk management implementation compared to the set targets.

Comprehensive Internal Control System

The Bank establishes an internal control system by referring to established policies and procedures. The Bank applies the principle of separation of functions (segregation of duty) and dual control in every operational activity.

The internal control system in implementing risk management includes:

1. Conformity between the internal control system and the type and level of risk inherent in the Bank's business activities.
2. Authority and responsibility for monitoring compliance with policies, procedures and limits.
3. Clear reporting lines and separation of functions from operational work units to work units that carry out control functions.
4. Organizational structure that describes the duties and responsibilities of each unit and individual.
5. Accurate and timely financial and operational reporting.
6. Adequacy of procedures to ensure the Bank's compliance with the provisions of laws and regulations, other applicable provisions, sharia principles, and the Bank's internal provisions.
7. Independent review of the Bank's policies, frameworks and operational procedures.
8. Testing and review of the management information system.
9. Documentation of operational procedures, audit findings, and the Bank's response to audit results.
10. Periodic and continuous verification and review of the Bank's handling of weaknesses and the Bank's actions to correct deviations that occur.

Review and evaluation are conducted periodically, at least annually by SKMR and SKAI. The frequency of review and evaluation can be increased in accordance with the development of the Bank's risk exposure, market changes, measurement and management methods.

Risk Profile and Management

Local Risk and Investment Risk

Loan risk can arise from various Bank business activities, including provision of funds, securities, acceptances, interbank transactions, trade financing transactions, exchange rate transactions, and commitment and contingency obligations. Loan risk can also result from the provision of funds concentrated on one or a group of debtors, geographic areas, products, types of financing or certain business fields.

In its management, Bank BSI has an organizational device for credit and investment risk management to ensure that the bank's financing activities run according to the principle of prudence. The bank has three organizational pillars in the financing process:

- First pillar: Business unit tasked with initiating business.
- Second pillar: Risk assessment unit tasked with analyzing financing risks.
- Third pillar: Financing operation unit that maintains the financing disbursement process independently

Additionally, Bank BSI has established a recovery unit tasked with handling problematic financing. This unit operates independently of the business units and risk assessment units that provide financing.

Bank BSI has prepared financing policies and procedures to support healthy financing management, in accordance with the principle of prudence, and in accordance with sharia principles. These policies and procedures include: Risk Management Policy, Financing Policy, Financing Business Standard Procedure, Portfolio Guideline Business Standard Procedure, Product Manual, and Operational Technical Instructions for each financing segment.

The Bank also set internal limits such as BMPD (in-house), credit line, authority to decide on financing, industrial sector portfolio, and securities investment portfolio limits. At the transactional level, the Bank sets limits on the authority to decide on financing, including for securities investment. The Bank establishes a procedure for determining loan risk limits adjusted to the level of risk to be taken (risk appetite) and risk tolerance.

In more detail, Bank BSI manages credit risk through the following steps:

a. Direction of Financing Expansion

Bank BSI's financing expansion refers to the Portfolio Guideline, which includes:

1) Industry Class

The Bank manages financing risk by determining the classification of the target market industry sector. The Bank divides the industry class into four groups: attractive, neutral, selective, and alert. Of the 101

classified industry sectors, financing is directed at sectors/business fields with attractive and neutral classifications.

2) Industry Limit

To manage the risk of financing portfolio concentration, the Bank sets a financing portfolio limit for each industry sector. This limit is set based on the industry class criteria of each sector.

3) Industry Acceptance Criteria

The Bank establishes Industry Acceptance Criteria as the initial process to determine potential target customers in an industrial sector. This criterion is formulated based on critical factors from each industrial sector, both measured quantitatively as well as qualitatively.

b. Determination of Acquisition Method and Customer Risk Measurement

The Bank uses an acquisition method through the originating system, Risk Acceptance Criteria, retail financing scoring, and financing risk rating for more than IDR 1.5 billion SME financing and wholesale financing.

c. Early Warning System

The Bank uses tools such as watchlist tools to detect customer conditions early. This allows the Bank to set account strategies, including collection, recovery, or restructuring activities. This system also includes portfolio alerts to monitor the performance of the financing portfolio and ensure compliance with risk limits set by the Bank and regulators.

d. Development of Rescue Tools

The Bank develops rescue tools as a tool to monitor efforts made to problematic financing. This tool is used to minimize potential losses for the Bank and to rescue financing that has been provided to customers with business prospects, performance, ability to pay, and good faith.

e. Implementation of Stress Tests

The Bank periodically and incidentally carries out stress tests on extreme yet plausible conditions. The goal is to anticipate the adverse impacts of changes in external conditions, such as macroeconomic changes, which may affect the Bank's financing performance.

f. Determination of Financing Term

The Bank determines the financing term by considering the type of financing, yield, liquidity, and potential risk.

g. Risk Limit Adequacy Evaluation

The Bank routinely conducts studies or evaluations of the adequacy of risk limits to ensure compliance with operational and regulatory needs.

h. Internal Control System

The Bank establishes an internal control system integrated into the financing system and procedures to ensure the effectiveness of risk management.

Concerning integrate data in credit risk management, Bank BSI has a Management Information System (MIS) that provides credit risk management data. The bank reports credit risk exposure routinely, both for internal and external needs.

Market Risk

Bank BSI has exposure to market risk from treasury activities and investments in the form of marketable securities, money markets, forex (foreign exchange), and gold products due to the existence of gold supplies. Market risk management aims to minimize the negative impact of market variable movements on the Bank's portfolio.

Bank BSI applies the principle of segregation of duty by separating the functions between front office, middle office, and back office in carrying out securities and forex transactions:

- a. **Front Office**
The business unit or treasury unit performs the front office function as the executor of treasury transactions. This function acts as the first line of defense that directly performs transactions.
- b. **Middle Office**
The risk management unit performs the second line of defense function. Its duties include reviewing risk limits, measuring risk, and monitoring market risk exposure.
- c. **Back Office**
The operational work unit performs the back office function by performing settlement and bookkeeping of transactions.

Bank BSI also establishes policies, procedures, and limits as guidelines for implementing market risk management, including: Risk Management Policy, Treasury Policy, Treasury and International Banking Business Standard Procedures, PTO Asset and Liability, PTO Market Liquidity Risk Tools, and other market risk management provisions.

Interest Rate Benchmark Risk

In the process of managing interest rate benchmark risk, BSI takes the following steps:

- a. **Risk Identification**
Identification is carried out on the bank products and activities to identify the existence of interest rate benchmark risks and the sources of risk. The goal is to control and minimize risks. The results of the identification are also used to provide recommendations to business units and management.
- b. **Risk Measurement**
Risk measurement uses two methods, namely the Standard method and the internal method, namely Value at Risk (VaR). VaR describes the maximum potential loss due to the movement of securities yields under normal market conditions.
- c. **Risk Exposure Monitoring**
Risk exposure monitoring is carried out daily, weekly and monthly through the Bank's treasury system.

- d. **Risk Control**

Risk control is carried out by setting trading limits for securities. If there is an unrealized loss due to a decrease in the market price of securities, the Bank can sell or cut losses according to the established mechanism in order to avoid greater losses. Determination of the market price of trading securities is carried out daily using market prices from independent sources.

Exchange Rate Risk

Bank BSI manages exchange rate risk through the following steps:

- a. **Risk Identification**
Identification is carried out on bank products and activities to identify the existence of exchange rate risks and their sources. The goal is for risks to be controlled and minimized.
- b. **Risk Measurement**
Risk measurement using the Value at Risk (VaR) tool. The Bank also maintains the Net Open Position (PDN) according to the established limit.
- c. **Risk Exposure Monitoring**
Risk exposure monitoring is carried out daily, weekly and monthly through the Bank's treasury system.
- d. **Risk Control**
Risk control is carried out by setting limits and balancing foreign exchange positions (squaring position).

In addition, the Bank conducts stress tests to test the Bank's resilience in facing crisis conditions and prepares the necessary strategies in the event of a crisis. The Bank routinely conducts market risk stress tests to assess the Bank's ability to deal with changes in economic indicators.

In developing the Risk Management Information System, Bank BSI has a Treasury Core System that can provide data for measuring market risk. The Bank routinely reports market risk management exposure to internal and external parties.

Trading Book and Banking Book Portfolio Management and Valuation Methodology

- a. **Trading Book**
Trading book portfolio management is carried out in accordance with established limits and regulatory restrictions. The Bank performs daily mark-to-market of trading securities using market prices from independent sources, such as the Indonesian Securities Price Appraiser, Bloomberg, or Reuters.
- b. **Banking Book**
Market risk in the banking book is the risk of a decrease in profitability and economic value of capital due to changes in market returns and exchange rates. Market risk management in the banking book is carried out through a review of asset and liability prices to ensure maximum returns.

Liquidity Risk

Bank BSI manages liquidity risk to maintain the adequacy or availability of funds to meet the Bank's obligations. Liquidity risk can arise from functional activities of financing, treasury and investment, as well as funding and issuance of securities. This risk is divided into two main categories:

a. Funding Liquidity Risk

This risk arises when the Bank is unable to liquidate its assets or obtain funding from other sources. The inability to obtain sufficient cash flow that creates liquidity risk can be caused by:

- 1). Inability to generate cash flow from productive assets derived from the sale of assets including liquid assets.
- 2). Inability to generate cash flow derived from raising funds from the public, issuing securities, and loans received from other parties.

b. Market Liquidity Risk

This risk occurs when the Bank is unable to close a certain position at market price due to inadequate market liquidity conditions or market disruptions.

In its management, Bank BSI applies the principle of separation of functions (segregation of duties), including:

- a. Front Office: Treasury unit as the transaction executor.
- b. Middle Office: Risk management unit tasked with conducting limit reviews and risk measurements.
- c. Back Office: Operational unit tasked with conducting settlement and transaction bookkeeping.

Bank BSI establishes policies, procedures, and limits as guidelines in managing liquidity risk, including: Risk Management Policy, Treasury Policy, Treasury and International Banking Standard Business Procedures, PTO Asset and Liability, PTO Market and Liquidity Risk Tools, and establishes the following liquidity indicators/limits:

- Minimum Reserve Requirement (GWM)
- Safety Level
- Core Depositors
- Net Stable Funding Ratio (NSFR)
- Liquidity Coverage Ratio (LCR)
- Liquid Assets to Non-Core Deposits (AL-NCD)
- Liquid Assets to Third Party Funds (DPK)

Bank BSI manages liquidity risk through the following steps:

- a. Liquidity Risk Identification
Identification is carried out on the Bank products and activities to detect potential liquidity risks.
- b. Placement of Funds in High-Quality Liquid Assets
The Bank places funds in high-quality liquid assets as liquidity reserves.

c. Liquidity Ratios Measurement

Banks measure liquidity ratios such as cash flow projections, liquidity gaps, LCR, and NSFR.

d. Maintaining Access to the Sharia Interbank Money Market

The Bank ensures access to the Sharia Interbank money market to support liquidity.

e. Implementation of Liquidity Risk Stress Test

The Bank conducts liquidity risk stress tests periodically to assess the adequacy of liquidity in facing changes in economic indicators, including the preparation of a recovery plan.

f. Determination of Liquidity Risk Limits

The Bank determines liquidity risk limits according to internal conditions and applicable regulatory provisions.

g. Liquidity Ratio Monitoring

The Bank monitors the liquidity ratio regularly to ensure compliance with the established limits.

h. Determination of Early Warning Indicators and Emergency Funding Plan (LCP)

The Bank determines early warning indicators and Liquidity Contingency Plan (LCP) through mechanisms such as: Use of money market instruments, Sale of securities, Increase in the return ratio of funds, and Use of loan facilities from Bank Indonesia.

i. Monitoring External Indicators

The Bank monitors the movement of external indicators such as the USD/IDR exchange rate, government securities yield, market yield rates, gold prices, and current market information.

Bank BSI has a Management Information System (MIS) that provides data and information for measuring liquidity risk. The Bank periodically submits liquidity risk exposure reports to internal and external parties.

Operational Risk

Banks are exposed to operational risks due to inadequate and/or dysfunctional internal processes, human, system failures and/or external events that affect the Bank's operations. Operational risks can occur in all Bank activities, so that Bank BSI implements a comprehensive operational risk management framework throughout the organization including all lines of the Bank's business, both in the first-line unit, second-line unit, and third-line unit.

a. Separation of Functions and Responsibilities

The Bank applies the principle of separation of duties and responsibilities (segregation of duties) through the separation of maker, checker, and approver/authorizer functions, as well as a dual control mechanism in each transaction.

b. Operational Risk Management Strategy

The Bank establishes a strategy for all activities that have significant operational risk exposure. The Bank internalizes operational risk management policies into the bank's business

processes and supporting activities. The procedures derived from this policy include general operational controls that apply across the Bank's business lines and supporting activities, as well as operational controls specific to the characteristics of each business line and business support activities.

Additionally, the Bank establishes a Business Continuity Management (BCM) policy as a guideline to ensure the continuity of the Bank's operations during a disaster, Anti Money Laundering (APU), Prevention of Terrorist Financing (PPT), and Prevention of Proliferation of Mass Destruction Weapons Financing policies in order to implement Customer Due Diligence (CDD) or Enhanced Due Diligence (EDD), an anti-fraud risk management policy as a guideline for implementing anti-fraud, provisions for managing risk in cooperation with other parties, and an information technology risk management policy.

The Bank evaluates policies, standard procedures, and technical guidelines periodically, at least once a year, based on the needs and changes in internal and external conditions.

- c. Identification and Measurement of Operational Risk
The Bank identifies operational risks based on their causal factors across all functional activities and products, including through Risk Self-Assessment (RCSA), Risk Mapping, and Event Analysis.

The operational work unit identifies operational risks inherent in all products and activities carried out, including emerging risks. Several methods are used in measuring risk, both quantitatively and qualitatively, including Risk Control and Self Assessment (RCSA), Key Risk Indicators (KRI), Loss Event Database (LED) and other measurements. The Bank develops a database on losses caused by operational risks and other operational issues that may cause losses in the future.

- d. Operational Risk Mitigation
To mitigate operational risk, the Bank implements the following measures including securing information technology processes, insurance coverage, and outsourcing certain operational activities

The Bank periodically reviews procedures, documentation, contingency plan data processing systems and other operational practices. The Bank sets operational transaction limits to uphold the principle of prudence without hindering operational activities. Periodic evaluations of operational risk limits are conducted, covering Head Office, Regional, Area, and Branch Operational Transaction Limits, Electronic Channel Transaction Limits (Internet Banking, ATM, and Mobile Banking), Procurement Limits, Custodian Limits, and Bulk Transaction Limits.

Business Continuity Management (BCM)

BSI implements BCM to ensure the continuity of the Bank's operations in the event of a disaster. In 2024, the Bank

strengthened its BCM through various initiatives, including updating the BCM Standard Procedures, Business Impact Analysis (BIA), and Risk Assessment (RA); developing disaster response safety briefings; conducting Emergency Response Plan simulations for fire disasters; testing the Business Continuity Plan (BCP) for the Head Office via the Business Recovery Center (BRC) in Fatmawati; conducting Call Tree and Tabletop exercises at both the Head Office and branch network; periodically testing the Disaster Recovery Plan (DRP) for BSI's critical applications; promoting BCM awareness to work units at the Head Office and branch network; obtaining ISO 22301 BCM certification; and establishing an IT Crisis Management Team (CMT) to strengthen BCM governance.

Operational Risk Management Tools

BSI applies the following operational risk management tools:

- a. Risk & Control Self-Assessment (RCSA)
RCSA is used to identify, measure, monitor, and mitigate operational risk. It is conducted independently by work units and reviewed by SORH/RBC. The RCSA process follows an end-to-end approach to ensure comprehensive risk identification and early mitigation. RCSA is conducted on a monthly basis.
- b. Key Risk Indicator (KRI)
KRI is used for early detection of indicators that may increase operational risk exposure by setting specific thresholds. Work units monitor KRI monthly.
- c. Loss Event Database (LED)
LED is used to record operational loss events experienced by the Bank. Incidents are recorded immediately upon occurrence and reported monthly.
- d. Control Testing (CT)
CT is used to assess the adequacy of operational controls and ensure continuous improvement. CT has been implemented in the financing business processes, including pawn financing, micro, consumer vehicle, commercial, corporate, and branch operations. CT is conducted by RBC and DCOR through regular onsite reviews.

Legal Risk

Legal risk arises from lawsuits and/or weaknesses in legal aspects. This risk may stem from the absence of underlying laws and regulations or weakness in the agreement, such as failure to fulfill the requirements for the validity of the agreement or inadequate collateral binding. As a company governed by the laws of the Republic of Indonesia, the Bank must comply with all laws and regulations issued by Bank Indonesia and the Financial Services Authority (OJK) as regulators in the banking industry, as well as other provisions related to the Bank's business activities.

Legal risks that may arise include claims for material or immaterial damages if the Bank fails to comply with the applicable laws and regulations. If a claim for damages against the Bank is material, it may directly affect the Bank's financial performance.

Legal risk measurement is carried out to determine the Bank's potential losses due to lawsuits, weaknesses in obligations, and the absence and/or changes in provisions. The Bank uses legal risk measurement indicators/parameters, including:

1. Potential losses due to litigation claims
2. Cancellation of agreements caused by weaknesses in obligations
3. Changes in laws and regulations that result in the Bank's products and activities not being in line with statutory provisions.

To manage legal risk, the Bank undertakes the following actions:

- a. Reviewing policies and standard operating procedures related to legal risk management under the applicable regulations.
- b. Strengthening the legal organization.
- c. Standardizing contracts and cooperation agreements in compliance with prevailing regulations.
- d. Establishing policies for litigation reserves.

Compliance Risk

Compliance risk arises from the Bank's failure to adhere to and/or implement applicable laws, regulations, and Sharia principles. In the banking industry, the Bank is required to comply with regulations issued by the Government, Bank Indonesia, the Financial Services Authority (OJK), and the National Sharia Board. In general, compliance risk is closely related to prevailing laws and regulations governing the Bank, including:

- a. Minimum Capital Adequacy Ratio (CAR);
- b. Quality of Earning Assets;
- c. Asset Provisioning (PPA);
- d. Legal Lending Limit;
- e. Good Corporate Governance (GCG); and
- f. Bank Business Plan (RBB).

The Bank's inability to comply with all laws and regulations related to banking activities may impact its sustainability.

To manage compliance risk, the Bank undertakes the following actions:

- a. Enhancing awareness of Good Corporate Governance (GCG) and the code of conducts.
- b. Strengthening GCG implementation and ensuring that all financing debtors meet financing requirements.
- c. Preparing and submitting GCG reports to the Financial Services Authority (OJK).
- d. Enhancing the implementation of Know Your Customer (KYC), Anti-Money Laundering (AML), and Counter-Terrorism Financing (CTF) measures.
- e. Strengthening compliance certification implementation.
- f. Collaborating with the Sharia Supervisory Board to ensure the Bank's compliance with Sharia principles.
- g. Empowering Sharia Compliance to review and analyze the Bank's products and activities under Sharia principles.

Reputation Risk

Reputational risk can arise from various Bank business activities, such as:

- a. Incidents that can reduce the Bank's reputation, including negative news in the mass media and customer complaints.
- b. Other things that can reduce the Bank's reputation include a decline in the Bank's performance, weaknesses in the Bank's governance, violations of business ethics and lawsuits

To address this risk, the Bank establishes a strategy for all activities that have significant exposure to reputational risk. The Bank establishes communication procedures to respond to negative news/publications or prevent information that tends to be counterproductive. Additionally, the Bank establishes procedures for handling customer complaints and strategies for effective media use to respond to negative news

As a precautionary measure, the Bank has a protocol for managing reputation during a crisis that includes a crisis management structure and standard crisis management procedures.

The Bank identifies reputational risk using several sources of information including mass media coverage, public opinion in social networks, customer complaints and customer satisfaction surveys, including the amount of potential losses caused by reputational risk events. To monitor reputational risk, the Bank uses early warning indicators in monitoring reputational risk including the number and scope of negative publications and the frequency of customer complaints. Each work unit is required to report incidents in their respective work units that affect the Bank's image/reputation to the work unit that functions to manage communication to stakeholders.

The Bank establishes a mechanism for carrying out reputation risk control measures. Reputation risk control is carried out through, among others:

- a. Prevention of incidents that could pose a reputational risk, through:
 - 1) Follow-up and resolution of customer complaints and legal cases that have the potential to increase risk exposure.
 - 2) Strengthen external and internal communication to control potential exposure to reputational risk.
 - 3) Regular communication/education to stakeholders in order to build a positive reputation from stakeholders.
- b. Restoring the Bank's reputation after an incident that causes reputation risk, namely all Bank responses to restore the reputation and prevent the Bank's reputation from getting worse further.

Strategic Risk

Strategic risks can arise from weaknesses in the strategic formulation process and inaccuracies in strategy formulation, inadequate management information systems, inadequate results of internal and external environmental analysis, overly aggressive strategic goal setting, inaccuracies in strategy implementation and failure to anticipate changes in the business environment.

To address this risk, the Bank establishes the adequacy of procedures to be able to identify and respond to changes in the business environment. The Bank establishes general strategic risk limits, including those related to deviation limits from established business targets, such as

- Budget deviation limits,
- Target deviation limits for achieving/completing strategic initiatives.

The Bank identifies strategic risks using data from regulators/mass media and reports on realization of business targets/work unit performance. Risk analysis of strategies that require a lot of resources and/or are high risk such as strategies to enter new markets or diversification strategies in the form of products and services.

The Bank also identifies and records deviations or discrepancies as a result of the implementation of business strategies or business plans that are not realized or are ineffective, especially those that have a significant impact on the Bank's capital. The Bank records and administers the experience/deviations in the implementation of the strategic plan. The Bank evaluates the Bank's competitive position in the Industry. The Bank controls strategic risks by conducting performance reviews of business realization.

Return Risk

The risk of returns arises, among others, due to changes in the behavior of third-party fund customers of the Bank caused by changes in expectations of the rate of return received from the Bank. Changes in expectations can be caused by internal factors such as a decrease in the value of the Bank's assets and/or external factors such as an increase in the return/yield offered by other banks. Changes in expectations of the rate of return can trigger a brought forward from the Bank to other banks. The management of return risk aims to minimize changes in the behavior of third-party fund customers through the management of the rate of return so that it remains competitive with the market.

The Bank establishes strategies for all activities that have significant exposure to return risk by considering:

1. Economic and market conditions and their impact on the Bank's return risk.
2. The Bank's expertise in generating profits in a particular market and the ability to identify, monitor and control return risks in that market.
3. The Bank's portfolio mix and diversification.

The Bank establishes policies and procedures for managing yield risk including asset and liability management organization, asset and liability composition and risk measurement. The Bank has procedures including regarding the assessment of mismatch between assets and liabilities based on the timing of financing yield adjustments and third party funds and their mechanisms for both financing and third party funds. The Bank establishes limits to manage yield risk consistently, including to limit the concentration of funding sources, instruments, market segments or certain yields

The Bank monitors the yield risk exposure continuously against all risk exposures including the potential for a decline in yield income. The Bank monitors the yield risk exposure through gross revenue reports, evaluation of net yield income realization against targets and other reports.

Recovery Plan

Recovery Action Plan is a plan to overcome financial problems (financial stress) that may occur at BSI. BSI has prepared a Recovery Action Plan which includes trigger levels and Recovery Options to prevent, restore or improve the financial condition and business continuity of the Bank in the event of financial stress.

BSI updates the Recovery Action Plan every year. This is not only to fulfill regulatory obligations, but also to keep the Recovery Action Plan in line with current conditions and to be able to serve as a guide when the Bank experiences financial stress.

Risk Assessment

BSI conducts a self-assessment of inherent risks and the quality of risk management implementation in its operational activities. This assessment aims to provide information to all stakeholders regarding the condition of business risks and potential losses faced by BSI in the future within a certain period.

Based on the assessment results as of December 31, 2024, the Bank's risk profile composite rating was 2 (two), with an inherent risk predicate of "Low to Moderate" and a risk management implementation quality predicate of "Satisfactory".

Evaluation of Risk Management Implementation

BSI performs Risk Maturity Level (RML) Measurement using references from The Risk Management Society – Risk Maturity Model (RIMS – RMM) combined with the RMI approach from the Ministry of SOEs. The measurement consists of 2 aspects, namely Dimension and Performance Aspects. The Dimension Aspect consists of 5 (five) attributes as parameters that describe the process of implementing risk management comprehensively in all lines of the company. The performance aspect consists of the Final Rating Soundness Level and the Risk Composite Rating.

The results of the 2023 RML assessment conducted in 2024, BSI is at Level 4 with a score of 4.33 which means that risk management has entered a better practice phase, including:

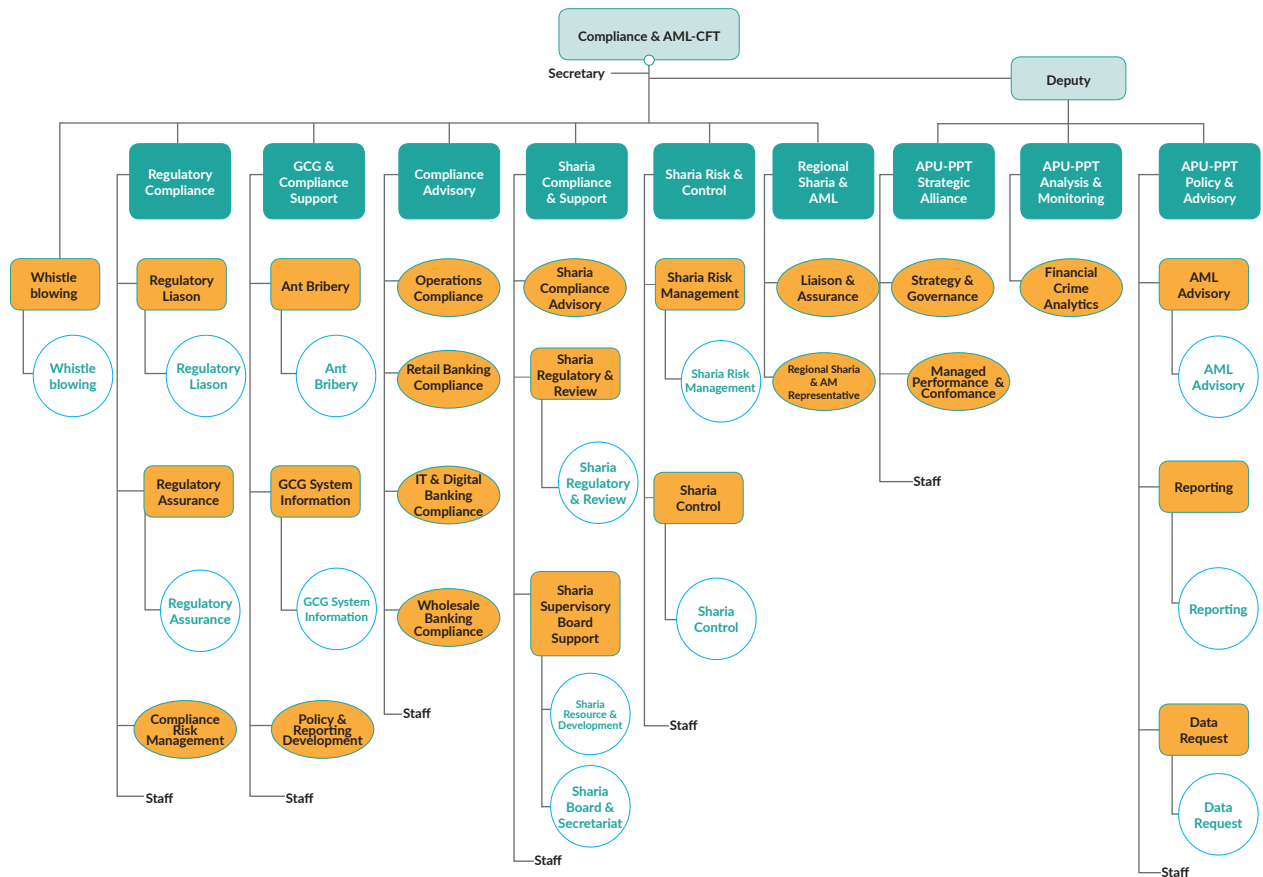

1. Implementation of all dimensions of risk management practices according to global industry standards.
2. Risk culture is broader and more integrated.
3. Risk management framework is implemented quite effectively.
4. Risk management information system is adequate.
5. Performance achievement evaluation has been conducted periodically.

Statement of the Board of Directors and/or Board of Commissioners or Audit Committee on the Adequacy of the Risk Management System

Based on the review and discussions with Management, the Risk Monitoring Committee, the Audit Committee, Internal Audit, External Auditors, and relevant units, the Board of Directors and the Board of Commissioners assess that risk management was adequately implemented in 2024.

8. Implementation of ISO 37301:2021 Compliance Management System which aims to create more effective compliance management based on international standards. This certification is carried out in the scope of the Anti Money Laundering and Countering the Financing of Terrorism Group (AMG) process.

Anti-Money Laundering, Prevention of Terrorism Financing, And Prevention of Proliferation of Weapons of Mass Destruction Financing Program (AMLCFT-PFWMD)

Following Indonesia's membership as the 40th member of the Financial Action Task Force on Money Laundering and Terrorism Financing (FATF), the government issued Presidential Decree of the Republic of Indonesia (Keppres) Number 14 of 2024 concerning Indonesia's Membership in the Financial Action Task Force (FATF) on April 5, 2024. The issuance of this decree considers that money laundering (TPPU) and terrorism financing (TPPT) are transnational crimes. Therefore, efforts to prevent and combat them require international commitment, as outlined in international standards in the field of TPPU and TPPT.

Additionally, the purpose of this decree is to provide a legal basis and certainty for all parties involved in emission reduction activities, as well as to enhance investment attractiveness and create economic value from the business processes of carbon capture, transportation, and storage.

As part of the national banking industry with both national and global networks, Bank Sharia plays an essential role in ensuring the integrity of financial transactions across all products and services used by customers, while also assisting law enforcement in implementing anti-money laundering, terrorism financing prevention, and proliferation financing programs. For Bank Syariah Indonesia (BSI), this is not only a fulfillment of regulatory compliance commitments but also an effort to realize the benefit of humanity and eliminate harm while upholding fundamental sharia principles.

Implementation of AML CFT & PFWMD Program

Banks implement the AML CFT and PFWMD programs in accordance with laws and regulations as well as International Best Practices, which consist of five pillars:

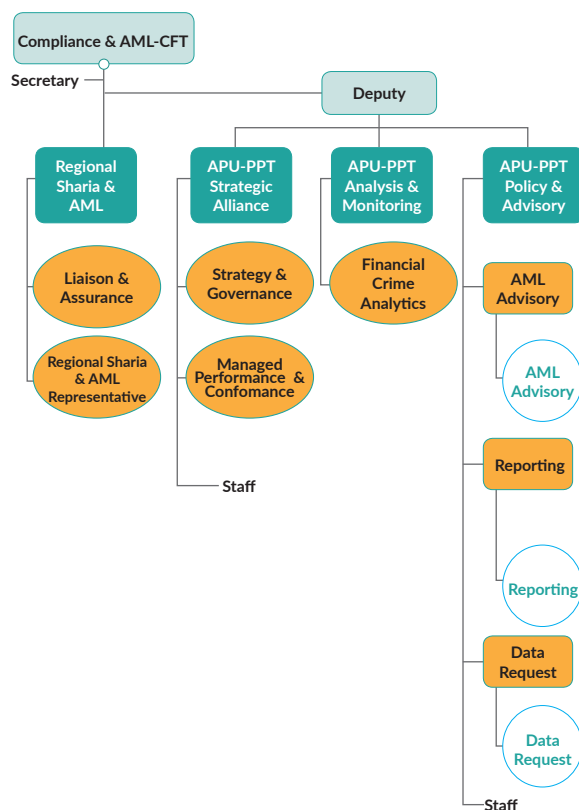

1. Active Supervision by the Board of Directors and Board of Commissioners
The Board of Directors, acting as the Steering Committee, continuously monitors the Bank's commitment to Compliance Management Systems, Compliance Culture, and Governance aspects in line with organizational goals and strategic direction.
2. Policies and Procedures
The implementation of the second pillar as part of the ex-ante function, in accordance with ISO 37301:2021, ensures that compliance policies and objectives align with the organization's values, goals, and strategies. These policies are communicated effectively, taking external issues into account for stakeholders to mitigate compliance risks related to AML CFT & PFWMD.
3. Internal Control
The implementation of internal controls to manage compliance obligations and risks is conducted periodically, allowing management to review opportunities for continuous improvement and the need for changes in the compliance management system.
4. Management Information System
This includes the development of the AML CFT & PFWMD system and the reporting of AML CFT & PFWMD to regulators.
5. Human Resources and Training
Awareness of AML CFT & PFWMD is continuously enhanced to improve competencies through training programs. This ensures that all human resources comply with regulatory obligations, policies, and procedures and can report any issues related to AML CFT & PFWMD. Additionally, internal and external stakeholder communication is continuously improved to ensure that every employee contributes to the continuous improvement of the compliance management system.

Organizational Structure of AML CFT & PFWMD

The Bank has established policies for implementing the APU PPT and PPPSPM programs, which have been approved by the Board of Directors and Board of Commissioners, with active supervision from both entities. The implementation of AML CFT and PFWMD at PT Bank Syariah Indonesia Tbk is managed by the Compliance & AML CFT Group (CAC).

The Compliance & AML CFT Group (CAC) serves as the APU PPT and PPPSPM unit at the Head Office, reporting to the Director responsible for compliance functions. The effectiveness of APU PPT and PPPSPM implementation at outlets/branches is measured by AMLOs stationed in each region, who coordinate intensively with the Compliance & AML CFT Group (CAC) at the Head Office.

The organizational structure of AML CFT & PFWMD is illustrated as follows:

AML CFT & PFWMD Program 2024

In accordance with Law No. 8 of 2010 on the Prevention and Eradication of Money Laundering, Law No. 9 of 2013 on the Prevention and Eradication of Terrorism Financing, OJK regulation No. 08 of 2023, and PPATK regulations, the AML CFT & PFWMD program has been implemented through:

1. Development, adjustment, updating, and ensuring the adequacy of AML CFT and PFWMD across all internal regulations of Bank Sharia Indonesia in accordance with applicable provisions.
2. The implementation of sampling tests and the socialization of AML CFT & PFWMD conducted by AMLO at outlets/branches based on a Risk-Based Approach;
3. Improvement of quality and monitoring of reporting obligations related to AML CFT and PFWMD, including: Suspicious Financial Transaction Reports (LTKM), Cash Financial Transaction Reports (LTKT), Fund Transfer Financial Transaction Reports to and from Abroad (LTKL), Integrated Service User Information System (SIPESAT), and other AML CFT and PFWMD reporting obligations in accordance with regulations and within the Service Level Agreement (SLA) set by the Regulator.
4. Enhancement of systems and applications supporting the implementation of the AML CFT and PFWMD program, including:
 - a. Development of the Simple BSI application to support AML CFT and PFWMD sample testing activities conducted by AMLO;
 - b. Enhancement of the New AML Application to keep up with technological advancements in AML CFT and PFWMD implementation, consisting of two phases, Phase 1: Screening and Risk Rating, Phase 2: Transaction Monitoring and Reporting;
5. Increasing awareness and competency in the implementation of the AML CFT and PFWMD program for all Bank Sharia Indonesia employees through certification, refreshment programs, socialization, and training, including:
 - a. Refreshment on AML CFT & PFWMD Implementation across Regions I – X..
 - b. AML CFT & PFWMD Webinar Series 1 – 4.
 - c. Training For Trainer (TFT): Banking Operations & Service School Batch I – V.
 - d. Learning Hub AML CFT & PFWMD RO VII Semarang.
 - e. Development of AML CFT & PFWMD awareness materials in the form of videos, comics, or infographics, distributed to all regions through AMLO on a monthly basis.
6. Improvement of customer data quality through data correction and/or updating programs, ensuring complete, accurate, up-to-date, and comprehensive customer information.
7. BSI has obtained ISO 37301:2021 Compliance Management System certification for AML CFT & PFWMD in 2022 and has successfully completed its second-year Surveillance Audit in November 2024, maintaining the ISO 37301:2021 certification status.

8. Active participation in regulatory programs and activities, including:
- Presidential Lecture commemorating 22 years of Indonesia's AML CFT movement at the State Palace on April 17, 2024.
 - PPATK's AML CFT & PFWMD Education Program at several schools in Klungkung Regency. The PPATK team, alongside partners including BSI and Pegadaian, participated in the "PPATK Teaching" event at SMKN 1 Klungkung and SMAN 2 Semarapura on February 20, 2024.
 - Groundbreaking of Desa BSI Semoyo in Semoyo Village, Patuk District, Gunungkidul Regency, Yogyakarta Special Region (DIY). BSI, in collaboration with the Financial Transaction Reports and Analysis Center (PPATK), Non-

Governmental Organizations (NGOs), and the local community, initiated a tree-planting program. A total of 10,671 productive trees were planted in Semoyo Village and surrounding areas, aimed at reducing carbon emissions.

- BSI, along with PPATK, Professors, Regulators, Reporting Parties, Consultants, and other stakeholders, gathered in Jakarta on August 20, 2024, to initiate discussions on Financial Integrity Rating (FIR) 2024. This event marked a significant step in strengthening Indonesia's financial system integrity, attended by key figures responsible for the implementation and supervision of anti-money laundering and counter-terrorism financing policies.

Code of Conduct

The code of conduct, which in the internal environment of BSI is referred to as the "Code of Conduct", is an internal guideline of the Bank that contains systems, values, business ethics, commitment, and enforcement of company regulations for individuals in conducting business and other activities and interacting with stakeholders. The code of conduct is the standard of ethics and behavior that must be guided by all levels of the Bank, namely Directors, Board of Commissioners, Senior Management and Employees in carrying out their daily duties and business relations with customers, partners and co-workers..

The general objective of the code of conduct is to create guidelines so that any violations of the code of conduct and business ethics by all levels of the Bank can be identified quickly. The banking industry is a business based on the principles of mutual trust and public trust, and it operates ethically and responsibly.

Business behavior and ethics are expected to prevent inappropriate relationships with customers or among Bank employees. The provisions encourage the implementation of Good Corporate Governance, which will eventually improve the Bank's image and reputation. The Company has a process for implementing and monitoring compliance with the Code of Conduct. Director/SEVP Human Capital is responsible for supervising the implementation of the Code of Conduct without exception by the Bank.

Principle of The Code of Ethics

The matters regulated in the Code of Conduct are:

1. Conflict of Interest

Implementation of Conflict of Interest Management:

- a. Bank personnel must avoid activities that could give rise to conflicts of interest. Such activities must be strictly avoided.
- b. Bank personnel are prohibited from granting approval and/or requesting approval for financing facilities, as well as special profit-sharing/margin rates, for:
 - Themselves;
 - Family/relatives up to the second degree, both vertically and horizontally;
 - Companies in which they and/or their family members have interests.
- c. Family/relative relationships with the Bank's personnel up to the second degree, both vertically and horizontally.
- d. The granting of financing facilities to the Bank's Executive Officers, including their family/relatives up to the second degree, must receive approval from the Board of Commissioners in accordance with applicable regulations, as stipulated in the Bank's internal policies.
- e. Bank personnel must refrain from engaging in activities related to any organization and/or individual that may result in a conflict of interest.

- f. Bank personnel are prohibited from taking or utilizing the Bank's facilities for their own benefit, for their family, or for the benefit of external parties.

- g. Bank personnel may only conduct transactions involving securities, foreign exchange trading, precious metals, derivatives, and other commodities for personal purposes outside working hours, provided that no conflict of interest, insider trading violations, or other legal breaches occur.

2. Prohibition of Gratuities/Bribery

Bank personnel must take firm action against any form of gift or gratuity from customers, business partners, or other third parties.

3. Confidentiality

Bank personnel must maintain the confidentiality of the Bank's data, especially all information related to deposit customers and their deposits, as well as investor customers and their investments, in accordance with applicable regulations.

4. Abuse of Authority

Bank personnel are prohibited from abusing their authority or deriving personal benefits, directly or indirectly, from information obtained through the Bank's business activities.

5. Insider Conduct

Insiders possessing confidential information are prohibited from using such information to gain personal benefits for themselves, their families, or third parties.

6. Integrity and Accuracy of Bank Data

The banking industry is highly regulated, requiring that all data presented be accurate and in compliance with regulations.

7. Integrity of the Banking System

Bank personnel must ensure that they are not involved in any criminal activities and/or other illegal activities that could disrupt the banking system, such as fictitious financing, embezzlement of customer funds, fraudulent transactions, data forgery, and other similar misconduct.

8. Management of Employee Accounts

The Bank must ensure that all accounts held by Bank personnel are reasonable and comply with the requirements set forth in the Bank's Corporate Regulations. The Human Capital Unit is responsible for overseeing the use of such accounts while maintaining the Bank's confidentiality requirements.

9. Annual Disclosure

In relation to the implementation of the Bank's Code of Conduct, all Bank personnel are required to make an honest and accountable annual disclosure.

10. Supervision, Implementation, and Updates

The Director/SEVP of Human Capital is responsible for overseeing the implementation of the Code of Conduct by all Bank personnel without exception.

11. Sanctions for Violations/Non-Compliance

Any violation or non-compliance with these provisions may result in sanctions in accordance with applicable regulations.

Compliance With The Code of Ethics

The BSI Code of Ethics applies to the entire Bank organization, including the Board of Commissioners, the Sharia Supervisory Board, the Board of Directors, and all employees. As a commitment to implementing the Code of Ethics within the Bank, this is primarily enforced through the annual signing of an integrity pact. The signing of the integrity pact by the Board of Commissioners, the Board of Directors, and the Bank's executive officers serves as a preventive measure to control gratuities and/or actions that violate the BSI Code of Ethics and/or any other actions that contravene applicable laws and regulations.

Dissemination of The Code of Ethics

The Bank's code of ethics has been regulated and outlined in internal regulations, such as the PT Bank Syariah Indonesia, Tbk Company Regulations (PP) for 2021-2023 (PP BSI) and its derivative provisions. PP BSI can be accessed by all levels of management and Bank employees via the intranet network (as an effort to reduce paper use and support the sustainable finance program).

Dissemination or socialization of the code of ethics aims to increase understanding of all BSI employees and its implementation. Thus, all levels of management and employees obey and comply with these provisions. Socialization is carried out by management and related work units.

The socialization program that has been running regularly is "Taujih Pekanan." This program is a facility for Bank management to convey company values, namely AKHLAK as core values for BSI employees. Through this activity, BSI employees are expected to always be in the right corridor, in line with the Bank's code of ethics. The code of ethics is also distributed in other forms, such as infographics and letters.

The dissemination of the Code of Ethics has been carried out through the New Policy System (NPS) portal and the Bank's website. Additionally, the socialization of the Code of Ethics has been conducted for both internal and external parties, with the following details:

Efforts in Implementing and Enforcing The Code of Ethics

The implementation and enforcement of a code of ethics in an organization are crucial to maintaining integrity, transparency, and accountability in all aspects of its activities. In order to realize its commitment to ethical values, BSI has undertaken various effective measures, one of which is the implementation of an integrity pact signed by all management and employees.

This integrity pact serves as a tangible manifestation of BSI's commitment to upholding high ethical standards. Every individual working at BSI, from management to employees, is required to sign this integrity pact as a form of acknowledgment and agreement to adhere to the applicable code of ethics. This also reinforces the principle that every action and decision taken must reflect the moral and ethical standards established by the company.

Additionally, the integrity pact is renewed annually, demonstrating BSI's ongoing commitment to ensuring that all employees and management remain bound by the prevailing values and regulations. This annual renewal also serves as a mechanism to evaluate compliance with the code of ethics, providing an opportunity for refinement and adjustments in response to evolving circumstances or regulations.

Through this initiative, BSI not only ensures that all employees and managers maintain a strong awareness of the importance of ethical conduct but also fosters a professional, responsible work culture that prioritizes integrity. The enforcement of the code of ethics through the integrity pact is expected to prevent potential

ethical violations and enhance public trust in BSI as a reliable financial institution with high ethical standards.

Types of Sanctions for Code of Ethics Violations

Disciplinary guidance for employees who fail to fulfill their obligations and/or violate company regulations is enforced through a tiered sanction system, including:

- 1. Sanctions for minor disciplinary violations:
 - a. Non-Sanction Guidance Letter (SPNS)
 - b. First Warning Letter (ST 1)
- 2. Sanctions for moderate disciplinary violations:
 - a. Second Warning Letter (ST 2)
 - b. First Official Reprimand (SP 1)
 - c. Second Official Reprimand (SP 2)
 - d. Third Official Reprimand (SP 3)
- 3. Sanctions for severe disciplinary violations:
 - a. First and Final Official Reprimand (SPT)
 - b. Termination of Employment (PHK)

Long-Term Compensation Policy Based on Performance

The Bank provides long-term incentives (Long Term Incentive/ LTI) as a variable form of remuneration in the form of shares issued by the Bank, amounting to a certain percentage of the variable remuneration. Specifically for Independent Commissioners, the LTI in the form of shares is converted and given in cash in accordance with applicable regulations.

The amount of LTI is granted based on performance, the role and responsibilities of the individual in managing the Bank, as well as the risk level of the position held. The LTI is granted in a deferred/blocked form for 3 (three) years and can be paid annually on a proportional basis.

The granting of the LTI is done based on the approval and decisions of PT Bank Mandiri (Persero) Tbk as the Majority Series B Shareholder and the GMS Proxy, after consulting with the Ministry of State-Owned Enterprises (BUMN) as the Series A Dwiwarna Shareholder, as outlined in the results of the Annual GMS for the 2023 Financial Year.

An explanation regarding the realization of the LTI grant is provided in the Governance section under Remuneration in the Corporate Governance chapter of this Annual Report.

Whistleblowing System

The Whistleblowing System (WBS) or violation reporting system, is a reporting system that allows each party to be involved in efforts to prevent and early detect irregularities at the Bank. The Bank's obligations in receiving and resolving reports of suspected irregularities are:

1. Must receive reports of alleged irregularities from internal or external parties and from reporters who include their identity or not.
2. Must complete a report on suspected irregularities that includes sufficient preliminary evidence.

60	20	3	3	34

Sanctions/Follow-Up on Complaints In 2024

Based on 20 reports that have been followed up, 17 (seventeen) reports were found to involve violations/fraud, and sanctions have been imposed in accordance with the Bank's regulations.

Anti-Corruption Program

Programs and Procedures to Combat Corruption Practices

Anti-Bribery Management System

As a form of BSI Management's commitment to eradicating corruption, the Anti-Bribery Management System has been implemented since the initial merger in 2021 and has been certified with ISO 37001:2016 SMAP (Anti-Bribery Management System) for the procurement scope within the Procurement and Fixed Asset Group at the Head Office. An Annual Surveillance Audit has also been conducted regularly.

In 2024, BSI conducted ISO 37001:2016 SMAP recertification for procurement within the Procurement and Fixed Asset Group and expanded the ISO 37001:2016 SMAP certification to cover procurement within BSI Corporate University at the Head Office.

Anti-Fraud Strategy

BSI enforces an anti-fraud culture based on Prevention, Detection, Action, and Monitoring principles.

Number of Complaints and Complaint Process

Complaints regarding the whistleblowing system as of December 31, 2024 amounted to 60 complaints with the following complaint composition:

No	Types of Complaints	Amount
1.	Financing	19
2.	Operational	11
3.	Code of Conduct	30

1. Prevention – Ensuring fraud does not occur within the bank's environment (Zero Tolerance for Fraud).
2. Detection – Identifying fraud incidents within the bank's operations.
3. Action – Taking swift action against fraud perpetrators to maintain a healthy business environment.
4. Monitoring – Ensuring consistent follow-up and commitment to fraud incidents.

The Bank's Anti-Fraud Policy (KAF) serves as the foundation for implementing the four pillars of the fraud control system:

1. Fraud Prevention
2. Fraud Detection
3. Fraud Investigation, Reporting, and Sanctions
4. Fraud Monitoring, Evaluation, and Follow-Up

Active Management Oversight

The Board of Commissioners, Sharia Supervisory Board, and Board of Directors of Bank Syariah Indonesia hold the authority and responsibility to:

1. Foster an anti-fraud culture across all levels of the organization, including an Anti-Fraud Statement Declaration and effective communication about fraud-related behaviors.

2. Sign an Integrity Pact across all organizational levels, including the Board of Directors, Sharia Supervisory Board, Board of Commissioners, and all bank employees, covering at least:
 - a. Compliance with laws and regulations.
 - b. Acting objectively with strong ethical and moral values, ensuring fairness, transparency, consistency, honesty, and commitment.
 - c. Actively participating in fraud prevention and eradication efforts, and reporting any fraud incidents within the bank.
 - d. Creating a corruption-, collusion-, and nepotism-free work environment (KKN-Free).
3. Establishing and monitoring the implementation of an anti-fraud code of ethics at all organizational levels
4. Ensuring comprehensive implementation and oversight of the bank's anti-fraud strategy.
5. Developing human resource quality, particularly regarding fraud awareness and control.
6. Monitoring and evaluating fraud incidents and determining follow-up actions.
7. Developing effective internal and external communication channels so all bank officers and employees understand and comply with applicable policies and procedures, including fraud control policies.
8. The Active Role of the Sharia Supervisory Board (DPS) in enforcing and ensuring the implementation of Sharia compliance principles, including:
 - a. Supervising the implementation of the Anti-Fraud Policy, particularly regarding Sharia-related deviations.
 - b. Ensuring the development of qualified human resources, especially concerning fraud awareness and control.
 - c. Overseeing, evaluating, and reporting fraud incidents and their follow-up actions, especially in cases related to Sharia compliance violations.

Gratification Policy

According to the laws on eradicating corruption, specifically Law No. 31 of 1999, amended by Law No. 20 of 2002, corruption is defined as the abuse of authority for personal gain or to benefit others unlawfully. Gratification is among the prohibited actions that can lead to fraud and corruption. To prevent such occurrences, BSI has established the Operational

Technical Guidelines (PTO) on Gratification Control, which are continuously socialized within the bank's organization.

By implementing Gratification Control, all employees are expected to:

1. Promote Good Corporate Governance (GCG) values and uphold integrity.
2. Refuse to receive or give any gratification related to their position that conflicts with their duties or responsibilities.
3. Report any gratification received that is related to their position and conflicts with their duties or responsibilities to the Gratification Control Unit under the Compliance Unit's coordination.

Procedures carried out in addressing corruption, kickbacks, bribery fraud and/or gratuities, including:

1. Gratification control is the responsibility of all levels within the bank.
2. All bank employees must avoid and reject gratification that could be considered bribery (whether from external or internal sources) if it is related to their position and conflicts with their duties.
3. If gratification cannot be refused upon initial offer, the recipient must return the gratification within 24 hours and report it to the Gratification Control Unit (Anti-Bribery Compliance & AML-CFT Group) with official proof of return, such as a handover document signed by both the recipient and giver, or proof of deposit/transfer if the gratification was in the form of money.
4. Employees who refuse or receive gratification must report it to the Gratification Control Unit via email (antibribery@bankbsi.co.id) or WhatsApp (08118 451 451) within 10 working days of the refusal/receipt, with a copy sent to their Unit Head.
5. The Gratification Control Unit will review reports and determine the type of gratification, issuing a Gratification Determination Letter within 30 working days after receiving a complete report and supporting documents.
6. Employees must educate potential givers or those with conflicts of interest in a professional and courteous manner about the prohibition of receiving gratification classified as bribery or other illegal forms of gratification.
7. If an employee becomes aware of unreported gratification that may be considered bribery, they may report it through the whistleblowing system (WBS).

Conflict of Interest Management

Throughout 2024, there were no conflicts of interest involving BSI management that resulted in losses for the Bank. The Bank has taken several measures to prevent conflicts of interest, including:

1. e-Poster

The Bank created electronic posters (e-posters) that were disseminated to all employees as a preventive measure against conflicts of interest.

2. Integrity Pact

A conflict of interest occurs when there is a clash of interests where an individual exploits their position and authority (either intentionally or unintentionally) within the company for personal, family, or group benefits, preventing them from performing their duties objectively and potentially harming the company. To prevent conflicts of interest among employees, all levels of management and Bank employees are required to complete an annual disclosure statement regarding any conflicts of interest that arise while carrying out their duties and responsibilities. This annually declared pact is closely linked to employee documentation. Currently,

the administration of the annual disclosure process is managed by the Human Capital unit, and this disclosure has been integrated into the Bank's personnel system application.

3. E-mail Blast

Insider Trading

BSI, as a publicly listed Bank, complies with all applicable laws and regulations in the capital market sector. The Bank upholds compliance with capital market regulations by adhering to key principles, ensuring that all obligations are met in accordance with prevailing laws, and establishing a dedicated unit within the Corporate Secretary's office responsible for overseeing compliance with capital market regulations through clearly defined duties and responsibilities. Insiders are required to uphold the Company/Bank's Code of Ethics, which includes:

1. Ensuring that personal interests do not conflict with the interests of the Company/Bank.
2. Not abusing their position and authority for personal or family gain.

3. Avoiding any disgraceful actions that could damage their professional reputation or the overall image of the Company/Bank.

The prohibition on insider transactions includes the following:

1. Buying or selling Company/Bank securities or securities of other companies engaged in transactions with the Company/Bank before the insider information has been publicly disclosed or made available to the public.

2. Influencing others to buy or sell Company/Bank securities or providing insider information to any party who is likely to use it for purchasing or selling Company/Bank securities.
3. Engaging in conflicts of interest.
4. Abusing their position/authority.
5. Engaging in market manipulation.
6. Conducting Short Selling or Margin Trading activities.

Throughout 2024, no insider trading incidents were recorded.

Provision of Funds to Related Parties and Large Fund Provision

The provision of funds to related parties is regulated under OJK Regulation No. 26/POJK.03/2021 on the Maximum Limit of Fund Distribution (BMPD) and Large Fund Distribution for Sharia Commercial Banks (BUS). According to this regulation, large fund distribution refers to the provision of funds to individuals or groups outside of related parties, amounting to 10% or more of the bank's core capital. Overall, the distribution of large funds to related parties is limited to a maximum of 10% of the bank's core capital. Meanwhile, the distribution of funds to parties other than related parties is limited to a maximum of 25% of the bank's core capital (Tier 1). This BMPD regulation for BUS came into effect on January 1, 2022.

BSI has the 2024 Financing Policy of Bank Syariah Indonesia, which regulates various policies related to the provision of financing, both to Related Parties, Non-Related Parties, State-Owned Enterprises (BUMN), Regional-Owned Enterprises

(BUMD), Local Governments, and financing policies in Foreign Currency. In implementing this policy, BSI always refers to the applicable banking regulations, ensuring that each financing provided is in accordance with the standards set by the relevant authorities.

In providing financing, BSI follows procedures similar to general financing, considering a reasonable profit for the bank. As part of risk management, the provision of large exposure to a single borrower or group of borrowers, reaching 10% or more of the bank's core capital, must be conducted with great caution. The financing process is closely monitored by the Financing Committee, which consists of competent members, including the President Director, who plays a key role in decision-making related to large financing. If the President Director is unavailable, the Vice President Director can substitute their position in the decision-making process.

In 2024, there were no violations of the Maximum Limit of Fund Distribution (BMPD), neither BMPD violations nor exceeding the BMPD limits.

Buy Back Shares and/or Buy Back Obligasi

According to Bank Indonesia Circular Letter (SEBI) No. 12/13/DPBs dated April 30, 2010, regarding the Implementation of Good Corporate Governance for Sharia Commercial Banks and Sharia Business Units, Buy Back Share and Buy Back Obligation refer to efforts to reduce the number of issued shares or bonds by repurchasing them, with the payment procedures carried out under applicable regulations. Throughout 2024, BSI did not conduct any share and/or bond repurchase transactions (Buy Back Shares and/or Buy Back Obligations).

Distribution of Funds for Social Activities, Both Amount and Recipients of Funds

As part of BSI's commitment to supporting the achievement of the Sustainable Development Goals (SDGs), BSI implements a Social and Environmental Responsibility (CSR) program, primarily aimed at creating a positive impact on BSI's operational environment, the communities it serves, and its stakeholders. As a Sharia-compliant entity, BSI consistently upholds the principles of Maqashid Shariah in the formulation and implementation of its CSR program.

The priority recipients of TBDSP funds are distributed to 8 asnaf (categories of zakat recipients) by Partner Institutions, namely: Fakir (the poor), Miskin (the needy), Gharimin (those in debt), Muallaf (new converts to Islam), Ibnu Sabil (travelers in need), Riqab (slaves or those in bondage), Fii Sabilillah (those fighting for Allah's cause), and Amil (zakat administrators). TBDSP funds can be given to individuals or institutions closely related to the Bank, either through work relationships or location, who meet the criteria as "dzawil qurba" (stakeholders).

"TBDSP funds can also be distributed to 17 other criteria, including: The poor and needy; Productive activities for the underprivileged; Disaster relief for victims; Ambulances and/or hearses; Campus buses; Mosques or prayer rooms and their supporting facilities; Supporting facilities for Islamic educational institutions like pesantren and/or madrasahs; Public facilities with social impact; Religious activities aimed at spreading Islam; Socialization, education, and literacy on Islamic economics, finance, and business for the general public; Scholarships for outstanding and/or underprivileged students; Support for

orphans or the underprivileged; Health care costs for low-level employees and their families who are classified as poor and not covered by the Bank's partner insurance and BPJS; Qurban animal assistance; Development of a Management Information System (MIS) for planning, monitoring, and evaluating TBDSP fund distribution (not related to the Bank's core business); Other social activities that do not contradict Sharia principles; and Other criteria not listed may be subject to approval or opinion from the Sharia Supervisory Board (DPS)

2. Building strong synergy and business alliances between all subsidiaries and Bank Mandiri to create sustainable added value for the Financial Conglomerat.

Relationship Between the Parent Entity and Subsidiaries Through Discussion Forums:

1. Integrated Risk Committee (IRC)

The IRC is an Executive Committee responsible for formulating, among other things, Integrated Risk Management policies and improving or refining Integrated Risk Management policies based on evaluation results.

a. Duties, Authority, and Responsibilities of the IRC:

- The adequacy of processes for identifying, measuring, monitoring, and controlling risks in an integrated manner, as well as the Integrated Risk Management information system.
- A comprehensive internal control system for the implementation of Integrated Risk Management.
- The implementation of Risk Management within each subsidiary.

b. IRC meetings are held at least three (3) times a year or whenever deemed necessary at the request of one or more committee members with voting rights (Voting Member), at the request of the Board of Directors, or based on a written proposal from relevant work units by submitting the discussion materials and coordinating with the Committee Secretary.

2. As a subsidiary, Bank Syariah Indonesia (BSI) regularly involves its Board of Directors in various board forums organized by the Parent Entity (Bank Mandiri), whether conducted on a quarterly or semi-annual basis.

9	Conflict of Interest	1.00	1.00
10	Remuneration Policy	1.00	1.00
Final Score		1.28	1.20

Semester I of 2024	
Ranking	Definition of Ranking:
1	The Financial Conglomerate has been assessed to have implemented Integrated Governance in a generally excellent manner. This is reflected in an adequate fulfillment of the principles of Integrated Governance. If there are any weaknesses in the implementation of Integrated Governance, they are generally insignificant and can be promptly addressed by the Parent Entity and/or Financial Service Institutions (LJK).

Governance Structure :

Strengths :

- a. The number and composition of the Board of Directors, Board of Commissioners, and Sharia Supervisory Board comply with the requirements stipulated in the applicable laws and regulations.
- b. The number and qualifications of all governance organs and supporting infrastructure for Corporate Governance implementation are in accordance with the applicable laws and regulations and are sufficient to support good Corporate Governance practices.

Weaknesses :

Regarding the Company's General Meeting of Shareholders (GMS) held on May 17, 2024, some newly appointed executives have not yet passed the fit and proper test or received approval from the Financial Services Authority (OJK), namely :

- a. Three members of the Board of Commissioners and two members of the Board of Directors. The review and fulfillment of the required documents for the OJK fit and proper test are currently in progress.
- b. Two members of the Sharia Supervisory Board. The review and fulfillment of the required documents for OJK approval are currently in progress.

Governance Process :**Strengths :**

Similar to the governance structure aspect, nearly all evaluation criteria for governance processes are positive factors in the implementation of corporate governance, including :

- a. The execution of duties and responsibilities by the Board of Directors, Board of Commissioners, and Sharia Supervisory Board has been carried out in accordance with established Work Guidelines, adhering to good corporate governance principles. Meetings of the Board of Directors, Board of Commissioners, Sharia Supervisory Board, and Joint Meetings are well-documented and serve as materials for evaluation, improvement, and strengthening corporate governance implementation to support the Company's objectives.
- b. All governance organs and supporting infrastructure function effectively in overseeing the implementation of good corporate governance.

Weaknesses :

Efforts to improve operational risk management are ongoing, including the development of a Fraud Detection System (FDS) to minimize fraud incidents. However, the implementation of the FDS still requires further progress to achieve the expected results.

Governance Outcome :**Strengths :**

- a. The Integrated Compliance Report has been submitted to the parent company on time.
- b. The Bank's Governance Report, Annual Report, and Bank Soundness Level Report have been submitted to the regulator on time.
- c. The recommendations from the Sharia Supervisory Board's oversight have been conveyed to the Company's Board of Directors, covering the supervision of both Corporate Governance principles and Sharia principles.
- d. The Internal Audit Unit has prepared and submitted reports on the execution of its duties and responsibilities to the authorized officials in a complete, routine, and timely manner, with proper documentation.

Weaknesses:

There are still regulatory fines that need to be addressed.

Good Corporate Governance Assessment

Self Assessment

As a manifestation of the Company's commitment to OJK regulation No. 17 of 2023 concerning the Implementation of Governance for Commercial Banks and SEOJK No. 10/SEOJK.03/2014 concerning the Assessment of the Soundness Level of Sharia Commercial Banks and Sharia Business Units, BSI has routinely carried out self-assessments of GCG implementation. The assessment of Good Corporate Governance (GCG) factors is a study of the quality of the Bank's management of the implementation of GCG principles that refer to regulatory provisions. The implementation of the assessment of GCG implementation in BSI is carried out every semester, namely at the end of June and December. The results of the GCG self-assessment are grouped into 5 (five) categories: Rank 1, Rank 2, Rank 3, Rank 4 and Rank 5.

Assessment Criteria

The implementation of self-assessment on the implementation of GCG refers to the OJK Circular Letter which covers 3 (three) aspects of governance, namely governance structure, governance process and governance outcome. The assessment of the three aspects of governance is carried out on:

1. Implementation of the duties and responsibilities of the Board of Commissioners.
2. Implementation of the duties and responsibilities of the Board of Directors.
3. Completeness and implementation of the Committee's duties.
4. Implementation of the duties and responsibilities of the Sharia Supervisory Board.
5. Implementation of sharia principles in fund collection and distribution activities as well as services.
6. Handling conflicts of interest.
7. Implementation of compliance functions.
8. Implementation of the internal audit function.
9. Implementation of the external audit function.
10. Legal Lending Limit (BMPD).
11. Transparency of financial and non-financial conditions of BUS, reports on the implementation of Good Corporate Governance and internal reporting.

The Party Conducting The Assessment

Assessment of GCG implementation is carried out through self-assessment done by the Compliance Group.

Assessment Score

GOOD CORPORATE GOVERNANCE FACTOR ASSESSMENT The First Semester of 2024		
	Ranking	Rank Definition
Individual	2	"The Bank Management has implemented Good Corporate Governance which can be said to be well done. This is reflected in the implementation of adequate Good Corporate Governance principles.  1. The Board of Directors, together with the Internal Audit Business Unit (SKAI), ensures the implementation of internal controls at all management levels through audit examinations and actively encourages the resolution of follow-up actions on SKAI's audit findings.
 2. SKAI's findings, as documented in the Audit Report, have been reviewed and directed by the Board of Directors, with follow-ups monitored by SKAI and reported to the Board of Commissioners.
 3. SKAI has performed its supervisory function independently, with an adequate scope of responsibilities, in line with the audit execution plan and monitoring of audit results.
- c. The quality of outcomes from the implementation of the internal audit function is satisfactory and meets stakeholders' (particularly the Board of Commissioners') expectations, as reflected in SKAI's periodic reports to the Board of Commissioners through the Audit Committee, which include Audit plan realization, Significant findings and recommendations, and Completion of follow-up actions on audit results and directives from the Board of Directors.

9. Implementation of the External Audit Function

- a. The audit conducted by the Public Accounting Firm (KAP) has been carried out effectively and meets the established criteria.
- b. The appointment of the Public Accountant/Public Accounting Firm (KAP) complies with the minimum requirements set forth in applicable regulations. The audit is conducted independently by the Public Accountant/KAP.
- c. The quality and scope of the audit results from the Public Accountant/KAP align with the applicable regulations.

10. Legal Lending Limit (BMPD) Implementation

- a. The Bank has established written policies, systems, and procedures for fund provision to related parties and large exposures, including monitoring and issue resolution mechanisms.
- b. The Bank regularly evaluates and updates its policies, systems, and procedures related to BMPD to align with prevailing regulations and laws. Additionally, the Bank ensures that fund provisions to related parties and large exposures comply with prudential principles.
- c. The Bank submits periodic reports on BMPD to the Financial Services Authority (OJK) in a timely manner. The Bank's implementation of fund provisions to related parties and/or large exposures adheres to applicable BMPD regulations, prudential principles, and relevant laws while also considering capital adequacy and portfolio diversification.

11. Transparency of Financial and Non-Financial Conditions of the Sharia Commercial Bank (BUS), GCG Implementation Report, and Internal Reporting

- a. The Bank's Internal Reporting System is capable of providing timely, accurate, complete, and reliable data and information, effectively supporting management decision-making. This is reinforced by the Bank's Information Technology System, which ensures adequate asset and information maintenance.
- b. The Bank transparently discloses financial and non-financial information to the public through its official website www.bankbsi.co.id and other appropriate media, ensuring easy access for all stakeholders. Financial and non-financial reports are also submitted to regulators and stakeholders in compliance with applicable regulations.
- c. The scope of financial and non-financial information is comprehensive and timely, meeting regulatory requirements.
- d. The GCG Implementation Report has been submitted on time to stakeholders in accordance with applicable regulations. The 2023 GCG Report was submitted to the Financial Services Authority (OJK) on April 23, 2024, via letter No. 04/736-3/DIR-CPG.

Considering the conclusions outlined above, the strengths and weaknesses of GCG implementation at Bank Syariah Indonesia are explained below :

9. Big Cap - Market capitalization exceeded IDR 25 trillion. (Investortrust.id)
10. Best Islamic Wealth Manager (Global Private Banker)

2. Weaknesses in GCG Implementation

1. Following the Annual General Meeting of Shareholders (AGMS) held on May 17, 2024, some appointed officials have yet to pass the fit & proper test or receive approval from the Financial Services Authority (OJK), including:
 - a. Three members of the Board of Commissioners and two members of the Board of Directors, currently under review and in the process of completing the required documentation for OJK's fit & proper test submission.
 - b. Two members of the Sharia Supervisory Board, currently in the review process and completing documentation for OJK approval submission.
2. Based on the self-assessment of governance processes, there are still certain fund mobilization and/or distribution activities that are not yet fully aligned with Sharia principles, despite the fact that all of the Bank's products comply with DSN-MUI fatwas and Sharia Supervisory Board (DPS) opinions, and all related SOPs have been established through proper mechanisms.
3. Certain regulatory fines remain outstanding and require further attention from management. The Bank has conducted a root cause analysis to identify the underlying causes and establish corrective actions aimed at mitigating risks and preventing similar fines from occurring in future periods.

ASSESSMENT OF GOOD CORPORATE GOVERNANCE FACTORS The Second Semester of 2024

	Rating	Ratings Definition
Individual	2	The Bank's management has implemented Good Corporate Governance (GCG) in a generally sound manner. This is reflected in the adequate application of GCG principles. If any weaknesses exist in the implementation of GCG principles, they are generally insignificant and can be resolved through normal managerial actions.

Analysis

Based on the results of the Self-Assessment on the aspects of Governance Structure, Governance Process, and Governance Outcome for the 11 (eleven) Evaluation Factors of GCG Implementation for the second semester of 2024, the Bank's Management has implemented Good Corporate Governance (GCG) in a generally sound manner, as reflected in the following:

1. Duties and Responsibilities of the Board of Commissioners

- All members of the Board of Commissioners have passed the fit and proper test conducted by the Financial Services Authority (OJK). The number of members on the Board of Commissioners complies with the requirements set forth in the applicable laws and regulations. Members of the Board of Commissioners do not hold concurrent positions, except in cases permitted by the prevailing regulations, and do not have family relationships with fellow members of the Board of Commissioners and/or members of the Board of Directors. The Board of Commissioners has established work guidelines and rules of conduct, and all members possess adequate integrity, competence, and financial reputation to support them in carrying out their duties and responsibilities, in addition to continuous efforts to enhance their knowledge through ongoing learning.
- None of the members of the Board of Commissioners violate the provisions regarding concurrent positions as stipulated by the regulations issued by the regulatory authorities (namely, the Financial Services Authority, Bank Indonesia, and other applicable laws and regulations).
- None of the members of the Board of Commissioners have financial, managerial, ownership, or family relationships with fellow members of the Board of Commissioners, the Board of Directors, and/or the Controlling Shareholder.
- The Board of Commissioners has established its Rules of Conduct in accordance with applicable laws and regulations, as well as best practices in the implementation of Good Corporate Governance (GCG).
- The implementation of the duties and responsibilities of the Board of Commissioners, including oversight, evaluation, and maintaining independence, has been adequate. This includes ensuring the application of GCG principles in all business activities of the Bank at every level of the organization, among others, through Board of Commissioners meetings or joint meetings between the Board of Commissioners and the Board of Directors or relevant Directors on a regular basis. These meetings serve to ensure that operational activities are conducted properly and in accordance with GCG principles. All meeting outcomes are documented in minutes and properly archived. During the second semester of 2024, the Board of Commissioners held eight (8) internal meetings and five (5) joint meetings with the Board of Directors (Rakomdir).

2. Duties and Responsibilities of the Board of Directors

- All members of the Board of Directors have passed the fit and proper test conducted by the Financial Services Authority (OJK). The Bank has a number of Directors that exceeds the minimum requirement as stipulated by applicable regulations. All members of the Board of Directors reside in Indonesia and meet all the requirements set forth in the prevailing regulations, including those related to concurrent positions, independence, integrity, competence, and good financial reputation, to support the execution of their duties and responsibilities as Directors.
- None of the members of the Board of Directors violate the provisions regarding concurrent positions as stipulated by regulations issued by regulatory authorities (namely, the Financial Services Authority, Bank Indonesia, and other applicable laws and regulations).
- None of the members of the Board of Directors have financial, managerial, ownership, or family relationships with fellow members of the Board of Directors, the Board of Commissioners, and/or the Controlling Shareholder.
- The Board of Directors has established its Rules of Conduct in accordance with applicable laws and regulations, as well as best practices in the implementation of Good Corporate Governance (GCG).
- The Board of Directors has effectively and efficiently established policies and strategic decisions through Board of Directors meetings, with all decisions documented in the Meeting Minutes of the Board of Directors. During the second semester of 2024, a total of twenty (20) Board of Directors meetings were held.
- The Board of Directors has managed the Bank in accordance with the principles of prudence, Sharia principles, and GCG principles. Audit findings have been duly followed up, and other governance processes have been fulfilled, yielding optimal results.

3. Completeness and Implementation of Committee Duties

- The Bank has established an Audit Committee, a Risk Monitoring Committee, and a Nomination & Remuneration Committee in accordance with applicable regulations. Each committee has a charter that serves as a guideline in carrying out its duties and responsibilities.
- All committees perform their duties independently and effectively through regular meetings, involving or inviting relevant work units to obtain comprehensive and detailed input on issues and conditions in operational activities.
- The committees have carried out their functions in accordance with applicable regulations by submitting regular reports or recommendations, as required by their respective duties, to the Board of Commissioners.

4. Implementation of the Duties and Responsibilities of the Syariah Supervisory Board

- The competence, reputation, and independence of the Sharia Supervisory Board (DPS) comply with applicable regulations, enabling it to effectively carry out its duties and responsibilities.
- The appointment and replacement of DPS members, as well as the execution of their duties and responsibilities, have been conducted in accordance with Good Corporate Governance (GCG) principles and applicable regulations.
- During the second semester of 2024, the DPS has carried out:

DPS Meeting	DPS Opinion proposal	Sample Testing
16	23	19

5. Duties and Responsibilities of the Syariah Supervisory Board

- a. In general, the Bank has carried out fundraising, fund distribution, and service provision activities in accordance with Sharia principles and applicable regulations. This is supported by the adequate competence of the Syariah Supervisory Board (DPS).
- b. The process of product development and the execution of fundraising, fund distribution, and banking services have generally complied with the fatwas issued by the National Sharia Council of the Indonesian Ulama Council (DSN-MUI) and the opinions of the DPS.
- c. Fundraising, fund distribution, and service provision activities are governed by Standard Operating Procedures (SOPs) that adhere to Sharia principles.

6. Conflict of Interest Management

- a. The Bank has established internal regulations aimed at preventing transactions that involve conflicts of interest, including the Corporate Governance Policy of Bank Syariah Indonesia, the Anti-Fraud Policy of Bank Syariah Indonesia, and the Standard Operating Procedures for Human Capital.
- b. Throughout the second semester of 2024, no transactions involving conflicts of interest were recorded, either directly or indirectly, involving the Board of Directors, Board of Commissioners, or the Sharia Supervisory Board (DPS).
- c. The Bank's internal conflict of interest policy has been effectively implemented to prevent conflicts of interest, ensuring that they do not result in any losses or reduced profitability for the Bank.

7. Implementation of Compliance Function

- a. The Compliance Director has met the independence requirements and does not hold a concurrent position as the President Director. Additionally, the Compliance Director does not oversee business and operational functions, treasury, finance and accounting, logistics, procurement of goods/services, or internal audit. The compliance unit operates independently from operational units and reports directly to the Compliance Director.
- b. The Compliance Director and the Compliance Unit have carried out their duties and responsibilities in accordance with applicable regulations, as well as other tasks related to the compliance function.
- c. To ensure that every internal regulation and product launched by the Bank complies with prevailing laws and regulations, a compliance review is conducted before the issuance of any internal regulation.
- d. The Bank has submitted the key reports on the implementation of the Compliance Function Director's duties in a timely manner. The scope of these reports aligns with regulatory requirements.

8. Implementation of Internal Audit Function

- a. Adequacy of Governance Structure in the Implementation of Internal Audit Function
 1. The Bank has established an Internal Audit Business Unit (Satuan Kerja Audit Intern - SKAI) that reports directly to the President Director and has direct communication access with the Board of Commissioners and/or the Audit Committee.
 2. The Bank has also developed an Internal Audit Charter and internal regulations related to Internal Audit, including the Internal Audit Policy of Bank Syariah Indonesia, Internal Audit Control Standard Procedures, and the Online Follow-Up Monitoring List (DMTL) Procedures.
 3. The fulfillment and enhancement of SKAI's human resource quality are continuously improved through coordination with the Human Resources unit.
- b. Effectiveness of GCG Implementation in the Internal Audit Function is reflected below :
 1. The Board of Directors, together with SKAI, ensures the implementation of internal controls at all management levels through audits and actively encourages the resolution of SKAI's audit findings.
 2. SKAI's audit findings, as outlined in the Audit Report, have been reviewed and directed by the Board of Directors, with follow-up actions monitored by SKAI and reported to the Board of Commissioners.
 3. SKAI has carried out its supervisory function independently, with a sufficient scope of duties aligned with the planned audit implementation and follow-up monitoring.
- c. The quality of internal audit outcomes has been adequate and meets stakeholder expectations (i.e., the Board of Commissioners), as reflected in periodic reports submitted by SKAI to the Board of Commissioners through the Audit Committee. These reports include the realization of the audit plan, significant findings and recommendations, and follow-up resolutions along with directives from the Board of Directors.

9. Implementation of External Audit Function

- a. The audit conducted by the Public Accounting Firm (KAP) has been carried out effectively and meets the established criteria.
- b. The appointment of the Public Accountant/Public Accounting Firm (KAP) complies with the minimum requirements set forth in the applicable regulations. The audit process conducted by the Public Accountant/KAP is independent.
- c. The quality and scope of the audit results provided by the Public Accountant/KAP are in accordance with applicable regulations.

10. Maximum Fund Distribution Limit (BMPD)

- a. The Bank has established written policies, systems, and procedures regarding fund provision to related parties and large exposures, including monitoring and issue resolution.
- b. The Bank periodically evaluates and updates its policies, systems, and procedures related to BMPD to align with applicable regulations and laws. It also ensures that fund provision to related parties and large exposures adheres to the prudential principles.
- c. The Bank submits periodic reports on BMPD to the Financial Services Authority (OJK) in a timely manner. The Bank's fund provision to related parties and/or large exposures complies with the prevailing BMPD regulations, adheres to prudential principles and legal provisions, and considers capital capacity and portfolio diversification in fund distribution.

11. Transparency of Financial and Non-Financial Conditions of the Islamic Commercial Bank (BUS), GCG Implementation Report, and Internal Reporting

- a. The Bank's Internal Reporting System is capable of providing timely, accurate, complete, and reliable data and information, effectively supporting management decision-making. This is reinforced by the Bank's Information Technology System, which ensures adequate asset and information maintenance.
- b. The Bank transparently discloses financial and non-financial information to the public through the website www.bankbsi.co.id and other appropriate media, making it easily accessible to all stakeholders. Financial and non-financial reports have also been submitted to regulators and stakeholders in accordance with applicable regulations.
- c. The scope of financial and non-financial information is available in a timely and comprehensive manner, in compliance with prevailing regulations.
- d. The GCG Implementation Report has been submitted to stakeholders in a timely manner, in accordance with applicable regulations. The GCG Implementation Report for the 2023 Fiscal Year was submitted to OJK via letter No. 04/736-3/DIR-CPG dated April 23, 2024.

Considering the above conclusions, the strengths and weaknesses of GCG implementation at Bank Syariah Indonesia are as follows:

1. The Strength of CGC Implementation

a. Governance Structure

In general, the Bank has established a comprehensive governance structure and infrastructure that complies with applicable regulations. This framework supports the implementation of GCG principles across all work lines and operations, aiming to achieve outcomes that meet the expectations of the Bank's stakeholders.

b. Governance Process

In general, the implementation of GCG has been in accordance with applicable regulations, as reflected in the Bank's compliance with its obligations to regulators and the fulfillment of its responsibilities to all stakeholders.

c. Governance Outcome

The outcomes of GCG implementation at Bank Syariah Indonesia can be observed through the Bank's financial and non-financial achievements. Financially, this is reflected in the key financial performance indicators of the Bank as of December 2024 (unaudited), as presented in the following table:

Pos	December	Growth YoY		Description
	Nom	Nom	%	
Company Profit	7,002.96	1,299.22	22.78%	BSI's performance in December 2024 showed a year-on-year (YoY) increase in several key aspects, including: 1. The Company's Profit Increased Due to the Following Factors: a. Increase in margin income b. Growth in fee-based income c. Controlled rise in operating expenses (OHC) 2. Assets Increased Due to the Following Factors: a. Growth in third-party funds (DPK) b. Increase in financing
Total Assets	408,811.92	55,187.80	15.61%	
OHC	11,658.03	1,537.37	15.19%

CASA	196,869.81	18,941.98	10.65%	

Meanwhile, in terms of non-financial achievements, during the second semester of 2024, the Bank received a total of 108 (one hundred and eight) awards, including:

1. The Most Profitable Sharia Bank 2024
2. 1st Winner of Indonesia Customer Service Quality Award 2024
3. Most Sharia Bank for Excellence Good Corporate Governance
4. Top 20 Financial Institution 2024
5. The Most Committed Top Leader on Human Capital 2024
6. Institutions/Agencies that Support the Acceleration of Halal Certification in East Java
7. Best BUMN Awards 2024 for Developing Sharia Economic Ecosystem Continuous Innovation, Category: Subsidiary
8. Indonesia Most Powerful Women 2024 in Implementing Inclusive Organizational Management to Create Productive Environment
9. The Most Trusted Company
10. The Best Industry Marketing Champion 2024 for the Commercial Banking sector.

2. The Weakness of CGC Implementation

1. In relation to the Bank's Annual General Meeting of Shareholders (AGMS) held on May 17, 2024, one member of the Sharia Supervisory Board (DPS) appointed through the AGMS had not yet received approval from the Financial Services Authority (OJK), namely Dr. K.H. Abdul Ghofur Maimoen, MA.
* Although it is has not effective yet in Semester 2 of 2024, approval from OJK was obtained through OJK Letter No. SR-13/PB.02/2025 dated January 9, 2025, and the appointment was reported to OJK via Letter No. 05/081-3/DIR-CSG dated January 13, 2025.
2. The appointment of Mr. Muliaman D. Hadad (President Commissioner concurrently serving as Independent Commissioner) as the Head of BPI Danantara* on October 22, 2024, categorized as a Public Official, may lead to non-compliance with the requirements for an Independent Commissioner as stipulated in OJK regulation No. 17 of 2023 concerning the Implementation of Corporate Governance for Commercial Banks. Should this situation occur, the change in Mr. Muliaman D. Hadad's position as President Commissioner without concurrently serving as Independent Commissioner will be ratified at the upcoming Annual General Meeting of Shareholders (AGMS).
As of the TKB report dated December 31, 2024, BPI Danantara has not yet obtained institutional legality.
2. Based on the results of the self-assessment of the governance process, there are still fundraising and/or financing activities that have not been fully aligned with Sharia principles, despite all Bank products complying with the DSN-MUI Fatwas and DPS Opinions, as well as all related Standard Operating Procedures (SOPs) being formulated through an adequate mechanism.
The root cause mapping of non-compliance with Sharia principles in fundraising and/or financing activities includes sample testing, identifying awareness and competency as dominant issues. These are being addressed through the implementation of a Sharia Collaborative Forum, certification of Sharia competency for branch employees, and literacy programs for the three pillars (risk – operations – business).
4. There are still regulatory fines that require follow-up and management's attention. The Bank has conducted a root cause analysis to determine appropriate remedial actions to mitigate the risk of recurring fines in future periods.

Assessment of GCG Implementation by External Parties

Corporate Governance Perception Index (CGPI)

In 2024, BSI participated for the fourth time in the corporate governance assessment organized by The Indonesian Institute for Corporate Governance (IICG), known as the Corporate Governance Perception Index (CGPI). CGPI is the first GCG research and ranking program in Indonesia aimed at assessing the quality of corporate governance in companies, including publicly listed companies (issuers), state-owned enterprises (SOE), banking institutions, and other private companies.

The CGPI program is being implemented with the goal of inviting all stakeholders in the business ecosystem, including the government, business people, the business community, and business supporters, to implement best GCG practices in the world of business and the economy. This initiative was launched to promote sustainable economic prosperity, with a focus on the process of creating added value for all stakeholders.

Thus, the CGPI program is expected to motivate the business world to implement the concept of Corporate Governance (CG) while also encouraging wider community participation so that they can work together to develop and implement GCG. In addition, the CGPI program aims to encourage companies to improve the quality of GCG through continuous improvement, so that the CGPI program can become a strategic tool for compiling databases, mapping CG conditions in Indonesia, and serving as a benchmark for GCG implementation in public, state-owned, and private companies in Indonesia..

Companies participating in the CGPI can benefit from measuring and improving their GCG practices, enhancing the company's overall reputation, attracting stakeholders, and increasing the potential for long-term success in the market. Additionally, CGPI participant companies can identify and address internal organizational factors that may not yet align with or support the implementation of GCG. This serves as a key consideration in improving corporate governance, encouraging all company members to apply GCG principles more effectively within their business scope. The CGPI results reflect the commitment of Indonesian companies to enhancing the quality of GCG implementation. Some of the key benefits for CGPI participant companies include

The 2024 CGPI results for the 2024 assessment awarded PT Bank Syariah Indonesia Tbk the "Highly Trusted" predicate. This reflects the commitment and consistency of the company's organs and all members in implementing Good Corporate Governance (GCG) principles and systems. PT Bank Syariah Indonesia Tbk has also developed an optimal, high-quality, and robust management system, utilizing resources effectively and efficiently while adhering to GCG principles, values, and compliance. As a result, the bank continues to create added value for stakeholders and ensure sustainable, ethical, and dignified corporate growth.

Recommendations and Follow-Up Actions

Several BSI recommendations for participation in CGPI 2024 include aspects of governance structure, governance process aspects and governance results aspects. Several CGPI assessment indicators still need to be maintained and improved. BSI's commitment to continue to strive to implement healthy, ethical and dignified business practices is one of them by following several recommendations for the CGPI 2024 assessment. BSI believes that improvements in governance aspects are key to BSI's sustainability.

Asean Governance Corporate Scorecard (ACGS)

As part of its ongoing efforts to enhance corporate governance and demonstrate commitment and consistency in its implementation, Bank Syariah Indonesia has aligned its governance practices with principles developed by the Organization for Economic Cooperation and Development (OECD) and endorsed by the ASEAN Capital Market Forum (ACMF), known as the ASEAN Corporate Governance (CG) Scorecard.

The ASEAN CG Scorecard is used to assess the corporate governance practices of publicly listed companies across ASEAN countries. The evaluation is based on publicly available information, including the Annual Report, Audited Financial Statements, Sustainability Report, Public Announcements and Notices of General Meetings, Corporate Website, and other public disclosures.

Assessment Criteria

The assessment components of the ASEAN Corporate Governance (CG) Scorecard are explained below :

- Rights and Equal Treatment of Shareholders
- Sustainability and Resilience
- Disclosure and Transparency
- Responsibilities of the Board of Directors and Board of Commissioners

Assessing Parties

The assessment is conducted by the ASEAN Capital Market Forum (ACMF) through a Domestic Ranking Body (DRB) appointed by the regulator of each participating country. The DRB performs the assessment at the national level, followed by a peer review by DRBs from other ASEAN member countries. Since 2016, the Financial Services Authority (OJK) has appointed PT RSM Indonesia Konsultan (RSM) as the DRB responsible for conducting assessments in Indonesia.

Assessment Score

More than 80% of the governance practices implemented by BSI have adopted the principles outlined in the ASEAN CG Scorecard. BSI has been assessed as having exceeded compliance with the minimum international standards and governance practices, significantly outperforming the average implementation seen among issuers or public companies (listed) within the top 100 market capitalization on the stock exchange (Big Cap).

Recommendations and Follow-Up Actions

BSI is dedicated to ongoing enhancement, especially in embracing best governance practices. As a result, multiple recommendations from the external assessment will be diligently addressed and pursued continuously. For BSI, this reflects a commitment shared by both management and employees to enhance the implementation of governance practices moving forward, especially for certain assessment indicators that still require refinement. BSI believes that minimizing the gap between its governance practices and the principles set forth in the ASEAN CG Scorecard will have a significant impact on the long-term sustainability and existence of the company.

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY

08 »

In carrying out its business activities, BSI always strives that every decision and business activity undertaken is able to provide benefits to its stakeholders. The Company views that social responsibility is a necessity which will ultimately have a positive impact on the value of the Company. In this regard, the direction of implementing social responsibility is in an effort to increase the role of the Company in achieving Sustainable Development Goals (SDGs).

As a Company engaged in banking, BSI has committed to implementing a sustainable financial program which is a support of the financial sector in achieving sustainable development. The Company is well aware that the financial system can play an important role in preventing the occurrence of funding or investment practices in business activities that use resources excessively, which ultimately has an impact on social inequality and results in environmental damage.

As a financial services institution, the implementation of corporate social responsibility at BSI refers to OJK regulation No. 51/POJK.03/2017 concerning the Implementation of Sustainable Finance for Financial Service Institutions Issuers and Public Companies and the international standard, namely ISO 26000. In accordance with the Circular Letter of the Financial Services Authority No. 16/SEOJK.04/2021 Concerning the Form and Content of the Annual Report of Issuers or Public Companies, Information on corporate social responsibility, particularly related to the application of environmental, social and governance (ESG) principles, is presented in the Sustainability Report which is presented separately from this Annual Report.

Menurut opini kami, laporan keuangan terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan Bank tanggal 31 Desember 2024, serta laporan laba rugi dan penghasilan komprehensif lain, laporan perubahan ekuitas, laporan arus kas, laporan rekonsiliasi pendapatan dan bagi hasil, laporan sumber dan penyaluran dana zakat, dan laporan sumber dan penggunaan dana kebajikan untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Basis Opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf "Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan" pada laporan kami. Kami independen terhadap Bank berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut.

Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Hal Audit Utama

Hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan periode kini. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

Opinion

We have audited the financial statements of PT Bank Syariah Indonesia Tbk (the "Bank"), which comprise the statement of financial position as at 31 December 2024, and the statement of profit or loss and other comprehensive income, statement of changes in equity, statement of cash flows, statement of reconciliation of income and revenue sharing, statement of sources and distribution of zakat funds, and statement of sources and uses of qardhul hasan funds for the year then ended, and notes to the financial statements, including material accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bank as at 31 December 2024, and the statement of profit or loss and other comprehensive income, statement of changes in equity, statement of cash flows, statement of reconciliation of income and revenue sharing, statement of sources and distribution of zakat funds, and statement of sources and uses of qardhul hasan funds for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the "Auditors' Responsibility for the Audit of the Financial Statements" paragraph of our report. We are independent of the Bank in accordance with the ethical requirements that are relevant to our audit of the financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Hal audit utama yang teridentifikasi dalam audit kami diuraikan sebagai berikut.

1. Cadangan kerugian penurunan nilai pada piutang, pinjaman qardh dan pembiayaan

Lihat Catatan 2d (Kebijakan akuntansi material - Cadangan kerugian penurunan nilai, Catatan 3a (Penggunaan estimasi dan pertimbangan akuntansi yang penting - Cadangan kerugian penurunan nilai pada piutang, pinjaman *qardh*, dan pembiayaan), Catatan 9 (Piutang), Catatan 10 (Pinjaman *qardh*), Catatan 11 (Pembiayaan *mudharabah*), dan Catatan 12 (Pembiayaan *musyarakah*) atas laporan keuangan.

Pada tanggal 31 Desember 2024, cadangan kerugian penurunan nilai atas piutang (terdiri dari piutang *murabahah*, *istishna*, dan *ijarah*), pinjaman *qardh* dan pembiayaan (terdiri dari pembiayaan *mudharabah* dan *musyarakah*) adalah sebesar Rp10.291 miliar. Cadangan kerugian penurunan nilai atas piutang, pinjaman *qardh* dan pembiayaan ditentukan oleh Bank berdasarkan kerangka sebagaimana diatur dalam Pernyataan Standar Akuntansi Keuangan ("PSAK") yang berlaku seperti yang dijelaskan pada Catatan 2d atas laporan keuangan.

Kami memberikan fokus pada area ini karena besarnya nilai tercatat bruto atas piutang, pinjaman *qardh* dan pembiayaan yang mewakili 67% dari jumlah aset Bank, dan nilai cadangan kerugian penurunan nilai yang dibentuk atas piutang, pinjaman *qardh* dan pembiayaan yang signifikan terhadap laporan keuangan Bank. Lebih lanjut, penentuan cadangan kerugian penurunan nilai melibatkan pertimbangan manajemen yang signifikan.

Piutang *murabahah* yang secara individual tidak dianggap signifikan, Bank menghitung cadangan kerugian penurunan nilai secara kolektif menggunakan model parameter risiko dengan menggunakan parameter-parameter utama yaitu *Probability of Default* ("PD") dan *Loss Given Default* ("LGD"). Untuk piutang, pinjaman *qardh* dan pembiayaan, yang secara individual dianggap signifikan, Bank menghitung cadangan kerugian penurunan nilai secara individual dengan mengestimasi arus kas ekspektasian dari piutang, pinjaman *qardh* dan pembiayaan.

The key audit matters identified in our audit are outlined as follows.

1. Allowance for impairment losses on receivables, funds of qardh and financing

Refer to Note 2d (Material accounting policies - Allowance for impairment losses), Note 3a (Use of critical accounting estimates and judgments - Allowance for impairment losses on receivables, funds of qardh and financing), Note 9 (Receivables), Note 10 (Funds of qardh), Note 11 (Mudharabah financing), and Note 12 (Musyarakah financing) to the financial statements.

As at 31 December 2024, the allowance for impairment losses on receivables (which consists of *murabahah*, *istishna*, and *ijarah* receivables), funds of qardh and financing (which consists of *mudharabah* and *musyarakah* financing) of the Bank was Rp10,291 billion. The allowance for impairment losses on receivables, funds of qardh and financing was determined by the Bank based on framework under applicable Statement of Financial Accounting Standards ("SFAS") as described in Note 2d to the financial statements.

We focused on this area due to the size of the gross carrying value of receivables, funds of qardh and financing, which represented 67% of the total assets of the Bank, and the significance of the amount of allowance for impairment losses provided against receivables, funds of qardh and financing to the Bank's financial statements. In addition, the determination of allowance for impairment losses involves significant management judgement.

Murabahah receivables which are not considered to be individually significant, the Bank assessed allowance for impairment losses collectively by using the risk parameter modelling approach that incorporated key parameters such as *Probability of Default* ("PD") and *Loss Given Default* ("LGD"). For receivables, funds of qardh and financing, which are considered individually significant, the Bank assessed allowances for impairment losses individually by estimating the expected cash flows obtained from the receivables, funds of qardh and financing.

Bagaimana audit kami merespons hal audit utama

Kami melakukan prosedur-prosedur audit berikut ini atas hal audit utama tersebut:

- Kami memperoleh pemahaman atas pendekatan manajemen dalam menghitung cadangan kerugian penurunan nilai piutang, pinjaman *qardh*, dan pembiayaan.
- Ketika bukti objektif penurunan nilai diidentifikasi oleh Bank dan kerugian penurunan nilai dihitung secara individual, kami menilai kecukupan penyisihan penurunan nilai dengan melakukan pengecekan baik jumlah dan waktu arus kas masa depan yang digunakan oleh Bank dalam perhitungan kerugian penurunan nilai dan mempertimbangkan bukti eksternal jika tersedia. Berdasarkan sampel, kami membandingkan jadwal pembayaran kembali dan tingkat pengembalian efektif yang digunakan pada perhitungan dengan informasi yang tertera pada perjanjian piutang, pinjaman *qardh*, dan pembiayaan.
- Kami menilai metodologi dan asumsi signifikan yang digunakan dalam menentukan model cadangan kerugian penurunan nilai. Kami menilai PD dan LGD terhadap persyaratan PSAK No. 402, yang melibatkan (i) penilaian model dan metodologi yang digunakan dalam perhitungan kuantitatif; dan (ii) menguji kelengkapan dan keakuratan data yang digunakan sebagai basis untuk penentuan tingkat PD dan LGD, dengan melibatkan spesialis Teknologi Informasi ("TI") kami.
- Kami melakukan perhitungan matematis ulang atas cadangan kerugian penurunan nilai secara kolektif atas kerugian penurunan nilai dengan melibatkan spesialis TI kami.

2. Pengoperasian dan pengendalian atas sistem teknologi informasi (TI) pelaporan keuangan

Bank sangat bergantung pada infrastruktur, sistem dan pengendalian TI untuk kegiatan operasional sehari-hari dan proses pelaporan keuangan bisnis Bank. Lingkungan TI Bank dianggap kompleks karena banyaknya sistem pelaporan keuangan utama dan integrasi antar sistem. Oleh karena itu, kami menganggap pengoperasian dan pengendalian atas sistem TI pelaporan keuangan Bank sebagai hal audit utama.

How our audit addressed the key audit matter

We have performed the following procedures to address this key audit matter:

- We understood management's approach to calculate the allowance for impairment losses for receivables, funds of *qardh* and financing.
- When objective evidence of impairment was identified by the Bank and impairment loss was individually calculated, we assessed the adequacy of the impairment allowance by checking both the amount and timing of future cash flows used by the Bank in the impairment loss calculation and considering external evidence where available. On a sample basis, we compared the schedule of repayment and the effective rate of return used in the calculation with the information as stipulated in the agreements over the receivables, funds of *qardh* and financing.
- We assessed the methodology and significant assumptions used in determining the allowance for impairment losses model. We assessed the PD and LGD against the requirements of SFAS No. 402, which involved (i) assessing the model and methodology used in quantitative calculation; and (ii) testing the completeness and accuracy of data used as the basis to determine the PD and LGD rates by involving our Information Technology ("IT") specialists.
- We performed independent mathematical recalculation of the collective allowance for impairment losses by involving our IT specialists.

2. Operation and controls of financial reporting information technology (IT) systems

The Bank is heavily reliant on its IT infrastructure, systems and controls for its daily operations and the financial reporting processes of its business. The IT environment of the Bank is considered complex due to the number of key financial reporting systems and the interfaces among the systems. Given these factors, we consider the operation and controls of the financial reporting IT system of the Bank to be a key audit matter.

Bagaimana audit kami merespons hal audit utama

Kami melakukan prosedur-prosedur audit berikut ini atas hal audit utama tersebut:

- Kami melibatkan spesialis TI untuk menilai risiko yang terkait dengan lingkungan TI Bank sehubungan dengan proses pelaporan keuangan.
- Kami memperoleh pemahaman tentang sistem TI dan pengendalian yang mendukung proses pelaporan keuangan dan menilai rancangan, implementasi, dan pengoperasian dari pengendalian utama yang dirancang untuk mempertahankan integritas dari sistem utama pelaporan keuangan. Penilaian ini termasuk pengendalian utama berikut ini:
 - Pengendalian manajemen perubahan: Proses dan pengendalian yang digunakan untuk mengembangkan, menguji, dan melakukan otorisasi perubahan pada fungsionalitas dan konfigurasi dalam sistem;
 - Pengendalian atas keamanan akses pengguna: Pengendalian akses yang dirancang untuk memberlakukan pemisahan tugas, mengatur pengguna akun dengan hak akses istimewa dan data hanya diubah melalui mekanisme yang terotorisasi;
 - Pengendalian atas operasional TI: Pengendalian atas aktivitas operasi digunakan untuk memastikan bahwa setiap masalah yang muncul dikelola dengan tepat; dan
 - Pengendalian pengembangan sistem: Pengendalian atas pengembangan, konfigurasi dan implementasi dari sistem baru atau yang sudah ada.
- Kami menguji rancangan, implementasi dan operasi atas pengendalian utama yang bergantung pada TI yang mendukung proses pelaporan keuangan, seperti perhitungan otomatis sistem, pemrosesan transaksi, pembuatan laporan dan perpindahan data antar sistem. Pengujian kami mencakup pemeriksaan konfigurasi sistem yang relevan dan pengujian keluaran sistem, berdasarkan uji petik.

How our audit addressed the key audit matter

We have performed the following procedures to address this key audit matter:

- We involved IT specialist in assessing the risk associated with the Bank's IT environment in respect of its financial reporting process.
- We understood the IT systems and controls that supported the financial reporting process and assessed the design, implementation and operation of the associated key control designed to maintain the integrity of the key financial reporting systems. This assessment included the following key controls:
 - Change management controls: The processes and controls used to develop, test and authorise changes to the functionality and configurations within systems;
 - User access security controls: The access controls designed to enforce segregation of duties, govern the use of high privileged accounts and the data is only changed through authorised means;
 - IT operation related controls: The controls over operations used to check that any issues that arise are managed appropriately; and
 - System development controls: The controls relating to the development, configuration and implementation of new or existing systems.
- We tested the design, implementation and operation of key IT dependent controls that supported the financial reporting process, such as system-automated calculations, transaction processing, generation of reports and the data interfaces between systems. We inspected the relevant system configurations and tested system outputs, on a sample basis.

Informasi Lain

Manajemen bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam laporan tahunan, tetapi tidak termasuk laporan keuangan dan laporan auditor kami. Laporan tahunan diharapkan akan tersedia bagi kami setelah tanggal laporan auditor ini.

Opini kami atas laporan keuangan tidak mencakup informasi lain, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas informasi lain tersebut.

Sehubungan dengan audit kami atas laporan keuangan, tanggung jawab kami adalah untuk membaca informasi lain yang teridentifikasi di atas, ketika tersedia dan, dalam melaksanakannya, mempertimbangkan apakah informasi lain mengandung ketidakkonsistensian material dengan laporan keuangan atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca laporan tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan mengambil tindakan tepat berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia.

Tanggung jawab manajemen dari pihak yang bertanggung jawab atas tata kelola terhadap laporan keuangan

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Dalam penyusunan laporan keuangan, manajemen bertanggung jawab untuk menilai kemampuan Bank dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intensi untuk melikuidasi Bank atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Bank.

Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan tersebut.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal Bank.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- *Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.*
- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.*
- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*

- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Bank untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Bank tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Kami mengomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengomunikasikan seluruh hubungan serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan jika relevan, pengamanan terkait.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal-hal tersebut yang paling signifikan dalam audit atas laporan keuangan periode kini dan oleh karenanya menjadi hal audit utama.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters.

Kami menguraikan hal audit utama dalam laporan auditor kami kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(Expressed in millions of Rupiah, unless otherwise stated)

2. MATERIAL ACCOUNTING POLICIES (continued)

a. Basis of preparation of financial statements (continued)

The financial statements are presented on a historical cost basis, unless stated otherwise as described in the accounting policy for each account, and prepared on accrual basis, except for statements of cash flows and statements of reconciliation of income and revenue sharing.

The statements of cash flows are prepared using the direct method by classifying cash flows into operating, investing and financing activities. For the presentation of statements of cash flows, cash and cash equivalents consist of cash, current accounts and placements with Bank Indonesia, current accounts with other banks and placements with other banks with maturities of 3 (three) months from the date of acquisition.

The statements of reconciliation of income and revenue sharing represents the reconciliation between income of sharia bank under accrual basis and income distributed to fund owners under cash basis.

The statements of sources and distribution of zakat funds and statements of sources and uses of qardhul hasan funds represent the financial statements reflecting the Bank's role as the mandate holder of social activity funds which are separately managed.

The statements of sources and distribution of zakat funds show the sources and distribution of zakat funds for a certain period, and the undistributed zakat funds on a particular date.

The statements of sources and uses of qardhul hasan funds show the sources and uses of qardhul hasan funds for a certain period, and the qardhul hasan funds balance on a particular date.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**a. Dasar penyusunan laporan keuangan (lanjutan)**

Zakat adalah sebagian dari harta yang wajib dikeluarkan oleh *muzakki* (pembayar zakat) untuk diserahkan kepada *mustahiq* (penerima zakat). Sumber dana zakat, *infaq* dan *shadaqah* berasal dari Bank dan pihak lain yang diterima Bank untuk disalurkan kepada pihak yang berhak sesuai dengan prinsip syariah.

Bank tidak secara langsung menjalankan fungsi pengelolaan dana zakat dan dana kebajikan.

Mata uang pelaporan yang digunakan dalam laporan keuangan adalah mata uang Rupiah ("Rp") yang juga merupakan mata uang fungsional. Angka-angka yang disajikan dalam laporan keuangan, kecuali bila dinyatakan secara khusus, adalah dibulatkan dalam jutaan Rupiah.

b. Perubahan Pernyataan Standar Akuntansi Keuangan ("PSAK") dan Interpretasi Standar Akuntansi Keuangan ("ISAK")

Berikut ini adalah standar akuntansi keuangan baru, perubahan dan interpretasi standar akuntansi keuangan yang berlaku efektif sejak 1 Januari 2024:

- Amendemen PSAK 116: "Sewa" tentang liabilitas sewa pada transaksi jual dan sewa-balik;
- Amendemen PSAK 201: "Penyajian Laporan Keuangan" tentang klasifikasi liabilitas lancar atau tidak lancar;
- Amendemen PSAK 201: "Penyajian Laporan Keuangan" tentang liabilitas jangka panjang dengan kovenan; dan
- Revisi PSAK 401: "Penyajian Laporan Keuangan Syariah" tentang penghilangan penyajian laporan perubahan aset kelolaan sebagai salah satu komponen laporan keuangan.

Implementasi dari standar-standar tersebut tidak menghasilkan perubahan substansial terhadap kebijakan akuntansi Bank dan tidak memiliki dampak yang material terhadap laporan keuangan Bank di tahun berjalan atau tahun sebelumnya.

**NOTES TO THE FINANCIAL STATEMENTS

(Expressed in millions of Rupiah, unless otherwise stated)

2. MATERIAL ACCOUNTING POLICIES (continued)**a. Basis of preparation of financial statements (continued)**

Zakat is part of the wealth which must be taken out by muzakki (the zakat payer) to be given to mustahiq (the zakat receiver). The sources of zakat, infaq and shadaqah funds are derived from the Bank and other parties to be distributed to parties eligible in accordance with sharia principle.

The Bank is not directly involved in the management of zakat and qardhul hasan funds.

The reporting currency used in the financial statements is Rupiah ("Rp") which is also the Bank's functional currency. The figures presented in the financial statements, unless otherwise stated, are rounded in millions of Rupiah.

b. Changes to Statements of Financial Accounting Standards ("SFAS") and Interpretations of Financial Accounting Standards ("IFAS")

The following are new financial accounting standards, amendments and interpretations of financial accounting standards which become effective starting 1 January 2024:

- *Amendment of SFAS 116: "Leases" regarding lease liabilities in sale-and-lease back transactions;*
- *Amendment of SFAS 201: "Presentation of Financial Statements" regarding classification of liabilities as current or non-current;*
- *Amendment of SFAS 201: "Presentation of Financial Statements" regarding long-term liabilities with the covenant; and*
- *Revision of SFAS 401: "Presentation of Sharia Financial Statements" regarding the elimination of presentation of reports on changes in assets under management as a component of financial reports.*

The implementation of the above standards did not result in substantial changes to the Bank's accounting policies and had no material impact to the Bank's financial statements for current period of prior financial years.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**d. Cadangan kerugian penurunan nilai (lanjutan)**Piutang murabahah (lanjutan)

Aset keuangan mengalami penurunan nilai jika bukti objektif menunjukkan bahwa peristiwa yang merugikan telah terjadi setelah pengakuan awal aset keuangan dan peristiwa tersebut berdampak pada arus kas masa datang atas aset keuangan yang dapat diestimasi secara andal.

Kriteria yang digunakan oleh Bank untuk menentukan bukti objektif dari penurunan nilai adalah sebagai berikut:

- (1) kesulitan keuangan signifikan yang dialami penerbit atau pihak peminjam;
- (2) pelanggaran kontrak, seperti terjadinya wanprestasi atau tunggakan pembayaran pokok atau margin;
- (3) pihak pemberi pinjaman, dengan alasan ekonomi atau hukum sehubungan dengan kesulitan keuangan yang dialami pihak peminjam, memberikan keringanan (konsesi) pada pihak peminjam yang tidak mungkin diberikan jika pihak peminjam tidak mengalami kesulitan tersebut;
- (4) terdapat kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya;
- (5) hilangnya pasar aktif dari aset keuangan akibat kesulitan keuangan;
- (6) data yang dapat diobservasi mengindikasikan adanya penurunan yang dapat diukur atas estimasi arus kas masa datang dari kelompok aset keuangan sejak pengakuan awal aset dimaksud, meskipun penurunannya belum dapat diidentifikasi terhadap aset keuangan secara individual dalam kelompok aset tersebut;
- (7) memburuknya status pembayaran pihak peminjam dalam kelompok tersebut; dan
- (8) kondisi ekonomi nasional atau lokal yang berkorelasi dengan wanprestasi atas aset dalam kelompok tersebut.

Bank pertama kali menentukan apakah terdapat bukti objektif penurunan nilai secara individual atas aset keuangan yang signifikan dan secara kolektif untuk aset keuangan yang tidak signifikan secara individual.

Jika Bank menentukan tidak terdapat bukti objektif mengenai penurunan nilai atas aset keuangan yang dinilai secara individual, terlepas aset keuangan tersebut signifikan atau tidak, maka Bank memasukkan aset tersebut ke dalam kelompok aset keuangan yang memiliki karakteristik risiko pembiayaan yang serupa dan menilai penurunan nilai kelompok tersebut secara kolektif. Aset keuangan yang penurunan nilainya dilakukan secara individual, dan untuk itu kerugian penurunan nilai telah diakui atau tetap diakui, tidak termasuk dalam penilaian penurunan nilai secara kolektif.

2. MATERIAL ACCOUNTING POLICIES (continued)**d. Allowance for impairment losses (continued)**Murabahah receivables (continued)

Financial assets are impaired when an objective evidence demonstrates that a loss event has occurred after the initial recognition of the asset and that the loss event has an impact on the future cash flows of the financial asset that can be estimated reliably.

The criteria used by the Bank to determine objective evidence of impairment are as follows:

- (1) significant financial difficulty of the issuer or obligor;
- (2) a breach of contract, such as a default or arrears on principal or margin payments;
- (3) the lender, for economic or legal reasons relating to the debtor's financial difficulty, grants the debtor a concession that the lender would not otherwise consider;
- (4) it becomes probable that the debtor will enter into bankruptcy or other financial reorganisation;
- (5) the disappearance of an active market of financial assets due to financial difficulties;
- (6) observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified individually in the portfolio;
- (7) adverse changes in the payment status of debtors in the portfolio; and
- (8) national or local economic conditions that correlate with breach of contract of the assets in the portfolio.

The Bank first assesses whether an objective evidence of impairment for financial assets that are individually significant and collectively for financial assets that are not individually significant.

If the Bank determines that there is no objective evidence of impairment for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar financing risk characteristics and collectively assesses them for impairment. Financial assets that are individually assessed for impairment, and for which an impairment loss is or continues to be recognised is excluded in the collective assessment of impairment.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**d. Cadangan kerugian penurunan nilai (lanjutan)**Piutang murabahah (lanjutan)

Bank menetapkan piutang *murabahah* yang harus dievaluasi penurunan nilainya secara individual, jika memenuhi salah satu kriteria di bawah ini:

- (1) piutang *murabahah* memiliki kolektibilitas kurang lancar, diragukan dan macet, dan memiliki saldo nilai piutang secara individual di atas atau sama dengan Rp10.000; atau
- (2) piutang *murabahah* yang direstrukturisasi atau pernah direstrukturisasi dan yang secara individual memiliki saldo nilai piutang di atas Rp10.000.

Bank menetapkan piutang *murabahah* yang harus dievaluasi penurunan nilainya secara kolektif, jika memenuhi salah satu kriteria di bawah ini:

- (1) piutang *murabahah* yang secara individual memiliki nilai signifikan namun tidak memiliki bukti objektif penurunan nilai;
- (2) piutang *murabahah* yang secara individual memiliki nilai tidak signifikan; atau
- (3) piutang *murabahah* yang direstrukturisasi yang secara individual memiliki nilai tidak signifikan.

Perhitungan cadangan kerugian penurunan nilai atas aset keuangan yang dinilai secara kolektif dikelompokkan berdasarkan karakteristik risiko piutang yang sama dengan mempertimbangkan segmentasi piutang berdasarkan pengalaman kerugian masa lalu (*probability of default*).

Bank menggunakan metode analisis migrasi yang merupakan suatu metode analisis statistik, untuk menilai cadangan kerugian penurunan nilai atas piutang yang diberikan secara kolektif. Bank menggunakan data historis 5 (lima) tahun dalam menghitung *Probability of Default* ("PD") dan *Loss Given Default* ("LGD").

Kerugian penurunan nilai atas aset keuangan yang dicatat pada biaya perolehan diamortisasi diukur sebesar selisih antara nilai tercatat aset keuangan dengan nilai kini estimasi arus kas masa datang yang didiskonto menggunakan tingkat margin efektif awal dari aset keuangan tersebut.

31 DECEMBER 2024 AND 2023**

(Expressed in millions of Rupiah, unless otherwise stated)

2. MATERIAL ACCOUNTING POLICIES (continued)**d. Allowance for impairment losses (continued)**Murabahah receivables (continued)

The Bank determines *murabahah* receivables to be evaluated for impairment through individual evaluation if one of the following criteria is met:

- (1) *murabahah* receivables which have collectibility status as substandard, doubtful and loss, and have an individual receivables balance of above or equal to Rp10,000; or
- (2) *murabahah* receivables that are restructured or have been restructured and which individually have a balance of receivables above or equal Rp10,000.

The Bank determines *murabahah* receivables to be evaluated for impairment through collective evaluation if one of the following criteria is met:

- (1) *murabahah* receivables which individually have significant value but there is no objective evidence of impairment;
- (2) *murabahah* receivables which individually have insignificant value; or
- (3) restructured *murabahah* receivables which individually have insignificant value.

The calculation of allowance for impairment losses on financial assets which are evaluated collectively, grouped based on similar receivable risk characteristics and taking into account the receivable segmentation on the basis of historical loss experience (*probability of default*).

The Bank uses the migration analysis method which is a statistical model analysis method to assess allowance for impairment losses on collective receivables. The Bank uses 5 (five) years historical data to compute for the *Probability of Default* ("PD") and *Loss Given Default* ("LGD").

Impairment losses on financial assets recorded at amortised cost are measured as the difference between the carrying amount of the financial assets and present value of estimated future cash flows discounted at the financial assets original effective margin rate.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**d. Cadangan kerugian penurunan nilai (lanjutan)**Piutang murabahah (lanjutan)

Kerugian yang terjadi diakui pada laporan laba rugi dan penghasilan komprehensif lain dan dicatat pada akun cadangan kerugian penurunan nilai sebagai pengurang terhadap aset keuangan yang dicatat pada biaya perolehan diamortisasi.

Penerimaan kembali atas aset keuangan yang diberikan yang telah dihapusbukkan, pada tahun berjalan dikreditkan dengan menyesuaikan akun cadangan kerugian penurunan nilai. Penerimaan kembali atas pinjaman yang diberikan yang telah dihapusbukkan pada tahun-tahun sebelumnya dicatat sebagai pendapatan operasional selain pendapatan margin.

Aset produktif selain piutang murabahah

Aset produktif selain piutang murabahah terdiri dari giro dan penempatan pada Bank Indonesia dalam bentuk Deposito Berjangka Syariah Bank Indonesia dan Fasilitas Simpanan Bank Indonesia Syariah ("FASBIS"), giro dan penempatan pada bank lain, investasi pada surat berharga, piutang istishna, pinjaman qardh, pembiayaan mudharabah, pembiayaan musyarakah, aset yang diperoleh untuk ijarah, serta komitmen dan kontinjensi yang memiliki risiko pembiayaan seperti bank garansi. Bank membentuk cadangan kerugian penurunan nilai berdasarkan estimasi kerugian aset produktif yang tidak dapat ditagih sebagaimana diatur dalam PSAK yang berlaku. Selain itu, Bank juga menerapkan Peraturan Otoritas Jasa Keuangan ("POJK") No. 02/POJK.03/2022 tanggal 31 Januari 2022 tentang "Penilaian Kualitas Aset Bank Umum Syariah dan Unit Usaha Syariah" yang berlaku efektif tanggal 7 Februari 2022.

Cadangan kerugian minimum yang harus dibentuk sesuai dengan POJK adalah sebagai berikut:

- 1) Cadangan umum, ditetapkan paling rendah sebesar 1% dari aset produktif yang digolongkan lancar diluar giro dan penempatan pada Bank Indonesia, surat berharga yang diterbitkan pemerintah berdasarkan prinsip syariah dan aset produktif yang dijamin dengan agunan tunai.

31 DECEMBER 2024 AND 2023**

(Expressed in millions of Rupiah, unless otherwise stated)

2. MATERIAL ACCOUNTING POLICIES (continued)**d. Allowance for impairment losses (continued)**Murabahah receivables (continued)

Impairment losses are recognised in statements of profit or loss and other comprehensive income and reflected in an allowance for impairment losses account against financial assets carried at amortised cost.

The recoveries of written-off financial assets in the current year are credited by adjusting the allowance for impairment losses accounts. Recoveries of written-off loans from previous years are recorded as operating income other than margin income.

Earning assets other than murabahah receivables

Earning assets other than murabahah receivables consist of current accounts and placements with Bank Indonesia in the form of Bank Indonesia Sharia Term Deposits and Bank Indonesia Sharia Deposit Facilities ("FASBIS"), current accounts and placements with other banks, investments in marketable securities, istishna receivables, funds of qardh, mudharabah financing, musyarakah financing, assets acquired for ijarah, and commitments and contingencies which carry financing risk, such as bank guarantees. The Bank provides the allowance for impairment losses based on the estimated losses from uncollectible amount earning assets as stipulated in the applicable SFAS. In addition, the Bank also implemented Regulation of the Financial Services Authority ("POJK") No. 02/POJK.03/2022 dated 31 January 2022 regarding "Asset Quality Ratings for Sharia Bank and Sharia Business Unit" which was effective as at 7 February 2022.

The minimum allowance to be provided in accordance with POJK is as follows:

- 1) General reserve, shall be no less than 1% of total earning assets classified as current, excluding current accounts and placements with Bank Indonesia, securities issued by the government based on sharia principles and part of earning assets guaranteed cash collateral.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**d. Cadangan kerugian penurunan nilai (lanjutan)**Aset produktif selain piutang murabahah (lanjutan)

Cadangan kerugian minimum yang harus dibentuk sesuai dengan POJK adalah sebagai berikut: (lanjutan)

2) Cadangan khusus, sekurang-kurangnya sebesar:

- a) 5% dari aset produktif yang digolongkan Dalam Perhatian Khusus setelah dikurangi nilai agunan;
- b) 15% dari aset produktif yang digolongkan Kurang Lancar setelah dikurangi nilai agunan;
- c) 50% dari aset produktif yang digolongkan Diragukan setelah dikurangi nilai agunan; dan
- d) 100% dari aset produktif yang digolongkan Macet setelah dikurangi nilai agunan.

Kriteria penilaian nilai agunan yang dapat dikurangkan dalam pembentukan cadangan kerugian penurunan nilai sesuai dengan POJK.

Bank melakukan pengkajian kecukupan cadangan kerugian penurunan nilai atas aset produktif yang dibentuk berdasarkan POJK No. 02/POJK.03/2022 dan mempertimbangkan estimasi kerugian aset produktif yang tidak dapat ditagih.

Aset nonproduktif

Aset nonproduktif adalah aset Bank selain aset produktif yang memiliki potensi kerugian, antara lain dalam bentuk Agunan Yang Diambil Alih ("AYDA"), rekening perantara, *temporary account*, dan properti terbengkalai.

AYDA adalah aset yang diperoleh Bank, baik melalui pelelangan atau di luar pelelangan berdasarkan penyerahan secara sukarela oleh pemilik agunan atau berdasarkan kuasa untuk menjual di luar lelang dari pemilik agunan dalam hal nasabah tidak memenuhi kewajibannya kepada Bank. Bank wajib melakukan upaya penyelesaian terhadap AYDA yang dimiliki dan mendokumentasikan upaya penyelesaian AYDA.

Penetapan nilai realisasi bersih wajib dilakukan oleh penilai independen, untuk AYDA dengan nilai Rp5.000 atau lebih. Sementara untuk AYDA dengan nilai di bawah Rp5.000 dapat menggunakan penilai internal Bank.

2. MATERIAL ACCOUNTING POLICIES (continued)**d. Allowance for impairment losses (continued)**Earning assets other than murabahah receivables (continued)

The minimum allowance to be provided in accordance with POJK is as follows: (continued)

2) Special reserves, shall be at least:

- a) 5% of earning assets classified as Special Mention after deducting the collateral value;
- b) 15% of earning assets classified as Substandard after deducting the collateral value;
- c) 50% of earning assets classified as Doubtful after deducting the collateral value; and
- d) 100% of earning assets classified as Loss after deducting the collateral value.

The criteria for assessment of the value of collateral that can be deducted in the calculation of allowance for impairment losses are based on POJK.

The Bank conducts assessment upon the adequacy of the allowance for impairment losses on earning assets established based on POJK No. 02/POJK.03/2022 and consider the estimated loss of earning assets that is uncollectible.

Non-earning assets

Non-earning assets represent the Bank's assets other than earning assets which have potential loss such as foreclosed collaterals ("AYDA"), inter-branches account, temporary account and abandoned property.

AYDA is an asset acquired through auction or over the counter based on voluntary submission by collateral owner or based on the power of attorney to sell over the counter from collateral owner in the event of customer's failure in meeting their liabilities to the Bank. The Bank is required to settle its AYDA and prepare documentation of its effort to settle the assets.

The determination of net realisable value is required to be carried out by an independent appraiser for AYDA in the amount equivalent or more than Rp5,000. Internal appraiser of the Bank may be used for AYDA below Rp5,000.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**d. Cadangan kerugian penurunan nilai (lanjutan)**Aset nonproduktif (lanjutan)

Bank wajib menggunakan nilai yang terendah apabila terdapat beberapa nilai dari penilai independen atau penilai internal Bank.

AYDA yang telah dilakukan upaya penyelesaian, ditetapkan memiliki kualitas:

- a) Lancar, apabila dimiliki sampai dengan 1 (satu) tahun.
- b) Kurang Lancar, apabila dimiliki 1 (satu) tahun sampai dengan 3 (tiga) tahun.
- c) Diragukan, apabila dimiliki 3 (tiga) tahun sampai dengan 5 (lima) tahun.
- d) Macet, apabila dimiliki lebih dari 5 (lima) tahun.

AYDA sehubungan dengan penyelesaian pembiayaan (disajikan dalam akun aset lain) diakui sebesar nilai realisasi bersih maksimum sebesar kewajiban nasabah. Nilai realisasi bersih adalah nilai wajar aset setelah dikurangi estimasi biaya pelepasan. Setelah pengakuan awal, AYDA dicatat sebesar nilai yang lebih rendah antara nilai tercatat dengan nilai wajarnya setelah dikurangi biaya untuk menjualnya.

Rekening perantara adalah akun tagihan yang timbul dari transaksi antar kantor yang belum diselesaikan dalam jangka waktu tertentu.

Temporary account adalah akun yang digunakan dalam operasional perbankan sehari-hari yang bersifat sementara dan harus segera diselesaikan dalam jangka waktu tertentu yang telah ditetapkan oleh Bank.

Bank wajib melakukan upaya penyelesaian rekening perantara dan *temporary account*.

Kualitas rekening perantara dan *temporary account* ditetapkan sebagai berikut:

- 1) Lancar, apabila tercatat dalam pembukuan Bank sampai dengan 180 (seratus delapan puluh) hari.
- 2) Macet, apabila tercatat dalam pembukuan Bank lebih dari 180 (seratus delapan puluh) hari.

Properti terbengkalai adalah aset tetap dalam bentuk properti yang dimiliki Bank tetapi tidak digunakan untuk kegiatan usaha Bank yang lazim.

2. MATERIAL ACCOUNTING POLICIES (continued)**d. Allowance for impairment losses (continued)**Non-earning assets (continued)

The Bank is required to use the lowest price if there are several values proposed by the independent or internal appraiser.

AYDA which completion efforts have been made is determined to have quality as follows:

- a) Current, if owned within 1 (one) year.
- b) Substandard, if owned 1 (one) year to 3 (three) years.
- c) Doubtful, if owned 3 (three) years to 5 (five) years.
- d) Loss, if owned more than 5 (five) years.

AYDA acquired in relation to settlement of financing (presented in other assets account) are recognised at net realisable value maximum at the value of debtors' obligation. Net realisable value is the fair value of the asset after deducting the estimated disposal costs. Subsequent to initial recognition, AYDA are stated at the lower of the carrying value or the recovery value.

Inter-branch account is receivable or payable arising from inter-branch transactions that are unsettled after a certain period of time.

Temporary accounts is accounts used in daily banking operations that are temporary and must be settled immediately within a certain time period determined by the Bank.

The Bank is required to settle its inter-branch account and temporary account.

The quality of inter-branch account and temporary account are determined as:

- 1) Current, if the transaction has been recorded in the Bank's book up to 180 (one hundred and eighty) days.
- 2) Loss, if the transaction has been recorded in the Bank's book over 180 (one hundred and eighty) days.

Abandoned property is a fixed asset in the form of property owned by the Bank but not used for normal Bank business activities.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**d. Cadangan kerugian penurunan nilai (lanjutan)**Aset nonproduktif (lanjutan)

Bank wajib melakukan upaya penyelesaian properti terbengkalai.

Kualitas properti terbengkalai ditetapkan sebagai berikut:

- Lancar, apabila dimiliki sampai dengan 1 (satu) tahun.
- Kurang Lancar, apabila dimiliki 1 (satu) tahun sampai dengan 3 (tiga) tahun.
- Diragukan, apabila dimiliki 3 (tiga) tahun sampai dengan 5 (lima) tahun.
- Macet, apabila dimiliki lebih dari 5 (lima) tahun.

e. Giro dan penempatan pada Bank Indonesia

Giro dan penempatan pada Bank Indonesia terdiri dari giro *wadiah* pada Bank Indonesia dan penanaman dana pada Bank Indonesia berupa Fasilitas Simpanan Bank Indonesia Syariah ("FASBIS") dan Deposito Berjangka Syariah Bank Indonesia.

FASBIS merupakan sertifikat yang diterbitkan Bank Indonesia sebagai bukti penitipan dana berjangka pendek dengan prinsip *wadiah*. Deposito Berjangka Syariah Bank Indonesia merupakan penempatan berjangka di Bank Indonesia dengan prinsip *jualah*. Giro dan penempatan pada Bank Indonesia disajikan sebesar saldo penempatan.

f. Giro dan penempatan pada bank lain

Giro pada bank lain dinyatakan sebesar saldo giro dikurangi dengan cadangan kerugian penurunan nilai. Bonus yang diterima Bank dari Bank Umum Syariah diakui sebagai pendapatan usaha lainnya. Penerimaan jasa giro dari bank nonsyariah tidak diakui sebagai pendapatan Bank.

Dana penerimaan jasa giro yang berasal dari bank nonsyariah dikategorikan sebagai dana nonhalal, sehingga Bank Syariah menyalurkannya sebagai dana kebajikan. Sebelum dana kebajikan tersebut disalurkan, maka pencatatannya di sisi liabilitas.

g. Investasi pada surat berharga

Surat berharga syariah adalah surat bukti penanaman dalam surat berharga berdasarkan prinsip syariah yang lazim diperdagangkan di pasar uang syariah dan/atau pasar modal syariah, antara lain obligasi syariah (sukuk) dan reksa dana.

2. MATERIAL ACCOUNTING POLICIES (continued)**d. Allowance for impairment losses (continued)**Non-earning assets (continued)

The Bank is required to settle its abandoned property.

The quality of abandoned property are determined as:

- Current, if owned within 1 (one) year.
- Substandard, if owned 1 (one) year to 3 (three) years.
- Doubtful, if owned 3 (three) years to 5 (five) years.
- Loss, if owned more than 5 (five) years.

e. Current accounts and placements with Bank Indonesia

Current accounts and placements with Bank Indonesia consist of *wadiah* current accounts with Bank Indonesia and placements of funds with Bank Indonesia in the form of Bank Indonesia Sharia Deposit Facilities ("FASBIS") and Bank Indonesia Sharia Term Deposits.

FASBIS are certificates issued by Bank Indonesia as evidence of short-term deposit of funds with the principles of *wadiah*. Bank Indonesia Sharia Term Deposits are term deposits in Bank Indonesia with the principles of *jualah*. Current accounts and placements with Bank Indonesia are presented at the outstanding balance.

f. Current accounts and placements with other banks

Current accounts with other Banks are stated at their outstanding balances net of allowance for impairment losses. Bonuses received by the Bank from Sharia Commercial Banks are recognised as other operating income. Proceeds of interest on current accounts from non-sharia banks are not recognised as the Bank's income.

The received current account service funds that come from non-sharia bank are categorised as non-halal funds, so Sharia Bank then distributed as *qardhul hasan* funds. Before the *qardhul hasan* funds are distributed, it is recorded in liabilities.

g. Investments in marketable securities

Sharia marketable securities are proof of investments under sharia principles commonly traded in sharia money market and/or sharia stock exchange, such as sharia bonds (*sukuk*) and mutual funds.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**g. Investasi pada surat berharga (lanjutan)**

Pada saat pengakuan awal, Bank menentukan klasifikasi investasi pada surat berharga sebagai diukur pada biaya perolehan diamortisasi, diukur pada nilai wajar melalui penghasilan komprehensif lain atau diukur pada nilai wajar melalui laba rugi.

a. Diukur pada biaya perolehan diamortisasi

- Investasi tersebut dimiliki dalam suatu model usaha yang bertujuan utama untuk memperoleh arus kas kontraktual dan terdapat persyaratan kontraktual dalam menentukan tanggal tertentu atas pembayaran pokok dan atau hasilnya;
- Biaya perolehan surat berharga termasuk biaya transaksi; dan
- Selisih antara biaya perolehan dan nilai nominal diamortisasi secara garis lurus selama jangka waktu sukuk dan diakui dalam laba rugi.

b. Diukur pada nilai wajar melalui penghasilan komprehensif lain

- Investasi tersebut dimiliki dalam suatu model usaha yang bertujuan utama untuk memperoleh arus kas kontraktual dan melakukan penjualan surat berharga, terdapat persyaratan kontraktual dalam menentukan tanggal tertentu atas pembayaran pokok dan atau hasilnya;
- Biaya perolehan surat berharga termasuk biaya transaksi;
- Selisih antara biaya perolehan dan nilai nominal diamortisasi secara garis lurus selama jangka waktu surat berharga dan diakui dalam laba rugi; dan
- Keuntungan atau kerugian dari perubahan nilai wajar diakui dalam penghasilan komprehensif lain setelah memperhitungkan saldo selisih biaya perolehan dan nilai nominal yang belum diamortisasi dan saldo akumulasi keuntungan dan kerugian nilai wajar yang telah diakui dalam penghasilan komprehensif lain sebelumnya. Ketika investasi surat berharga dihentikan pengakuannya, akumulasi keuntungan atau kerugian yang sebelumnya diakui dalam penghasilan komprehensif lain direklasifikasi ke laba rugi sebagai penyesuaian reklasifikasi.

c. Diukur pada nilai wajar melalui laba rugi

- Biaya perolehan surat berharga tidak termasuk biaya transaksi; dan
- Selisih antara nilai wajar dan jumlah tercatat diakui dalam laba rugi.

2. MATERIAL ACCOUNTING POLICIES (continued)**g. Investments in marketable securities (continued)**

At initial recognition, the Bank determines the classification of investments in marketable securities either measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss.

a. Measured at amortised cost

- The investment is held in a business model whereby the primary goal is to obtain contractual cash flows and has contractual terms in determining the specific date of principal payments and or the results;
- Marketable securities acquisition cost includes transaction cost; and
- The difference between the acquisition cost and the nominal value is amortised on a straight-line basis over the period of the sukuk and recognised in profit or loss.

b. Measured at fair value through other comprehensive income

- The investment is held in a business model whereby the primary goal is to obtain contractual cash flows and to sell the marketable securities, and has contractual terms in determining the specific date of principal payments and or the results;
- Marketable securities acquisition cost includes transaction cost;
- The difference between acquisition cost and the nominal value is amortised on a straight-line basis over the period of the marketable securities and is recognised in profit or loss; and
- Gain or loss from changes of fair value is recognised in other comprehensive income after considering unamortised difference of acquisition cost and nominal value and accumulated gain or loss of fair value which has been previously recognised in other comprehensive income. When marketable securities are derecognised, the accumulated gain or loss which has been previously recognised in other comprehensive income is reclassified to profit or loss as reclassification adjustment.

c. Measured at fair value through profit or loss

- Marketable securities acquisition cost excludes transaction cost; and
- The difference between fair value and the carrying value is recognised in profit or loss.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**h. Tagihan dan liabilitas akseptasi**

Tagihan dan liabilitas akseptasi merupakan transaksi *Letter of Credit* ("L/C") dan Surat Kredit Berdokumen dalam Negeri ("SKBDN") yang diterima oleh bank penerima.

Tagihan dan liabilitas akseptasi dinyatakan sebesar biaya perolehan diamortisasi. Tagihan akseptasi disajikan setelah dikurangi cadangan kerugian penurunan nilai.

Tagihan akseptasi diklasifikasikan sebagai pinjaman yang diberikan dan piutang. Liabilitas akseptasi diklasifikasi sebagai kewajiban keuangan yang dicatat pada biaya perolehan diamortisasi.

i. Piutang

Piutang terdiri dari piutang *murabahah*, piutang *istishna*, dan piutang *ijarah*.

Murabahah adalah akad jual beli antara nasabah dengan Bank, dimana Bank membiayai kebutuhan konsumsi, investasi dan modal kerja nasabah yang dijual dengan harga pokok ditambah dengan keuntungan yang diketahui dan disepakati bersama. Pembayaran atas pembiayaan ini dilakukan dengan cara mengangsur dalam jangka waktu yang ditentukan.

Piutang *murabahah* pada awalnya diukur pada nilai bersih ditambah dengan biaya transaksi yang dapat diatribusikan secara langsung dan merupakan biaya tambahan untuk memperoleh aset keuangan tersebut dan setelah pengakuan awal diukur pada biaya perolehan diamortisasi menggunakan metode margin efektif dikurangi dengan cadangan kerugian penurunan nilai.

Istishna adalah akad penjualan antara *al-mustashni* (pembeli) dan *al-shani* (produsen yang juga bertindak sebagai penjual). Berdasarkan akad tersebut, pembeli menugaskan produsen untuk membuat atau mengadakan *al-mashnu* (barang pesanan) sesuai spesifikasi yang disyaratkan pembeli dan menjualnya dengan harga yang disepakati.

Piutang *istishna* disajikan sebesar tagihan termin kepada pembeli akhir dikurangi dengan cadangan kerugian penurunan nilai. Margin *istishna* yang ditangguhkan disajikan sebagai pos lawan piutang *istishna*.

Ijarah adalah akad sewa antara pihak yang menyewakan aset *ijarah* (*mu'jir*) dengan penyewa/penerima manfaat barang (*musta'jir*) atau antara penerima jasa (*musta'jir*) dengan pihak yang memberikan jasa (*ajir*) untuk mempertukarkan manfaat dan *ujrah*, baik manfaat aset *ijarah* maupun jasa.

2. MATERIAL ACCOUNTING POLICIES (continued)**h. Acceptance receivables and liabilities**

Acceptance receivables and liabilities represent Letters of Credit ("L/C") and Domestic Documentary Letters of Credit ("SKBDN") transactions that have been accepted by the accepting bank.

Acceptance receivables and liabilities are stated at amortised cost. Acceptances receivable are stated at net of allowance for impairment losses.

Acceptance receivables are classified as financing and receivables. Acceptance liabilities are classified as financial liabilities at amortised cost.

i. Receivables

Receivables consist of *murabahah* receivables, *istishna* receivables and *ijarah* receivables.

Murabahah is a sale and purchase contract between the customer and the Bank, whereby the Bank finances the consumption, investment and working capital needs of the customer sold with a principle price plus a certain margin that is mutually informed and agreed. Repayment on this financing is made in installments within a specified period.

Murabahah receivables are initially measured at net realisable value plus directly attributable transaction costs which is an additional cost to obtain the respected financial assets and after the initial recognition, are measured at amortised cost using the effective margin method less any allowance for impairment losses value.

Istishna is a sale and purchase contract between *al-mustashni* (buyer) and *al-shani* (manufacturer also acting as the seller). Based on the contract, the buyer orders the manufacturer to produce or to supply *al-mashnu* (goods ordered) according to the specifications required by the buyer and to sell them at agreed price.

Istishna receivables are stated at the amount billed to customer less allowance for impairment losses. Deferred *istishna* margin is presented as a contra account of *istishna* receivables.

Ijarah is the lease contract between the party who rents out the *ijarah* assets (*mu'jir*) and the lessee/beneficiary of the goods (*musta'jir*) or between the recipient of the service (*musta'jir*) and the party who provide the service (*ajir*) to exchange benefits and *ujrah*, both benefits of *ijarah* assets or services.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**i. Piutang (lanjutan)**

Piutang *ijarah* terdiri dari piutang *ijarah* atas aset dan piutang *ijarah* multijasa. Piutang *ijarah* atas aset adalah porsi pokok atas pendapatan sewa yang telah jatuh tempo dan belum dibayar. Piutang *ijarah* multijasa adalah porsi pokok atas pendapatan sewa yang belum dibayar sampai dengan jatuh tempo. Cadangan kerugian penurunan nilai atas piutang *ijarah* atas aset dan piutang *ijarah* multijasa disajikan sebagai pos lawan piutang *ijarah* atas aset dan piutang *ijarah* multijasa. Bank mencatat *ujrah ijarah* atas aset yang akan diterima dan *ijarah* multijasa yang akan diterima sebagai aset lainnya.

Skema restrukturisasi dilakukan dengan perpanjangan jangka waktu dan/atau penjadwalan kembali piutang bagi debitur tanpa mengubah jumlah margin yang harus dibayar sehingga tidak terdapat keuntungan atau kerugian dari restrukturisasi. Pendapatan margin setelah restrukturisasi diakui sesuai jadwal angsuran setelah restrukturisasi.

j. Pinjaman *qardh*

Pinjaman *qardh* adalah penyaluran dana dengan akad *qardh*.

Akad *qardh* adalah akad pinjaman dana kepada nasabah dengan ketentuan bahwa nasabah wajib mengembalikan dana yang diterimanya pada waktu yang telah disepakati.

Pinjaman *qardh* meliputi pembiayaan dengan akad *hawalah* dan *rahn*. Akad *hawalah* adalah akad pengalihan utang dari pihak yang berutang (nasabah) kepada pihak lain (Bank) yang wajib menanggung atau membayar. Atas transaksi ini Bank mendapatkan *ujrah* (imbalan) dan diakui sebagai pendapatan pada saat diterima.

Akad *rahn* merupakan transaksi menggadaikan barang atau harta dari nasabah kepada Bank dengan uang sebagai gantinya. Barang atau harta yang digadaikan tersebut dinilai sesuai harga pasar dikurangi persentase tertentu dan sebagai imbalannya Bank mendapatkan *ujrah* (imbalan) dan diakui berdasarkan basis akrual.

Pinjaman *qardh* diakui sebesar jumlah dana yang dipinjamkan pada saat terjadinya. Pada tanggal laporan posisi keuangan, pinjaman *qardh* dinyatakan sebesar saldo pinjaman dikurangi dengan saldo cadangan kerugian penurunan nilai yang dibentuk berdasarkan hasil revaluasi oleh manajemen terhadap kualitas pembiayaan yang ada.

2. MATERIAL ACCOUNTING POLICIES (continued)**i. Receivables (continued)**

Ijarah receivables consist of *ijarah* of assets and multi-services *ijarah* receivables. *Ijarah* of assets receivables are the principal portion of unpaid rent income at maturity. Multi-services *ijarah* receivables are the principal portion of unpaid rent income at maturity. Allowance for impairment losses accounts on *ijarah* of assets receivables and multi-services *ijarah* receivables are presented as a contra account of *ijarah* of assets receivables and multi-services *ijarah* receivables. The Bank records *ujrah* receivables of *ijarah* of assets and multi-services *ijarah* as other assets.

Restructuring scheme involves extension of maturity date and/or rescheduling debtor's receivables without changing the total margin to be paid so that there is no gain or loss from restructuring. Margin income after restructuring is recognised based on the installment schedule after restructuring.

j. Funds of *qardh*

Funds of *qardh* represent a distribution of funds with *qardh* contract.

Qardh contract is a borrowing contract with the condition that the borrower should repay the loan at a specified period of time.

Funds of *qardh* includes *hawalah* and *rahn* financing contract. *Hawalah* is a transfer of debts from debtors (customers) to other party (Bank) which obligate to shoulder or pay. The Bank will obtain an *ujrah* (fee) from this transaction, which is recognised as income when received.

Rahn contract is the pawn of goods or assets by customers to the Bank with the money as compensation. Goods or assets being pawned are valued in accordance with the market price less a certain percentage and the Bank gets *ujrah* (fee) in return which are recognised on an accrual basis.

Funds of *qardh* are recognised at the same amount of funds lent when these occur. On the statements of financial position date, funds of *qardh* is stated at the outstanding financing balance less allowance for impairment losses which is provided based on the management's review of the financing quality.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**j. Pinjaman *qardh* (lanjutan)**

Skema restrukturisasi dilakukan dengan perpanjangan jangka waktu dan/atau penjadwalan kembali pinjaman *qardh* bagi debitur. Pendapatan *ujrah* setelah restrukturisasi diakui sebesar *ujrah* yang disepakati setelah restrukturisasi.

k. Pembiayaan

Pembiayaan bagi hasil dapat dilakukan dengan akad *mudharabah* dan akad *musyarakah*.

Pembiayaan *mudharabah* merupakan pembiayaan kerjasama antara Bank sebagai pemilik dana (*shahibul maal*) dengan nasabah sebagai pelaksana usaha (*mudharib*) selama jangka waktu tertentu. Pembagian hasil keuntungan dari proyek atau usaha tersebut ditentukan sesuai dengan nisbah (*predetermined ratio*) yang telah disepakati bersama. Pada tanggal laporan posisi keuangan, pembiayaan *mudharabah* dinyatakan sebesar saldo pembiayaan dikurangi dengan saldo cadangan kerugian penurunan nilai yang dibentuk berdasarkan hasil revaluasi oleh manajemen terhadap kualitas pembiayaan yang ada.

Pembiayaan *musyarakah* adalah akad kerjasama yang terjadi di antara para pemilik modal (mitra *musyarakah*) untuk menggabungkan modal dan melakukan usaha secara bersama dalam suatu kemitraan dengan pembagian hasil sesuai dengan kesepakatan, sedangkan kerugian ditanggung secara proporsional sesuai dengan kontribusi modal. Pada tanggal laporan posisi keuangan, pembiayaan *musyarakah* dinyatakan sebesar saldo pembiayaan dikurangi dengan saldo cadangan kerugian penurunan nilai yang dibentuk berdasarkan hasil revaluasi oleh manajemen terhadap kualitas pembiayaan yang ada.

Skema restrukturisasi dilakukan dengan perpanjangan jangka waktu dan/atau penjadwalan kembali pembiayaan bagi debitur. Pendapatan bagi hasil setelah restrukturisasi diakui sebesar hak bagi hasil sesuai nisbah yang disepakati setelah restrukturisasi.

l. Aset yang diperoleh untuk *ijarah*

Ijarah atas aset adalah *ijarah* atas manfaat dari aset *ijarah*.

Ijarah muntahiyah bittamlik adalah sewa menyewa antara pemilik objek sewa dan penyewa untuk mendapatkan imbalan atas objek sewa yang disewakan dengan opsi perpindahan hak milik objek sewa baik dengan jual beli atau pemberian (hibah) pada saat tertentu sesuai akad sewa.

2. MATERIAL ACCOUNTING POLICIES (continued)**j. Funds of *qardh* (continued)**

Restructuring scheme involves extension of maturity date and/or rescheduling debtor's funds of *qardh*. *Ujrah* income after restructuring is recognised amounting to the agreed *ujrah* after restructuring.

k. Financing

Financing with profit sharing scheme can be done in the form of *mudharabah* and *musyarakah* contract.

Mudharabah financing is a joint financing made between the Bank as the owner of the funds (*shahibul maal*) and the customer as a business executor (*mudharib*) during a certain period. The profit sharing from the project or the business is determined in accordance with the mutually agreed nisbah (*predetermined ratio*). On the statements of financial position date, *mudharabah* financing is stated at the outstanding financing balance less allowance for impairment losses which is provided based on the management's review of the financing quality.

Musyarakah financing is a partnership contract among fund's owners (*musyarakah* partners) to contribute funds and conduct a business on a joint basis through partnership with the profit sharing based on a predetermined ratio, while the losses are borne proportionally based on the capital contribution. On the statements of financial position dates, *musyarakah* financing is stated at the outstanding financing balance less allowance for impairment losses which is provided based on the management's review on the existing financing quality.

Restructuring scheme involves extension of maturity date and/or rescheduling debtor's financing. Profit sharing income after restructuring is recognised amounting to the profit sharing based on the agreed nisbah after restructuring.

l. Assets acquired for *ijarah*

Ijarah of assets is *ijarah* for the benefits of *ijarah* assets.

Ijarah muntahiyah bittamlik is a lease transaction between the lessor and lessee to obtain fee from the object leased with the option of transferring the title through purchase or grant at a certain time in accordance with the lease contract.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**l. Aset yang diperoleh untuk *ijarah* (lanjutan)**

Aset yang diperoleh untuk *ijarah* merupakan aset yang menjadi objek transaksi sewa atas aset dan dicatat di laporan posisi keuangan sebesar harga perolehan dikurangi akumulasi penyusutan.

Objek sewa dalam transaksi *ijarah* atas aset disusutkan sesuai kebijakan penyusutan aset sejenis, sedangkan objek sewa dalam *ijarah muntahiyah bittamlik* disusutkan sesuai masa sewa.

Perpindahan hak milik objek sewa kepada penyewa dalam *ijarah muntahiyah bittamlik* dapat dilakukan dengan cara:

- (i) hibah; atau
- (ii) penjualan.

Nilai tercatat aset segera diturunkan sebesar jumlah yang dapat dipulihkan jika nilai tercatat aset lebih besar dari estimasi jumlah yang dapat dipulihkan.

Ijarah atas jasa (multijasa) adalah *ijarah* atas manfaat dari jasa. *Ijarah* multijasa secara tidak langsung yaitu *ijarah* atas jasa yang mana entitas lain yang memberikan jasa kepada penyewa. *Ijarah* multijasa tidak langsung tidak mengakui aset yang diperoleh untuk *ijarah*. Bank mengakui saldo pokok *ijarah* multijasa yang belum dibayar sebagai piutang *ijarah* multijasa.

m. Aset tetap, aset hak guna, dan aset tidak berwujud**Aset tetap**

Aset tetap dinilai sebesar harga perolehan dikurangi akumulasi penyusutan, kecuali tanah dinilai dengan metode revaluasi. Harga perolehan termasuk pengeluaran yang dapat diatribusikan secara langsung atas perolehan aset tersebut. Tanah disajikan sebesar nilai wajar, berdasarkan penilaian yang dilakukan oleh penilai independen eksternal yang telah terdaftar di OJK. Penilaian atas aset tersebut dilakukan secara berkala setiap tiga tahun untuk memastikan bahwa nilai wajar aset yang direvaluasi tidak berbeda secara material dengan jumlah tercatatnya. Aset tetap lainnya disajikan sebesar harga perolehan dikurangi dengan penyusutan. Harga perolehan termasuk pengeluaran yang dapat diatribusikan secara langsung atas perolehan aset tersebut. Tanah tidak disusutkan.

Aset tetap, kecuali tanah, disusutkan sejak bulan ketika aset tersebut digunakan dengan menggunakan metode garis lurus selama taksiran masa manfaat aset sebagai berikut:

	<u>Tahun/Years</u>
Bangunan	20
Renovasi bangunan	10
Instalasi, kendaraan bermotor, inventaris kantor dan renovasi atas aset sewa	5

2. MATERIAL ACCOUNTING POLICIES (continued)**l. Assets acquired for *ijarah* (continued)**

Assets acquired for *ijarah* represent object of leased assets and are recorded in the statements of financial position at the acquisition cost, net of accumulated depreciation.

Leased object in *ijarah* of assets transaction is depreciated based on the depreciation policy for similar assets, while leased object in *ijarah muntahiyah bittamlik* transaction is depreciated based on leased term.

The transfer of ownership right on the leased object to the lessee in *ijarah muntahiyah bittamlik* can be conducted through:

- (i) a grant; or
- (ii) sales.

The carrying value of asset is immediately impaired to its recoverable amount if the asset's carrying amount is greater than the estimated recoverable amount.

Ijarah of services (multi-services) is *ijarah* for the benefits of services. Indirect multi-services *ijarah* is an *ijarah* for services where another entity provides services to the lessee. Indirect multi-services *ijarah* does not recognise assets acquired for *ijarah*. The Bank recognise the unpaid principal balance of the multi-services *ijarah* as multi-services *ijarah* receivable.

m. Fixed assets, right-of-use assets, and intangible assets**Fixed assets**

Fixed assets are stated at cost less accumulated depreciation, except for land which is valued with revaluation method. The acquisition cost includes directly attributable cost for the acquisition of the asset. The land is stated at fair value, based on the assessment performed by external independent appraisers which are registered with OJK. Valuation are performed regularly every three years to ensure that the fair value of the revalued assets does not differ materially from its carrying amount. All other property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Land is not depreciated.

Fixed assets, except land, are depreciated from the month of the usage of assets and computed using the straight-line method based on the estimated useful life of the assets as follows:

	<u>Buildings</u>
	Buildings improvement
	Installation, vehicles,
	office equipment and
	leasehold improvement

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**m. Aset tetap, aset hak guna, dan aset tidak berwujud (lanjutan)****Aset tetap (lanjutan)**

Nilai sisa aset, masa manfaat dan metode penyusutan ditelaah dan jika perlu disesuaikan, pada setiap akhir periode pelaporan.

Biaya-biaya setelah pengakuan awal diakui sebagai bagian nilai tercatat aset atau sebagai aset yang terpisah, sebagaimana mestinya, hanya jika kemungkinan besar Bank mendapat manfaat ekonomis di masa depan berkenaan dengan aset tersebut dan biaya perolehan aset dapat diukur dengan andal. Nilai tercatat dari komponen yang diganti dihapuskan. Biaya perbaikan dan pemeliharaan dibebankan ke dalam laporan laba rugi dan penghasilan komprehensif lain dalam tahun keuangan ketika biaya-biaya tersebut terjadi.

Kenaikan nilai tercatat yang timbul dari revaluasi tanah dikreditkan pada "selisih revaluasi aset tetap" sebagai bagian dari pendapatan komprehensif lainnya.

Penurunan yang menghapus nilai kenaikan yang sebelumnya atas aset yang sama dibebankan terhadap "selisih revaluasi aset tetap" sebagai bagian dari pendapatan komprehensif lainnya; penurunan lainnya dibebankan pada laporan laba rugi dan penghasilan komprehensif lain.

Nilai tercatat aset segera diturunkan sebesar jumlah yang dapat dipulihkan jika nilai tercatat aset lebih besar dari estimasi jumlah yang dapat dipulihkan.

Apabila aset tetap dilepas, maka nilai harga perolehan dan akumulasi penyusutannya dikeluarkan dari laporan posisi keuangan dan keuntungan atau kerugian bersih atas pelepasan aset tetap diakui pada "pendapatan dan beban nonusaha" dalam laporan laba rugi dan penghasilan komprehensif lain. Jika aset yang direvaluasi dijual, jumlah yang dicatat di dalam ekuitas dipindahkan ke saldo laba.

Aset hak guna

Pada tanggal permulaan kontrak, Bank menilai apakah kontrak merupakan atau mengandung sewa. Suatu kontrak merupakan atau mengandung sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan aset identifikasi selama suatu jangka waktu untuk dipertukarkan dengan imbalan.

Bank tidak mengakui aset hak guna dan liabilitas sewa untuk:

- Sewa dengan jangka waktu kurang atau sama dengan 12 bulan dan tidak terdapat opsi beli; dan
- Sewa atas aset dengan nilai rendah.

(Expressed in millions of Rupiah, unless otherwise stated)

2. MATERIAL ACCOUNTING POLICIES (continued)**m. Fixed assets, right-of-use assets, and intangible assets (continued)****Fixed assets (continued)**

The assets' residual values, useful lives and depreciation method are reviewed and adjusted if appropriate, at the end of each reporting period.

Costs after initial recognition are recognised as part of the carrying amount of the asset or as a separate asset, as appropriate, only when the Bank is likely to benefit economically in the future with respect to these assets and the acquisition cost can be reliably measured. The carrying value of the replaced part are removed from the accounts. All other repairs and maintenance are charged to the statements of profit or loss and other comprehensive income in the financial period when these costs occur.

The increase in the carrying amount arising from revaluation of land is credited to "surplus on fixed assets revaluation" as part of other comprehensive income.

The decrease in the carrying amount that offset previous increase of the same asset is charged to "surplus on fixed assets revaluation" as part of other comprehensive income, other decrease is charged to the statements of profit or loss and other comprehensive income.

The carrying value of asset is immediately impaired to its recoverable amount if the asset's carrying amount is greater than the estimated recoverable amount.

The net gains or losses arising from disposal of the fixed assets are determined by comparing the proceeds received from disposal with the carrying amount of the assets and recognised in "non-operating income and expenses" in the statements of profit or loss and other comprehensive income. When the revalued assets are sold, amounts recorded in equity are transferred to retained earnings.

Right-of-use assets

At the inception of a contract, the Bank assesses whether the contract is or contains a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration.

The Bank does not to recognise the right-of-use asset and lease liabilities for:

- Leases with a term of less or equal to 12 months and there is no call option; and
- Leases of low value assets.

**CATATAN ATAS LAPORAN KEUANGAN

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**m. Aset tetap, aset hak guna, dan aset tidak berwujud (lanjutan)****Aset hak guna (lanjutan)**

Untuk menilai apakah kontrak memberikan hak untuk mengendalikan penggunaan aset identifikasi, Bank harus menilai apakah:

- Bank memiliki hak untuk mendapatkan secara substansial seluruh manfaat ekonomi dari penggunaan aset identifikasi; dan
- Bank memiliki hak untuk mengarahkan penggunaan aset identifikasi. Bank memiliki hak ini ketika Bank memiliki hak untuk pengambilan keputusan yang relevan tentang bagaimana dan untuk tujuan apa aset digunakan telah ditentukan sebelumnya dan:
 1. Bank memiliki hak untuk mengoperasikan aset; dan
 2. Bank telah mendesain aset dengan cara menetapkan sebelumnya bagaimana dan untuk tujuan apa aset akan digunakan selama periode penggunaan.

Pada tanggal permulaan sewa, Bank mengakui aset hak guna dan liabilitas sewa. Aset hak guna diukur pada biaya perolehan, dimana meliputi jumlah pengukuran awal liabilitas sewa yang disesuaikan dengan pembayaran sewa yang dilakukan pada atau sebelum tanggal permulaan, ditambah dengan biaya langsung awal yang dikeluarkan. Aset hak guna diamortisasi dengan menggunakan metode garis lurus sepanjang jangka waktu sewa.

Liabilitas sewa diukur pada nilai kini pembayaran sewa yang belum dibayar pada tanggal permulaan, didiskontokan dengan menggunakan suku bunga implisit dalam sewa atau jika suku bunga tersebut tidak dapat ditentukan, maka menggunakan suku bunga pinjaman inkremental. Pada umumnya, Bank menggunakan suku bunga pinjaman inkremental sebagai tingkat bunga diskonto.

Pembayaran sewa dialokasikan menjadi bagian pokok dan biaya keuangan. Biaya keuangan dibebankan pada laba rugi selama periode sewa sehingga menghasilkan tingkat suku bunga periodik yang konstan atas saldo liabilitas untuk setiap periode.

Jika sewa mengalihkan kepemilikan aset pendasar kepada Bank pada akhir masa sewa atau jika biaya perolehan aset hak guna merefleksikan Bank akan mengeksekusi opsi beli, maka Bank menyusutkan aset hak guna dari tanggal permulaan hingga akhir umur manfaat aset pendasar. Jika tidak, maka Bank menyusutkan aset hak guna dari tanggal permulaan hingga tanggal yang lebih awal antara akhir umur manfaat aset hak guna atau akhir masa sewa.

2. MATERIAL ACCOUNTING POLICIES (continued)**m. Fixed assets, right-of-use assets, and intangible assets (continued)****Right-of-use assets (continued)**

To assess whether a contract conveys the right to control the use of an identified asset, the Bank shall assess whether:

- The Bank has the right to obtain substantially all the economic benefit from use of the asset throughout the period of use; and
- The Bank has the right to direct the use of the identified asset. The Bank has the right when it has a relevant decision-making right on how and for what purpose the asset is used are predetermined and:
 1. The Bank has the right to operate the asset; and
 2. The Bank has designed the asset in a way that predetermine how and for what purposes it will be used.

The Bank recognises a right-of-use assets and lease liabilities at the leases commencement date. The right-of-use assets is initially measured at cost, which comprises the initial amount of the lease liabilities adjusted for any leases payment made at or before the commencement date, plus any initial direct cost incurred. The right-of-use assets is amortised over the straight-line method throughout the lease term.

The lease liabilities are initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that right cannot be readily determined, using incremental borrowing rate. Generally, the Bank uses its incremental borrowing rate as a discount rate.

Each leases payment is allocated between the liabilities and finance cost. The finance cost is charged to profit or loss over the leases period so as to produce a constant periodic rate of interest on the remaining balance of the liabilities for each period.

If the leases transfers ownership of the underlying asset to the Bank by the end of the leases term or if the cost of the right-of-use assets reflects that the Bank will exercise a purchase option, the Bank depreciates the right-of-use assets from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Bank depreciates the right-of-use assets from the commencement date to the earlier of the end of the useful life of the right-of-use assets or the end of the leases term.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**m. Aset tetap, aset hak guna, dan aset tidak berwujud (lanjutan)****Aset tidak berwujud**

Aset tidak berwujud diakui jika, dan hanya jika, biaya perolehan aset tersebut dapat diukur secara andal dan kemungkinan besar Bank akan memperoleh manfaat ekonomis masa depan dari aset tersebut. Aset tidak berwujud terdiri dari perangkat lunak.

Perangkat lunak yang dibeli oleh Bank dicatat sebesar biaya perolehan dikurangi akumulasi amortisasi. Metode amortisasi, estimasi masa manfaat dan nilai residual ditelaah pada setiap akhir tahun pelaporan dan disesuaikan jika dianggap tepat.

Biaya yang dapat diatribusikan secara langsung dikapitalisasi sebagai bagian produk perangkat lunak mencakup beban pekerja pengembang perangkat lunak dan bagian *overhead* yang relevan.

Biaya yang terkait dengan pemeliharaan perangkat lunak diakui sebagai beban pada saat terjadinya. Biaya pengembangan yang sebelumnya diakui sebagai beban, tidak dapat diakui sebagai aset pada periode berikutnya.

Perangkat lunak diamortisasi sejak bulan ketika aset tersebut digunakan dengan menggunakan metode garis lurus selama taksiran masa manfaat aset yaitu 5 tahun.

n. Aset lain-lain

Aset lain-lain antara lain terdiri dari biaya dibayar dimuka, pendapatan yang masih akan diterima dan AYDA.

Biaya dibayar dimuka diamortisasi selama masa manfaat dengan menggunakan metode garis lurus. Agunan yang diambil alih sehubungan dengan penyelesaian pembiayaan diakui sebesar nilai realisasi bersih maksimum sebesar kewajiban nasabah. Nilai realisasi bersih adalah nilai wajar aset setelah dikurangi estimasi biaya pelepasan. Setelah pengakuan awal, AYDA dicatat sebesar nilai yang lebih rendah antara nilai tercatat dengan nilai wajarnya setelah dikurangi biaya untuk menjualnya.

2. MATERIAL ACCOUNTING POLICIES (continued)**m. Fixed assets, right-of-use assets, and intangible assets (continued)****Intangible assets**

Intangible assets are recognised if, and only if the cost of the asset can be measured reliably and it is probable that the Bank will obtain future economic benefits from the assets. Intangible assets consist of software.

Software acquired by the Bank is recorded at cost less accumulated amortisation. The amortisation method, estimated useful life and residual value are reviewed at the end of each reporting year and adjusted if deemed appropriate.

Directly attributable costs that are capitalised as part of the software product include the software development employee costs and an appropriate portion of relevant overheads.

Costs associated with maintaining computer software programs are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

Software are amortised from the month of the usage of assets by computed using the straight-line method based on the estimated useful life of the assets, which is 5 years.

n. Other assets

Other assets among other consist of prepaid expense and income receivables and AYDA.

Prepaid expenses are amortised over the useful life using the straight-line method. Foreclosed collaterals acquired in relation to settlement of financing are recognised at net realisable value maximum at the value of debtors' obligation. Net realisable value is the fair value of the asset after deducting the estimated disposal costs. Subsequent to initial recognition, foreclosed collaterals are stated at the lower of the carrying value or the recovery value.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**o. Liabilitas segera**

Liabilitas segera merupakan liabilitas Bank kepada pihak lain yang sifatnya wajib segera dibayarkan sesuai perintah pemberi amanat perjanjian yang ditetapkan sebelumnya. Liabilitas segera dinyatakan sebesar nilai liabilitas Bank kepada pemberi amanat.

p. Simpanan dari nasabah dan bank lain

Simpanan merupakan simpanan pihak lain dalam bentuk giro *wadiah* dan tabungan *wadiah*. Simpanan dari bank lain dinyatakan sebesar nilai kewajiban Bank kepada bank lain.

Giro *wadiah* digunakan sebagai instrumen pembayaran dan dapat ditarik setiap saat melalui cek dan bilyet giro, serta mendapatkan bonus sesuai dengan kebijakan Bank. Giro *wadiah* dinyatakan sebesar titipan pemegang giro di Bank.

Tabungan *wadiah* adalah simpanan dana nasabah pada Bank, yang bersifat titipan dan penarikannya dapat dilakukan setiap saat. Terhadap titipan tersebut, Bank tidak dipersyaratkan untuk memberikan imbalan kecuali dalam bentuk pemberian bonus secara sukarela. Tabungan *wadiah* dinyatakan sebesar liabilitas Bank.

q. Liabilitas kepada Bank Indonesia

Liabilitas kepada Bank Indonesia ("PaSBI") merupakan pengelolaan likuiditas berdasarkan prinsip syariah Bank Indonesia. Bank Indonesia dan Bank sepakat melakukan akad *wakalah bil istitsmar* untuk pengelolaan dana dengan agunan berupa surat berharga syariah. Dana yang diterima diakui sebagai liabilitas kepada Bank Indonesia. Bank melakukan pengelolaan dana untuk kegiatan investasi usaha secara keseluruhan (*mutlaqah*), pengembalian dana kelolaan dan pembayaran hasil pengelolaan (*istitsmar*) dilakukan pada saat pelunasan. Liabilitas kepada Bank Indonesia dicatat sebesar nilai tunai yang diterima dari suatu instrumen intervensi surat berharga syariah dalam suatu operasi moneter reguler oleh Bank Indonesia.

2. MATERIAL ACCOUNTING POLICIES (continued)**o. Obligations due immediately**

Obligations due immediately represent the Bank's obligations to other parties which should be settled immediately based on predetermined instructions by those having the authority. Obligations due immediately are stated at the amounts of the Bank's liabilities to the entrustee.

p. Deposits from customers and other banks

Deposits represent other parties' deposits in the form of wadiah demand deposits and wadiah savings deposits. Deposits from other banks are stated at the amounts payable to other banks.

Wadiah demand deposits are used as payment instruments and available for withdrawal at any time through cheque and demand deposit drafts and receive bonuses according to the Bank's policies. Wadiah demand deposits are stated at the amount entrusted by depositors in the Bank.

Wadiah savings deposits are customers' deposits in the Bank which are entrusted and can be withdrawn at any time. For these deposits, the Bank is not required to give any benefits except in terms of voluntary bonuses. Wadiah deposits are stated at the amount payable to customers.

q. Liabilities to Bank Indonesia

*Liabilities to Bank Indonesia ("PaSBI") is liquidity management based on Bank Indonesia sharia principles. Bank Indonesia and the Bank agreed to enter into a wakalah bil istitsmar agreement for managing funds with collateral in the form of sharia securities. Funds received are recognized as liabilities to Bank Indonesia. The Bank manages funds for overall business investment activities (*mutlaqah*), returns of managed funds and payment of management results (*istitsmar*) are made at the time of settlement. Liabilities to Bank Indonesia are stated at the issuance cash value received from sharia securities intervention instrument in a regular monetary operation by Bank Indonesia.*

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**r. Dana syirkah temporer**

Dana *syirkah* temporer adalah investasi yang diterima oleh Bank. Bank mempunyai hak untuk mengelola dan menginvestasikan dana, baik sesuai dengan kebijakan Bank atau kebijakan pembatasan dari pemilik dana, dengan keuntungan dibagikan sesuai dengan kesepakatan. Contoh dari dana *syirkah* temporer adalah penerimaan dana dari investasi *mudharabah muthlaqoh*, *mudharabah muqayyadah*, *mudharabah musytarokah*, dan akun lain yang sejenis, misalnya: giro *mudharabah*, tabungan *mudharabah*, dan deposito *mudharabah*.

Tabungan *mudharabah* merupakan simpanan dana pihak-pihak lain yang mendapatkan imbalan bagi hasil dari pendapatan Bank atas penggunaan dana tersebut dengan nisbah yang ditetapkan dan disetujui sebelumnya. Tabungan *mudharabah* dicatat sebesar nilai simpanan dari nasabah.

Deposito *mudharabah* merupakan simpanan pihak lain yang hanya bisa ditarik pada waktu tertentu sesuai dengan perjanjian antara pemegang deposito *mudharabah* dengan Bank.

Deposito *mudharabah* dinyatakan sebesar nilai nominal sesuai dengan perjanjian antara pemegang deposito dengan Bank.

Dana *syirkah* temporer tidak dapat digolongkan sebagai liabilitas. Hal ini karena Bank tidak berkewajiban untuk mengembalikan jumlah dana awal dari pemilik dana kecuali akibat kelalaian atau wanprestasi ketika mengalami kerugian.

Di sisi lain dana *syirkah* temporer tidak dapat digolongkan sebagai ekuitas karena mempunyai waktu jatuh tempo dan pemilik dana tidak mempunyai hak kepemilikan yang sama dengan pemegang saham, seperti hak *voting* dan hak atas realisasi keuntungan yang berasal dari aset lancar dan aset noninvestasi.

Dana *syirkah* temporer merupakan salah satu unsur laporan posisi keuangan, hal tersebut sesuai dengan prinsip syariah yang memberikan hak kepada Bank untuk mengelola dan menginvestasikan dana, termasuk untuk mencampur dana dimaksud dengan dana lainnya.

2. MATERIAL ACCOUNTING POLICIES (continued)**r. Temporary syirkah funds**

Temporary *syirkah* funds represent investment received by the Bank. The Bank has the rights to manage and invest the funds in accordance with either the Bank's policy or restriction set by the depositors with the agreed profit sharing. An example of temporary *syirkah* funds is the receipt of funds from a *mudharabah muthlaqoh*, *mudharabah muqayyadah*, *mudharabah musytarokah* and other similar accounts. For example: *mudharabah* demand deposits, *mudharabah* savings deposits and *mudharabah* time deposits.

Mudharabah savings deposits represent funds from other parties which receive predetermined and pre-agreed profit sharing (*nisbah*) based on income derived by the Bank from the use of such funds. *Mudharabah* savings deposits are stated based on the customer's savings deposit balance.

Mudharabah time deposits represent third party funds that can be withdrawn only at a certain point in time based on the agreement between the depositors and the Bank.

Mudharabah time deposits are stated at nominal amount based on the agreement between the depositors and the Bank.

Temporary *syirkah* funds cannot be classified as liabilities. This is because the Bank does not have any liabilities to return the fund to the owners, except for losses due to the management's negligence or misrepresentation.

On the other hand, temporary *syirkah* funds cannot also be classified as equity, because of the existence of maturity period and the absence of similar rights of depositors as with shareholders, such as voting rights and the rights to realise gain from current assets and other non-investment assets.

Temporary *syirkah* funds represent one of the statements of financial position accounts which is in accordance with sharia principles that provide rights to the Bank to manage and invest funds, including mixing of one fund with the other funds.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**r. Dana syirkah temporer (lanjutan)**

Pemilik dana *syirkah* temporer memperoleh bagian atas keuntungan sesuai kesepakatan dan menerima kerugian berdasarkan jumlah dana dari masing-masing pihak. Pembagian hasil dana *syirkah* temporer dapat dilakukan dengan konsep bagi hasil atau bagi keuntungan.

s. Pendapatan pengelolaan dana sebagai *mudharib*

Pendapatan pengelolaan dana sebagai *mudharib* terdiri dari pendapatan dari transaksi piutang *murabahah*, *istishna*, pendapatan dari *ijarah*, pendapatan bagi hasil dari pembiayaan *mudharabah* dan *musyarakah* dan pendapatan usaha utama lainnya.

Pendapatan atas piutang *murabahah* menggunakan metode setara tingkat imbal hasil efektif (margin efektif). Margin efektif adalah margin yang secara tepat mendiskontokan estimasi pembayaran atau penerimaan kas di masa datang selama perkiraan umur dari piutang *murabahah*.

Pada saat menghitung margin efektif, Bank mengestimasi arus kas di masa datang dengan mempertimbangkan seluruh persyaratan kontraktual dalam instrumen keuangan tersebut, tetapi tidak mempertimbangkan kerugian piutang di masa mendatang. Perhitungan ini mencakup seluruh komisi, provisi dan bentuk lain yang diterima oleh para pihak dalam kontrak yang merupakan bagian tak terpisahkan dari margin efektif, biaya transaksi dan seluruh premi atau diskon lainnya.

Pendapatan *istishna* diakui apabila telah terjadi penyerahan barang.

Pendapatan *ijarah muntahiyah bittamlik* ("IMBT") diakui selama masa akad secara merata sejak aset tersedia sampai akhir akad. Bank mengakui pendapatan *ijarah* multijasa porsi pokok sejak nasabah menerima jasa dari pihak penyedia jasa berdasarkan kemajuan jasa yang diberikan dan sejumlah biaya jasa yang harus dibayarkan Bank kepada pihak penyedia jasa. Bank mengakui pendapatan margin *ijarah* multijasa secara merata setelah selesainya pemberian jasa oleh pihak penyedia jasa selama masa akad *ijarah* antara Bank dan nasabah. Pendapatan IMBT dan *ijarah* multijasa disajikan secara neto setelah dikurangi beban terkait di laba rugi.

2. MATERIAL ACCOUNTING POLICIES (continued)**r. Temporary syirkah funds (continued)**

The owners of temporary syirkah funds receive parts of profit in accordance with the agreement and receive loss based on the proportion of fund from each parties. The profit distribution of temporary syirkah funds might be based on profit sharing or revenue sharing concept.

s. Income from fund management as *mudharib*

Income from fund management as *mudharib* consists of income from *murabahah* receivables transactions, *istishna* receivables, income from *ijarah*, profit sharing from *mudharabah* and *musyarakah* financing and other main operating income.

Income from *murabahah* receivables is recognised using the effective rate of return method (effective margin). Effective margin is the margin that precisely discounts the estimated future cash payments or receipts through the expected life of the *murabahah* receivables.

When calculating the effective margin, the Bank estimates the future cash flows considering all contractual terms of the financial instrument, but does not consider the loss of receivables in the future. This calculation includes all commissions, provision fees and other forms accepted by the parties in the contract that are an inseparable part of the effective margin, transaction costs and all other premiums or discounts.

Income from *istishna* is recognised at the date of transfer of assets.

Income from *ijarah muntahiyah bittamlik* ("IMBT") is recognised over the contract period evenly from the time the assets become available until the end of the contract. The Bank recognises the principal portion of income from multi-services *ijarah* from the time the customer receives services from the service provider based on the progress of the services provided and the amount of service fees that must be paid by the Bank to the service provider. The Bank recognises income from multi-services *ijarah* margin evenly after the completion of service by the service provider during the period of the *ijarah* contract between the Bank and the customer. Income from IMBT and multi-services *ijarah* are presented on a net basis after deducting the related expenses in profit or loss.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**s. Pendapatan pengelolaan dana sebagai mudharib (lanjutan)**

Pendapatan usaha *musyarakah* yang menjadi hak mitra aktif diakui sebesar haknya sesuai dengan kesepakatan, sedangkan pendapatan usaha *musyarakah* untuk mitra pasif diakui sebagai hak pihak mitra pasif atas bagi hasil dan liabilitas.

Pendapatan usaha *mudharabah* diakui dalam periode terjadinya hak bagi hasil sesuai nisbah yang disepakati dan tidak diperkenankan mengakui pendapatan dari proyeksi hasil usaha. Kerugian akibat kelalaian dari pengelola dana dibebankan pada pengelola dana dan tidak mengurangi investasi *mudharabah*.

Pendapatan usaha utama lainnya terdiri dari pendapatan dari pinjaman *qardh*, pendapatan dari Deposito Berjangka Syariah Bank Indonesia, pendapatan dari FASBIS, pendapatan dari penempatan pada bank syariah lain dan pendapatan bagi hasil investasi pada surat berharga.

t. Hak pihak ketiga atas bagi hasil dana syirkah temporer

Hak pihak ketiga atas bagi hasil dana *syirkah* temporer merupakan bagian bagi hasil milik pihak ketiga yang didasarkan pada prinsip *mudharabah mutlaqah* atas pengelolaan dana mereka oleh Bank. Pendapatan yang dibagikan adalah pendapatan yang telah diterima (*cash basis*).

Bagi hasil yang dibagikan kepada pemilik dana dihitung dari pendapatan Bank.

Jumlah pendapatan margin dan bagi hasil atas pembiayaan yang diberikan dan dari aset produktif lainnya yang akan dibagikan kepada nasabah penyimpan dana. Bank menghitung secara proporsional sesuai dengan alokasi dana nasabah dan Bank yang dipakai dalam pembiayaan yang diberikan dan aset produktif lainnya yang disalurkan.

Dari jumlah pendapatan margin dan bagi hasil yang tersedia untuk nasabah tersebut kemudian dibagikan kepada nasabah penabung dan deposan sebagai *shahibul maal* dan Bank sebagai *mudharib* sesuai dengan porsi nisbah bagi hasil yang telah disepakati bersama sebelumnya, sedangkan untuk nasabah giro dan tabungan dengan akad *wadiah* dapat diberikan bonus berdasarkan kebijakan Bank.

Pendapatan margin dan bagi hasil atas pembiayaan yang diberikan dan aset produktif lainnya yang didapatkan melalui penggunaan dana Bank, seluruhnya menjadi milik Bank, termasuk pendapatan dari investasi Bank berbasis imbalan.

2. MATERIAL ACCOUNTING POLICIES (continued)**s. Income from fund management as mudharib (continued)**

Musyarakah income which is distributed to active partners is recognised in accordance with the agreement, while musyarakah income which is distributed to passive partners is recognised as right of the passive partner to profit sharing and liabilities.

Income from mudharabah is recognised during the period of profit sharing in accordance with the agreed nisbah, while recognition based on projected income is not allowed. Loss incurred due to negligence on the part of fund manager is charged to the fund manager and shall not reduce the mudharabah investment.

Other main operating income consists of income derived from funds of qardh, Bank Indonesia Sharia Term Deposits, FASBIS, placements with other sharia banks and profit sharing from investment in marketable securities.

t. Third parties' share on return of temporary syirkah funds

Third parties' share on return of temporary syirkah funds represents third parties' share on the income of the Bank derived from managing of such funds under mudharabah mutlaqah principles. The profit sharing is distributed on the cash basis.

The profit sharing distributed to fund owners is calculated based on the revenue of the Bank.

Margin income and profit sharing on financing facilities and other earning assets are distributed to fund owners. The Bank computes proportionately based on the allocation of funds from owners and the Bank which was used in financing and other earning assets granted.

The total available margin and profit sharing are distributed to customers and depositors as shahibul maal and to the Bank as mudharib in accordance with a predetermined nisbah, while for customers of demand deposits and savings deposits under wadiah contract might be granted bonuses according to the Bank's policy.

Margin income and profit sharing from financing and other earning assets which are earned through the use of the Bank's funds, are entirely entitled to the Bank, including income from the Bank's fee-based investments.

2. MATERIAL ACCOUNTING POLICIES (continued)**v. Employee benefits (continued)****Defined benefit plan and other long-term employee benefits (continued)**

Remeasurement of defined benefit liabilities (assets) - net, which is recognised as other comprehensive income is not reclassified to profit or loss in the subsequent periods.

For other long-term employee benefits: current service cost, net interest expense of net defined benefit liabilities (assets) and re-measurement of liabilities (assets) is recognised immediately in the current year statements of profit or loss and other comprehensive income.

Past service costs are recognised as expense at the earlier date between the occurrence of the amendments or curtailment program occurs, and the recognition of the costs of restructuring or severance. Therefore, unvested past service cost can no longer be deferred and recognised over the future vesting period.

w. Taxation

Current tax expense is provided based on the estimated taxable income for the current year. Deferred tax assets and liabilities are recognised for temporary differences between the financial and the tax bases of assets and liabilities at each reporting date.

Deferred tax assets are recognised for all deductible temporary differences and carry forward of uncompensated tax losses to the extent that it is probable that those temporary differences and carry forward of uncompensated tax losses will be utilised in deducting future taxable profit.

The carrying amount of deferred tax assets is reviewed at each reporting date and is reduced when it is no longer probable that sufficient taxable profits will be available to compensate part or all of the benefit of the deferred tax assets.

Amendment to tax obligation is recorded when an assessment letter is received or, if objected to or appealed against by the Bank, when the result of such appeal or objection is determined. If needed, management will provide provisions based on the estimated amount which will be paid to tax authority.

2. MATERIAL ACCOUNTING POLICIES (continued)**y. *Mudharabah* term financing**

Mudharabah term financing is a joint financing made between the Bank as the business executor (*mudharib*) and the other bank as the owner of the funds (*shahibul maal*) during a certain period. The funds received from the fund owners are recognised as temporary *syirkah* funds amounting to the cash received. On the statements of financial position date, temporary *syirkah* funds are measured and presented at the carrying amount.

The right of the fund owner to the profit sharing that has been calculated but has not yet been distributed to the fund owner is recognised as a liability.

z. Sukuk *mudharabah*

Sukuk *mudharabah* is initially recognised at fair value and subsequently measured at amortised cost using a straight-line method. Amortised cost is calculated by taking into account any discount or premium associated to the initial recognition and transaction cost. The funds received from the fund owners are recognised as temporary *syirkah* funds.

aa. Earnings per share

Basic earnings per share is calculated by dividing income for the year by the weighted average number of issued and fully paid-up shares during the related year.

ab. Provisions

Provisions are recognised when the Bank has a present obligation (legal or constructive), as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

2. KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)**ac. Sumber dana kebajikan**

Sesuai dengan Fatwa DSN-MUI No. 123/DSN-MUI/XI/2018, Dana Kebajikan berasal dari Dana yang Tidak Boleh Diakui Sebagai Pendapatan (Dana TBDSP), di antaranya adalah sebagai berikut:

1. Transaksi tidak sesuai dengan prinsip syariah yang tidak dapat dihindarkan termasuk pendapatan bunga (riba).
2. Transaksi syariah yang tidak terpenuhi ketentuan dan batasannya (rukun dan/atau syaratnya).
3. Dana sanksi (denda) karena tidak memenuhi kewajiban sesuai kesepakatan.
4. Dana yang tidak diketahui pemiliknya, diketahui pemiliknya tetapi tidak ditemukan atau diketahui pemiliknya tetapi biaya pengembaliannya lebih besar dari jumlah dana tersebut.

ad. Segmen operasi

Segmen adalah bagian yang dapat dibedakan dari Bank yang terlibat baik dalam menyediakan produk tertentu (segmen usaha), maupun dalam menyediakan produk dalam lingkungan ekonomi tertentu (segmen geografis), yang memiliki risiko dan imbalan yang berbeda dengan segmen lainnya.

Pendapatan, beban, hasil, aset dan liabilitas segmen mencakup hal-hal yang dapat diatribusikan langsung kepada suatu segmen serta hal-hal yang dapat dialokasikan dengan dasar yang sesuai kepada segmen tersebut.

Bank menyajikan segmen operasi berdasarkan laporan internal yang disajikan kepada Direksi sebagai pengambil keputusan operasional dan keuangan.

Di tahun 2022, Bank menerapkan perubahan terhadap penyajian segmen operasi yang digunakan dalam laporan kinerja manajemen internal. Bank telah mengidentifikasi dan mengungkapkan informasi keuangan berdasarkan kegiatan bisnis utama (segmen usaha) yang terbagi atas kelompok *Corporate Banking*, *Commercial Banking*, Hubungan Kelembagaan, Ritel, dan *Treasury Banking & Kantor Pusat*.

2. MATERIAL ACCOUNTING POLICIES (continued)**ac. Source of qardhul hasan funds**

Based on Fatwa DSN-MUI No. 123/DSN-MUI/XI/2018, Qardhul Hasan Funds comes from Funds that are Prohibited to be Recognised as Revenue (TBDSP Funds), which include the following:

1. The transaction that is not accordance with sharia principle and cannot be avoided include interest revenue (riba).
2. The sharia transaction does not fulfill the terms and conditions (principle and/or requirement).
3. Penalty funds (fines) because of not fulfilling the obligation on initial contract.
4. Unknown funds, the owner is known but was not found or the owner is known but return cost is higher than the stated amount.

ad. Operating segment

A segment is a distinguishable component of the business unit that is engaged either in providing certain products (business segment), or in providing products within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

Segment revenue, expenses, results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis to that segment.

The Bank presents operating segment based on the Bank's internal report that is presented to the Board of Directors as the chief operating decision maker.

In 2022, the Bank implements some changes in presentation of its operational segments for the internal management performance report. The Bank has identified and disclosed financial information based on main business (business segment) classified into *Corporate Banking*, *Commercial Banking*, *Institutional Relation*, *Retail and Treasury Banking & Head Office*.

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING**

Beberapa estimasi dan asumsi dibuat dalam rangka penyusunan laporan keuangan dimana dibutuhkan pertimbangan manajemen dalam menentukan metodologi yang tepat untuk penilaian aset dan liabilitas.

Manajemen membuat estimasi dan asumsi yang berimplikasi pada pelaporan nilai aset dan liabilitas atas tahun keuangan satu tahun ke depan. Semua estimasi dan asumsi yang diharuskan oleh PSAK adalah estimasi terbaik yang didasarkan pada standar yang berlaku. Estimasi dan pertimbangan dievaluasi secara terus menerus dan berdasarkan pengalaman masa lalu dan faktor-faktor lain termasuk harapan atas kejadian yang akan datang.

Walaupun estimasi dan asumsi ini dibuat berdasarkan pengetahuan terbaik manajemen atas kejadian dan aktivitas saat ini, hasil yang timbul mungkin berbeda dengan estimasi dan asumsi semula.

Sumber utama ketidakpastian estimasi:

a. Cadangan kerugian penurunan nilai pada piutang, pinjaman *qardh*, dan pembiayaan

Bank menelaah kualitas aset pada setiap tanggal laporan posisi keuangan untuk menilai apakah penurunan nilai harus dicatat dalam laporan laba rugi dan penghasilan komprehensif lain. Dalam menentukan apakah penurunan nilai harus dibentuk dalam laporan laba rugi, Bank membuat estimasi penilaian apakah terdapat indikasi penurunan kualitas aset. Estimasi tersebut didasarkan pada asumsi dari sejumlah aset dan hasil akhirnya mungkin berbeda, yang mengakibatkan perubahan di masa mendatang atas cadangan penurunan nilai.

Kondisi spesifik *counterparty* yang mengalami penurunan nilai dalam pembentukan cadangan kerugian atas piutang, pinjaman *qardh*, dan pembiayaan dievaluasi secara individu berdasarkan estimasi terbaik manajemen atas nilai kini arus kas yang diharapkan akan diterima. Dalam mengestimasi arus kas tersebut, manajemen membuat pertimbangan tentang situasi keuangan *counterparty* dan/atau nilai realisasi bersih dari setiap agunan. Setiap aset yang mengalami penurunan nilai dinilai sesuai dengan manfaat yang ada, dan strategi penyelesaian serta estimasi arus kas yang diperkirakan dapat diterima.

**3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS**

Certain estimates and assumptions are made in the preparation of the financial statements and these require management judgment in determining the appropriate methodology for valuation of assets and liabilities.

Management makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. All estimates and assumptions required in conformity with SFAS are best estimates undertaken in accordance with the applicable standard. Estimates and judgments are evaluated on a continuous basis and are based on past experiences and other factors, including expectations with regard to future events.

Although these estimates and assumptions are based on management's best knowledge of current events and activities, actual result may differ from those estimates and assumptions.

Key sources of estimation uncertainty:

a. Allowance for impairment losses on receivables, funds of *qardh*, and financing

The Bank examines the quality of assets at statements of financial position date to assess whether impairment should be recorded in the statements of profit or loss and other comprehensive income. In determining whether a provision for impairment losses should be recognised in the profit or loss, the Bank makes estimation of whether there is any indication of impairment in the asset quality. Such estimates are based on the assumption of a number of factors, and the end result may differ, resulting in future changes to allowance for impairment.

The specific condition of impaired counterparty in calculating allowances for impairment losses on receivables, funds of *qardh*, and financing is evaluated individually based on management's best estimate of the present value of the expected cash in flows. In estimating these cash flows, management makes judgments about the counterparty's financial situation and/or the net realisable value of any underlying collateral. Each impaired assets is assessed on its merits, the workout strategy and estimated recoverable cash flows.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (lanjutan)**a. Cadangan kerugian penurunan nilai pada piutang, pinjaman *qardh*, dan pembiayaan (lanjutan)**

Perhitungan cadangan penurunan nilai kolektif meliputi kerugian pembiayaan yang melekat dalam portofolio piutang, pinjaman *qardh*, dan pembiayaan dengan karakteristik ekonomi yang sama ketika terdapat bukti objektif penurunan nilai, tetapi penurunan nilai secara individu belum dapat diidentifikasi. Dalam menilai kebutuhan untuk cadangan kolektif, manajemen mempertimbangkan faktor-faktor seperti kualitas piutang dan segmentasi. Guna membuat estimasi cadangan yang diperlukan, manajemen membuat asumsi untuk menentukan kerugian yang melekat, dan untuk menentukan parameter input yang diperlukan, berdasarkan pengalaman masa lalu dan kondisi ekonomi saat ini. Keakuratan penyisihan tergantung pada seberapa baik estimasi arus kas masa depan untuk cadangan *counterparty* tertentu dan asumsi model dan parameter yang digunakan dalam menentukan cadangan kolektif (Catatan 2d, 9, 10, 11, 12, 45a).

b. Kewajiban imbalan kerja karyawan

Nilai kini atas imbalan kerja karyawan tergantung dari banyaknya faktor yang dipertimbangkan oleh aktuaris berdasarkan beberapa asumsi. Perubahan atas asumsi-asumsi tersebut akan mempengaruhi *carrying amount* atas imbalan kerja karyawan.

Asumsi yang digunakan untuk menentukan biaya atau pendapatan untuk imbalan kerja mencakup tingkat diskonto dan kenaikan gaji di masa datang. Adanya perubahan pada asumsi ini akan mempengaruhi jumlah tercatat kewajiban imbalan kerja karyawan.

Bank menentukan tingkat diskonto yang tepat pada setiap periode pelaporan. Ini merupakan tingkat suku bunga yang digunakan untuk menentukan nilai kini atas arus kas masa depan yang diestimasi akan digunakan untuk membayar imbalan kerja. Dalam menentukan tingkat diskonto yang tepat, Bank mempertimbangkan tingkat suku bunga atas Obligasi Pemerintah yang mempunyai jatuh tempo yang menyerupai jangka waktu imbalan kerja karyawan.

Untuk tingkat kenaikan gaji masa datang, Bank mengumpulkan data historis mengenai perubahan gaji dasar pekerja dan menyesuaikannya dengan perencanaan bisnis masa datang.

Asumsi kunci liabilitas pensiun lainnya sebagian ditentukan berdasarkan kondisi pasar saat ini.

c. Perpajakan

Bank menentukan provisi perpajakan berdasarkan estimasi atas kemungkinan adanya tambahan beban pajak. Jika hasil akhir dari hal ini berbeda dengan jumlah yang dicatat semula, maka perbedaan tersebut akan berdampak terhadap laba rugi.

NOTES TO THE FINANCIAL STATEMENTS**31 DECEMBER 2024 AND 2023**

(Expressed in millions of Rupiah, unless otherwise stated)

3. USE OF CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (continued)**a. Allowance for impairment losses on receivables, funds of *qardh*, and financing (continued)**

Collectively assessed impairment allowances cover financing losses inherent in portfolios of receivables, funds of *qardh*, and financing with similar economic characteristics when there is objective evidence of impairment, yet the individual impaired items cannot be identified. In assessing the need for collective allowances, management considers factors such as financing quality and product segmentation. In order to estimate the required allowance, assumptions are made to define the way inherent losses are modelled and to determine the required input parameters, based on historical experience and current economic conditions. The accuracy of the allowances depends on how well these estimate future cash flows for specific counterparty allowances and the model assumptions and parameters used in determining collective allowances (Note 2d, 9, 10, 11, 12, 45a).

b. Employee benefits liabilities

The present value of the employee benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. Any changes in these assumptions will impact the carrying amount of employee benefit obligations.

The assumptions used in determining the net cost or income for employee benefits include the discount rate and future salary increase. Any changes in these assumptions will have an impact on the carrying amount of employee benefits liabilities.

The Bank determines the appropriate discount rate at the reporting period. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the Bank considers the interest rates of Government Bonds that have terms to maturity approximating the terms of the related employee benefit liabilities.

For the rate of future salary increases, the Bank collects all historical data relating to changes in base salaries and adjusts it for future business plans.

Other key assumptions for pension obligations are partly based on current market conditions.

c. Taxation

The Bank provides for tax provision based on estimates whether the additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the profit loss.

3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (lanjutan)**c. Perpajakan (lanjutan)**

Aset pajak tangguhan diakui atas jumlah pajak penghasilan terpulihkan (*recoverable*) pada periode mendatang sebagai akibat perbedaan temporer yang boleh dikurangkan. Justifikasi manajemen diperlukan untuk menentukan jumlah aset pajak tangguhan yang dapat diakui, sesuai dengan waktu yang tepat dan tingkat laba fiskal di masa mendatang sejalan dengan strategi rencana perpajakan ke depan.

d. Revaluasi aset tetap

Revaluasi aset tetap Bank bergantung pada pemilihan asumsi yang digunakan oleh penilai independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain: tingkat diskonto, nilai tukar, tingkat inflasi dan tingkat kenaikan pendapatan dan biaya. Bank berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan dalam asumsi yang ditetapkan Bank dapat mempengaruhi secara material nilai aset tetap yang direvaluasi.

e. Menentukan jangka waktu kontrak dengan opsi perpanjangan dan penghentian kontrak - Bank sebagai lessee

Bank menentukan jangka waktu sewa sebagai jangka waktu sewa yang tidak dapat dibatalkan, bersama dengan periode yang dicakup oleh opsi untuk memperpanjang masa sewa jika dipastikan akan dilaksanakan, atau periode apa pun yang dicakup oleh opsi untuk menghentikan sewa, jika cukup wajar untuk tidak dilakukan.

Bank memiliki beberapa kontrak sewa yang mencakup opsi perpanjangan dan penghentian jangka waktu sewa. Bank menerapkan penilaian dalam mengevaluasi apakah dapat dipastikan jika akan menggunakan opsi untuk memperpanjang atau menghentikan sewa. Hal tersebut dilakukan dengan mempertimbangkan seluruh fakta dan keadaan yang relevan yang memberikan insentif ekonomi untuk melakukan perpanjangan atau penghentian sewa. Setelah tanggal dimulainya, Bank menilai kembali masa sewa, jika terdapat peristiwa atau perubahan signifikan dalam keadaan yang berada dalam kendali dan mempengaruhi apakah lessee cukup pasti untuk mengeksekusi opsi memperpanjang atau menghentikan sewa.

f. Penyisihan kerugian aset nonproduktif

Bank menelaah potensi kerugian aset nonproduktif pada setiap tanggal pelaporan untuk menilai apakah terdapat penyisihan penurunan nilai yang harus dibentuk dalam laporan laba rugi dan penghasilan komprehensif lain. Dalam menentukan apakah penyisihan penurunan nilai harus dibentuk, Bank membuat estimasi penilaian apakah terdapat indikasi penurunan nilai dari aset nonproduktif. Estimasi tersebut didasarkan pada pertimbangan dari sejumlah faktor dan hasil akhirnya mungkin berbeda (Catatan 15).

NOTES TO THE FINANCIAL STATEMENTS**31 DECEMBER 2024 AND 2023***(Expressed in millions of Rupiah, unless otherwise stated)***3. USE OF CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (continued)****c. Taxation (continued)**

Deferred tax assets are recognised for the future recoverable taxable income arising from temporary difference. Management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing on level of future taxable profits together with future strategic planning.

d. Fixed asset revaluation

The Bank's fixed assets revaluation depends on its selection of certain assumptions used by the independent appraisal in calculating such amounts. Those assumptions include among others: discount rate, exchange rate, inflation rate and revenue and cost increase rate. The Bank believes that its assumptions are reasonable and appropriate and significant differences in the Bank's assumptions may materially affect the valuation of its fixed assets.

e. Determine the contract term with extension and contract termination options - the Bank as lessee

The Bank determines the lease term as non-cancellable term, together with the period covered by the option to extend the lease if it is determined to be exercised, or any period covered by the option to terminate the lease, if it is reasonably certain not to be exercised.

The Bank has several lease contracts that include extension and contract termination in the lease terms. The Bank applies its judgment in evaluating whether it is certain to exercise the option to extend or terminate the lease. This is done by considering all relevant facts and circumstances that provide economic incentives to extend or terminate the lease. After the commencement date, the Bank reassesses the lease term, if there is a significant event or change in circumstances which is under its control and affects whether the lessee is certain enough to exercise the option to extend or terminate the lease.

f. Allowance for impairment losses on non-earning assets

The Bank evaluates the potential loss of non-earning assets at each reporting date to assess whether provision for impairment losses should be recognised in the statements of profit or loss and other comprehensive income. In determining whether a provision for impairment losses should be recognised, the Bank makes estimate on whether there is any indication of impairment of non-earning assets. These estimates are based on consideration of a number of factors and the end results may be different (Note 15).

3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)
g. Perlakuan penjualan aset pembiayaan

Penjualan aset syariah berupa pembiayaan *musyarakah mutanaqishah* ("MMQ") griya dilakukan setelah memenuhi kondisi jual beli yang sesungguhnya (*al-bai' al-haqiqi*), yang ditandai dengan berpindahnya kepemilikan aset pembiayaan MMQ yang diperjualbelikan, tidak ada kewajiban Bank untuk membeli kembali aset pembiayaan dalam bentuk pembiayaan atau dalam bentuk instrumen investasi sekuritisasi efek beragun aset syariah surat partisipasi ("EBAS-SP").

Kontrak jual beli secara syariah harus dibuat dalam bentuk jelas dan final. Prinsip syariah mensyaratkan tidak boleh terdapat dua transaksi dalam satu kontrak. Sehingga Bank memperlakukan penjualan aset pembiayaan sebagai transaksi yang terpisah dari pembelian EBAS-SP kelas B.

Bank menerapkan kriteria jual beli sesungguhnya menggunakan PSAK 411, "Akuntansi Wa'd". Jual beli sesungguhnya ditandai dengan telah terjadi perpindahan dari Bank kepada penerbit atas:

- hak dan kewajiban hukum aset syariah;
- semua manfaat dan risiko dari aset syariah; dan
- pengendalian atas aset syariah tersebut.

Sesuai dengan hal diatas, Bank menghentikan pengakuan pembiayaan MMQ secara menyeluruh (lihat Catatan 12g).

3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS (continued)
g. Treatment of sales of financing assets

The sale of sharia assets in the form of *musyarakah mutanaqishah* ("MMQ") financing is carried out after fulfilling the actual conditions of sale and purchase (*al-bai' al-haqiqi*), which is marked by the transfer of ownership of the MMQ financing assets being traded, there is no obligation of the Bank to buy back the financing assets in the form of financing or in the form of sharia asset-backed securities securitization investment instrument participation letter ("EBAS-SP").

Sharia sale and purchase contracts must be made in a clear and final form. Sharia principles require that there cannot be two transactions in one contract. So the Bank treats the sale of financing assets as a separate transaction from the purchase of class B EBAS-SP.

The Bank applies true sale criteria using SFAS 411, "Accounting of Wa'd". The true sale is marked by a transfer from the Bank to the issuer of:

- legal rights and obligations of sharia assets;
- all risks and rewards from sharia assets; and
- control over the sharia assets.

Accordingly, the Bank derecognised the MMQ financing at its entirety (see Note 12g).

c. Berdasarkan kolektibilitas**c. By collectibility**

Kolektibilitas giro dan penempatan pada bank lain diungkapkan pada Catatan 54b.

The collectibility of current accounts and placements with other banks is disclosed in Note 54b.

d. Berdasarkan jatuh tempo**d. By maturity**

Giro dan penempatan pada bank lain memiliki sisa umur jatuh tempo kurang dari 1 (satu) bulan.

Current accounts and placements with other banks have remaining period to maturity of less than 1 (one) month.

Manajemen berpendapat bahwa jumlah penyisihan kerugian giro pada bank lain adalah cukup untuk menutup kerugian akibat tidak tertagihnya giro pada bank lain.

Management believes that the allowance for impairment losses is adequate to cover losses from uncollectible current accounts with other banks.

Pada tanggal 31 Desember 2024 dan 2023, tidak terdapat giro dan penempatan pada bank lain yang dijadikan jaminan.

As at 31 December 2024 and 2023, no current accounts and placements with other bank are pledged as collaterals.

Seluruh pendapatan yang diterima dari giro pada bank non-syariah dicatat sebagai dana kebajikan (Catatan 23).

All income received from current accounts with non-sharia banks are recorded as qardhul hasan funds (Note 23).

Bangun, Guna dan Serah

Pada tanggal 28 April 2023, Bank dan PT PP (Persero) Tbk ("PT PP") telah menandatangani perjanjian sehubungan dengan Bangun, Guna dan Serah ("BOT") atas tanah dan bangunan yang berlokasi di Jalan Medan Merdeka Selatan No. 17 Jakarta. Bank memberikan hak eksklusif kepada PT PP untuk memanfaatkan lahan, melakukan pembongkaran gedung eksisting dan melakukan pembangunan gedung baru. Bank berkomitmen untuk menyewa gedung baru selama 30 tahun dan pada akhir masa sewa, PT PP akan menyerahkan penguasaan lahan dan hak pengelolaan gedung kepada Bank.

Berdasarkan perjanjian BOT, Bank berhak menerima kompensasi atas penghancuran gedung lama dari PT PP sebesar Rp241.080 yang akan dibayarkan secara bertahap oleh PT PP selama 5 tahun. Kompensasi ini mengikat PT PP, tidak dapat dibatalkan dan tidak dapat dikembalikan dalam keadaan apapun termasuk apabila Bank mengakhiri kontrak secara sepihak. Berdasarkan syarat-syarat dalam perjanjian, manajemen membuat pertimbangan signifikan bahwa kompensasi dianggap sebagai transaksi terpisah dengan perjanjian sewa gedung baru meskipun kedua unsur tersebut berada dalam satu kontrak yang sama, antara pihak yang sama dan dalam waktu yang bersamaan. Bank mengakui kompensasi yang diterima sebagai pendapatan lain-lain bersamaan dengan pengakuan kerugian atas pembongkaran gedung lama sebesar Rp241.080 untuk tahun yang berakhir 31 Desember 2023.

Sampai dengan 31 Desember 2024, Bank telah menerima pembayaran sebesar Rp96.432 (2023: Rp48.216) dan sisanya dicatat sebagai piutang dari PT PP pada aset lain-lain sebesar Rp144.648 (2023: Rp192.864).

Revaluasi aset tetap

Penilaian kembali atas aset tetap dilakukan berdasarkan Standar Penilaian Indonesia. Metode penilaian yang dipakai adalah metode data pasar dan metode pendapatan. Elemen-elemen yang digunakan dalam perbandingan data untuk menentukan nilai wajar aset antara lain:

- a) jenis dan hak yang melekat pada properti;
- b) kondisi pasar;
- c) lokasi;
- d) karakteristik fisik; dan
- e) karakteristik tanah.

Nilai wajar ditentukan dengan menggunakan hierarki dan input-input yang digunakan dalam teknis penilaian untuk aset nonkeuangan:

- Level 1: Input yang berasal dari harga kuotasian (tanpa penyesuaian) dalam pasar aktif untuk aset yang identik;
- Level 2: Input selain harga kuotasian pasar dalam level 1 yang dapat diobservasi baik secara langsung maupun tidak langsung; dan
- Level 3: Input yang tidak dapat diobservasi.

Build, Operate and Transfer

On 28 April 2023, the Bank and PT PP (Persero) Tbk ("PT PP") entered into an agreement in connection with the Build, Operate and Transfer ("BOT") of land and building located at Medan Merdeka Selatan Street No. 17 Jakarta. The Bank granted exclusive rights to PT PP to utilize the land, to demolish the existing building and construct a new building. The Bank commits to rent the building for 30 years and at the end of the lease period, PT PP will hand over the ownership rights of the land and the building to the Bank.

In accordance with the BOT agreement, the Bank is eligible to receive compensation for the demolition of the old building from PT PP amounting to Rp241,080 which will be paid in stages by PT PP over 5 years. This compensation is binding to PT PP, non-cancellable and non-refundable under any circumstances including if the Bank terminates the contract unilaterally. Considering the terms in the agreement, the management makes significant judgment that the compensation is accounted for as a separate transaction to the rental agreement of the new building even though the two elements are in the same contract, between the same parties and at the same time. The Bank recognised the compensation received as other income corresponding with the recognition of loss from demolition of old building amounting to Rp241,080 for the year ended 31 December 2023.

As at 31 December 2024, the Bank had received payment of Rp96,432 (2023: Rp48,216) and recorded the remaining as receivables from PT PP amounting in other assets to Rp144,648 (2023: Rp192,864).

Revaluation of fixed assets

The revaluation of fixed assets are performed based on Indonesian Valuation Standards. The valuation methods used are market data approach and income approach. Elements used in data comparison to determine fair value of assets are among others are as follows:

- a) type and right on property;
- b) market condition;
- c) location;
- d) physical characteristic; and
- e) land characteristic.

Fair value was determined by hierarchy and input used on technical valuation of non-financial assets:

- Level 1: Input quoted (unadjusted) prices in active market for identical assets;
- Level 2: Input other than quoted market price in level 1 that are observable either directly or indirectly; and
- Level 3: Input that are not observable.

Manajemen berpendapat bahwa kemungkinan besar jumlah laba fiskal pada masa mendatang memadai untuk mengkompensasi perbedaan temporer yang menimbulkan aset pajak tangguhan tersebut.

Management believes that it is most likely that future taxable income will be available against the temporary differences which create deferred tax assets.

22. PERPAJAKAN (lanjutan)**e. Informasi lain****Penerapan Peraturan Menteri Keuangan Republik Indonesia ("PMK") No. 74 Tahun 2024**

Pada tanggal 18 Oktober 2024, Menteri Keuangan Republik Indonesia menerbitkan Peraturan Menteri Keuangan Republik Indonesia ("PMK") No. 74 Tahun 2024 tentang Pembentukan Cadangan Piutang Tak Tertagih yang Boleh Dikurangkan dari Penghasilan Bruto. Peraturan ini menggantikan PMK No. 81/PMK.03/2009 tentang Pembentukan atau Pemupukan Dana Cadangan yang Boleh Dikurangkan sebagai Biaya sebagaimana telah diubah dengan PMK No. 219/PMK.011/2012. Perubahan ini berdampak pada penambahan nilai aset pajak tangguhan dan penambahan hutang pajak badan Bank untuk Tahun Pajak 2024.

Dampak Penerapan Pilar 2 Organization for Economic Co-operation and Development ("OECD")

Bank berada dalam cakupan ketentuan model Pilar Dua OECD sesuai dengan ketentuan dalam PMK No. 136 Tahun 2024, yurisdiksi tempat Bank didirikan, dan mulai berlaku mulai 1 Januari 2025. Oleh karena peraturan tersebut tidak berlaku pada tanggal pelaporan, Bank ini tidak memiliki eksposur pajak terkini terkait. Bank menerapkan pengecualian PSAK 212 untuk mengakui dan mengungkapkan informasi tentang aset dan liabilitas pajak tangguhan yang terkait dengan pajak penghasilan Pilar Dua.

Dikarenakan kompleksitas dalam penerapan peraturan PMK No. 136 Tahun 2024 dan perhitungan pendapatan GloBE, dampak kuantitatif dari peraturan yang secara substantif diberlakukan tapi belum efektif tersebut belum dapat diestimasi dengan wajar. Oleh karena itu, meskipun terdapat entitas dengan tarif pajak efektif akuntansi di atas 15%, mungkin masih ada implikasi pajak Pilar Dua. Pada tahun yang berakhir 31 Desember 2024, Bank masih menilai dampak dalam penerapan peraturan tersebut.

NOTES TO THE FINANCIAL STATEMENTS**31 DECEMBER 2024 AND 2023***(Expressed in millions of Rupiah, unless otherwise stated)***22. TAXATION (continued)****e. Other information****Implementation of the Minister of Finance Regulation ("PMK") No. 74 Year 2024**

On 18 October 2024, the Minister of Finance of the Republic of Indonesia issued Minister of Finance Regulation ("PMK") No. 74 Year 2024 concerning the Establishment of Provisions for Uncollectible Receivables that can be Deducted from Gross Income. This regulation replaces PMK No. 81/PMK.03/2009 regarding the Formation or Accumulation of Reserve Funds That Can Be Deducted as Expenses, as amended by PMK No. 219/PMK.011/2012. This change impacts the increase in deferred tax assets and the addition of the Bank's corporate tax liabilities for the Fiscal Year 2024.

The impact of Pillar 2 of Organization for Economic Co-operation and Development ("OECD")

The Bank is within the scope of the OECD Pillar Two model rules in accordance with the PMK No. 136 Year 2024, the jurisdiction in which the Bank is incorporated, and has come into effect from 1 January 2025. Since the regulation was not effective at the reporting date, the Bank has no related current tax exposure. The Bank applies the SFAS 212 exception to recognising and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes.

Due to the complexities in applying the PMK No. 136 Year 2024 and calculation GloBE income, the quantitative impact of the substantively enacted but not yet effective regulation has not been reasonably estimable. Therefore, even for those entities with an accounting effective tax rate above 15%, there might still be Pillar Two tax implications. For the year ended 31 December 2024, the Bank is still assessing the impact of implementation of the regulation.

42. LIABILITAS IMBALAN KERJA (lanjutan)**Imbalan pasca kerja jangka panjang (lanjutan)**

Hasil yang diharapkan dari aset program ditentukan dengan mempertimbangkan imbal hasil yang diharapkan atas aset yang mengacu pada kebijakan investasi. Hasil investasi bunga tetap didasarkan pada hasil pengembalian bruto pada tanggal pelaporan. Hasil yang diharapkan dari investasi ekuitas dan properti mencerminkan tingkat imbal hasil jangka panjang aktual yang terjadi untuk tiap-tiap pasar.

Bank terekspos beberapa risiko atas program imbalan kerja seperti risiko yang terekspos pada program manfaat pasti adalah adanya tingkat hasil investasi di bawah asumsi *discount rate* dan kenaikan gaji aktual yang lebih besar dari asumsi. Hal tersebut menimbulkan peningkatan iuran yang dibayarkan kepada dana pensiun.

Untuk memastikan bahwa posisi investasi telah sesuai dengan kerangka *Asset Liability Matching* ("ALMA"), Bank melakukan pemantauan terhadap investasi atas program pensiun (baik iuran pasti maupun manfaat pasti) dan memastikan tingkat investasi dimaksud mencapai tingkat diskonto yang digunakan. Selain itu, dilakukan implementasi kebijakan penyesuaian gaji sesuai dengan asumsi yang telah digunakan dalam perhitungan aktuarial untuk mengurangi selisih hasil perhitungan atas proyeksi imbalan kerja pasca kerja dengan realisasinya.

Rata-rata durasi kewajiban manfaat pasti pada tanggal 31 Desember 2024 adalah 7,98 tahun (2023: 8,89 tahun).

Cuti besar

Mutasi untuk cadangan atas cuti besar masing-masing pada tanggal 31 Desember 2024 dan 2023 adalah sebagai berikut:

	<u>2024</u>	<u>2023</u>
Liabilitas pada awal tahun	204,021	178,150
Beban cuti besar		
pada tahun berjalan	44,845	102,955
Pembayaran cuti besar		
selama tahun berjalan	(89,099)	(77,084)
	<u>159,767</u>	<u>204,021</u>

42. EMPLOYEE BENEFIT LIABILITIES (continued)**Long-term post-employment benefit (continued)**

The expected return on plan assets is determined by considering the expected return available on the assets in accordance with the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as at the reporting date. Expected return on equity and property investments reflect long-term real rates of return experienced in the respective markets.

The Bank is exposed to a number of risks through its employee benefit plans such as the exposed risks in the defined benefit pension plan is the lower return on investment compared to assumption on discount rate and the increase in the actual salary is higher than its assumption. These will cause an increase in benefit paid to pension fund.

To ensure that the position of investments is consistent with the Asset Liability Management ("ALMA") framework, the Bank performs monitoring over the investment for the pension program (for both defined benefit and contribution plans) and performs action to ensure the return of investments will meet the applicable discount rate. Apart from that, implementation of salary adjustment policy has been performed in accordance to the assumptions used by actuarial calculation to reduce the gap on the calculation of projected post-employment benefit with its realisation.

The average duration of the defined benefit obligations as at 31 December 2024 is 7.98 years (2023: 8.89 years).

Grand leaves

The movements of allowance for grand leaves as at 31 December 2024 and 2023, respectively, are as follows:

45. MANAJEMEN RISIKO

Bank dalam menjalankan usahanya senantiasa dihadapkan pada berbagai risiko. Perkembangan yang pesat pada lingkungan eksternal dan internal Bank juga menyebabkan risiko yang dihadapi Bank menjadi semakin kompleks. Maka dari itu, agar dapat beradaptasi dan mampu bersaing dalam lingkungan bisnis, Bank dituntut untuk mampu menerapkan manajemen risiko yang andal dan sistematis. Prinsip-prinsip manajemen risiko yang diterapkan harus dapat mendukung Bank untuk lebih berhati-hati seiring dengan perkembangan kegiatan usaha dan operasional perbankan yang semakin maju.

a. Risiko kredit

Risiko kredit adalah risiko akibat kegagalan nasabah atau pihak lain dalam memenuhi kewajiban kepada Bank sesuai dengan perjanjian yang disepakati, termasuk risiko kredit akibat kegagalan debitur, risiko konsentrasi kredit (*counterparty credit risk*), risiko kredit akibat kegagalan penyelesaian (*settlement risk*) dan risiko kredit akibat *country risk*.

Pengelolaan risiko kredit yang dilakukan Bank antara lain dengan meningkatkan keseimbangan antara ekspansi pembiayaan yang sehat dan pengelolaan pembiayaan dengan memperhatikan prinsip prudenialitas agar terhindar dari penurunan kualitas pembiayaan. Selain itu, Bank juga berupaya untuk mengurangi eksposur risiko kredit, di antaranya melalui berbagai langkah mitigasi risiko kredit dengan menggunakan sejumlah teknik seperti agunan dan jaminan pihak ketiga untuk mengurangi dampak risiko. Teknik mitigasi risiko kredit memungkinkan Bank untuk terlindungi dari terjadinya pemburukan kualitas kredit.

Bank melakukan pengelolaan risiko kredit melalui:

45. RISK MANAGEMENT

In running its business, the Bank is always faced with various risks. Rapid developments in the Bank's external and internal environment have also caused the risks faced by the Bank to become increasingly complex. Therefore, in order to be able to adapt and be able to compete in the business environment, the Bank is required to be able to implement reliable and systematic risk management. The applied risk management principles must be able to support the Bank in being more prudent in line with the increasingly advanced developments in business activities and banking operations.

a. Credit risk

Credit risk is the risk arising from the failure of customers or other parties to fulfill their obligations to the Bank as per the agreed contract, including credit risk due to debtor failure, counterparty credit risk, settlement risk, and credit risk due to country risk.

The credit risk management carried out by the Bank are by improving the balance between healthy financing expansion and financing management by taking into account the principle of prudeniality to avoid a decrease in the quality of financing. In addition, the Bank also seeks to reduce credit risk exposure through various credit risk mitigation by using a number of techniques, such as collateral and third party guarantees to reduce the impact of risk. Credit risk mitigation techniques allow the Bank to be protected from deteriorating financing quality.

The Bank manages credit risk by:

CATATAN ATAS LAPORAN KEUANGAN

31 DESEMBER 2024 DAN 2023

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE FINANCIAL STATEMENTS

31 DECEMBER 2024 AND 2023

(Expressed in millions of Rupiah, unless otherwise stated)

45. MANAJEMEN RISIKO (lanjutan)

a. Risiko kredit (lanjutan)

(iii) Analisis eksposur maksimum terhadap risiko kredit setelah memperhitungkan dampak agunan dan mitigasi risiko kredit lainnya

1. *Secured financing*
2. *Partially secured financing*

Untuk *secured financing*, Bank menetapkan jenis dan nilai agunan yang dijamin sesuai skema pembiayaan. Jenis dari agunan adalah sebagai berikut:

- a. *Physical collateral*, berupa objek benda bergerak maupun tidak bergerak antara lain: kendaraan bermotor, tanah dan bangunan, serta properti lainnya.
- b. *Financial collateral*, berupa simpanan (tabungan, giro, deposito), surat berharga, dan emas.

Apabila terjadi *default* (gagal bayar), Bank akan menggunakan agunan tersebut sebagai pilihan terakhir untuk pemenuhan kewajiban *counterparty*.

Partially secured financing terdiri dari pembiayaan untuk golongan berpenghasilan tetap, pembiayaan untuk para pensiunan dan pembiayaan konsumen lainnya. Dalam pembayaran kewajibannya, *partially secured financing* umumnya dilakukan melalui pemotongan penghasilan secara otomatis. Dengan demikian, tingkat risiko dari *partially secured financing* tidak sebesar nilai tercatat pembiayaannya.

Mitigasi risiko kredit untuk *partially secured financing* terdiri dari surat keputusan pengangkatan pegawai dan surat keterangan pensiun.

b. Risiko pasar

Risiko pasar adalah risiko akibat perubahan harga pasar, antara lain risiko dari perubahan nilai aset yang dapat diperdagangkan atau disewakan. Risiko pasar terdiri dari dua jenis risiko: risiko nilai tukar dan risiko *benchmark* suku bunga.

45. RISK MANAGEMENT (continued)

a. Credit risk (continued)

(iii) Analysis of maximum exposure to credit risk after considering the impact of collateral and other credit risk mitigation

1. *Secured financing*
2. *Partially secured financing*

For *secured financing*, the Bank determined the type and value of collateral according to the financing scheme. Types of collateral are as follows:

- a. *Physical collateral*, in the form of movable or immovable objects, includes: motor vehicles, land and buildings, as well as other properties.
- b. *Financial collateral*, such as deposits (savings, current accounts, time deposits), securities and gold.

In case of default, the Bank will use the collateral as the last resort to recover counterparty obligations.

Partially secured financing consists of financing for fixed income employees, financing for retirees and other consumer financing. In their payment obligations, *partially secured financing* is generally made through automatic payroll deduction. Hence, the risk level of *partially secured financing* is not as big as the carrying value.

Financing risk mitigations for *partially secured financing* consists of employee recruitment decision letter and certificate of retirement.

b. Market risk

Market risk is the risk due to changes in market prices, such as risks of changes in the value of assets that can be traded or leased. Market risk consists of two types of risk: exchange rate risk and interest rate benchmark risk.

45. MANAJEMEN RISIKO (lanjutan)

b. Risiko pasar (lanjutan)

Bank melakukan pengelolaan risiko pasar melalui:

- Menerapkan prinsip *segregation of duty* dengan memisahkan fungsi *front office*, *middle office*, dan *back office* dalam pelaksanaan transaksi surat berharga dan valuta asing.
- Menerapkan *segregation of duty* dalam pelaksanaan transaksi *treasury* antara *dealer* dan *supervisor*.
- Melakukan *cut loss* posisi terbuka sukuk apabila terdapat penurunan harga pasar.
- Melakukan reviu terhadap kebijakan dan standar prosedur operasi yang terkait dengan pengelolaan risiko pasar.
- Menetapkan batas risiko pasar mencakup Posisi Devisa Neto ("PDN"), *Value at Risk* ("VaR"), Posisi Terbuka, *Stop Loss*, Transaksi *Treasury*, dan *Cut Loss*.
- Melakukan pengukuran risiko pasar menggunakan VaR, Sensitivitas dan *Stress Test*.
- Memantau pergerakan indikator eksternal antara lain nilai tukar Dolar Amerika Serikat /Rupiah, *yield*, surat berharga pemerintah, tingkat imbal hasil pasar, harga emas, Indonesia *Overnight Index Average* ("IndONIA"), dan informasi pasar terkini.
- Melakukan *mark to market* surat berharga dan revaluasi kurs secara harian.

Risiko *benchmark* suku bunga

Risiko *benchmark* suku bunga merupakan risiko akibat perubahan harga instrumen keuangan, antara lain sukuk, dari posisi *trading book* yang disebabkan oleh perubahan suku bunga. Risiko *benchmark* suku bunga yang terdiri atas risiko spesifik dan risiko umum diperhitungkan dalam penilaian Aset Tertimbang Menurut Risiko untuk Risiko Pasar.

Tabel di bawah ini menunjukkan sensitivitas terhadap dampak kemungkinan perubahan atas risiko *benchmark* suku bunga terhadap laba rugi dan penghasilan komprehensif lain serta ekuitas dengan asumsi bahwa semua variabel lain yang dimiliki adalah konstan untuk tahun yang berakhir 31 Desember 2024 dan 2023:

45. RISK MANAGEMENT (continued)

b. Market risk (continued)

The Bank manages market risk through:

- Applying the principle of *segregation of duty* by separating the functions of the *front office*, *middle office*, and *back office* in the carrying out securities and foreign exchange transactions.
- Applying *segregation of duty* in carrying out treasury transaction between *dealer* and *supervisor*.
- Doing sukuk open position cut loss if market price decline.
- Reviewing policies and standard operating procedures related to market risk management.
- Setting market risk limits include Net Open Position ("NOP"), *Value at Risk* ("VaR"), Open Position, *Stop Loss*, Treasury Transactions, and *Cut Loss*.
- Conducting market risk measurement using VaR, Sensitivity Analysis and *Stress Test*.
- Monitoring the movement of external indicators including the United States Dollar/Rupiah exchange rate, yield, government securities, market yields, gold prices, Indonesia *Overnight Index Average* ("IndONIA") and the latest market information.
- Conducting *mark to market* toward marketable securities and daily foreign exchange rate revaluation.

Benchmark rate risk

Benchmark rate risk is the risk due to changes in financial instrument prices, such as sukuk, from trading book positions caused by changes in interest rates. Benchmark rate risk which consists of specific risk and general risk is taken into account in the Risk Weighted Assets valuation for Market Risk.

The following tables show the sensitivity of the Bank's profit or loss and other comprehensive income and equity to reasonably possible changes in benchmark rate risk, assuming all other variables are constant for the years ended 31 December 2024 and 2023:

Risiko nilai tukar**Exchange rate risk**

Risiko nilai tukar merupakan risiko yang timbul karena adanya perbedaan posisi valuta asing yang dimiliki Bank yang tercermin dalam PDN baik neraca maupun secara keseluruhan. Termasuk dalam posisi valuta asing tersebut yaitu posisi *trading book* yang dilakukan dengan tujuan untuk mendapatkan keuntungan transaksi valuta asing dalam jangka pendek maupun posisi *banking book* dalam rangka pengendalian PDN. Perhitungan PDN disajikan dalam Catatan 54p.

Exchange rate risk is the risk due to the gap of foreign exchange positions owned by the Bank which is reflected in the NOP either on balance sheet or as a whole. Included in the foreign exchange position are the trading book positions carried out with the aim of gaining short-term foreign exchange transaction benefits as well as banking book positions to maintain NOP. The NOP calculation is disclosed in Note 54p.

45. MANAJEMEN RISIKO (lanjutan)**c. Risiko likuiditas**

Risiko likuiditas adalah risiko akibat ketidakmampuan Bank untuk memenuhi kewajiban yang jatuh tempo dari sumber pendanaan arus kas dan/atau dari aset likuid berkualitas tinggi yang dapat diagunkan, tanpa mengganggu aktivitas dan kondisi keuangan Bank. Seiring dengan perkembangan bisnis Bank, risiko likuiditas merupakan salah satu risiko yang menjadi perhatian utama Bank. Risiko ini dapat terjadi akibat pertumbuhan pembiayaan Bank yang lebih besar dibandingkan dengan pertumbuhan dana pihak ketiga. Perbedaan antara ketersediaan sumber dana dan jatuh tempo piutang dan pembiayaan dapat menyebabkan kesulitan dalam memenuhi kewajiban bank kepada nasabah dan pihak lainnya.

Tindakan yang diambil oleh Bank untuk meminimalisir risiko likuiditas antara lain sebagai berikut:

- 1) Melakukan pemisahan fungsi antara unit *treasury* sebagai *front office*, unit manajemen risiko sebagai *middle office*, dan unit operasional sebagai *back office*.
- 2) Melakukan penempatan dana pada aset likuid berkualitas tinggi sebagai cadangan likuiditas.
- 3) Memelihara akses ke pasar uang melalui penempatan dan pinjaman antarbank.
- 4) Melakukan review terhadap kebijakan dan prosedur operasi standar yang terkait dengan pengelolaan risiko likuiditas.
- 5) Memantau kondisi likuiditas Bank secara berkala melalui beberapa rasio likuiditas seperti *Financing to Deposit Ratio* ("FDR"), *Liquidity Coverage Ratio* ("LCR"), rasio kewajiban antarbank, arus kas, dan liquidity gap.
- 6) Menentukan batas risiko likuiditas seperti batas dari persyaratan Giro Wajib Minimum ("GWM") dan *secondary reserve*.

45. RISK MANAGEMENT (continued)**c. Liquidity risk**

Liquidity risk is the risk arising from the Bank's inability to meet maturing obligations from cash flow funding sources and/or from high-quality liquid assets that can be pledged, without disrupting the Bank's activities and financial condition. Along with the development of the Bank's business, liquidity risk is one of the risk that become the major concerns of the Bank. It may result from the growth of the Bank's financing which is greater than the growth of third party funds. The difference between the availability of source of funds and the maturity of receivable and financing can lead to difficulty in fulfilling bank obligations to customers and other parties.

The actions taken by the Bank to minimise the liquidity risk include the following:

- 1) Separating the functions between the treasury unit as the front office, the risk management unit as the middle office, and the operations unit as the back office.*
- 2) Placement of funds in high quality liquid assets as liquidity reserves.*
- 3) Maintaining access to the money market through placements and financing between banks.*
- 4) Reviewing policies and standard operating procedures related to the management of liquidity risk.*
- 5) Monitoring the liquidity conditions periodically through some liquidity ratios such as the Financing to Deposit Ratio ("FDR"), Liquidity Coverage Ratio ("LCR"), the ratio of inter-bank liabilities, cash flow and liquidity gaps.*
- 6) Setting the liquidity risk limit such as limit of Statutory Reserve Requirement ("GWM") and secondary reserve.*

Bank senantiasa mengevaluasi efektivitas sistem operasi untuk memastikan bahwa dana yang tersedia cukup untuk memenuhi seluruh kebutuhan dengan melakukan *monitoring* terhadap kondisi likuiditas Bank melalui beberapa rasio likuiditas. Bank meyakini dana tetap tumbuh dan arus kas dari aktiva produktif dapat menjaga kecukupan likuiditas.

The Bank continually evaluates the effectiveness of the operating system to ensure that sufficient funds are available to meet all needs by monitoring the condition of the Bank's liquidity through several liquidity ratios. The Bank believes that funds will continue to grow and cash flow from earning assets will be able to maintain sufficient liquidity.

46. NILAI WAJAR ASET DAN LIABILITAS KEUANGAN

Tabel di bawah ini menyajikan perbandingan antara nilai tercatat dan nilai wajar dari aset dan liabilitas keuangan. Nilai wajar yang diungkapkan adalah berdasarkan informasi relevan yang tersedia pada tanggal 31 Desember 2024 dan 2023 tidak diperbaharui untuk mencerminkan perubahan dalam kondisi pasar yang telah terjadi setelah tanggal ini.

Pada tanggal 31 Desember 2024 dan 2023 nilai tercatat dari aset dan liabilitas keuangan Bank memiliki nilai yang hampir sama dengan nilai wajarnya kecuali untuk instrumen berikut:

31 Desember/December 2024	
Nilai tercatat/ Carrying value	Nilai wajar/ Fair value
Investasi pada surat berharga	62.251.806
	62.478.192

Tabel di bawah ini menyajikan instrumen keuangan yang diakui pada nilai wajar berdasarkan hierarki yang digunakan Bank untuk menentukan dan mengungkapkan nilai wajar dari instrumen keuangan:

- Tingkat 1: harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik yang dapat diakses pada tanggal pengukuran.
- Tingkat 2: input selain harga kuotasian yang termasuk dalam level 1 yang dapat diobservasi untuk aset dan liabilitas, baik secara langsung atau tidak langsung.
- Tingkat 3: pengukuran nilai wajar yang berasal dari teknik penilaian yang mencakup input untuk aset dan liabilitas yang bukan berdasarkan data pasar yang dapat diobservasi.

Nilai wajar tingkat 1 dinilai menggunakan data dari Bloomberg.

Nilai wajar tingkat 2 dinilai menggunakan data dari Indonesia Bond Pricing Agency ("IBPA") dan Net Asset Value report dimana dihitung dengan model diskonto arus kas dengan kurva *yield* (diambil dari data pasar) terkini yang sesuai dengan sisa periode jatuh temponya.

31 Desember/December 2024			
Nilai wajar/ Fair value	Tingkat/ Level 1	Tingkat/ Level 2	Tingkat/ Level 3
Investasi pada surat berharga	62.478.192	-	62.448.716
			29.476
31 Desember/December 2023			
Nilai wajar/ Fair value	Tingkat/ Level 1	Tingkat/ Level 2	Tingkat/ Level 3
Investasi pada surat berharga	70.704.166	-	70.672.379
			31.787

Nilai wajar aset dan kewajiban keuangan tertentu, kecuali efek-efek dan sukuk Pemerintah yang dimiliki hingga jatuh tempo, piutang, dan pembiayaan yang diberikan dan surat berharga yang diterbitkan, mendekati nilai tercatatnya karena mempunyai jangka waktu jatuh tempo yang singkat.

(Expressed in millions of Rupiah, unless otherwise stated)

46. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

The table below summarises the comparison between the carrying values and fair values of financial assets and liabilities of the Bank. The fair values disclosed are based on relevant information available as at 31 December 2024 and 2023 and are not updated to reflect changes in market conditions which have occurred after these dates.

As at 31 December 2024 and 2023, the carrying value of the Bank's financial assets and liabilities approximates their fair value except for the following financial instruments:

31 Desember/December 2023	
Nilai tercatat/ Carrying value	Nilai wajar/ Fair value
Investments in marketable securities	71.301.526
	70.704.166

The tables below show the financial instruments recognised at fair value based on the hierarchy used by the Bank in determining and disclosing the fair value of financial instruments:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities which are accessible at the measurement date.
- Level 2: inputs other than quoted prices included in level 1 that are observable for the assets and liabilities, either directly or indirectly.
- Level 3: Fair value measurements are those derived from valuation techniques that include inputs for asset and liability that are not based on observable market data.

The fair value level 1 is valued by using data from Bloomberg.

The fair value level 2 is valued by using data from Indonesia Bond Pricing Agency ("IBPA") and Net Asset Value report which is calculated using a discounted cash flow model based on current yield curve (derived from market data) appropriated with the remaining term of maturity.

The fair values of certain financial assets and liabilities, except for securities and Government sukuk classified as held to maturity, receivables and financing and marketable securities issued approximate their carrying values due to their short-term maturities.

**46. NILAI WAJAR ASET DAN LIABILITAS
KEUANGAN (lanjutan)**

- a. Giro dan penempatan pada Bank Indonesia, giro dan penempatan pada bank lain, tagihan akseptasi dan aset lain-lain.

Nilai tercatat dari giro dan penempatan pada Bank Indonesia dan bank lain, tagihan akseptasi, dan aset lain-lain adalah perkiraan yang layak atas nilai wajar.

- b. Investasi pada surat berharga

Nilai wajar untuk investasi pada surat berharga yang dimiliki hingga jatuh tempo ditetapkan berdasarkan harga pasar atau harga kuotasi perantara (*broker*)/pedagang efek (*dealer*). Jika informasi ini tidak tersedia, nilai wajar diestimasi dengan menggunakan harga pasar kuotasi efek yang memiliki karakteristik risiko kredit, jatuh tempo, dan *yield* yang serupa atau menggunakan metode penilaian internal.

- c. Liabilitas segera, simpanan *wadiah*, simpanan dari bank lain, liabilitas lain-lain, dan dana *syirkah* temporer.

Estimasi nilai wajar dari liabilitas segera, simpanan *mudharabah*, dan liabilitas lain-lain adalah sebesar jumlah yang harus dibayarkan kembali sewaktu-waktu.

Estimasi nilai wajar terhadap simpanan *wadiah* dan simpanan dari bank lain dengan tingkat margin tetap dan liabilitas akseptasi ditetapkan berdasarkan diskonto arus kas dengan menggunakan tingkat margin pasar uang dengan sisa jatuh tempo yang serupa.

- d. Piutang dan pembiayaan

Portofolio piutang dan pembiayaan Bank secara umum terdiri dari piutang dan pembiayaan yang diberikan dan dinyatakan berdasarkan *amortised cost*.

Estimasi nilai wajar terhadap piutang dan pembiayaan ditetapkan berdasarkan diskonto arus kas dengan menggunakan tingkat margin yang berlaku untuk piutang dan pembiayaan dengan risiko kredit dan sisa jatuh tempo yang serupa.

Nilai wajar dari piutang dan pembiayaan yang diberikan menunjukkan nilai diskon dari perkiraan arus kas masa depan yang diharapkan akan diterima oleh Bank dengan menggunakan tingkat margin pasar saat ini.

**NOTES TO THE FINANCIAL STATEMENTS
31 DECEMBER 2024 AND 2023**

(Expressed in millions of Rupiah, unless otherwise stated)

**46. FAIR VALUE OF FINANCIAL ASSETS AND
LIABILITIES (continued)**

- a. *Current accounts and placements with Bank Indonesia, current accounts and placements with other banks, acceptance receivables and other assets.*

The carrying amount of current accounts and placements with Bank Indonesia and other banks, acceptance receivables and other assets are a reasonable approximations of fair value.

- b. *Investments in marketable securities*

The fair value for amortised cost investments in marketable securities are based on the market prices or broker/dealer price quotations. When this information is not available, the fair value is estimated using quoted market prices for securities with similar credit risk, maturity and yield characteristics or using internal valuation models.

- c. *Obligations due immediately, wadiah deposits, deposits from other banks, other liabilities and temporary syirkah funds.*

The estimated fair value of obligations due immediately, mudharabah deposits and other liabilities are the amounts repayable on demand.

The estimated fair values of wadiah deposits and deposits from other banks with fixed rate margin and acceptance liabilities are determined based on discounted cash flows using money market margin rates for with similar remaining maturities.

- d. *Receivables and financing*

Generally, the Bank's receivables and financing portfolio consists of receivables and financing that are stated at amortised cost.

The estimated fair values of receivables and financing are determined based on discounted cash flows using margin rates applied for receivables and financing with similar credit risk and remaining maturities.

The estimated fair value of loans represent the discounted amount of estimated future cash flows expected to be received by the Bank using the current market rates.

PERJANJIAN, KOMITMEN DAN KONTINJENSI SIGNIFIKAN****Perjanjian signifikan**

Pada tanggal 27 September 2024, Bank menandatangani perjanjian *bancassurance* dengan PT Prudential Sharia Life Assurance ("Prudential Sharia Life") untuk memasarkan, mempromosikan dan mereferensikan produk asuransi Prudential Sharia Life melalui jaringan distribusi Bank. Perjanjian kerjasama ini berlaku efektif sejak tanggal perjanjian dan akan terus berlaku dan efektif hingga tahun kelima belas (15) sejak tanggal peluncuran (1 Maret 2025). Adapun kewajiban Bank sebelum tanggal peluncuran terkait dengan penerbitan produk dan layanan asuransi di jaringan distribusi Bank antara lain mempersiapkan peraturan internal, pelatihan pegawai Bank, rencana pemasaran dan komunikasi serta penyesuaian sistem.

Liabilitas kontinjensi

Dalam menjalankan usahanya, Bank menghadapi berbagai perkara hukum yang terkadang mengandung tuntutan ganti rugi dimana Bank berposisi sebagai tergugat, terutama sehubungan dengan kepatuhan para pihak terhadap perjanjian/kontrak.

48. SIGNIFICANT AGREEMENTS, COMMITMENTS AND CONTINGENCIES**Significant Agreements**

As at 27 September 2024, the bank signed *bancassurance* agreement with PT Prudential Sharia Life Assurance ("Prudential Sharia Life") to market, promote and refer Prudential Sharia Life insurance products through the Bank's distribution network. This collaboration agreement is effective from the date of agreement and will continue to be valid and effective until the fifteenth (15th) year from the launch date (1 March 2025). The Bank's obligations before the launch date related to the launching of insurance products and services in the Bank's distribution network include preparing internal regulations, training Bank employees, marketing and communication plans and system adjustments.

Contingent liabilities

In conducting the business, the Bank faces various legal cases which sometimes involve claims for compensation in which the Bank is positioned as a defendant, especially in relation to the parties' compliance with agreements/contracts.

I. Rasio Giro Wajib Minimum ("GWM")
(lanjutan)

	<u>2024</u>
<u>Valuta asing</u>	
Kewajiban Pemenuhan GWM	1.00%
Realisasi Pemenuhan GWM	1.46%

Rasio GWM pada tanggal 31 Desember 2024 dan 31 Desember 2023 dihitung berdasarkan Peraturan Anggota Dewan Gubernur ("PADG") No. 24/8/PADG/2022 tentang "Peraturan Pelaksanaan Pemenuhan Giro Wajib Minimum dalam Rupiah dan Valuta Asing bagi Bank Umum Konvensional, Bank Umum Syariah, dan Unit Usaha Syariah", sebagaimana telah diubah terakhir dengan PADG No. 12 tahun 2023 tanggal 27 September 2023 dan mulai berlaku sejak tanggal 1 Oktober 2023. PADG baru tersebut mengatur setiap Bank Umum Syariah dan Unit Usaha Syariah untuk memelihara GWM dalam Rupiah dan valuta asing yang besarnya ditetapkan sebesar 7,5% dan 1% dari dana pihak ketiga ("DPK") dalam Rupiah dan valuta asing.

Dalam perhitungan kewajiban pemenuhan GWM Rupiah, terdapat komponen insentif GWM sesuai PADG No. 4 Tahun 2024 tanggal 22 Mei 2024 tentang "Perubahan atas Peraturan Anggota Dewan Gubernur Nomor 11 Tahun 2023 tentang Peraturan Pelaksanaan Kebijakan Insentif Likuiditas Makroprudensial", serta disinsentif RIM sesuai Peraturan Bank Indonesia Nomor 21/12/PBI/2019 tanggal 25 November 2019 tentang "Perubahan atas Peraturan Bank Indonesia Nomor 20/4/PBI/2018 tentang Rasio Intermediasi Makroprudensial dan Penyangga Likuiditas Makroprudensial bagi Bank Umum Konvensional, Bank Umum Syariah, dan Unit Usaha Syariah".

Selain ketentuan di atas, berdasarkan Peraturan Bank Indonesia ("PBI") No. 23/07/PADG/2021 yang berlaku sejak 1 Mei 2021 dan Peraturan Bank Indonesia ("PBI") No. 21/22/PADG/2019 yang berlaku sejak 28 November 2019, terdapat perubahan perhitungan GWM *Financing to Deposit Ratio* ("FDR") menjadi RIM. Bank harus memelihara tambahan GWM jika RIM Bank kurang dari batas bawah 84% atau melebihi batas atas target Bank Indonesia sebesar 94%.

54. ADDITIONAL INFORMATION NOT REQUIRED
BY INDONESIAN FINANCIAL ACCOUNTING
STANDARDS (continued)

The following additional information is required by applicable regulations and is not required by the Financial Accounting Standards in Indonesia: (continued)

I. The Minimum Statutory Reserve
Requirement ("GWM") Ratio (continued)

	<u>2023</u>
<u>Foreign currencies</u>	
Fulfillment of GWM	1.00%
Realisation Fulfillment of GWM	1.13%

The GWM ratio as at 31 December 2024 and 31 December 2023 are calculated based on Board of Governors Members Regulations ("PADG") No. 24/8/PADG/2022 regarding "The implementation of Minimum Statutory Reserves in Rupiah and Foreign Currency for Conventional Banks, Sharia Banks and Sharia Business Units", as last amended by PADG No. 12 year 2023 dated 27 September 2023 and effectively came into force on 1 October 2023. The new PADG regulates every Sharia Bank and Sharia Business Unit to maintain GWM in Rupiah and foreign exchange, the amount of which is set at 7.5% and 1% of third party funds ("TPF") in Rupiah and foreign exchange.

In calculating the fulfillment of Rupiah statutory reserves, there is a GWM incentive component which is in accordance with the PADG No. 4 year 2024 dated 22 May 2024 concerning "Amendment to the Regulation of the Members of the Board of Governors Number 11 of 2023 concerning the Implementation Regulation of the Macroprudential Liquidity Incentive Policy", as well as disincentives RIM according to Bank Indonesia Regulation Number 21/12/PBI/2019 dated 25 November 2019 concerning "Amendments to Bank Indonesia Regulation Number 20/4/PBI/2018 concerning Macroprudential Intermediation Ratio and Macroprudential Liquidity Buffer for Conventional Commercial Banks, Sharia Commercial Banks, and Sharia Business Unit".

In addition, based on Bank Indonesia Regulation ("PBI") No. 23/07/PADG/2021 which is effective from 1 May 2021 and Bank Indonesia Regulation ("PBI") No. 21/22/PADG/2019 which is effective from 28 November 2019, there are changes in the calculation of GWM *Financing to Deposit Ratios* ("FDR") to RIM. Bank must pay additional Statutory Reserves if the Bank's RIM is less than the lower limit of 84% or exceeds the upper limit of the Bank Indonesia target of 94%.

Berdasarkan profil risiko Bank pada tanggal 31 Desember 2024 dan 2023, yaitu *satisfactory*, maka KPMM minimum pada tanggal 31 Desember 2024 dan 2023, ditetapkan sebesar 9% sampai dengan kurang dari 10%.

**54. ADDITIONAL INFORMATION NOT REQUIRED
BY INDONESIAN FINANCIAL ACCOUNTING
STANDARDS (continued)**

The following additional information is required by applicable regulations and is not required by the Financial Accounting Standards in Indonesia: (continued)

I. The Minimum Statutory Reserve Requirement ("GWM") Ratio (continued)

The balance of current accounts with Bank Indonesia is maintained to meet the GWM of Bank Indonesia.

As at 31 December 2024 and 2023, the Bank has complied with the Bank Indonesia regulations regarding the GWM.

m. Minimum Required Capital Adequacy Ratio ("CAR")

As at 31 December 2024 and 2023, the CAR are calculated based on OJK Regulation No. 21/POJK.03/2014 dated 19 November 2014, as amended in previous regulation. The CARs as at 31 December 2024 and 2023 are as follows:

Core capital
Supplementary capital (maximum 100% over core capital)
General reserves of allowance for impairment losses on earning assets (maximum 1.25% of Risk Weighted Assets ("RWA"))
RWA for Financing Risk
RWA for Market Risk
RWA for Operational Risk
Bank's CAR for Credit Risk and Operational Risk
Bank's CAR for Credit Risk, Market Risk and Operational Risk
Minimum CAR

Based on the risk profile as at 31 December 2024 and 2023, which is *satisfactory*, the minimum CAR as at 31 December 2024 and 2023, was determined at 9% to less than 10%.

KEUANGAN INDONESIA (lanjutan)**

Informasi tambahan berikut merupakan informasi yang disyaratkan oleh regulasi yang berlaku dan tidak disyaratkan oleh Standar Akuntansi Keuangan di Indonesia: (lanjutan)

m. Kewajiban Penyediaan Modal Minimum ("KPM") (lanjutan)

Selain wajib membentuk modal inti dan modal pelengkap, Bank wajib untuk memenuhi *Countercyclical Buffer* yang ditetapkan dalam kisaran 0% sampai dengan 2,5% dari ATMR sesuai dengan POJK No. 21/POJK.03/2014 tentang Kewajiban Penyediaan Modal Minimum Bank Umum Syariah.

Hasil penilaian menunjukkan bahwa Bank mampu untuk memenuhi KPM sesuai dengan profil risiko dan mampu memenuhi ketentuan tambahan modal (*buffer*).

n. Rasio piutang, pembiayaan dan pinjaman usaha kecil

Rasio piutang, pembiayaan dan pinjaman usaha kecil terhadap jumlah piutang, pembiayaan dan pinjaman syariah yang diberikan Bank adalah sebesar 18,86% dan 18,93% masing-masing pada tanggal 31 Desember 2024 dan 2023.

o. Batas Maksimum Penyaluran Dana dan Penyaluran Dana Besar ("BMPD")

Dalam laporan Batas Maksimum Penyaluran Dana dan Penyaluran Dana Besar ("BMPD") kepada Otoritas Jasa Keuangan pada tanggal 31 Desember 2024 dan 2023 tidak terdapat piutang, pembiayaan dan pinjaman pihak terkait yang melampaui ketentuan BMPD.

Pihak terkait dalam ketentuan BMPD adalah perorangan atau perusahaan yang mempunyai hubungan pengendalian dengan Bank, baik secara langsung maupun tidak langsung, melalui hubungan kepemilikan, kepengurusan, dan/atau keuangan.

p. Posisi Devisa Neto ("PDN")

Perhitungan PDN didasarkan pada Peraturan Bank Indonesia No. 5/13/PBI/2003 tanggal 1 Juli 2003 sebagaimana telah diubah terakhir dengan Peraturan Bank Indonesia No. 17/5/PBI/2015 tanggal 29 Mei 2015. Berdasarkan peraturan tersebut, Bank diwajibkan untuk menjaga rasio PDN maksimum 20% dari jumlah modal. PDN adalah penjumlahan nilai absolut yang dinyatakan dalam Rupiah dari selisih bersih antara aset dan liabilitas dalam mata uang asing dan selisih bersih dari tagihan dan liabilitas komitmen dan kontinjensi yang dicatat dalam rekening administratif yang didenominasi dalam setiap mata uang asing.

**54. ADDITIONAL INFORMATION NOT REQUIRED
BY INDONESIAN FINANCIAL ACCOUNTING
STANDARDS (continued)**

The following additional information is required by applicable regulations and is not required by the Financial Accounting Standards in Indonesia: (continued)

m. Minimum Required Capital Adequacy Ratio ("CAR") (continued)

In addition to provide core capital and supplementary capital, the Bank is required to provide *Countercyclical Buffer* ranging from 0% to 2.5% of RWA based on POJK regulation No. 21/POJK.03/2014 regarding the Minimum Required Capital Adequacy Ratio of Sharia Bank.

The assessment result shows that the Bank has met the Minimum CAR in accordance with its risk profile and met additional capital buffer requirement.

n. Small business receivables, financing and funds ratio

The ratio of small business receivables, financing and funds to total sharia receivables, financing and funds are 18.86% and 18.93% as at 31 December 2024 and 2023, respectively.

o. Maximum Limit for Distribution of Funds and Distribution of Large Funds ("BMPD")

Based on the Maximum Limit for Distribution of Funds and Distribution of Large Funds ("BMPD") to the Financial Services Authority as at 31 December 2024 and 2023 there are no receivables, financing and funds related parties which exceeded the BMPD regulation.

Related parties in BMPD regulation are individuals or companies that have a controlling relationship with the Bank, either directly or indirectly, through ownership, management and/or financial relationships.

p. Net Open Position ("NOP")

The NOP is calculated based on Bank Indonesia Regulation No. 5/13/PBI/2003 dated 1 July 2003 which was last amended by Bank Indonesia Regulation No. 17/5/PBI/2015 dated 29 May 2015. Based on this regulation, the Bank is required to maintain NOP ratio at a maximum of 20% of the total capital. The NOP is the sum of the absolute values, which are stated in Rupiah, of the net difference between the assets and liabilities denominated in each foreign currency and the net difference of the receivables and payables of commitments and contingencies recorded in the administrative accounts denominated in each foreign currency.

q. Manajemen risiko
Risiko operasional

Risiko operasional adalah risiko kerugian yang diakibatkan oleh proses internal yang kurang memadai, kegagalan proses internal, adanya kesalahan manusia, kegagalan sistem, dan/atau adanya kejadian/insiden eksternal yang mempengaruhi operasional Bank.

Pengelolaan risiko operasional selaras dengan pengembangan upaya pengendalian internal. Salah satu upaya yang dilakukan adalah penerapan pengendalian internal di cabang melalui pemisahan tugas dan tanggung jawab, mekanisme *dual control* dalam pelaksanaan fungsi transaksi, deviasi/otorisasi, pembatasan otoritas sistem akses, peningkatan kompetensi karyawan, dan pelaksanaan audit internal.

q. Risk management
Operational risk

Operational risk is the risk of loss resulting from inadequate internal processes, internal processes failures, human errors, system failures and/or external events/incidents that affect the Bank's operations.

Operational risk management is aligned with the development of internal control efforts. One of the efforts made is the implementation of internal control at the branch through the separation of duties and responsibilities, dual control mechanism in the implementation of the transaction function, deviation/authorisation, restrictions on access to the system authority, increasing employee's competence and the implementation of internal audit.

Risiko hukum

Risiko hukum adalah risiko akibat tuntutan hukum dan/atau kelemahan aspek yuridis. Timbulnya risiko hukum antara lain dapat disebabkan karena ketiadaan peraturan perundang-undangan yang mendukung atau kelemahan perikatan, seperti tidak dipenuhinya syarat sahnya kontrak atau pengikatan agunan yang tidak sempurna. Sebagai perusahaan yang diatur oleh hukum Republik Indonesia, Bank harus selalu mematuhi semua hukum dan peraturan yang dikeluarkan oleh Bank Indonesia/Otoritas Jasa Keuangan ("OJK") sebagai regulator dalam industri perbankan di Indonesia serta ketentuan lain yang berkaitan dengan kegiatan usaha yang dilakukan oleh Bank.

Risiko hukum yang timbul dapat berupa tuntutan kerugian material ataupun immaterial apabila Bank tidak mematuhi ketentuan dan peraturan yang berlaku. Jika terjadi tuntutan kerugian terhadap Bank dalam jumlah yang cukup material, maka secara langsung dapat mempengaruhi kinerja keuangan Bank.

Dalam mengelola risiko hukum, Bank melakukan tindakan di antaranya:

- 1) Melakukan reviu terhadap kebijakan dan prosedur operasi standar yang terkait dengan pengelolaan risiko hukum sesuai dengan peraturan yang berlaku.
- 2) Mengembangkan organisasi hukum yang kuat.
- 3) Standarisasi akad dan perjanjian kerja sama sesuai dengan peraturan yang berlaku.
- 4) Menentukan kebijakan cadangan perkara.

Risiko kepatuhan

Risiko kepatuhan adalah risiko yang timbul dari kegagalan Bank dalam mematuhi dan/atau menerapkan peraturan perundang-undangan yang berlaku dan prinsip-prinsip Syariah. Dalam industri perbankan, Bank wajib mematuhi peraturan yang dikeluarkan oleh Pemerintah, Bank Indonesia, OJK, dan Dewan Syariah Nasional.

q. Risk management (continued)

Legal risk

Legal risk is the risk due to lawsuits and/or weaknesses of juridical aspects. The emergence of legal risk can be caused by the absence of supporting laws and regulations or the weakness of the agreement, such as non-compliance with the legal terms of the contract or imperfect binding of collateral. As a company governed by the laws of the Republic of Indonesia, the Bank must comply with all applicable laws and regulations issued by Bank Indonesia/Financial Service Authority ("OJK") as a regulator in the banking industry in Indonesia as well as other regulations relating to business activities carried out by the Bank.

Legal risk that arise can be in the form of claims for material or immaterial losses if the Bank does not comply with the applicable rules and regulations. If there is a claim for losses against the Bank in a material amount, it can directly affect the Bank's financial performance.

In managing legal risk, the Bank performs actions such as:

- 1) Conducting a review of policies and standard operating procedures related to the management of legal risk in accordance with applicable regulations.
- 2) Developing a strong legal organisation.
- 3) Standardising contract and cooperation agreement in accordance with applicable regulations.
- 4) Determining the case provision policy.

Compliance risk

Compliance risk is the risk arising from the Bank failures in complying and/or applying applicable laws and regulations and Sharia principles. In the banking industry, the Bank is required to comply with regulations issued by the Government, Bank Indonesia, OJK and the National Sharia Boards.

q. Manajemen risiko (lanjutan)
Risiko kepatuhan (lanjutan)

Secara umum, risiko kepatuhan terkait erat dengan hukum yang berlaku dan peraturan, yang mengatur Bank, seperti:

- 1) Rasio Kewajiban Penyediaan Modal Minimum ("KPM");
- 2) Kualitas Aset Produktif;
- 3) Penyisihan Penghapusan Aset ("PPA");
- 4) Batas Maksimum Pemberian Pembiayaan;
- 5) *Good Corporate Governance* ("GCG"); dan
- 6) Rencana Bisnis Bank ("RBB").

Ketidakmampuan Bank untuk mengikuti dan mematuhi semua hukum dan peraturan yang terkait dengan kegiatan usaha perbankan dapat mempengaruhi kelangsungan Bank.

Dalam mengelola risiko kepatuhan, Bank melakukan tindakan di antaranya:

- 1) Meningkatkan pemahaman tentang GCG dan kode etik.
- 2) Penguatan pelaksanaan GCG dan memastikan bahwa semua debitur pembiayaan untuk memenuhi semua kebutuhan pembiayaan.
- 3) Menyusun dan menyampaikan laporan GCG kepada Otoritas Jasa Keuangan.
- 4) Meningkatkan pelaksanaan *Know Your Customer* ("KYC"), Anti Pencucian Uang ("APU"), dan Pencegahan Pendanaan Teroris ("PPT").
- 5) Meningkatkan pelaksanaan *compliance certification*.
- 6) Bekerja sama dengan Dewan Pengawas Syariah dalam memastikan kepatuhan Bank terhadap prinsip syariah.
- 7) Memberdayakan Kepatuhan Syariah untuk mereview dan menganalisis kepatuhan dari produk Bank/kegiatan dengan prinsip syariah.

BY INDONESIAN FINANCIAL ACCOUNTING
STANDARDS (continued)**

The following additional information is required by applicable regulations and is not required by the Financial Accounting Standards in Indonesia: (continued)

q. Risk management (continued)
Compliance risk (continued)

In general, this risk is closely related to compliance with applicable laws and regulations, which governs the Bank, such as:

- 1) *Capital Adequacy Ratio* ("CAR");
- 2) *Quality of Earning Assets*;
- 3) *Allowance of Earning Assets* ("PPA");
- 4) *Legal Lending Limit*;
- 5) *Good Corporate Governance* ("GCG"); and
- 6) *Bank Business Plan* ("RBB").

The inability of the Bank to follow and comply with all laws and regulations related to banking activities may affect the continuity of the Bank.

In managing the compliance risks, the Bank performs actions such as:

- 1) *Improving understanding of GCG and the code of conduct.*
- 2) *Strengthening GCG implementation and ensuring that all financing debtors meet all financing needs.*
- 3) *Preparing and submitting GCG to Financial Services Authority.*
- 4) *Increasing the implementation of the Know Your Customer ("KYC"), Anti Money Laundering ("APU") and the Prevention of Financing for Terrorism ("PPT").*
- 5) *Improving the implementation of compliance certification.*
- 6) *Working closely with the Sharia Supervisory Board in ensuring compliance of the Bank with sharia principles.*
- 7) *Empowering Sharia Compliance to review and analyse the compliance of the Bank's products/activities with sharia principles.*
